To Whom It May Concern,

As a LIFELONG Vermonter for 62 years and one who has been paying taxes to this GREEN MOUNTAIN State for my entire lifetime, I want to make one thing abundantly clear regarding Vermont's future renewable energy plans:

There should **NEVER BE ANOTHER INDUSTRIAL WIND TURBINE** installed atop a Vermont ridgeline. There is no ridgeline in the state of Vermont that is "suitable" for Industrial Wind. Industrial Wind has its place in unpopulated, flat, vast spaces in the US but NOT on Vermont's ridgelines.

Thank You,

Frederick M Parks
