Addison State's Attorney

February 2, 2012

Dear State's Attorney:

Effective this month, we will no longer be sending all technical information regarding each of the DataMaster DMT instruments in your county directly to your office. We will now be providing this information, in electronic format, to James Mongeon, Executive Director, Department of State's Attorneys. This is part of the process of transferring the VDH Alcohol Program to the Department of Public Safety, which will be effective March 1, 2012.

Please note: The last technical information update the Vermont Department of Health Laboratory will be providing will be in March 2012, for information generated in February 2012. Thereafter, it will be the responsibility of the Department of Public Safety Forensic Laboratory to provide the information.

If you have questions regarding this process and how you will obtain your monthly information, the contact at Mr. Mongeon's office is Sean Thomson @ (802) 828-2893 or sean.thomson@state.vt.us

Thank you.

Sincerely,

Mary Celotti
Laboratory Director
