

Shared Streets during COVID-19

Reconfigure streets for better community life

A silver lining of the current pandemic is that communities across Vermont are re-evaluating the use of public space. With less car traffic and a greater need for walking and biking with adequate social distance, road space can be reallocated. Restaurants can be supported by converting parking spaces to outdoor seating. We are here to assist you. Contact Jon Kaplan with the info to the right.

Re-use street space to provide for social distancing

Convert parking spaces to restaurant seating

Encourage walking and biking for health and transportation

Quick-build projects to try out planned improvements now
