**DEFINITIONS OF TERMS USED IN THIS TABLE:**

**STATUSES:**

**Active-Initial:** An Initial Application has been approved. Initial approval of incentives provides applicants with enough information to determine if they could commence the project. Incentives are not authorized until a Final Application has been submitted by the applicant and approved by VEPC.

**Active-Final:** A Final Application has been approved by VEPC and incentives are authorized. Applicants in the status must submit annual claims to the Tax Department and meet performance requirements to receive incentives.

**Active-Reduced:** Applicant has met and maintained some targets (earned), but for a certain year, performance requirements were either not met or not maintained. Some incentives may have been earned and paid out, but other installment payments were forfeited. The applicant is authorized to continue to receive the incentive for those years the incentive was earned, provided they continue to submit claims to the Tax Department and maintain those targets. Those applicants show a date of status change and change reason, but the Minimum Net Revenue Benefit is zeroed out since it is not possible to recalculate what the benefit amount is based on the targets that were met.

**Complete:** Applicant has met and maintained all their performance requirements and has completed the VEGI program.

**Cancelled:** Application was cancelled by action of the applicant. This may occur when (1) the Initial Application was approved but Final Application was not filed; or (2) the applicant rescinds their application after approval of the Final Application. No incentives have been earned or paid.

**Cancelled/Recap:** Application was cancelled by action of the applicant. This may occur when (1) the Initial Application was approved but Final Application was not filed; or (2) the applicant rescinds their application after approval of the Final Application. Any incentives paid are recaptured.

**Concluded:** Applicant changed to an "Active-Reduced" status at some point and all remaining eligible incentives have since been paid.

**Denied:** The applicant was denied authorization to earn incentives.

**Terminated:** Applicant had the authority to earn authorized incentives revoked at some point due to failure to meet or maintain all performance requirements.

**Terminated/Recap:** Applicant had the authority to earn authorized incentives revoked at some point due to failure to meet or maintain all performance requirements. Any incentives paid are recaptured.

**VERMONT EMPLOYMENT GROWTH INCENTIVE**  
**Applications Through December 2023**

Company Name	NAICS (First 2 Digits)	Date Initial Application Considered	Date Final Application Considered	Authorization Period	Status	Date of Status Change	Change Reason	Incentive Earned Y/N	Incentive Considered	Minimum Net Revenue Benefit	Enhancements			Location	Type of Project			
											Ed. Tax Stab.	Green	LMA		LBW	Start-Up	Acquisition / Plant Re-Start	Recruitment

**REASONS FOR ACTIVE-REDUCED, TERMINATION OR CANCELLED:**

1. Initial application was submitted and approved but the final application was not submitted and the application was cancelled. No incentives ever authorized, earned or paid.
2. Project commenced, but for a certain year, performance requirements were either not met or performance requirements were not maintained. Some incentives may have been earned and paid out.
3. Project commenced, but company closed or reduced employment below 90% and incentives were terminated. Any paid incentives were recaptured.
4. Project commenced, but in a subsequent year company failed to file a VEGI claim and incentives were terminated.
5. Project denied and no incentives were authorized.
6. Applicant requested rescission of application and any paid incentives were recaptured.

**ENHANCEMENTS:**

**Green:** Indicates incentive enhancement for environmental technology companies. These companies are further defined as those which primarily provide research, design, engineering, development, or manufacturing in the area such as waste management, natural resource protection and management, energy efficiency or conservation, or clean energy. (32 VSA 5930b(g))

**LMA:** (Labor Market Area) Indicates incentive enhancement for projects in economically disadvantaged areas. This is further defined as those areas which have average annual unemployment rates that are higher than the State average or which have average annual wages which are lower than the State average (32 VSA 5930b(b)(5)). The labor market areas are designated by the Vermont Department of Labor.

**LBW:** (Look Back Waived) A business receiving authorization for VEGI must exceed its average annual employment in the two years prior to its application. A waiver of this can be approved by VEPC if the Council determines that the applicant is establishing a significantly different or new line of business. (32 VSA 5930a(c)(1))

**Ed Tax Stab (Education Tax Stabilization):** Indicates applicant chose stabilization of incremental Education Property Taxable Value as incentive instead of, or in addition to, cash payments. This is an earlier form of authorization that VEPC could approve, was later repealed in statute, and is no longer a component of the program.
