Every person associated with an online grant application must first create a new user account and then be assigned a role within the online Grants Management System. You only need one account per person in the online system, even if you are associated with multiple municipalities or grant applications.

Municipal/Authorizing Officials are assigned by their Legislative Body (selectboard, city council, alderboard or village trustees), identified in the Municipal Resolution, and their online accounts are validated by Department of Housing and Community Development (DHCD) staff. All other users are assigned by the Municipal/Authorizing Official or Administrator associated with their grant application. To create a new account, complete the online new user registration form and click the save button to submit the registration.
