

The Manufactured Home Improvement and Repair Program (MHIR) helps Vermonters who own their homes in registered mobile home communities to have repairs done to address habitability concerns and to keep the homeowner(s) in the home. The following list is contractors who have currently worked with the program. This list is for reference only.

MHIR does not endorse or recommend contractors. Procurement of contractors will be the sole responsibility of the homeowner.

MHIR is not responsible for any liability or damages which may occur due to contractor error. Any and all conflict between homeowner and contractor will be the responsibility of the homeowner to remedy.
