CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)
This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

Vermont's Action Plan established four goals to address the identified housing and community development priorities and they are:

1. Increase the supply and quality of affordable housing.
2. Decrease the number of people experiencing homelessness.
3. Create and retain jobs.
4. Strengthen communities and improve the quality of life of Vermonters.

Vermont's outcomes achieved over the FY25 program year were:

Housing

- 172 (145 CDBG & 30 HOME & 15 HTF) rental units constructed
    - of which 18 units were funded with CDBG & HOME
    - of which 54 housing units for homelessness were added
- 27 (27 CDBG & 0 HOME & 0 HOME ARP & 8 HTF) rental units rehabilitated
    - of which 3 housing units for homelessness added
- 100 owner-occupied housing units rehabilitated

There are an additional 70 units constructed with other resources, as the result of funding from HOME, HOME-ARP & HTF to projects.

Homelessness

- 21 households received tenant-based rental assistance and rapid rehousing assistance
- 3433 people were provided with overnight shelter
- 14 overnight/emergency shelter/transitional housing beds added

Jobs

- 2 jobs being created/retained
- 0 business assisted

Community Improvements

- 424 persons served by improved public facilities or infrastructure
- 705 households assisted by public services
- 0 acres of brownfields remediated
- 0 blighted building demolished

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)
Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee's program year goals.

Goal	Category	Source / Amount	Indicator	Unit of Measure	Expected – Strategic Plan	Actual – Strategic Plan	Percent Complete	Expected – Program Year	Actual – Program Year	Percent Complete

1. **Created and retained jobs:**
   Though we did not meet the annual target set for this year, there are two economic development projects that are expected to be completed by next year and anticipate meeting or exceeding the target set.

2. **Decrease the number experiencing homelessness:**
   Office of Economic Opportunity (OEO) has refined reporting on rental assistance for SFY26 and moving forward will only be including a count of households who received medium-term rental assistance through a HOP-funded Rapid Re-Housing project. Many of the HOP-funded RRH projects in SFY26 used other sources of funding for rental assistance, with HOP funding used only for the accompanying services. This refinement in approach has resulted in a number that is below our proposed projection. In SFY26, the number of people sheltered exceeded the proposed projection as OEO continues to expand the number of shelter beds available across the state.

3. **Increase supply and quality of affordable housing:**
   Due to the housing projects completing this year some of our annual projections for housing exceeded but some did not hit the target set, but we fully anticipate being on target for the five-year plan. We have several housing projects in the pipeline to be completed over the next few years that will meet the projections. The mandate for housing developers to dedicate 15% of the units to the homeless has increased the number of units available for the homeless. We have increased the number of homeless units in our 2025-2029 Consolidated Plan but will likely need to increase that number in our next annual action plan as we have already exceeded expectations.

4. **Strengthening communities and improve quality of life:**
   Due to only a few public facilities projects completed this year the annual projections were not met for Public Facility but anticipate meeting the 5-year projection with public facility projects anticipated to be completed over the next few years. This year our numbers were exceeded for Public Service activities for Low/Moderate Income Housing Benefit and will need to continue to evaluate that to see if the projections need to be adjusted in the future.

Assess how the jurisdiction's use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

State of Vermont's highest priorities for FY25 were to create housing and public facilities in support of housing and to provide employment opportunities, with preference for facilitating development and growth in Designated Downtowns and Village Centers. The overarching principle, which drives all of Vermont's efforts, in affordable housing is to continue to achieve perpetual affordability through the use of mechanisms which produce housing resources that remain affordable over time. The activities and actions in the plan are designed to benefit extremely low-, low-, and moderate-income people as defined by HUD, and people with disabilities or other special needs.

Vermont Affordable Housing projects generally receive the majority of CDBG funding from year to year. This year was no exception, affordable housing received 82% of Vermont's CDBG funds. This year no Economic Development projects were submitted.

This year Public Facility projects accounted for 12% of CDBG funds. Public Service projects again this year accounted for 5% and Planning projects accounted for 1% of the CDBG funding allocated in the 2024 program year.

This year for housing activity of 272 housing units that were created/rehabilitated surpasses our projected number of units for our first-year consolidated plan goal. Here are a couple specific examples of CDBG projects which supported housing are:

Town of Shelburne – Bay Ridge: received $700,000 of FY23 funds that was subgranted to Champlain Housing Trust who redeveloped a former motel complex that served as a 59-unit short-term transitional housing facility into a new mixed-income and mixed-tenancy neighborhood with 68 units of affordable rental housing and 26 shared equity homeownership units. 20 rental units were created by renovating two existing buildings and 48 new units were constructed, through a tax credit limited partnership. All units are fully leased.

Town of South Burlington – Summit at O'Brien Farms: received $1,000,000 of FY22 funds that was subgranted to Ascend Housing Allies who developed 47 units of new mixed-income apartments on Lot #11 located within the Hillside development at the O'Brien Farm community in South Burlington, with current address of 255 Kennedy Drive (the "Development"). All units are fully leased.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted). 91.520(a)

	CDBG	HOME	HTF
White	1129	36	11
Black or African American	121	0	0
Asian	35	3	0
American Indian or American Native	9	0	0

Data not collected	182
Total	3433

Table 1 – Table of assistance to racial and ethnic populations by source of funds

Narrative

CDBG had an additional 82 under 3 other ethnicity categories that are tracked in IDIS but are not available in the list above.

The data provided above for ESG includes all people served in emergency shelter and Rapid Re-housing projects funded by the Office of Economic Opportunity.

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available.

Source of Funds	Source	Resources Made Available	Amount Expended During Program Year
CDBG	public - federal	$7,685,780	$4,751,149.97
HOME	public - federal	$3,014,372.26	$1,621,510.38
ESG	public - federal	$722,944	$666,768.36
HTF	public - federal	$3,134,373.20	$2,235,484.17

Table 2 - Resources Made Available

Narrative

As of June 30, 2025, all $7,485,780 of the 2025 annual allocation was obligated and committed and represents 100.00% of the CDBG award. CDBG resources made available consists of FY25 allocation plus $200,000 of anticipated Program Income.

Last year we forward committed $1,510,044 of FY25 funds for projects. This year CDBG grant awards totaled $6,315,000 which consists of the remaining $5,651,164 of the FY25 allocation for projects as of July 1, 2025, $275,000 of program income allocated to grants, and $388,836 reallocated of prior years' funding. This year's Program Income funding was once again critical to absorbing the cumulative cuts seen to our annual allocation. Requests from good, eligible projects continue to exceed available funding.

The amount of funds expended for CDBG consists of FY19, FY20, FY21, FY22, FY23, FY24, FY25 and Program Income for awarded projects and state administration.

HOME and HTF resources made available consist of Vermont's FFY2025 allocation. The expended amounts for HOME and HTF include FFY2025 funds as well as previous annual allocations.

ESG resources made available consists of Vermont's FFY2025 allocation, including what was available for state administration. The expended amount for ESG includes the amount of FFY2025 funds expended during the July 1, 2025 – June 30, 2026, program period, including what was expended for state administration.

Identify the geographic distribution and location of investments

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description

Table 3 – Identify the geographic distribution and location of investments

Narrative

In keeping with the State's long-standing policy, the State does not plan to target assistance to specific geographic regions. CDBG and HOME funds will be allocated on a competitive basis to locally driven projects that address priority needs. ESG funds are awarded as part of the statewide Housing & Opportunity Grant Program (HOP). Awards are made on a competitive basis according to local needs.

CDBG during the 2025 Program Year awarded 100% of the funds to projects with LMI as the national objective. This level of benefit far exceeds the current Congressional and HUD requirement that at least 70% of the state's annual allocation be awarded to activities that primarily benefit low- and moderate-income people.

Projects awarded during FY25 CDBG funds (see Attachment 2 - VCDP PR28 Awards FY25 Allocations and National Objectives on CR-00 for additional information):

- Town of Brattleboro, WWHT Homeownership Services, $540,000
- City of St Albans, Champlain Housing Loan Fund, $685,000
- Town of St. Johnsbury, NEK Home Repair Program, $525,000
- Town of West Rutland, Cornerstone Housing Repair and Counseling Program, $800,000
- City of Montpelier, Green Mountain Home Repair Program, $300,000
- Town of Vernon, Vernon Hall Renovations, $850,000
- Town of Hartford, 444 Sykes Mountain Apartments, $1,000,000
- City of Rutland, Templewood Court Mandated Electrical Upgrades, $385,000
- Town of Rochester, Repurposing Rochester High School, $650,000
- Town of Wheelock, Wheelock Flood Resilience Project, $60,000

Projects awarded enhancements during FY25 CDBG funds:

- City of Rutland, East Creek Commons, $400,000
- Village of Swanton, Abenaki Food Pantry Facility, $120,000

During the Program Year VHCB fully committed all of the project funds from Vermont's 2025 HOME and HTF allocations to the affordable housing projects listed below:

Projects awarded FFY'2025 HOME funds:

- Park St Apartments, Winooski, $850,000
- Holton Home, Brattleboro, $800,000
- Pinecrest Community Housing, Hartford, $400,718.61
- Bridge & Main, Fairlee, $67,255.42
- Alice Whiting Apartments, Johnson, $444,961

Two (2) HOME FFY'2025 CHDO Operating grants were provided to the following certified CHDOs:

- Champlain Housing Trust, Burlington $78,000.00
- Cathedral Square Corporation, South Burlington, $72,000.00

Projects awarded FFY'2025 HTF funds:

- Holton Home, Brattleboro, $1,040,000
- West Brattleboro Terrace, Brattleboro, 1,000,000
- School Street Apartments Rehab, Plainfield, $292,935.88
- Pinecrest Community Housing, Hartford, 103,403.97
- Templewood Court Electrical Infrastructure, Rutland, $323,156
- Three 33 Jones, Brandon, $61,440.03

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

Leverage of non-Federal resources - The source of these funds included the Vermont Housing and Conservation Board, the Vermont Housing Finance Agency, New Market Tax Credits, commercial lenders, owner equity, and Vermont and local community loan funds.

The State continues to be very successful leveraging other resources. Some of this success is the result of coupling resources and holding concurrent application cycles. Generally, the State will encourage leveraging by awarding more points in the application process. State resources have also been effectively used to match or administratively support other federal and private resources. It is the intent of the State to continue this type of leveraging and encourage more opportunities for leveraging in the future, particularly with private sources.

During the 2025 Program Year, which ended June 30, 2026, CDBG awards projected to leveraged nearly $37 million in other resources. The Vermont Community Development Program has some programmatic match requirements. During the staff review process for each project the match contribution documentation is analyzed and evaluated to be certain it satisfies the requirement.

During the 2025 Program Year ending on June 30, 2026, matching funds totaling $8,906,263 were expended on HOME projects. These funds were directly invested in the projects from the State of Vermont's Housing Trust Fund, donations, and other State sources.

Although the HTF program does not require any match, the use of these funds in Vermont leverages hundreds of thousands of dollars of additional resources for affordable housing.

ESG funds leveraged $837,360 in other state resources as match funding to support ESG activities.

Fiscal Year Summary – HOME Match	
1. Excess match from prior Federal fiscal year	96,084,604
2. Match contributed during current Federal fiscal year	8,906,263
3. Total match available for current Federal fiscal year (Line 1 plus Line 2)	104,990,867
4. Match liability for current Federal fiscal year	554,485
5. Excess match carried over to next Federal fiscal year (Line 3 minus Line 4)	104,436,382

CR-20 - Affordable Housing 91.520(b)

Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.

	One-Year Goal	Actual
Number of Homeless households to be provided affordable housing units	50	78
Number of Non-Homeless households to be provided affordable housing units	232	242
Number of Special-Needs households to be provided affordable housing units	0	0
Total	**282**	**320**

Table 10 – Number of Households

	One-Year Goal	Actual
Number of households supported through Rental Assistance	40	21
Number of households supported through The Production of New Units	72	172
Number of households supported through Rehab of Existing Units	170	127
Number of households supported through Acquisition of Existing Units	0	0
Total	**282**	**320**

Table 11 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

The variance between the Goals and the Actuals for new and rehab units was due to the number of projects completed this year.

Office of Economic Opportunity (OEO) has refined reporting on rental assistance for SFY26 and moving forward will only be including a count of households who received medium-term rental assistance through a HOP-funded Rapid Re-Housing project. Many of the HOP-funded RRH projects in SFY26 used other sources of funding for rental assistance, with HOP funding used only for the accompanying services. This refinement approach has resulted in a number that is below our proposed projection.

It is also important to note that projects that received HOME, HOME-ARP and HTF funding that were completed this year resulted in the creation/rehabilitation of a total of 192 units of housing with permanent affordability covenants from VHCB. However, only the 45 units that were directly assisted with HOME, HOME-ARP or HTF funding are included in these reporting numbers. Of those 192 units, 70 units are not accounted for in the totals of affordable housing created/rehabbed because they did not receive funding from CDBG, HOME or HTF.

Discuss how these outcomes will impact future annual action plans.

Due to Vermont's increased poverty rate and growing homeless population, the state continues to require non-profit housing developers to set aside 15% of their units in their housing portfolio for preventing homelessness. We have increased the anticipated homeless units in our 2025-2029 Consolidated Plan.

OEO will likely reduce the one-year goal for rental assistance in future annual action plans.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual	HTF Actual
Extremely Low-income	101	7	15
Low-income	100	23	
Moderate-income	65	0	
Total	266	30	

Table 12 – Number of Households Served

Narrative Information

The above data for CDBG is a combination of households served for housing construction, housing acquisition, and housing rehabilitation. There were an additional 6 households served that were non LMI.

A relatively high number of the households initially leased up in HOME units completed this year were extremely low income. 4 of the units included in this category in the above chart were HOME-ARP supported units that were all rented to residents from qualifying populations. All HTF assisted units were rented to extremely low-income households. The State of Vermont only funds projects that maintain or increase the number of perpetually affordable housing units, therefore all of the units in HOME and HTF assisted projects are affordable to low-income Vermonters.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

Vermont provided outreach to homeless persons through a network of local agencies, including shelters, service agencies and housing providers. United Way 2-1-1 provides a one-stop resource and referral point for all persons.

The PATH Program provided assistance to several Vermont organizations to conduct outreach efforts to people experiencing a serious mental illness or co-occurring disorder. PATH is funded by the U.S. Dept. of Health & Human Services and administered in Vermont by the AHS Department of Mental Health.

Additionally, many organizations within the Coordinated Entry system regularly conduct outreach to unsheltered Vermonters, with many of them trained to either provide the CE assessment on site or to refer households to a partner who can conduct the CE assessment with them. OEO funds several drop-in centers around the state that provide regular contact with those experiencing unsheltered homelessness. These drop-in centers are connected to their local CE system as referral partners so that people in need of an assessment can be quickly connected to a provider.

Addressing the emergency shelter and transitional housing needs of homeless persons

A total of 3,433 persons were sheltered for a total of 267,726 shelter bed nights in VT's publicly funded shelters in SFY2026. The Agency of Human Services continues to focus on how to increase emergency shelter capacity around the state and the Office of Economic Opportunity has been able to use one-time funds, as well as increased base funding, to support the standing up of additional projects in SFY26. Sources for ongoing funding to support these projects and continue to develop new shelters is currently being evaluated.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and

institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

Vermont leveraged significant State resources to divert low-income individuals and families from homelessness. Homelessness prevention activities funded under the OEO Housing Opportunity Grant Program stabilized housing for 413 households at risk of homelessness. The following initiatives addressed discharge from publicly funded institutions and systems of care:

- AHS Department for Children & Families, and its partnerships, ensured persons being discharged from the foster care system are not routinely discharged into homelessness and are accessing mainstream resources, including the Sect. 8 Family Unification Vouchers for youth in transition.
- State-funded Mental Health Subsidy & Care program, modeled on HUD Shelter plus Care, targeted assistance towards homeless persons in hospitals to ensure a successful discharge into housing, not homelessness or McKinney-Vento funded programs.
- The AHS Department of Corrections (DOC) ensured persons being discharged from the corrections system of care are not routinely discharged into homelessness. If suitable permanent housing in the community could not be located for a person exiting Corrections, DOC utilizes a comprehensive statewide system of transitional housing to ensure that persons are not routinely discharged into homelessness.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

VT provided over $4.05 million in client financial or rental assistance from all Housing Opportunity Grant Program funding sources in SFY26, including for Homelessness Prevention and Rapid Re-Housing activities. Through Homelessness Prevention services, 61% of households had their housing stabilized or were safely re-housed. 56% of those households remained stably housed after 90 days. Through Rapid Re-housing services, 86% of households were safely re-housed and 39% of those households remained stably housed after 90 days.

The Vermont Balance of State Continuum of Care's Coordinated Entry system has developed formal partnerships with affordable housing providers as a way to ensure new rental units are made accessible to households experiencing homelessness. Through MOUs or other agreements, landlords and developers agree to accept referrals through the Coordinated Entry system for their new or turned over units.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

The state's PHA resident associations and service providers have been working together to make the public housing communities safe, clean, decent, and sanitary places to live and raise children. PHA's have also been working collaboratively with other Affordable Housing Providers to coordinate services and share resources to make efficient use of limited funding resources.

In addition, the Commissioner of DHCD reviewed and certified the PHA plans that were submitted were consistent with the State's Consolidated Plan.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

Vermont has a coalition of PHA's and the lead coordinator is from Montpelier Public Housing Authority, who also meets as needed with Vermont's Housing Council housing related issues. That lead coordinator reports back to the other PHA's. Vermont has nine Public Housing Authorities, one of which is a statewide housing authority, one is in the entitlement community and the other seven are throughout the state. The Vermont State Housing Authority, Burlington Housing Authority and Brattleboro Housing Authority utilize the Family Self Sufficiency Program. Each of the PHA's have or encourages Resident Advisory Boards or Committees, but many are struggling with in person meetings and attendance. Three of the PHA's utilize the Housing Choice Voucher Homeownership Program, the other PHA's that don't have a program inform their tenants of the opportunity available to them and collaborate with the state PHA or a local HOC on-homeownership activities.

Actions taken to provide assistance to troubled PHAs

None of Vermont's PHA's are designated as troubled.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

The permitting process is regularly cited as a barrier to the development of new affordable housing units.

The Department of Housing and Community Development (DHCD) continues to build on significant regulatory reform efforts that began in earnest in 2023. Vermont Act 47 (2023) made consequential changes to the Planning & Development Act's permissible types of zoning regulation and required provisions and prohibited effects for municipal bylaws. Act 47 of 2023 effectively removes single-family zoning by establishing a statutory standards that allow for duplexes wherever single-family homes are allowed. Further, it allows up to a four- unit dwelling anywhere that is served by municipal water and sewer service. The law also specifically increases allowable density and height of residential units, with specific allowable bonuses to developments with a certain percentage of affordable housing and mixed-income and mixed-use development. The Act goes further in addressing a variety of barriers to affordable housing including preventing deed restrictions on lot sizes, limiting parking requirements for developments in downtown areas, limiting municipal oversight and resistance to citing emergency shelters, increasing funding to the Municipal and Regional Planning fund, and myriad more reforms and initiatives. DHCD continues to work with communities to implement these changes, and to ensure they are being carried out.

Together, these steps will break down significant barriers and empower responsible developers with broader paths to permit acquisition and reduce development costs. This in turn, helps Vermont meet its fair housing goals of providing affordable and accessible housing. DHCD continues to offer technical support and grants to regional planning commissions and municipalities to adapt to the changes made.

Going further, DHCD successfully sought the reform of the Statewide land use law known as Act 250 in 2024. Act 181 in that year created enlightened exemptions to Act 250 land use regulations in areas that had been previously identified as important development areas for maintaining vital communities and increasing housing availability. In the 2025 Legislative session, DHCD successfully advocated for extended timelines for said exemptions through 2035 to allow for a more substantive opportunity for development to occur with certainty of regulatory outcomes. The bill also began a process of statewide mapping of housing starts by utilizing an array of data sources

from E911 number applications to satellite imagery. The ability to better identify and articulate regional housing needs will enhance the ability of municipal decision makers to properly assess housing proposals and understand benefits of projects being proposed – greatly enhancing the likelihood that density limits are reached and more units are constructed in areas of greatest need.

This landmark legislation also streamlined the permitting process for permitting connections to municipal water systems – a historically difficult barrier to development – and altered wetland review to better align with smart growth principals.

In 2026, DHCD reviewed and commented upon the Vermont Regional Planning Commission (RPC) Future Land Use Area maps (FLUA), which will delineate the areas streamlined for permitting under Act 181. The Vermont Legislature further extended permitting exemptions in Act 152, 2026 and removed other regulations restrictive of development.

The DHCD continues to provide State-funded grants to communities to pursue municipal bylaw (zoning) modernization to ensure the regional planning commissions and municipalities have adequate resources to respond to the changes made and mandates by the Legislature. DHCD also assisted in developing an Interim Act 250 Exemption Map to assist housing developers to determine where regulatory incentives for development actually apply. Finally, DHCD continues to offer resources through the Vermont Community Development Program, such as the “Equal Treatment of Housing” chart. The chart was created and posted online to provide at-a-glance recommendations for meeting the requirements of 24 V.S.A. Chapter 117 § 4412 when adopting bylaws. Communities are required to demonstrate how their Town Plan supports efforts to affirmatively further fair housing.

DHCD continues to advocate for additional reforms to streamline permitting, appeals, and other roadblocks to housing development.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

The State continues to work with Vermont Housing Finance Agency (VHFA) to refine and disseminate the information contained on the HousingData.org Community Profiles page. This extensive resource is empowering community members and local decision makers in understanding the unique housing and service needs and resources in their communities. It continues to be expanded in both content and functionality and will prove to be an ongoing and increasingly useful resource as data becomes available.

DHCD, via a contract with VHFA published the 2025 Vermont Housing Needs Assessment to provide a comprehensive view of the State’s needs for housing of all varieties. Additionally, the Housingdata.org site continues to connect with a growing and dynamic mapping project to identify areas of greatest need and overlay data on housing

starts and potential parcels for development in and around our designated development areas.

The State, in partnership with IncDev, a nonprofit organization that specializes in training small-scale developer training, and the Vermont Land Access & Opportunity Board launched a comprehensive small-scale developer program. The training includes in-person and online courses, one-on-one technical assistance, and peer to peer learning opportunities. The goal of the program is two-fold:

1. Create much needed affordable housing statewide through rehabs and new construction.
2. Provide new skills and wealth building tools to marginalized Vermonters through the training program.

Simultaneously, the State is working with architects, local nonprofits and communities to create 802 Homes. The 802 Homes catalog will put 10 community-tested, pre-engineered home designs in the hands of small-scale developers to accelerate the timeline from site selection to move-in day.

In 2026, the Vermont Legislature made two key temporary housing programs permanent: VHIP, the Vermont Housing Improvement Program, and MHIR the Manufactured Housing Improvement and Repair program.

VHIP utilizes Vermont's network of Homeownership Centers to provide financial incentives to small-scale landlords to bring underutilized housing units back to minimum housing standards so that they can be brought back into the rental market, and to create new housing units. VHIP incentivizes landlords to serve individuals exiting homelessness and requires all VHIP units to be rented at or below HUD fair market rent.

MHIR provides vital resources to owners of manufactured homes in mobile home parks across Vermont. Homeowners can apply for funding to fix their homes when the repair is necessary to preserve the habitability of their home. MHIR also funds awards to residents seeking to improve lots and move into a mobile home park, and awards to park owners to improve lots and remove abandoned homes.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

As outlined in the annual action plan, activities were undertaken as follows:

1. During FFY2025 the VHCB Lead Hazard Reduction Program controlled lead paint hazards in 29 units of housing serving low income families.

2. The Burlington Lead Program controlled lead paint hazards in 15 units in Burlington and Winooski during the last year.

3. The Vermont Department of Health continues to operate a Lead Poisoning Prevention and Healthy Homes Program, partially funded by CDC, which completes numerous activities to raise awareness about lead poisoning and other home-based health and safety hazards.

4. Vermont passed legislation in 2018 that authorizes the Vermont Department of Health to work with EPA to accept delegation of responsibility and administration of the RRP rule in Vermont. This action will reduce overlapping and confusing state and federal rules and result in better compliance with RRP and Vermont's lead paint laws. This transition is continuing.

5. The Vermont Department of Health (VDH) continues to implement the provisions of the original law which was updated by the Legislature in 2008. Owners of pre-1978 rental properties and child care facilities are required to complete certain Essential Maintenance Practices and to annually submit Compliance Statements attesting to their completion. VDH has developed and implemented an electronic filing system for Compliance Statements.

6. The Vermont Housing & Conservation Board was awarded a new $5 million HUD Lead Hazard Control grant in 2025 that will serve low income Vermont residents into 2029. The City of Burlington continues to operate their program in the Cities of Burlington and Winooski.

7. VHCB staff maintains contact with National Center for Healthy Housing (NCHH) staff concerning issues like lead poisoning prevention and healthy homes activities.

8. Staff from VHCB, the Vermont Department of Health and other agencies continue to participate on the New England Lead Coordinating Committee, although its activities have been limited in recent years.

9. The Vermont Housing Finance Agency and the Vermont Housing & Conservation Board continue to examine their policies regarding lead-based paint, health, safety, or toxic and hazardous materials and where necessary amend them to conform with the latest knowledge of these problems.

10. Coordination continues with the Department of Health, the Vermont State Housing Authority and local Public Housing Authorities regarding childhood poisoning in owned and assisted units, as needed.

11. Vermont law requires blood lead testing of all one and two year old children, and these results are required to be reported to VDH, a significant database has been developed.

12. VHCB and Burlington have worked with weatherization programs to incorporate lead safe work practices and to include other healthy homes treatments where

feasible. VHCB also piloted a program to do weatherization work in homes with vermiculite which possibly contains asbestos.

13. Outreach and public education efforts continue through VHCB, Burlington, VDH and other community-based organizations throughout the State.

14. The State of Vermont has adopted new regulations which took effect in November 2022 under which the State now administers the EPA-RRP law and has incorporated its existing Essential Maintenance Practices requirements with EPA-RRP requirements.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The State's strategy to reduce the number of poverty level families was to (a) meet basic subsistence requirements for those in need, (b) strengthen and preserve families, (c) support self-empowerment, and (d) provide housing opportunities.

The policies and programs for achieving a reduction in poverty are primarily coordinated through the Department for Children and Families (DCF) of the Agency of Human Services (AHS). DCF administers anti-poverty programs and benefits programs such as the federal Community Services Block Grant, Housing & Opportunity Grant Program (including ESG), Weatherization Assistance Program, TANF, SNAP (3SquaresVt), Medicaid, General Assistance, and Fuel Assistance. Economic Services also administers Vermont's Reach-Up (TANF) Program which provides education, training, and employment opportunities for welfare recipients working toward self-sufficiency.

The Agency of Human Services continues to require that each adult who receives financial assistance under the Temporary Assistance to Needy Families (TANF) participate in the process of planning and engaging in goal achievement. These goals may be related to family well-being, financial stability, employment, training, education, and addressing obstacles to employment. Participating families participate in establishing goals and steps to achieve goals, reviewing, and revising goals as necessary, and setting new goals as each goal is achieved. Through its programs, DCF’s Office of Economic Opportunity works in partnership with the private sector, community-based organizations, agencies of government, and other groups to eliminate the causes and symptoms of poverty.

DHCD also offers several programs that address poverty and housing instability. Manufactured homes are an important source of affordable housing for over 7,000 households in Vermont. Many manufactured home parks and residents have been adversely impacted by two consecutive summer floods. Vermont’s Manufactured Home Improvement and Repair Program (MHIR) assists income-eligible mobile home parks and current and prospective mobile homeowners with emergency and non-emergency home repairs, park infrastructure upgrades, and improving lots to increase the number of homes available to low-income Vermonters. To date, DHCD has awarded over $9.5 Million for 574 home repairs, 157 capital infill awards, and 75 foundation

improvements. As noted above, the legislature made the MHIR program permanent, and funds it at $2,000,000 per year.

In addition, the state partners with the Vermont State Housing Authority to offer Vermonters with incomes at or below 140% AMI new manufactured homes at prices between $95,000 - $120,000 on newly prepared lots in mobile home parks through the Rapid Response Mobile Home Infill Program (MHIP).

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

In the last several years, affordable housing providers and representatives of health, mental health, environmental, labor, and service agencies have substantially strengthened their networking and coordination activities. The State, through the DHCD, has actively encouraged and participated in these efforts and will continue to do so. In the last year the following actions were undertaken:

Continued the coordination of resources to support the most needed affordable housing projects from housing funders and health & human services agencies. This includes ongoing discussions with the other major housing funding organizations to better align grant application and decision timelines to reduce administrative cost and burden on developers;

Continued coordination efforts with the agencies of Health, Department of Public Safety, Division of Fire Prevention, Natural Resources, Office of Economic Opportunity for mobile home parks, including providing direct response and assistance to mobile home park residents affected by the July 2023 and July 2024 flooding events;

Partnered with the Vermont State Housing Authority to provide eviction prevention funds to help prevent homelessness and landlord relief funds to landlords who provide housing to Vermonters exiting homelessness through state and locally supported programs;

Participated in the Housing & Homeless Alliance of Vermont’s monthly meetings and provides presentations and updates to assist the formation of state policy and will assist housing providers, state agencies, such as the Vermont Housing and Conservation Board, (VHCB), Vermont State Housing Authority (VSHA) and others to ensure the availability of safe and affordable housing for all Vermonters.

Act 181 of 2024 restructured Vermont’s statewide permitting process to streamline development in desirable areas, and create community buy-in toward the regional planning process. In 2025 and 2026, Vermont communities have been actively creating future land use maps to submit and finalize, which will lead to more development of affordable housing and more housing availability and access.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

Through the Department of Housing and Community Development and the Agency of Human Services, the State of Vermont has strongly encouraged coordinating efforts with the Vermont State Housing Authority, Vermont Housing and Conservation Board, local Public Housing Authorities, private landlords and other housing organizations to ensure that housing services reach Vermont's neediest citizens.

Examples of such collaborations include:

Coordination through the Housing & Homelessness Alliance of Vermont to carry out strategies included in the ten-year plan to end homelessness in Vermont, as well as provides a coordinating forum on housing policy and programs with participation from private and non-profit housing developers, State service agencies, affordable housing advocates, and others;

Working with housing providers and providers of services to the homeless to track progress towards the goal of ensuring that at 15%-25% of units in publicly supported housing developments are available to and utilized by families and individuals exiting homelessness;

Partnered with the Vermont Center for Geographic Information (VCGI) and other state agencies to create a new data dashboard which among other things captures the number and location of new housing being built around the state. The goal to enhance the accessibility, accuracy, and transparency of housing data to inform policy decisions, empower communities, and measure progress towards housing goals.

Cross representation on boards of the major housing funding organizations including the Vermont Community Development Board, the Vermont Housing Finance Agency and the Vermont Housing and Conservation Board;

Creation and dissemination of materials to educate landlords managing five or fewer rental units, a critically important market for affordable housing in Vermont;

Coordination with other State agencies and non-profit groups of the range of federal McKinney programs, including ESG and the CoC Supportive Housing Program; and

AHS' active participation in the development and review of the State's Consolidated Plan; and

Partnership with the regional Homeownership centers to administer Coronavirus Relief Funds, ARPA SLFRF funds, and State General Funds, to assist private property owners with necessary health and safety improvements to bring underutilized structures back into the rental stock.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

Many of the findings, observations, and proposed actions in Vermont's 2024 Fair Housing Analysis of Impediments to Fair Housing Choice (AI) and Fair Housing Plan remain valid and important for guiding the State's federal obligation to affirmatively further fair housing. The Department has successfully shepherded legislation to reduce barriers to housing development in areas designated for growth, which is part of an effort to overcome the greatest barrier to affirmatively furthering fair housing: availability of units. The Department regularly conducts Fair Housing Trainings for CDBG grantees and other interested parties in a virtual setting, which expands the potential audience and reduces barriers for attendance. DHCD also worked with the Fair Housing Program at the Champlain Valley Office of Economic Opportunity, a recipient of HUD Fair Housing EOI grants and Emergency Rental Assistance: Housing Supportive Services grants, to develop interactive, online trainings in Fair Housing principles and activities to make for more inclusive communities as well as efforts to provide resources for tenants in languages other than English.

The efforts being conducted on a state level to address impediments to housing have perennially been focused on housing availability and proactively planning for future development. Creating more housing opportunities for all residents is a major concern and mechanism to reduce opportunities for discrimination and provide individual choice to vulnerable households. Vermont's statewide planning efforts should pave the way for streamlined development upon confirmation of the Future Land Use Area maps.

In more direct efforts, DHCD also has collaborated with the Vermont Landlords Association and the CVOEO Fair Housing Project to create informational videos in numerous languages about the rights and responsibilities of tenants. The objective being to inform low English-proficiency legal residents of how to maintain a successful tenancy. These skills and understandings will decrease the likelihood of poor rental outcomes for both parties and therefore support market opportunities that will increase housing availability, thereby reducing the greatest impediment Vermont has identified.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

The DHCD continues to follow policies and procedures for meeting grant requirements; uses sound accounting and financial procedures; attends HUD-sponsored training sessions; consults with HUD representatives on technical questions; and utilizes information from public input.

Risk assessment analyses have been enhanced to include award conditions to provide technical assistance and ensure adequate subrecipient monitoring occurs by the grantees.

DHCD takes a risk-based monitoring approach that is based on such factors as size of award; first time receiving an award; complexity of project; staff turnover; past performance; outstanding or delinquent reports; and one or more audit findings/internal control issues regarding program performance or compliance. VCDP Staff will schedule a Post-Award Technical Assistance meeting with each grantee to review specific risk factors as identified in the application review process. Following the Post-Award meeting each Implementation grant will then receive a project specific virtual/on-site monitoring visit with the grantee, subgrantee, and other relevant stakeholders to review the ongoing compliance of the project. This project specific monitoring will occur at least once during the life of the grant and sometimes twice depending on the identified risk factors and project complexity.

Additionally, all CDBG Projects are monitored throughout the program year through the review of regularly submitted progress reports and detailed auditing of VCDP expenses and invoices as part of our requisition process. Prior to closing out the grant, all grants receive a final desk audit by VCDP program staff before a Certificate of Program Completion is issued.

DHCD staff continue to conduct virtual monitoring during FY25 for cost and time efficiencies. Below is the current virtual monitoring process:

- An Email is sent to all parties (Grantee, Sub Grantee, Administrator) associated with the Grant to schedule the Virtual Meeting- the Virtual Meeting is set up in Microsoft Teams, but Zoom has also been utilized.
- Once the date of the Virtual Monitoring is set – the Formal Scheduling letter is sent to all parties and the Onsite Monitoring Report (OSMR) is opened in GEARS, our online Grants Management System.
- Once the formal date & letter are sent – a “Pre-Monitoring” meeting may be set up – the purpose of this meeting is to organize and set expectations –

who is to provide what supporting documentation is to be provided. The Pre-Meeting is normally performed 3-5 days before the actual meeting and takes up to 30 to 45 minutes depending on the familiarity of the parties and the complexity of the Grant.

- In lieu of being able to see the municipalities employment posters at the office – photos are requested & provided.
- Sub Grantee provides photos or videos of the project, in lieu of an actual walk through of the project.
- The Virtual Meeting is scheduled for 2 hours. During this process the items in the Onsite Monitoring Report (OSMR) that pertain to the Municipality are reviewed first to allow the Municipalities to sign off the meeting earlier if necessary.
- Supporting documentation is uploaded into GEARS, for Record keeping. Items that are too large are kept electronically in GMS files.
- Monitoring also includes reviews of Progress Reports, Requisitions, Environmental Review, Procurement, Contracts, Labor Standards, Davis-Bacon, Section 3, Financial Management, and including any conditions to be met during or upon completion of the project.
- Each section of the OSMR is reviewed if questions or items are not readily available – the Grantee & Sub-Grantee have 5 days from the day of the scheduled Monitoring to provide the necessary data or materials. A follow up email is sent to all parties to reiterate items – question clarification or missing items.
- A detailed monitoring report is then uploaded into GEARS and shared with the Grantee & Sub-Grantee outlining Satisfactory Performance, Areas of Concern, and any Findings that require follow-up. Grantees and Sub-Grantees are then provided no more than 30 days to respond and are provided with any required follow-up.

Minority Business Enterprise

The Vermont Community Development Program requires that each municipality that has received VCDP funding adopt a policy of the Code of Ethics for Administration of the VCDP, in which every effort will be made to actively recruit woman-owned or minority-owned businesses.

The grantee is required to include language in the publication notices for requests for proposals that encourage women-owned and minority-owned businesses to apply. In addition, the Women Business Owners Network is contacted for referrals.

The grantee is required to include language in the publication notices for requests for proposals that encourage women-owned and minority-owned businesses to apply. In addition, the Women Business Owners Network is contacted for referrals.

This information is tracked by the VCDP through the annual Progress Reports that require the grantee to report on the ethnicity and gender of the contractors used on a

particular job. Of the 105 contracts executed for grants funded during the 2025 Program Year that totaled $76,541,572 there were:

- 2 women-owned business contracts reported, totaling $33,225
- 17 Section 3 businesses, totaling $59,736,097

The Vermont Housing & Conservation Board (VHCB) administers the HOME and HTF programs in Vermont. This administration includes monitoring of projects and grantees. Properties are inspected regularly according to HUD requirements, and occupancy data is collected according to established guidelines. VHCB provides operational support to the State's non-profit housing development organizations, most of whom have projects utilizing HOME, HTF, and other federal sources. This support includes monitoring of the financial and operational status of the groups, and the provision of direct assistance when required. Through this process VHCB is able to evaluate the risks associated with organizations and individual projects to identify them for more intense monitoring.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

In efforts to provide as many Vermont citizens as possible our report, an advertisement below was placed in the in the following daily newspapers on August 28, 2026: Bennington Banner, Caledonia Record, Rutland Herald, St. Albans Messenger, Seven Days, and the Times-Argus.

On September 11, 2026, it was emailed out to Vermont's municipal selectboards and municipal officials to share with their local residents including minorities, non-English speaking persons and people with disabilities population as well as public housing authorities to share with their tenants, with a comment period acceptable through September 28, 2026.

The draft was posted to our department's website on September 11, 2026, with a comment period acceptable through September 28, 2026.

Seeking Comment on 2025 Consolidated Annual Performance and Evaluation Report (CAPER) to HUD

The report is due to the U. S. Department of Housing and Urban Development (HUD) each year by September 30. Department of Housing and Community Development (DHCD) has written the 2026 report. The report is in the format required by HUD. The report includes activity from July 1, 2025, to June 30, 2026.

The report includes the following federal programs:

- Community Development Block Grant (CDBG)

- HOME Investment Partnership Program (HOME)
- Housing Trust Fund (HTF)
- Emergency Solutions Grant Program (ESG); and

To learn more about the CAPER go to DHCD's website: http://accd.vermont.gov/housing/plans-data-rules/hud. The DRAFT CAPER report will be available on September 11, 2026, on the website.

Send questions or comments to Cindy Blondin at Cindy.Blondin@vermont.gov. or call 802-828-5219 or toll free at 1-866-933-6249. Written comments are due by September 28, 2026, at 4:30 pm.

Mail to DHCD, 1 National Life Drive, Montpelier, VT 05620-0501, ATTN: Cindy Blondin.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

Due to rising construction costs in FY26, VCDP has increased the maximum award amount for Accessibility Modification Grants for FY26 to $300,000 from $150,000.

Due to the rising rehabilitation costs in FY25, the VCDP increased its cap 10% for the Housing Revolving Loan Fund set aside to 45% of the CDBG annual allocation in an effort to make available additional funding for low-interest rehab loans and more grants for low- and moderate-income households across the State to complete essential home repairs.

Due to rising construction costs and supply demands the maximum award amount for public facility grants was increased for FY24 to $1,000,000 from $500,000.

Due to Vermont's increased poverty rate and growing homeless population, the state continues to require non-profit housing developers to set aside 15% of their units in their housing portfolio for preventing homelessness.

The CDBG program intends to continue to hold the option of attending virtually or in person for board meetings for greater flexibility and ease for board members and grantees.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

CR-50 - HOME 24 CFR 91.520(d)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations

Please list those projects that should have been inspected on-site this program year based upon the schedule in 24 CFR §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

VHCB HOME Program staff or qualified consultants perform inspections of HOME projects during their affordability periods. These are completed on a three-year schedule as outlined in the HOME Program Regulations, although problematic properties are inspected more often. All HOME (and HTF) projects scheduled to be inspected this year were completed. Attached to this report is a list of property inspections conducted during the reporting period along with information about outcomes and follow-up if necessary.

Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units. 24 CFR 91.520(e) and 24 CFR 92.351(a)

The Vermont Housing & Conservation Board (VHCB) has an Affirmative Marketing Policy outlining the procedures and requirements for projects with 5 or more HOME assisted units. Compliance with this policy is a standard condition of all HOME awards, and grantees are required to submit their Affirmative Marketing Plans to VHCB staff for review and approval prior to project closing. Grantees are required to display the Equal Housing Opportunity poster and incorporate the Equal Housing Opportunity logo in its letterhead, press releases, and advertisements. Also, Grantees are required to contact social service agencies before filling vacancies during the affordability period. Income and race information for households occupying HOME units in projects closed out during the report period is included in this report.

As a condition of their awards, grantee staff are required to attend a Fair Housing Training at least every three years. Documentation of attendance at such training is collected from grantees. The Fair Housing Project of the Champlain Valley Office of Economic Opportunity (CVOEO) offers free on-site fair housing training sessions that many grantees take advantage of.

As indicated in CR-20, grantees have successfully marketed HOME units to households in the lowest income category and to special needs populations, priorities identified in the Consolidated Plan. Projects completed include those targeting households with incomes below 30% of median income, service supported housing for seniors, and accessible units for persons with disabilities.

Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics

No program income

Describe other actions taken to foster and maintain affordable housing. 24 CFR 91.220(k) (STATES ONLY: Including the coordination of LIHTC with the development of affordable housing). 24 CFR 91.320(j)

The State makes available incentives for non-profit and for-profit entities to develop affordable housing. Incentives include capacity building grants, low-interest loans, and low income housing tax credits.

Coordination of Low Income Housing Tax Credits (LIHTC) with Affordable Housing Development

The State of Vermont makes LIHTC allocations in accordance with an approved Qualified Allocation Plan (QAP). By Executive Order, the Vermont Housing Finance Agency (VHFA) is designated the allocating agency for the program.

All LIHTC recipients are required to execute and record a Housing Subsidy Covenant approved by VHFA. Eligible applicants in the LIHTC program include nonprofit and for-profit developers who form partnerships with private investors many of which are banks doing business in Vermont. In many cases, LIHTC projects are also dependent on other federal and state resources which increase the state's ability to ensure affordability to very low and low-income Vermonters beyond the rent and occupancy restrictions imposed by U.S. tax laws that set the parameters of the tax credit program.

CR-56 - HTF 91.520(h)

Describe the extent to which the grantee complied with its approved HTF allocation plan and the requirements of 24 CFR part 93.

The Vermont Housing & Conservation Board (VHCB) administers the HTF program in Vermont. VHCB has fully complied with all provisions of our approved HTF Allocation Plan and all of the requirements of 24 CFR Part 93. Four (4) multi-family rental projects were completed this year utilizing HTF funding. The projects were located in the towns of Shelburne, Windsor, St. Albans City, and West Rutland, Vermont. All HTF-designated units in these properties are occupied and serve households with incomes below 30% AMI.

Tenure Type	0 – 30% AMI	0% of 30+ to poverty line (when poverty line is higher than 30% AMI)	% of the higher of 30+ AMI or poverty line to 50% AMI	Total Occupied Units	Units Completed, Not Occupied	Total Completed Units
Rental	15	0	0	15	0	15
Homebuyer	0	0	0	0	0	0

Outreach efforts to generate job applicants who are Other Funding Targeted Workers.	1	4			3
Direct, on-the job training (including apprenticeships).	3	5			4
Indirect training such as arranging for, contracting for, or paying tuition for, off-site training.	1	2			2
Technical assistance to help Section 3 workers compete for jobs (e.g., resume assistance, coaching).		1			
Outreach efforts to identify and secure bids from Section 3 business concerns.	5	4			3
Technical assistance to help Section 3 business concerns understand and bid on contracts.		2			1
Division of contracts into smaller jobs to facilitate participation by Section 3 business concerns.	2	3			2
Provided or connected residents with assistance in seeking employment including: drafting resumes,preparing for interviews, finding job opportunities, and connecting residents to job placement services.	1	2			2
Held one or more job fairs.		3			2
Provided or connected residents with supportive services that can provide direct services or referrals.		1			1
Provided or connected residents with supportive services that provide one or more of the following: work readiness health screenings, interview clothing, uniforms, test fees, transportation.					
Assisted residents with finding child care.					
Assisted residents to apply for, or attend community college or a four year educational institution.		1			1
Assisted residents to apply for, or attend vocational/technical training.		1			1
Assisted residents to obtain financial literacy training and/or coaching.		1			1
Bonding assistance, guaranties, or other efforts to support viable bids from Section 3 business concerns.	1				
Provided or connected residents with training on computer use or online technologies.		1			

Qualitative Efforts - Number of Activities by Program	CDBG	HOME	ESG	HOPWA	HTF
Promoting the use of a business registry designed to create opportunities for disadvantaged and small businesses.					
Outreach, engagement, or referrals with the state one-stop system, as designed in Section 121(e)(2) of the Workforce Innovation and Opportunity Act.					1
Other.	1	5			4

Table 14 – Qualitative Efforts - Number of Activities by Program

Narrative

This year for CDBG, HOME, HTF activities that reported Section 3 hours the grand total of all the hours worked on projects for each program met the benchmarks for Section 3 workers and CDBG nearly met the Targeted workers this year at 4.99% percent but HOME and HTF fell short but as indicated additional outreach was made to stride towards meeting the goal for Targeted workers.

CR-60 - ESG 91.520(g) (ESG Recipients only)

ESG Supplement to the CAPER in *e-snaps*

Submission Overview: ESG: CAPER

Report: **CAPER** Period: **7/1/2025 - 6/30/2026** Your user level here: **Data Entry and Account Admin**

Step 1: Dates

7/1/2025 to 6/30/2026

Step 2: Contact Information

Grant Contact

The Contact Person should be the person that the HUD Field Office or HUD Headquarters should contact regarding your CAPER submission should there be any questions or issues. The contact person should be familiar with both the project and the CAPER submission. This is also the person who will receive the email from Sage acknowledging the submission of the CAPER to the HUD Field Office and of the action taken by the Field Office approval, request to resubmit, comments, etc.

First Name	**Ari**
Middle Name	
Last Name	**Kisler**

Additional Contact(s)

Additional contact(s) will receive automatic email notifications from Sage regarding report status changes.

Step 4: Grant Information

Emergency Shelter Rehab/Conversion

Did you create additional shelter beds/units through an ESG-funded rehab project	No
Did you create additional shelter beds/units through an ESG-funded conversion project	No

Data Participation Information

Are there any funded projects, except HMIS or Admin, which are not listed on the Project, Links and Uploads form? This includes projects in the HMIS and from VSP	No

Step 5: Project Outcomes

Project outcomes are required for all CAPERS where the program year start date is 1-1-2021 or later. This form replaces the narrative in CR-70 of the eCon Planning Suite.

From the Action Plan that covered ESG for this reporting period copy and paste or retype the information in Question 5 on screen AP-90: "Describe performance standards for evaluating ESG."

Performance measures will be evaluated on both the grantee and statewide level. In addition to measuring the number of persons and families in emergency shelter, the number of shelter bed nights provided, the number of households receiving rapid rehousing assistance – Vermont uses performance-based contracting, outcome measures, indicators and targets, consistent with the goal of decreasing the incidence and duration of homelessness. Current performance standards for ESG include:

1. Emergency Shelter, Operations: Maintain shelter facilities that are staffed, insured, and clear of safety violations; At least 90% of homeless households entering the shelter meet with a case manager or program equivalent within 3 days of shelter entry.

2. Emergency Shelter, Essential Services - Case Management: At least 90% of homeless households referred for case management meet with a case manager or program equivalent for intake and assessment within 3 days of referral; Of those homeless households receiving case management: at least 70% subsequently attain employment OR are enrolled in an educational or training program, OR qualify for TANF, SSI or General Assistance within 90 days of referral; at least 70% subsequently are stabilized in transitional or permanent housing within 90 days AND of those housed, at least 70% continue to be stably housed for at least 90 days.

3. Rapid Re-Housing for Homeless Families & Individuals: Homeless households assisted have their housing stabilized; To establish baseline data, Grantee will report on the average length of time from program entry until housing was stabilized for these households; At least 70% of households who are homelessness have their housing stabilized within 28 days; At least 70% of households stabilized remain stably housed for at least 90 days following the intervention.

OEO tracks performance measures for grantees quarterly. If a grantee's performance falls below 75% of a stated target, OEO in conjunction with the grantee may require a performance improvement plan. Continued failure to meet performance measures may result in loss of funding or cancellation of the grant agreement. An ability to meet or exceed performance targets will be consideration for renewal of the grant agreement.

Based on the information from the Action Plan response previously provided to HUD:

1. Briefly describe how you met the performance standards identified in A-90 this program year. *If they are not measurable as written type in N/A as the answer.*

1. Emergency Shelter Operations:

Maintain shelter facilities that are staffed, insured, and clear of safety violations: In SFY26 a total of 3,433 persons were sheltered for a total of 267,726 bed nights.

At least 90% of shelter households (individuals or families) will have an initial meeting with a case manager within 3 days of entering the program: SFY26 Performance: 84%

2. Emergency Shelter, Essential Services - Case Management:

At least 90% of homeless households referred for case management meet with a case manager or program equivalent for intake and assessment within 3 days of referral: SFY26 Performance: 79%

Of those homeless households receiving case management:
• at least 70% subsequently attain employment OR are enrolled in an educational or training program, OR qualify for TANF, SSI or General Assistance within 90 days of referral: SFY26 Performance: 39%;
• at least 70% subsequently are stabilized in transitional or permanent housing: SFY26 Performance: 26%; AND
• of those housed, at least 70% continue to be stably housed for at least 90 days: SFY26 Performance: 56%

3. Rapid Re-Housing for Homeless Families & Individuals:

At least 70% of homeless households will be safely re-housed: SFY26 Performance: 86%

At least 70% of all stabilized households will continue to be in stable housing at least 90 days following assistance: SFY26 Performance: 39%

2. Briefly describe what you did not meet and why. *If they are not measurable as written type in N/A as the answer.*

Agencies around the state are continuing to be impacted by workforce shortages that make recruiting and retaining staff a significant struggle. The lack of the affordable housing has impacted the workforce as well, with many employees unable to find or maintain housing in the areas where they are employed. A lack of staff results in larger caseloads for available staff and longer wait times for households to have appointments with case managers. Vermont's tight housing market continues to limit the number of households able to obtain permanent housing throughout the year. With less supply and increasing demand, the competition for rental units pushed monthly rents well beyond affordable levels.

OR

3. If your standards were not written as measurable, provide a sample of what you will change them to in the future? *If they were measurable and you answered above type in N/A as the answer.*

N/A

Step 6: Financial Information

Step 8: Program Income

Program income is the income received by the recipient or subrecipient directly generated by a grant supported activity. Program income is defined in 2 CFR §200.307. More information is also available in the ESG CAPER Guidebook.

Did the recipient earn program income from any ESG project during the program year?

U.S. Department of Housing and Urban Development
Office of Community Planning and Development
Integrated Disbursement and Information System
State of Vermont
Performance and Evaluation Report
For Grant Year 2025
As of 08/05/2026

Grant Number B25DC500001

Part I: Financial Status

A. Sources of State CDBG Funds

1)	State Allocation	$7,485,780.00
2)	Program Income	
3)	Program income receipted in IDIS	$477,967.00
3 a)	Program income receipted from Section 108 Projects (for SI type)	$0.00
4)	Adjustment to compute total program income	$0.00
5)	Total program income (sum of lines 3 and 4)	$477,967.00
6)	Section 108 Loan Funds	$0.00
7)	Total State CDBG Resources (sum of lines 1,5 and 6)	$7,963,747.00

B. State CDBG Resources by Use

8)	State Allocation	
9)	Obligated to recipients	$1,453,571.00
10)	Adjustment to compute total obligated to recipients	$0.00
11)	Total obligated to recipients (sum of lines 9 and 10)	$1,453,571.00
12)	Set aside for State Administration	$249,715.00
13)	Adjustment to compute total set aside for State Administration	$0.00
14)	Total set aside for State Administration (sum of lines 12 and 13)	$249,715.00
15)	Set aside for Technical Assistance	$74,857.00
16)	Adjustment to compute total set aside for Technical Assistance	$0.00
17)	Total set aside for Technical Assistance (sum of lines 15 and 16)	$74,857.00
18)	State funds set aside for State Administration match	$149,715.00

State of Vermont
Performance and Evaluation Report
For Grant Year 2025
As of 08/05/2026

Grant Number B25DC500001

19)	Program Income	
20)	Returned to the state and redistributed	
20 a)	Section 108 program income expended for the Section 108 repayment	
21)	Adjustment to compute total redistributed	$0.00
22)	Total redistributed (sum of lines 20 and 21)	$0.00
23)	Returned to the state and not yet redistributed	$0.00
23 a)	Section 108 program income not yet disbursed	$0.00
24)	Adjustment to compute total not yet redistributed	$0.00
25)	Total not yet redistributed (sum of lines 23 and 24)	$0.00
26)	Retained by recipients	$477,967.00
27)	Adjustment to compute total retained	$0.00
28)	Total retained (sum of lines 26 and 27)	$477,967.00

C. Expenditures of State CDBG Resources

29)	Drawn for State Administration	$0.00
30)	Adjustment to amount drawn for State Administration	$0.00
31)	Total drawn for State Administration	$0.00
32)	Drawn for Technical Assistance	$0.00
33)	Adjustment to amount drawn for Technical Assistance	$0.00
34)	Total drawn for Technical Assistance	$0.00
35)	Drawn for Section 108 Repayments	$0.00
36)	Adjustment to amount drawn for Section 108 Repayments	$0.00
37)	Total drawn for Section 108 Repayments	$0.00
38)	Drawn for all other activities	$598,999.00
39)	Adjustment to amount drawn for all other activities	$0.00
40)	Total drawn for all other activities	$598,999.00

D.	Compliance with Public Service (PS) Cap	
41)	Disbursed in IDIS for PS	$0.00
42)	Adjustment to compute total disbursed for PS	$0.00
43)	Total disbursed for PS (sum of lines 41 and 42)	$0.00
44)	Amount subject to PS cap	
45)	State Allocation (line 1)	$7,485,780.00
46)	Program Income Received (line 5)	$477,967.00
47)	Adjustment to compute total subject to PS cap	$0.00
48)	Total subject to PS cap (sum of lines 45-47)	$7,963,747.00
49)	Percent of funds disbursed to date for PS (line 43 / line 48)	0.00%
E.	Compliance with Planning and Administration (P/A) Cap	
50)	Disbursed in IDIS for P/A from all fund types - Combined	$3,999.00
51)	Adjustment to compute total disbursed for P/A	$0.00
52)	Total disbursed for P/A (sum of lines 50 and 51)	$3,999.00
53)	Amount subject to Combined Expenditure P/A cap	
54)	State Allocation (line 1)	$7,485,780.00
55)	Program Income Received (line 5)	$477,967.00
56)	Adjustment to compute total subject to P/A cap	$0.00
57)	Total subject to P/A cap (sum of lines 54-56)	$7,963,747.00
58)	Percent of funds disbursed to date for P/A (line 52 / line 57) Combined Cap	0.05%
59)	Disbursed in IDIS for P/A from Annual Grant Only	$3,999.00
60)	Amount subject the Annual Grant P/A cap	
61)	State Allocation	$7,485,780.00
62)	Percent of funds disbursed to date for P/A (line 59 / line 61) Annual Grant Cap	0.05%

Year	# Benefiting	
2021	0	In March competitive bids were opened on the project. The low bid was $993,000 over the project budget. This was largely a result of post-covid cost escalations in the heavy construction industry. A subsequent value engineering effort failed to close the cost gap. In the past few months MMHC has commissioned a new cost estimate, applied for additional funding through an EPA WIIN Grant, and landed on both Senator Sanders, and Leahy's Congressional Designated Spending funding lists. In addition further engineering is taking place to rebid the project this winter. Due to the project delay, this project will now be subject to new stormwater control regulations. Additional engineering and project costs will incurred as a result.

Year	# Benefiting	
2023	0	During this period, the project team executed a contract with Wright & Morrissey. In early June, the project team closed on NMTC financing! The groundbreaking celebration was somewhat delayed, due to the July 10 flooding. However, the site was not damaged. The groundbreaking was held on August 18th. The barn has been raised, a new foundation poured, and lowered back onto the new foundation. The septic tank was pulled, and the soils testing revealed higher levels of contaminants than expected. The project team worked with the state of Vermont to secure more brownfield funds to remove the contaminated soils. This is a state award with no match requirement. In the meantime, we will close out the existing brownfield grant. The subgrant from the Preservation Trust (Northeast Heritage Economy Partnership) was also closed out, and we are awaiting receipt of our requisition. Also during this period, the Center for an Agricultural Economy hired a Farm Connex delivery driver. The CAE worked with the DOL. The delivery driver started work 10.30.
2025	0	PR 2018 12 Hardwick 00187 Reporting Period 4/1/2025-9/30/2025 13 PR 2018 11 Hardwick 00184 10/1/2024-3/31/2025 PR 2018 13 Hardwick 00192 10/1/2025-3/31/2026

2024	0	Work is progressing at a very rapid pace. The Yellow Barn will roof and siding have been replaced, and a porch has been added to the south face of the building. The interior sheetrock and drywall are finished, and the Cabot's fit up work is commencing. We anticipate them to be able to move in some time in June. The construction team will install temporary switchgear to allow tenants to take occupancy.

UGLG: BARRE CITY

Grant Year: 2019

Year	# Benefiting	
2021	0	In March competitive bids were opened on the project. The low bid was $993,000 over the project budget. This was largely a result of post-covid cost escalations in the heavy construction industry. A subsequent value engineering effort failed to close the cost gap. In the past few months MMHC has commissioned a new cost estimate, applied for additional funding through an EPA WIIN Grant, and landed on both Senator Sanders, and Leahy's Congressional Designated Spending funding lists. In addition further engineering is taking place to rebid the project this winter. Due to the project delay, this project will now be subject to new stormwater control regulations. Additional engineering and project costs will incurred as a result.

Year	# Benefiting	
2022		07/1/2022-9/30/2022 Data entered for Counseling 12/7/2022 The housing stabilization element is progressing well. We hired a temp to take on the processing of VHFA HAP and VERAP applications. She started at the beginning of February and she has taken on assisting all households not requesting housing counseling but who need help with the HAP application. One housing counselor has taken on the vast majority of counseling needs for housing stabilization households so she has developed expertise with stabilization needs and resources. We are grateful for the statewide approach and the ongoing networking going to support our transition.

Year	# Benefiting	
2023	0	Firehouse Apartments started construction in September 2022 and is expected to be completed by August 1, 2023. The two Duplexes and the 16-unit rowhouse building are under construction. All buildings are framed and the contractors are working on in unit rough-ins and exterior siding and trim. We are currently waiting on the Town's attorney to write an opinion letter to fulfill the grant agreement requirements. We anticipate requisitioning VCDP funds as soon as the grant agreement requirements are met.

UGLG: HARDWICK TOWN

Grant Year: 2020

Project: 0017 - Goal 16: Jobs Created/retained

Objective: Create economic opportunities

IDIS Activity: 2356 - Hardwick (4003, 4013, 4021, 4032)

Annual Accomplishments		Accomplishment Narrative
Year	# Benefiting	
2023	0	During this period, the project team executed a contract with Wright & Morrissey. In early June, the project team closed on NMTC financing! The groundbreaking celebration was somewhat delayed, due to the July 10 flooding. However, the site was not damaged. The groundbreaking was held on August 18th. The barn has been raised, a new foundation poured, and lowered back onto the new foundation. The septic tank was pulled, and the soils testing revealed higher levels of contaminants than expected. The project team worked with the state of Vermont to secure more brownfield funds to remove the contaminated soils. This is a state award with no match requirement. In the meantime, we will close out the existing brownfield grant. The subgrant from the Preservation Trust (Northeast Heritage Economy Partnership) was also closed out, and we are awaiting receipt of our requisition. Also during this period, the Center for an Agricultural Economy hired a Farm Connex delivery driver. The CAE worked with the DOL. The delivery driver started work 10.30.
2025	0	PR 2018 12 Hardwick 00187 Reporting Period 4/1/2025-9/30/2025 13 PR 2018 11 Hardwick 00184 10/1/2024-3/31/2025 PR 2018 13 Hardwick 00192 10/1/2025-3/31/2026

2024	0	Work is progressing at a very rapid pace. The Yellow Barn will roof and siding have been replaced, and a porch has been added to the south face of the building. The interior sheetrock and drywall are finished, and the Cabot's fit up work is commencing. We anticipate them to be able to move in some time in June. The construction team will install temporary switchgear to allow tenants to take occupancy.

UGLG: MIDDLEBURY TOWN

Grant Year: 2020

Project: 0010 - CDBG Goal 2: PF or Infrastructure Activities for Low/Moderate Income Housing Benefit

Objective: Provide decent affordable housing

IDIS Activity: 2427 - Middlebury (3004, 3005, 3007)

Outcome: Affordability

Activity to prevent, prepare for, and respond to Coronavirus: No

Status: Open

Year	# Benefiting	
2023	0	Firehouse Apartments started construction in September 2022 and is expected to be completed by August 1, 2023. The two Duplexes and the 16-unit rowhouse building are under construction. All buildings are framed and the contractors are working on in unit rough-ins and exterior siding and trim. We are currently waiting on the Town's attorney to write an opinion letter to fulfill the grant agreement requirements. We anticipate requisitioning VCDP funds as soon as the grant agreement requirements are met.

UGLG: Town of Berlin

Annual Accomplishments — Accomplishment Narrative

Year	# Benefiting	
2021	0	In March competitive bids were opened on the project. The low bid was $993,000 over the project budget. This was largely a result of post-covid cost escalations in the heavy construction industry. A subsequent value engineering effort failed to close the cost gap. In the past few months MMHC has commissioned a new cost estimate, applied for additional funding through an EPA WIIN Grant, and landed on both Senator Sanders, and Leahy's Congressional Designated Spending funding lists. In addition further engineering is taking place to rebid the project this winter. Due to the project delay, this project will now be subject to new stormwater control regulations. Additional engineering and project costs will incurred as a result.

Year	# Benefiting	
2023	0	Firehouse Apartments started construction in September 2022 and is expected to be completed by August 1, 2023. The two Duplexes and the 16-unit rowhouse building are under construction. All buildings are framed and the contractors are working on in unit rough-ins and exterior siding and trim. We are currently waiting on the Town's attorney to write an opinion letter to fulfill the grant agreement requirements. We anticipate requisitioning VCDP funds as soon as the grant agreement requirements are met.

Year	# Benefiting	
2023		0As of this report we had 143 leads for our HOME and RENTAL Repair program (2022 we had 92 leads so we are seeing an increase in demand for this program). 7 single family (SF) home repair projects have been completed, 18 SF home repair projects are in-process for a total of 25 projects (goal is 22) with 12 potential SF home repair projects in the pipeline. We also have a potential rental repair project in the pipeline which has two units to be repaired, meeting our goal of two rental repair projects for SS-2022 (total SF/Rental done/in-process/potential is 39 units).

2024 0PR 2022 8 W Rutland 00083 10/1/2024-12/31/2024 Beneficiary Data 12

For this progress report, Jan. 1 to March 31, 2024 we were busy helping customers to complete their repair project while also continuing to get the word out about our program through social media and

advertising, and talking with partners and organizations.

As of this quarter, we had 406 leads for our HOME and RENTAL Repair program. 26 single family (SF) home repair projects have been completed (3 SF this quarter), 12 SF home repair projects are in-process for a total of 38 projects (goal is 43) with eight potential SF home repair projects in the pipeline. At this time we have (1) rental repair project in the pipeline (3 units total). (Total SF/Rental done/in-process/potential is 49 units, total goal is 47).

During the quarter, there were 2 workshops offered in St. Johnsbury with seven households represented. Eight additional households completed the E-home workshop. We provided 20 one-on-one financial counseling sessions during the quarter. Four homes were purchased, bringing $571,900.00 in homes sales for our service area.

2026		0PR 2022 13 St Albans C 00146 Reporting Period 1/1/2026-3/31/2026 Beneficiary Reported 1
2024		0PR 2022 5 St. Albans C 00052 Reporting Period for 1/1/2024-3/31/2024 PR 2022 6 St. Albans C 00058 Reporting Period for 4/1/2024-6/30/2024 PR 2022 7 St. Albans C 00076 Reporting Period for 7/1/2024-10/30/2024

Under this grant, we have 21 owner-occupied home repair projects completed. That puts us behind schedule, but we have 52 other households in various stages of the process, including 16 that are currently under construction. It seems like the bidding process and finding contractors is becoming slightly improved from previous months. We are hopeful to catch up in the next few months

2025	0	PR 2022 9 St Albans C 00088 1/1/2025-3/31/2025 Rental Rehab 0 PR 2022 10 St Albans C 00108 4/1/2025-6/30/2025 Rental Rehab 0 Single Beneficiaries reported this period 5 PR 2022 11 St Albans C 00123 7/1/2025-9/30/2025 Rental Rehab 0 Single Beneficiaries reported this period 9 PR 2022 12 St Albans C 00134 10/1/2025-12/31/2025 Rental Rehab 0 Single Beneficiaries reported this period 14
2023	0	Under this new grant, we have seven owner-occupied home repair projects completed. That puts us behind schedule, but we have 41 other households in various stages of the process. It has been a busy summer with many households going under contract. We expect to catch up by the end of the year.

UGLG: ST. ALBANS C.

Grant Year: 2022

Annual Accomplishments		Accomplishment Narrative
Year	# Benefiting	
2023	0	For the grant period of October 1 to December 31, 2023, the Windham & Windsor Housing Trust (WWHT) had 17 inquiries regarding the Green Mountain Home Repair program. WWHT received 7 complete eligibility applications. At the time of the report, we have 5 eligibility applications in review, 12 projects in construction and completed 7 projects from this quarter. We do have a few multi-family projects that make sense to do via a CDBG-burdened loan. We completed 1 single family rental home project this past quarter and currently have 1 multi-unit project in review and 1 multi-unit project in construction. We find that multi-unit projects are challenging to meet the guidelines of the CDBG program. This often means we have to turn them away because they are not eligible. Earlier this year we determined 2 separate multi-unit projects ineligible in the past few weeks due to their rents being over HUD FMR (within 10%). In one case the owner was retired on SS income and rental income. Her already very high debt ratio will not allow her the ability to afford to reduce her rent.

2024 0PR 2022 8 Brattleboro 00084 10/1/2024-12/31/2024 Beneficiary Data 7 Single, Rental 0

For the grant period of January 1 to March 31, 2024, the Windham & Windsor Housing Trust (WWHT) had 44 inquiries regarding the Green Mountain Home Repair program. WWHT received 8 complete eligibility applications. At the time of the report, we have 10 eligibility applications in review, 13 projects in construction and completed 2 projects from this quarter.

We received a strong interest in the program the first quarter of 2024. We continue to hear concerns about taking on debt, households are paying more monthly for general living expenses and caution about additional debt. Construction costs are up and we are seeing higher price tags on repairs, especially heating systems and roof replacements. Last year, we updated our GMHR policies to allow for higher loan amounts to combat these higher prices, however not all households feel like they can afford the cost of a higher loan.

Lead Mitigation Challenges: Windham & Windsor Housing Trusts Green Mountain Home Repair program is a proponent of lead-safe work practices, relevantly put forth is in Renovation, Repair, Painting and Maintenance (RRPM) Regulations. Among the challenges/ramifications of Lead-Safe Housing rule compliance are:

Lack of contractors The list of RRPM certified firms in Windham and Windsor Counties had 34 entities as of 4/17/2024, up only 1 in the previous month. Nine of those appear to be painting contractors, 5 are property management companies, 2 are agencies, 1 is an insulation contractor, and 7 can be described as large or upscale contractors. That leaves 10 with which we might possibly engage for general carpentry work. The RRPM-certified contractor we actually have a relationship with isnt on the list as they are from New Hampshire. We dont have enough lead certified contractors to work with. In the current labor/contractor environment there are few incentives for contractors to do the work to become RRPM certified as they have more than enough work that does not require RRPM certification.

Cost - On a recent small project, the contractor estimated the cost of compliance to be $1068. These include overhead and base costs such as training and fees which may be duplicated in multiple states, hygiene facilities, and project paperwork including record keeping. Variable costs include materials for containment and other controls, additional labor to set up the containment and perform the task, possible additional disposal costs, and cleaning and clearance testing.

Logistics (also affecting cost) Access by the occupants may be impacted when work area interferes with their use of the home. They may need to be relocated while work is taking place. Workers may utilize less-desirable means of access to the work area, through a window for example.

Given the lack of code enforcement on a local or State level on lead mitigation in the single-family rehabilitation industry it creates an uneven playing field for those that are required to meet the requirements. If there were universal requirements applied to all work involving lead mitigation then the playing field would be even and contractors would get the required certification.

2023	0	We are pleased that our homebuyer education numbers are holding steady. The one-on-one counseling graph shows numbers for both pre-purchase and post-purchase households and the decline in numbers is because of a decline in post-purchase households needing housing stability counseling. This is a good sign in regards to post-Covid recovery. We are on target for new homeowners. Due to steady decline in funding for housing counseling we are only able to maintain a core-staff of 1.5 FTE HUD-certified counselors. We have worked at increasing our efficiencies but it does mean we are less responsive to either public health emergencies or natural disaster emergencies.

Year	# Benefiting	
2023		0As of this report we had 143 leads for our HOME and RENTAL Repair program (2022 we had 92 leads so we are seeing an increase in demand for this program). 7 single family (SF) home repair projects have been completed, 18 SF home repair projects are in-process for a total of 25 projects (goal is 22) with 12 potential SF home repair projects in the pipeline. We also have a potential rental repair project in the pipeline which has two units to be repaired, meeting our goal of two rental repair projects for SS-2022 (total SF/Rental done/in-process/potential is 39 units).

2024	0PR 2022 8 W Rutland 00083 10/1/2024-12/31/2024 Beneficiary Data 12 For this progress report, Jan. 1 to March 31, 2024 we were busy helping customers to complete their repair project while also continuing to get the word out about our program through social media and advertising, and talking with partners and organizations. As of this quarter, we had 406 leads for our HOME and RENTAL Repair program. 26 single family (SF) home repair projects have been completed (3 SF this quarter), 12 SF home repair projects are in-process for a total of 38 projects (goal is 43) with eight potential SF home repair projects in the pipeline. At this time we have (1) rental repair project in the pipeline (3 units total). (Total SF/Rental done/in-process/potential is 49 units, total goal is 47).

During the quarter, there were 2 workshops offered in St. Johnsbury with seven households represented. Eight additional households completed the E-home workshop. We provided 20 one-on-one financial counseling sessions during the quarter. Four homes were purchased, bringing $571,900.00 in homes sales for our service area.

Under this grant, we have 21 owner-occupied home repair projects completed. That puts us behind schedule, but we have 52 other households in various stages of the process, including 16 that are currently under construction. It seems like the bidding process and finding contractors is becoming slightly improved from previous months. We are hopeful to catch up in the next few months

Annual Accomplishments		Accomplishment Narrative
Year	# Benefiting	
2023	0	For the grant period of October 1 to December 31, 2023, the Windham & Windsor Housing Trust (WWHT) had 17 inquiries regarding the Green Mountain Home Repair program. WWHT received 7 complete eligibility applications. At the time of the report, we have 5 eligibility applications in review, 12 projects in construction and completed 7 projects from this quarter. We do have a few multi-family projects that make sense to do via a CDBG-burdened loan. We completed 1 single family rental home project this past quarter and currently have 1 multi-unit project in review and 1 multi-unit project in construction. We find that multi-unit projects are challenging to meet the guidelines of the CDBG program. This often means we have to turn them away because they are not eligible. Earlier this year we determined 2 separate multi-unit projects ineligible in the past few weeks due to their rents being over HUD FMR (within 10%). In one case the owner was retired on SS income and rental income. Her already very high debt ratio will not allow her the ability to afford to reduce her rent.

2024 0PR 2022 8 Brattleboro 00084 10/1/2024-12/31/2024 Beneficiary Data 7 Single, Rental 0

For the grant period of January 1 to March 31, 2024, the Windham & Windsor Housing Trust (WWHT) had 44 inquiries regarding the Green Mountain Home Repair program. WWHT received 8 complete eligibility applications. At the time of the report, we have 10 eligibility applications in review, 13 projects in construction and completed 2 projects from this quarter.

We received a strong interest in the program the first quarter of 2024. We continue to hear concerns about taking on debt, households are paying more monthly for general living expenses and caution about additional debt. Construction costs are up and we are seeing higher price tags on repairs, especially heating systems and roof replacements. Last year, we updated our GMHR policies to allow for higher loan amounts to combat these higher prices, however not all households feel like they can afford the cost of a higher loan.

Lead Mitigation Challenges: Windham & Windsor Housing Trusts Green Mountain Home Repair program is a proponent of lead-safe work practices, relevantly put forth is in Renovation, Repair, Painting and Maintenance (RRPM) Regulations. Among the challenges/ramifications of Lead-Safe Housing rule compliance are:

Lack of contractors The list of RRPM certified firms in Windham and Windsor Counties had 34 entities as of 4/17/2024, up only 1 in the previous month. Nine of those appear to be painting contractors, 5 are property management companies, 2 are agencies, 1 is an insulation contractor, and 7 can be described as large or upscale contractors. That leaves 10 with which we might possibly engage for general carpentry work. The RRPM-certified contractor we actually have a relationship with isnt on the list as they are from New Hampshire. We dont have enough lead certified contractors to work with. In the current labor/contractor environment there are few incentives for contractors to do the work to become RRPM certified as they have more than enough work that does not require RRPM certification.

Cost - On a recent small project, the contractor estimated the cost of compliance to be $1068. These include overhead and base costs such as training and fees which may be duplicated in multiple states, hygiene facilities, and project paperwork including record keeping. Variable costs include materials for containment and other controls, additional labor to set up the containment and perform the task, possible additional disposal costs, and cleaning and clearance testing.

Logistics (also affecting cost) Access by the occupants may be impacted when work area interferes with their use of the home. They may need to be relocated while work is taking place. Workers may utilize less-desirable means of access to the work area, through a window for example.

Given the lack of code enforcement on a local or State level on lead mitigation in the single-family rehabilitation industry it creates an uneven playing field for those that are required to meet the requirements. If there were universal requirements applied to all work involving lead mitigation then the playing field would be even and contractors would get the required certification.

2023	0	We are pleased that our homebuyer education numbers are holding steady. The one-on-one counseling graph shows numbers for both pre-purchase and post-purchase households and the decline in numbers is because of a decline in post-purchase households needing housing stability counseling. This is a good sign in regards to post-Covid recovery. We are on target for new homeowners. Due to steady decline in funding for housing counseling we are only able to maintain a core-staff of 1.5 FTE HUD-certified counselors. We have worked at increasing our efficiencies but it does mean we are less responsive to either public health emergencies or natural disaster emergencies.

Year	# Benefiting	
2023		0As of this report we had 143 leads for our HOME and RENTAL Repair program (2022 we had 92 leads so we are seeing an increase in demand for this program). 7 single family (SF) home repair projects have been completed, 18 SF home repair projects are in-process for a total of 25 projects (goal is 22) with 12 potential SF home repair projects in the pipeline. We also have a potential rental repair project in the pipeline which has two units to be repaired, meeting our goal of two rental repair projects for SS-2022 (total SF/Rental done/in-process/potential is 39 units).

2024	0PR 2022 8 W Rutland 00083 10/1/2024-12/31/2024 Beneficiary Data 12 For this progress report, Jan. 1 to March 31, 2024 we were busy helping customers to complete their repair project while also continuing to get the word out about our program through social media and advertising, and talking with partners and organizations. As of this quarter, we had 406 leads for our HOME and RENTAL Repair program. 26 single family (SF) home repair projects have been completed (3 SF this quarter), 12 SF home repair projects are in-process for a total of 38 projects (goal is 43) with eight potential SF home repair projects in the pipeline. At this time we have (1) rental repair project in the pipeline (3 units total). (Total SF/Rental done/in-process/potential is 49 units, total goal is 47).

Under this grant, we have 21 owner-occupied home repair projects completed. That puts us behind schedule, but we have 52 other households in various stages of the process, including 16 that are currently under construction. It seems like the bidding process and finding contractors is becoming slightly improved from previous months. We are hopeful to catch up in the next few months

2023	0	Under this new grant, we have seven owner-occupied home repair projects completed. That puts us behind schedule, but we have 41 other households in various stages of the process. It has been a busy summer with many households going under contract. We expect to catch up by the end of the year.

UGLG: ST. ALBANS C.

Grant Year: 2024

Project: 0008 - Goal 4: Public Service for Low/Mod Income Housing Benefit

Objective: Provide decent affordable housing

IDIS Activity: 2362 - St. Albans City (3028)

Outcome: Sustainability

Activity to prevent, prepare for, and respond to Coronavirus: No

Status: Open

Matrix Code: Housing Counseling only, under 24 CFR 5.100 (05U)

Location:

, -

National Objective: LMH

Initial Funding Date: 07/03/2023

Financing:

Funded Amount: $53,141.00

Net Drawn: $53,141.00

Balance: $0.00

Description:

Subgrant to Champlain Housing Trust to continue to provide housing counseling services to eligible homeowners in Franklin, Chittenden, and Grand Isle Counties.

Proposed Accomplishments:

Households (General) : 465

Total Population in Service Area: 0

Annual Accomplishments		Accomplishment Narrative
Year	# Benefiting	
2023	0	For the grant period of October 1 to December 31, 2023, the Windham & Windsor Housing Trust (WWHT) had 17 inquiries regarding the Green Mountain Home Repair program. WWHT received 7 complete eligibility applications. At the time of the report, we have 5 eligibility applications in review, 12 projects in construction and completed 7 projects from this quarter. We do have a few multi-family projects that make sense to do via a CDBG-burdened loan. We completed 1 single family rental home project this past quarter and currently have 1 multi-unit project in review and 1 multi-unit project in construction. We find that multi-unit projects are challenging to meet the guidelines of the CDBG program. This often means we have to turn them away because they are not eligible. Earlier this year we determined 2 separate multi-unit projects ineligible in the past few weeks due to their rents being over HUD FMR (within 10%). In one case the owner was retired on SS income and rental income. Her already very high debt ratio will not allow her the ability to afford to reduce her rent.

2024 0PR 2022 8 Brattleboro 00084 10/1/2024-12/31/2024 Beneficiary Data 7 Single, Rental 0

For the grant period of January 1 to March 31, 2024, the Windham & Windsor Housing Trust (WWHT) had 44 inquiries regarding the Green Mountain Home Repair program. WWHT received 8 complete eligibility applications. At the time of the report, we have 10 eligibility applications in review, 13 projects in construction and completed 2 projects from this quarter.

We received a strong interest in the program the first quarter of 2024. We continue to hear concerns about taking on debt, households are paying more monthly for general living expenses and caution about additional debt. Construction costs are up and we are seeing higher price tags on repairs, especially heating systems and roof replacements. Last year, we updated our GMHR policies to allow for higher loan amounts to combat these higher prices, however not all households feel like they can afford the cost of a higher loan.

Lead Mitigation Challenges: Windham & Windsor Housing Trusts Green Mountain Home Repair program is a proponent of lead-safe work practices, relevantly put forth is in Renovation, Repair, Painting and Maintenance (RRPM) Regulations. Among the challenges/ramifications of Lead-Safe Housing rule compliance are:

Lack of contractors The list of RRPM certified firms in Windham and Windsor Counties had 34 entities as of 4/17/2024, up only 1 in the previous month. Nine of those appear to be painting contractors, 5 are property management companies, 2 are agencies, 1 is an insulation contractor, and 7 can be described as large or upscale contractors. That leaves 10 with which we might possibly engage for general carpentry work. The RRPM-certified contractor we actually have a relationship with isnt on the list as they are from New Hampshire. We dont have enough lead certified contractors to work with. In the current labor/contractor environment there are few incentives for contractors to do the work to become RRPM certified as they have more than enough work that does not require RRPM certification.

Cost - On a recent small project, the contractor estimated the cost of compliance to be $1068. These include overhead and base costs such as training and fees which may be duplicated in multiple states, hygiene facilities, and project paperwork including record keeping. Variable costs include materials for containment and other controls, additional labor to set up the containment and perform the task, possible additional disposal costs, and cleaning and clearance testing.

Logistics (also affecting cost) Access by the occupants may be impacted when work area interferes with their use of the home. They may need to be relocated while work is taking place. Workers may utilize less-desirable means of access to the work area, through a window for example.

Given the lack of code enforcement on a local or State level on lead mitigation in the single-family rehabilitation industry it creates an uneven playing field for those that are required to meet the requirements. If there were universal requirements applied to all work involving lead mitigation then the playing field would be even and contractors would get the required certification.

2023	0	We are pleased that our homebuyer education numbers are holding steady. The one-on-one counseling graph shows numbers for both pre-purchase and post-purchase households and the decline in numbers is because of a decline in post-purchase households needing housing stability counseling. This is a good sign in regards to post-Covid recovery. We are on target for new homeowners. Due to steady decline in funding for housing counseling we are only able to maintain a core-staff of 1.5 FTE HUD-certified counselors. We have worked at increasing our efficiencies but it does mean we are less responsive to either public health emergencies or natural disaster emergencies.

Year	# Benefiting	
2023	0	Data provided in Final Progress Report PR 2017 13 Randolph 00074, 29 White Benefit retention of jobs
2018	0	The project is moving forward nicely. Bob Haynes inspected it yesterday afternoon (9/18/18) with DEWÃ¿ superintendent John Krezinski. Major site grading has been completed as well as the building foundation. Steel framing is installed for about 30% of the building and John expects the entire structure will be Â¿tied out by September 28th. He plans to pour the slabs prior to installing the exterior wall panels which is always his preference but not always possible. The base for the entrance drive and parking is being installed this week and no major issues have been encountered to date. In fact, the superintendent expressed that this site is remarkably well suited for the building and is a pleasure to work on (protected, good digging and nothing in the way). He is working with an excavator he has had excellent success with previously, as well as concrete and steel subcontractors he likes to use.

UGLG: RUTLAND CITY

Grant Year: 2017

Project: 0010 - Goal 1: Public Facility or Infrastructure Activities other than Low/Moderate Income Housing Benefit

Objective: Create suitable living environments

IDIS Activity: 2212 - Rutland City (1013, 1014, 1032)

Outcome: Availability/accessibility

Activity to prevent, prepare for, and respond to Coronavirus: No

Status: Completed 11/15/2024

Matrix Code: Child Care Centers (03M)

Location:

14 Chaplin Ave Rutland, VT 05701-4801

National Objective: LMC

Initial Funding Date: 04/19/2021

Financing:

Funded Amount: $43,000.00

Net Drawn: $43,000.00

Balance: $0.00

Description:

Subgrant to Rutland County Parent Child Center (RCPCC) to complete Phase III of a five-year strategic plan to rehabilitate a building that has been unoccupied for 20 years. The public facility project will serve 1,610 persons, of which 460 are less than 30% of median income and 1,150 are between 30-50% of median income.
The building will be used to expand RCPCC's programs, including parenting classes for the community and a larger space for their high school program.
The rehabilitation will involve roof work, improvements to the HVAC system, new windows, doors, and floors, and painting.

2023	0	The project is finally coming to a close. the second-floor restroom is completed all of the ADA improvements have been completed, the boiler is installed and is in operation and the sprinkler system is installed. We are waiting on the elevator installation to come on Monday 10-30-23 to lift the car to finish the sprinkler system in the pit. Once that is complete the elevator can be inspected and put in operation.
2024	0	The project was substantially complete on 12-21-23. The Elevator, new ADA compliant restrooms on the second floor, and new ADA compliant transaction windows are operating. The second floor needs to be cleaned but it is accessible for public use. I have made the final requisition and I'm in the process of closing out the award.
2019	0	To create a Community Center on the second floor of the Town Office building. Progress on the project has been slowed due to Covid-19, Covid-19 has not only impacted the schedule by time but also for funding- costs of materials has increased drastically. Completion of the project is looking to early 2022.

UGLG: RUTLAND CITY

Grant Year: 2018

Project: 0010 - Goal 1: Public Facility or Infrastructure Activities other than Low/Moderate Income Housing Benefit

Objective: Create suitable living environments

IDIS Activity: 2212 - Rutland City (1013, 1014, 1032)

Outcome: Availability/accessibility

Activity to prevent, prepare for, and respond to Coronavirus: No

Status: Completed 11/15/2024

Matrix Code: Child Care Centers (03M)

Location:

14 Chaplin Ave Rutland, VT 05701-4801

National Objective: LMC

Initial Funding Date: 04/19/2021

Financing:

Funded Amount: $250,000.00

Net Drawn: $250,000.00

Balance: $0.00

Description:

Subgrant to Rutland County Parent Child Center (RCPCC) to complete Phase III of a five-year strategic plan to rehabilitate a building that has been unoccupied for 20 years. The public facility project will serve 1,610 persons, of which 460 are less than 30% of median income and 1,150 are between 30-50% of median income.
The building will be used to expand RCPCC's programs, including parenting classes for the community and a larger space for their high school program.
The rehabilitation will involve roof work, improvements to the HVAC system, new windows, doors, and floors, and painting.

Year	# Benefiting	
2022	0	We continue our in-person Home Buyer Education Workshops but are keeping the classes small to allow space for social distancing. Classes were Held in Barton for January, St. Johnsbury for February, and Barton for March. There continues to be activity related to the online classes through E-Home as well. The rising housing prices and lack of inventory are really having an impact on First-time home buyers in the 80%-100% AMI range. This market is making homeownership unattainable for these households whose income does not support a $250,000 home.

2021	0	We have been seeing a lot of activity related to Mortgage Default and the Housing Stabilization Program. We have assisted 10 households with counseling and HSP funding to help them to avoid foreclosure. We meet with these homeowners monthly to go over their crisis budget and action plan to make sure that once our funding is complete that they can sustain themselves. Unfortunately, COVID continues to have an impact on many of these families due to closed contact with school age children or exposure in the workplace. Now that the State of Emergency has been lifted and COVID restrictions have been loosened, the in-person Homebuyer Education Workshop will be resuming in July. The first class will be held at Mountain View Apartments in St. Johnsbury. Posters have been circulated and it looks like we will have a full class. There continues to be an increased sales volume in the housing market, which continues to cause a very inflated house prices and very competitive sellersÃ¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¢Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿ market. The lack of affordable housing stock and out of state interest in the area has also driven the current market conditions. If this market continues, first-time home buyers with little down payment savings will not be able to compete for homes without down payment assistance programs to bolster their purchasing ability. Another outcome we are seeing due to the housing market boom is that single home investment properties are being placed on the market for a quick sale, leaving tenants who have been renting without a place to live.

2022	0	During this quarter April 1 to June 30, 2022 53 projects have been completed During this quarter Jan. 1 to March 31, 2022 we were busy helping customers to complete their home repair project while also continuing to get the word out. As of this report we have completed 44 single-family and five rental unit, 49 total

2023	0	During this quarter Jan. 1 to March 31, 2023 we were busy helping customers to complete their repair projects working to close out our VCDP SS-2019 3-year grant program. We met the program goals, completing (77) low-income single family and (8) rental unit repair projects (total 85 units). 45 projects were in Rutland County, 31 projects were in Bennington County, and 9 projects were in Addison County. In total, $204,000 was provided in grants to low income households and rental units to complete their repair projects and $310,000 was provided in lending capital to make these projects feasible. In total, 139 low-income customers received home buyer education and counseling with 87 customers purchasing a new home and 35 customers taking advantage of our down payment assistance program. We submitted our final requisition in March and have allocated all the VCDP SS-2019 grant funding, $1,300,000.
2021	0	During this quarter Oct. 1 to Dec. 31, 2021 we were busy helping customers to complete their home repair project while also continuing to get the word out about our program through social media and advertising, distributing program flyers. As of this report we have completed 44 single-family and five rental unit (49 total) repair projects towards our program goal. During this quarter July 1 to September 30, 2021 we were busy helping customers to complete their home repair project while also continuing to get the word out about our program through social media and advertising, distributing program flyers. 41 projects have been completed. During this quarter April 1 to June 30, 2021 we were busy helping customers to complete their home repair project while also continuing to get the word out about our program through social media and advertising, distributing program flyers. 35 projects have been completed. During this quarter Jan. 1 to March 31, 2021 we were busy helping customers to complete their home repair project while also continuing to get the word out about our program 29 Projects completed

2021	0	In March competitive bids were opened on the project. The low bid was $993,000 over the project budget. This was largely a result of post-covid cost escalations in the heavy construction industry. A subsequent value engineering effort failed to close the cost gap. In the past few months MMHC has commissioned a new cost estimate, applied for additional funding through an EPA WIIN Grant, and landed on both Senator Sanders, and Leahy's Congressional Designated Spending funding lists. In addition further engineering is taking place to rebid the project this winter. Due to the project delay, this project will now be subject to new stormwater control regulations. Additional engineering and project costs will incurred as a result.

2023	0	During this period, the project team executed a contract with Wright & Morrissey. In early June, the project team closed on NMTC financing! The groundbreaking celebration was somewhat delayed, due to the July 10 flooding. However, the site was not damaged. The groundbreaking was held on August 18th. The barn has been raised, a new foundation poured, and lowered back onto the new foundation. The septic tank was pulled, and the soils testing revealed higher levels of contaminants than expected. The project team worked with the state of Vermont to secure more brownfield funds to remove the contaminated soils. This is a state award with no match requirement. In the meantime, we will close out the existing brownfield grant. The subgrant from the Preservation Trust (Northeast Heritage Economy Partnership) was also closed out, and we are awaiting receipt of our requisition. Also during this period, the Center for an Agricultural Economy hired a Farm Connex delivery driver. The CAE worked with the DOL. The delivery driver started work 10.30.
2025	0	PR 2018 12 Hardwick 00187 Reporting Period 4/1/2025-9/30/2025 13 PR 2018 11 Hardwick 00184 10/1/2024-3/31/2025 PR 2018 13 Hardwick 00192 10/1/2025-3/31/2026

2024	0	Work is progressing at a very rapid pace. The Yellow Barn will roof and siding have been replaced, and a porch has been added to the south face of the building. The interior sheetrock and drywall are finished, and the Cabot's fit up work is commencing. We anticipate them to be able to move in some time in June. The construction team will install temporary switchgear to allow tenants to take occupancy.

UGLG: Town of St. Johnsbury

Grant Year: 2019

Project: 0010 - CDBG Goal 1: PF or Infrastructure Activities other than Low/Moderate Income Housing Benefit

2023	0	The project is finally coming to a close. the second-floor restroom is completed all of the ADA improvements have been completed, the boiler is installed and is in operation and the sprinkler system is installed. We are waiting on the elevator installation to come on Monday 10-30-23 to lift the car to finish the sprinkler system in the pit. Once that is complete the elevator can be inspected and put in operation.
2024	0	The project was substantially complete on 12-21-23. The Elevator, new ADA compliant restrooms on the second floor, and new ADA compliant transaction windows are operating. The second floor needs to be cleaned but it is accessible for public use. I have made the final requisition and I'm in the process of closing out the award.
2019	0	To create a Community Center on the second floor of the Town Office building. Progress on the project has been slowed due to Covid-19, Covid-19 has not only impacted the schedule by time but also for funding- costs of materials has increased drastically. Completion of the project is looking to early 2022.

2022	0	We continue our in-person Home Buyer Education Workshops but are keeping the classes small to allow space for social distancing. Classes were Held in Barton for January, St. Johnsbury for February, and Barton for March. There continues to be activity related to the online classes through E-Home as well. The rising housing prices and lack of inventory are really having an impact on First-time home buyers in the 80%-100% AMI range. This market is making homeownership unattainable for these households whose income does not support a $250,000 home.

2021	0	We have been seeing a lot of activity related to Mortgage Default and the Housing Stabilization Program. We have assisted 10 households with counseling and HSP funding to help them to avoid foreclosure. We meet with these homeowners monthly to go over their crisis budget and action plan to make sure that once our funding is complete that they can sustain themselves. Unfortunately, COVID continues to have an impact on many of these families due to closed contact with school age children or exposure in the workplace. Now that the State of Emergency has been lifted and COVID restrictions have been loosened, the in-person Homebuyer Education Workshop will be resuming in July. The first class will be held at Mountain View Apartments in St. Johnsbury. Posters have been circulated and it looks like we will have a full class. There continues to be an increased sales volume in the housing market, which continues to cause a very inflated house prices and very competitive sellersÃ¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¢Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿ market. The lack of affordable housing stock and out of state interest in the area has also driven the current market conditions. If this market continues, first-time home buyers with little down payment savings will not be able to compete for homes without down payment assistance programs to bolster their purchasing ability. Another outcome we are seeing due to the housing market boom is that single home investment properties are being placed on the market for a quick sale, leaving tenants who have been renting without a place to live.

2023	0	During this quarter Jan. 1 to March 31, 2023 we were busy helping customers to complete their repair projects working to close out our VCDP SS-2019 3-year grant program. We met the program goals, completing (77) low-income single family and (8) rental unit repair projects (total 85 units). 45 projects were in Rutland County, 31 projects were in Bennington County, and 9 projects were in Addison County. In total, $204,000 was provided in grants to low income households and rental units to complete their repair projects and $310,000 was provided in lending capital to make these projects feasible. In total, 139 low-income customers received home buyer education and counseling with 87 customers purchasing a new home and 35 customers taking advantage of our down payment assistance program. We submitted our final requisition in March and have allocated all the VCDP SS-2019 grant funding, $1,300,000.
2021	0	During this quarter Oct. 1 to Dec. 31, 2021 we were busy helping customers to complete their home repair project while also continuing to get the word out about our program through social media and advertising, distributing program flyers. As of this report we have completed 44 single-family and five rental unit (49 total) repair projects towards our program goal. During this quarter July 1 to September 30, 2021 we were busy helping customers to complete their home repair project while also continuing to get the word out about our program through social media and advertising, distributing program flyers. 41 projects have been completed. During this quarter April 1 to June 30, 2021 we were busy helping customers to complete their home repair project while also continuing to get the word out about our program through social media and advertising, distributing program flyers. 35 projects have been completed. 2021	0	In March competitive bids were opened on the project. The low bid was $993,000 over the project budget. This was largely a result of post-covid cost escalations in the heavy construction industry. A subsequent value engineering effort failed to close the cost gap. In the past few months MMHC has commissioned a new cost estimate, applied for additional funding through an EPA WIIN Grant, and landed on both Senator Sanders, and Leahy's Congressional Designated Spending funding lists. In addition further engineering is taking place to rebid the project this winter. Due to the project delay, this project will now be subject to new stormwater control regulations. Additional engineering and project costs will incurred as a result.

Annual Accomplishments Accomplishment Narrative

Year	# Benefiting	
2021	0	The Housing Stabilization Program although is started off very slow has begun to pick up in activity. We are getting ready to submit our first requisition next week and have awarded 4 households with public services funding. We have 2 other households we have met with and are recommending them for HSP assistance. We have also denied one person who was referred to us though their lender but refused to provide the necessary documents needed to make a recommendation for assistance. We have also assisted 30 households and several landlords to apply for VERAP and prevent them from being evicted.

2022 0The HSP program continues to be remain extremely busy. We are meeting with most households in person. This quarter we awarded two additional families with HSP funds in the amount of $17,434.77 leaving $59,911.69 remaining in program funds. As some of the households previously awarded funds reach the end of their time with us, it is becoming apparent that some these families will continue to struggle because of the rising cost of gas, oil, groceries, and many other items needed to support their household continue to have them struggle to make ends meet. It is only a matter of time before they fall behind again if inflation and supply chain issues donÃ¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¢Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿t improve. As a housing counselor, it is a helpless
feeling.
We continue to see a high level of activity through VERAP from both renters and landlords with application assistance and recertification assistance. We met with 11 new households this month. Since benefits have been extended to 1 year, we are anticipating that people will get so used to having this kind of help when it ends there will be increase in evictions since these households will be unprepared to resume paying their bills.
The HAP program is now open, and we have helped 8 households with application assistance since the program opened. When we have our initial meeting, the housing counselor uncovers if additional assistance may be needed to help stabilize the household. Once that is determined, she may refer them for the HSP program

2023 0VERAP-winding Down
HAP Application assistance remains busy- many homeowners have waited to apply & maybe over the $30,000 Max assistance per household
HSP no new Applicants to meeting monthly with 2 families still recovering (housing unstable) - to find employment

2022		02. The project is pretty well on schedule this quarter, staff counseled 35 households totaling 67 persons. Since the program started, CHT has counseled 170 households, which exceeds the initial goal of 135 households. For the Public Service category, CHT assisted an additional seven households this quarter with direct payments, for a grand total of 22 households that were provided assistance. CHT is still providing ongoing counseling and support to households reported last quarter, but not counting as new beneficiaries. However, the pool of public service dollars is almost entirely spent, so we fell short on our benchmark goal of 50 households.

2021		02. The project is pretty well on schedule â¿¿ this quarter, staff counseled 19 households totaling 29 persons. Last quarter CHT reported 116 households totaling 181 persons. CHT is on track to meet the benchmark goal of 150 households. However, it was realized in reporting under â¿¿Beneficiaries by Activity â¿¿ Units, Jobs & Persons servedâ¿ • â¿¿ that just the households were reported last quarter and not the total persons. If that needs to be adjusted, please let us know. For the Public Service category, CHT assisted an additional four households with direct payments. CHT is still providing ongoing counseling and support to households reported last quarter, but not counting as new beneficiaries. However, CHT is behind the overall goal of serving 50 households with Public Service dollars. Based on the average public service awards, 50 may be unrealistic with the given pool of funding.
2022		02. The project is pretty well on schedule this quarter, staff counseled 35 households totaling 67 persons. Since the program started, CHT has counseled 170 households, which exceeds the initial goal of 135 households. Annual Accomplishments — Accomplishment Narrative

Year	# Benefiting	
2022	0	As of March 31, 2022 we have had 342 potential customers reach out needing assistance in our service area of Addison, Rutland, and Bennington Counties. 111 customers have attended one or more counseling appointments with our housing counselor. Our housing counselor has had 206 Housing Stabilization Program counseling appointments thus far. Of these, we had 7 customers we were actively working with to avoid foreclosure. We have assisted 79 households apply for various statewide Covid-19 Relief programs for housing and utility assistance. There was a large influx of new counseling clients this quarter due to the opening of VHFA's Homeowner Assistance Program in January of 2022. Additionally, as part of the Housing Stabilization Program, we have provided ongoing housing counseling to 16 households whose income is at or below 80% of the Area Median Income. We have provided financial assistance grants to bring 15 households current on eligible housing related expenses. We have helped 14 of these households with stabilization payments to assist with ongoing housing related expenses. As of March 31,2022, we have disbursed $89,897 in CDBG-CV grants, with a total $93,863 awarded to date.

2021	0Of the 50 households that have attended counseling, 14 have received financial assistance in the form of Housing Stabilization Program grants. Thirteen of these households are continuing with monthly housing counseling appointments and intend to for the full 6 months. Two households that applied were ineligible due to being over income. With 2 final people in the pipeline for Housing Stabilization grants, we will reach our maximum amount of direct assistance grants we can provide through this program. We have worked with 5 households to avoid foreclosure. The remainder of the counseling appointments have been assisting households in applying for VHFAÃ¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¢Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿s Mortgage Assistance Program, The Vermont Emergency Rental Assistance Program, and The Vermont Covid Arrearage Assistance Program II. We have 21 people in the pipeline that we will be assisting with applying for VHFAÃ¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¢Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿s upcoming Housing Assistance Program once it is open to applications.

UGLG: West Rutland

Grant Year: 2020

Project: 0005 - CDBG-CV Goal 4: Public service activities for Low/Moderate Income Housing Benefit

Annual Accomplishments Accomplishment Narrative

Year # Benefiting

2022	0	This project is 85% complete, including: - We have secured tables and chairs with the exception of the ADA table needed at the Waypoint Center, - The tent has been purchased; A community historic and cultural presentation was held under the new tent in the Riverfront Park and thanks to the 20 x 30 tent, everyone stayed dry on that cool and rainy evening. - The lights for the Visitor Center pavilion and grounds still need to be purchased, but quotes have been requested. The Waypoint Center has been used more often this summer and the tables and chairs enable social distancing. The lights will be a pleasant addition to a beautifully designed structure with views of Downtown connecting the Island District; parking lots and Center with Downtown. The trailer research identified specifications for the necessary twin axle to be able to accommodate the uses: 5,000 lbs load limit, with 14 ft length and 6 ft internal height. - We got quotes from dealers within the radius for reasonable pick-up: - identified the best trailer and price and ordered it by the end of September. The trailer will ensure Town purchases are safely locked up and offers a portable storage for the tables, chairs, tent and heaters to be used in multiple locations for Town wide events.
2021	0	We do now have a clear picture of the public services and they are accurate in the award scope and details and budget. We did run into some hold-ups after that, with COVID getting better and town opening with vaccines, and then surges and of COVID and concerns. We addressed the publics information issues, and are now ready to move through procurement and implement the scope. We will be initiating the procurement activities' this March, and completing those over a 6 month period at the longest/latest. Requisition of funds will be in April or May 2022.

Annual Accomplishments		Accomplishment Narrative
Year	# Benefiting	
2023	0	During this period, the project team executed a contract with Wright & Morrissey. In early June, the project team closed on NMTC financing! The groundbreaking celebration was somewhat delayed, due to the July 10 flooding. However, the site was not damaged. The groundbreaking was held on August 18th. The barn has been raised, a new foundation poured, and lowered back onto the new foundation. The septic tank was pulled, and the soils testing revealed higher levels of contaminants than expected. The project team worked with the state of Vermont to secure more brownfield funds to remove the contaminated soils. This is a state award with no match requirement. In the meantime, we will close out the existing brownfield grant. The subgrant from the Preservation Trust (Northeast Heritage Economy Partnership) was also closed out, and we are awaiting receipt of our requisition. Also during this period, the Center for an Agricultural Economy hired a Farm Connex delivery driver. The CAE worked with the DOL. The delivery driver started work 10.30.
2025	0	PR 2018 12 Hardwick 00187 Reporting Period 4/1/2025-9/30/2025 13 PR 2018 11 Hardwick 00184 10/1/2024-3/31/2025 PR 2018 13 Hardwick 00192 10/1/2025-3/31/2026

2024	0	Work is progressing at a very rapid pace. The Yellow Barn will roof and siding have been replaced, and a porch has been added to the south face of the building. The interior sheetrock and drywall are finished, and the Cabot's fit up work is commencing. We anticipate them to be able to move in some time in June. The construction team will install temporary switchgear to allow tenants to take occupancy.

UGLG: HARDWICK TOWN

Grant Year: 2020

Project: 0010 - CDBG Goal 1: PF or Infrastructure Activities other than Low/Moderate Income Housing Benefit

Objective: Create suitable living environments

IDIS Activity: 2373 - Hardwick (1011, 1013, 1014, 1016)

Outcome: Availability/accessibility

Activity to prevent, prepare for, and respond to Coronavirus: No

Status: Completed 06/04/2025

Matrix Code: Neighborhood Facilities (03E)

Location:

Annual Accomplishments — Accomplishment Narrative

Year	# Benefiting	
2022	0	We continue our in-person Home Buyer Education Workshops but are keeping the classes small to allow space for social distancing. Classes were Held in Barton for January, St. Johnsbury for February, and Barton for March. There continues to be activity related to the online classes through E-Home as well. The rising housing prices and lack of inventory are really having an impact on First-time home buyers in the 80%-100% AMI range. This market is making homeownership unattainable for these households whose income does not support a $250,000 home.

2021	0	We have been seeing a lot of activity related to Mortgage Default and the Housing Stabilization Program. We have assisted 10 households with counseling and HSP funding to help them to avoid foreclosure. We meet with these homeowners monthly to go over their crisis budget and action plan to make sure that once our funding is complete that they can sustain themselves. Unfortunately, COVID continues to have an impact on many of these families due to closed contact with school age children or exposure in the workplace. Now that the State of Emergency has been lifted and COVID restrictions have been loosened, the in-person Homebuyer Education Workshop will be resuming in July. The first class will be held at Mountain View Apartments in St. Johnsbury. Posters have been circulated and it looks like we will have a full class. There continues to be an increased sales volume in the housing market, which continues to cause a very inflated house prices and very competitive sellersÃ¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¢Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿ market. The lack of affordable housing stock and out of state interest in the area has also driven the current market conditions. If this market continues, first-time home buyers with little down payment savings will not be able to compete for homes without down payment assistance programs to bolster their purchasing ability. Another outcome we are seeing due to the housing market boom is that single home investment properties are being placed on the market for a quick sale, leaving tenants who have been renting without a place to live.

2023	0	During this quarter Jan. 1 to March 31, 2023 we were busy helping customers to complete their repair projects working to close out our VCDP SS-2019 3-year grant program. We met the program goals, completing (77) low-income single family and (8) rental unit repair projects (total 85 units). 45 projects were in Rutland County, 31 projects were in Bennington County, and 9 projects were in Addison County. In total, $204,000 was provided in grants to low income households and rental units to complete their repair projects and $310,000 was provided in lending capital to make these projects feasible. In total, 139 low-income customers received home buyer education and counseling with 87 customers purchasing a new home and 35 customers taking advantage of our down payment assistance program. We submitted our final requisition in March and have allocated all the VCDP SS-2019 grant funding, $1,300,000.
2021	0	During this quarter Oct. 1 to Dec. 31, 2021 we were busy helping customers to complete their home repair project while also continuing to get the word out about our program through social media and advertising, distributing program flyers. As of this report we have completed 44 single-family and five rental unit (49 total) repair projects towards our program goal. During this quarter July 1 to September 30, 2021 we were busy helping customers to complete their home repair project while also continuing to get the word out about our program through social media and advertising, distributing program flyers. 41 projects have been completed. During this quarter April 1 to June 30, 2021 we were busy helping customers to complete their home repair project while also continuing to get the word out about our program through social media and advertising, distributing program flyers. 35 projects have been completed. 2023	0	Stuart Avenue continues to move forward; we are at approximately 91% completion. The project had a financial closing on March 17, 2022, the notice to proceed was issued to Wright & Morrissey, and we executed the VCDP grant agreement. Wright & Morrissey expects to finish the construction, except for elevator installation, by May 12. 2023. Permanent electrical power and water service are live in the building. The boilers and water heaters have been fired up and inspected. All units have been completed and the construction and ownership teams are conducting final punch list inspections. The landscaping is scheduled to be installed in early-May weather permitting. Unfortunately, the delivery of our elevator has been delayed until late May, and installation won't be finished until July. DFS has approved a Temporary Certificate of Occupancy and the Town of Colchester will also approve a TCO if all building (minus the elevator) and landscaping is complete. CHT and Evernorth are exploring the possibility of moving residents in on the 1st and 2nd floors until elevator installation is complete after which the entire building can be occupied,

Year	# Benefiting	
2021	0	In March competitive bids were opened on the project. The low bid was $993,000 over the project budget. This was largely a result of post-covid cost escalations in the heavy construction industry. A subsequent value engineering effort failed to close the cost gap. In the past few months MMHC has commissioned a new cost estimate, applied for additional funding through an EPA WIIN Grant, and landed on both Senator Sanders, and Leahy's Congressional Designated Spending funding lists. In addition further engineering is taking place to rebid the project this winter. Due to the project delay, this project will now be subject to new stormwater control regulations. Additional engineering and project costs will incurred as a result.

During the quarter, there were 2 workshops offered in St. Johnsbury with seven households represented. Eight additional households completed the E-home workshop. We provided 20 one-on-one financial counseling sessions during the quarter. Four homes were purchased, bringing $571,900.00 in homes sales for our service area.

Under this grant, we have 21 owner-occupied home repair projects completed. That puts us behind schedule, but we have 52 other households in various stages of the process, including 16 that are currently under construction. It seems like the bidding process and finding contractors is becoming slightly improved from previous months. We are hopeful to catch up in the next few months

Annual Accomplishments		Accomplishment Narrative
Year	# Benefiting	
2023	0	For the grant period of October 1 to December 31, 2023, the Windham & Windsor Housing Trust (WWHT) had 17 inquiries regarding the Green Mountain Home Repair program. WWHT received 7 complete eligibility applications. At the time of the report, we have 5 eligibility applications in review, 12 projects in construction and completed 7 projects from this quarter. We do have a few multi-family projects that make sense to do via a CDBG-burdened loan. We completed 1 single family rental home project this past quarter and currently have 1 multi-unit project in review and 1 multi-unit project in construction. We find that multi-unit projects are challenging to meet the guidelines of the CDBG program. This often means we have to turn them away because they are not eligible. Earlier this year we determined 2 separate multi-unit projects ineligible in the past few weeks due to their rents being over HUD FMR (within 10%). In one case the owner was retired on SS income and rental income. Her already very high debt ratio will not allow her the ability to afford to reduce her rent.

2024 0PR 2022 8 Brattleboro 00084 10/1/2024-12/31/2024 Beneficiary Data 7 Single, Rental 0

For the grant period of January 1 to March 31, 2024, the Windham & Windsor Housing Trust (WWHT) had 44 inquiries regarding the Green Mountain Home Repair program. WWHT received 8 complete eligibility applications. At the time of the report, we have 10 eligibility applications in review, 13 projects in construction and completed 2 projects from this quarter.

We received a strong interest in the program the first quarter of 2024. We continue to hear concerns about taking on debt, households are paying more monthly for general living expenses and caution about additional debt. Construction costs are up and we are seeing higher price tags on repairs, especially heating systems and roof replacements. Last year, we updated our GMHR policies to allow for higher loan amounts to combat these higher prices, however not all households feel like they can afford the cost of a higher loan.

Lead Mitigation Challenges: Windham & Windsor Housing Trusts Green Mountain Home Repair program is a proponent of lead-safe work practices, relevantly put forth is in Renovation, Repair, Painting and Maintenance (RRPM) Regulations. Among the challenges/ramifications of Lead-Safe Housing rule compliance are:

Lack of contractors The list of RRPM certified firms in Windham and Windsor Counties had 34 entities as of 4/17/2024, up only 1 in the previous month. Nine of those appear to be painting contractors, 5 are property management companies, 2 are agencies, 1 is an insulation contractor, and 7 can be described as large or upscale contractors. That leaves 10 with which we might possibly engage for general carpentry work. The RRPM-certified contractor we actually have a relationship with isnt on the list as they are from New Hampshire. We dont have enough lead certified contractors to work with. In the current labor/contractor environment there are few incentives for contractors to do the work to become RRPM certified as they have more than enough work that does not require RRPM certification.

Cost - On a recent small project, the contractor estimated the cost of compliance to be $1068. These include overhead and base costs such as training and fees which may be duplicated in multiple states, hygiene facilities, and project paperwork including record keeping. Variable costs include materials for containment and other controls, additional labor to set up the containment and perform the task, possible additional disposal costs, and cleaning and clearance testing.

Logistics (also affecting cost) Access by the occupants may be impacted when work area interferes with their use of the home. They may need to be relocated while work is taking place. Workers may utilize less-desirable means of access to the work area, through a window for example.

Given the lack of code enforcement on a local or State level on lead mitigation in the single-family rehabilitation industry it creates an uneven playing field for those that are required to meet the requirements. If there were universal requirements applied to all work involving lead mitigation then the playing field would be even and contractors would get the required certification.

2023	0	We are pleased that our homebuyer education numbers are holding steady. The one-on-one counseling graph shows numbers for both pre-purchase and post-purchase households and the decline in numbers is because of a decline in post-purchase households needing housing stability counseling. This is a good sign in regards to post-Covid recovery. We are on target for new homeowners. Due to steady decline in funding for housing counseling we are only able to maintain a core-staff of 1.5 FTE HUD-certified counselors. We have worked at increasing our efficiencies but it does mean we are less responsive to either public health emergencies or natural disaster emergencies.

Annual Accomplishments

Year	# Benefiting	Accomplishment Narrative
2023		0As of this report we had 143 leads for our HOME and RENTAL Repair program (2022 we had 92 leads so we are seeing an increase in demand for this program). 7 single family (SF) home repair projects have been completed, 18 SF home repair projects are in-process for a total of 25 projects (goal is 22) with 12 potential SF home repair projects in the pipeline. We also have a potential rental repair project in the pipeline which has two units to be repaired, meeting our goal of two rental repair projects for SS-2022 (total SF/Rental done/in-process/potential is 39 units).

2024 0PR 2022 8 W Rutland 00083 10/1/2024-12/31/2024 Beneficiary Data 12

For this progress report, Jan. 1 to March 31, 2024 we were busy helping customers to complete their repair project while also continuing to get the word out about our program through social media and

advertising, and talking with partners and organizations.

As of this quarter, we had 406 leads for our HOME and RENTAL Repair program. 26 single family (SF) home repair projects have been completed (3 SF this quarter), 12 SF home repair projects are in-process for a total of 38 projects (goal is 43) with eight potential SF home repair projects in the pipeline. At this time we have (1) rental repair project in the pipeline (3 units total). (Total SF/Rental done/in-process/potential is 49 units, total goal is 47).

During the quarter, there were 2 workshops offered in St. Johnsbury with seven households represented. Eight additional households completed the E-home workshop. We provided 20 one-on-one financial counseling sessions during the quarter. Four homes were purchased, bringing $571,900.00 in homes sales for our service area.

Under this grant, we have 21 owner-occupied home repair projects completed. That puts us behind schedule, but we have 52 other households in various stages of the process, including 16 that are currently under construction. It seems like the bidding process and finding contractors is becoming slightly improved from previous months. We are hopeful to catch up in the next few months

Annual Accomplishments		Accomplishment Narrative
Year	# Benefiting	
2023	0	For the grant period of October 1 to December 31, 2023, the Windham & Windsor Housing Trust (WWHT) had 17 inquiries regarding the Green Mountain Home Repair program. WWHT received 7 complete eligibility applications. At the time of the report, we have 5 eligibility applications in review, 12 projects in construction and completed 7 projects from this quarter. We do have a few multi-family projects that make sense to do via a CDBG-burdened loan. We completed 1 single family rental home project this past quarter and currently have 1 multi-unit project in review and 1 multi-unit project in construction. We find that multi-unit projects are challenging to meet the guidelines of the CDBG program. This often means we have to turn them away because they are not eligible. Earlier this year we determined 2 separate multi-unit projects ineligible in the past few weeks due to their rents being over HUD FMR (within 10%). In one case the owner was retired on SS income and rental income. Her already very high debt ratio will not allow her the ability to afford to reduce her rent.

2024 0PR 2022 8 Brattleboro 00084 10/1/2024-12/31/2024 Beneficiary Data 7 Single, Rental 0

For the grant period of January 1 to March 31, 2024, the Windham & Windsor Housing Trust (WWHT) had 44 inquiries regarding the Green Mountain Home Repair program. WWHT received 8 complete eligibility applications. At the time of the report, we have 10 eligibility applications in review, 13 projects in construction and completed 2 projects from this quarter.

We received a strong interest in the program the first quarter of 2024. We continue to hear concerns about taking on debt, households are paying more monthly for general living expenses and caution about additional debt. Construction costs are up and we are seeing higher price tags on repairs, especially heating systems and roof replacements. Last year, we updated our GMHR policies to allow for higher loan amounts to combat these higher prices, however not all households feel like they can afford the cost of a higher loan.

Lead Mitigation Challenges: Windham & Windsor Housing Trusts Green Mountain Home Repair program is a proponent of lead-safe work practices, relevantly put forth is in Renovation, Repair, Painting and Maintenance (RRPM) Regulations. Among the challenges/ramifications of Lead-Safe Housing rule compliance are:

Lack of contractors The list of RRPM certified firms in Windham and Windsor Counties had 34 entities as of 4/17/2024, up only 1 in the previous month. Nine of those appear to be painting contractors, 5 are property management companies, 2 are agencies, 1 is an insulation contractor, and 7 can be described as large or upscale contractors. That leaves 10 with which we might possibly engage for general carpentry work. The RRPM-certified contractor we actually have a relationship with isnt on the list as they are from New Hampshire. We dont have enough lead certified contractors to work with. In the current labor/contractor environment there are few incentives for contractors to do the work to become RRPM certified as they have more than enough work that does not require RRPM certification.

Cost - On a recent small project, the contractor estimated the cost of compliance to be $1068. These include overhead and base costs such as training and fees which may be duplicated in multiple states, hygiene facilities, and project paperwork including record keeping. Variable costs include materials for containment and other controls, additional labor to set up the containment and perform the task, possible additional disposal costs, and cleaning and clearance testing.

Logistics (also affecting cost) Access by the occupants may be impacted when work area interferes with their use of the home. They may need to be relocated while work is taking place. Workers may utilize less-desirable means of access to the work area, through a window for example.

Given the lack of code enforcement on a local or State level on lead mitigation in the single-family rehabilitation industry it creates an uneven playing field for those that are required to meet the requirements. If there were universal requirements applied to all work involving lead mitigation then the playing field would be even and contractors would get the required certification.

2023	0	We are pleased that our homebuyer education numbers are holding steady. The one-on-one counseling graph shows numbers for both pre-purchase and post-purchase households and the decline in numbers is because of a decline in post-purchase households needing housing stability counseling. This is a good sign in regards to post-Covid recovery. We are on target for new homeowners. Due to steady decline in funding for housing counseling we are only able to maintain a core-staff of 1.5 FTE HUD-certified counselors. We have worked at increasing our efficiencies but it does mean we are less responsive to either public health emergencies or natural disaster emergencies.

Annual Accomplishments — Accomplishment Narrative

Year	# Benefiting	
2023		0As of this report we had 143 leads for our HOME and RENTAL Repair program (2022 we had 92 leads so we are seeing an increase in demand for this program). 7 single family (SF) home repair projects have been completed, 18 SF home repair projects are in-process for a total of 25 projects (goal is 22) with 12 potential SF home repair projects in the pipeline. We also have a potential rental repair project in the pipeline which has two units to be repaired, meeting our goal of two rental repair projects for SS-2022 (total SF/Rental done/in-process/potential is 39 units).

2024 0PR 2022 8 W Rutland 00083 10/1/2024-12/31/2024 Beneficiary Data 12

For this progress report, Jan. 1 to March 31, 2024 we were busy helping customers to complete their repair project while also continuing to get the word out about our program through social media and

advertising, and talking with partners and organizations.

As of this quarter, we had 406 leads for our HOME and RENTAL Repair program. 26 single family (SF) home repair projects have been completed (3 SF this quarter), 12 SF home repair projects are in-process for a total of 38 projects (goal is 43) with eight potential SF home repair projects in the pipeline. At this time we have (1) rental repair project in the pipeline (3 units total). (Total SF/Rental done/in-process/potential is 49 units, total goal is 47).

Under this grant, we have 21 owner-occupied home repair projects completed. That puts us behind schedule, but we have 52 other households in various stages of the process, including 16 that are currently under construction. It seems like the bidding process and finding contractors is becoming slightly improved from previous months. We are hopeful to catch up in the next few months

Annual Accomplishments		Accomplishment Narrative
Year	# Benefiting	
2023	0	For the grant period of October 1 to December 31, 2023, the Windham & Windsor Housing Trust (WWHT) had 17 inquiries regarding the Green Mountain Home Repair program. WWHT received 7 complete eligibility applications. At the time of the report, we have 5 eligibility applications in review, 12 projects in construction and completed 7 projects from this quarter. We do have a few multi-family projects that make sense to do via a CDBG-burdened loan. We completed 1 single family rental home project this past quarter and currently have 1 multi-unit project in review and 1 multi-unit project in construction. We find that multi-unit projects are challenging to meet the guidelines of the CDBG program. This often means we have to turn them away because they are not eligible. Earlier this year we determined 2 separate multi-unit projects ineligible in the past few weeks due to their rents being over HUD FMR (within 10%). In one case the owner was retired on SS income and rental income. Her already very high debt ratio will not allow her the ability to afford to reduce her rent.

2024 0PR 2022 8 Brattleboro 00084 10/1/2024-12/31/2024 Beneficiary Data 7 Single, Rental 0

For the grant period of January 1 to March 31, 2024, the Windham & Windsor Housing Trust (WWHT) had 44 inquiries regarding the Green Mountain Home Repair program. WWHT received 8 complete eligibility applications. At the time of the report, we have 10 eligibility applications in review, 13 projects in construction and completed 2 projects from this quarter.

We received a strong interest in the program the first quarter of 2024. We continue to hear concerns about taking on debt, households are paying more monthly for general living expenses and caution about additional debt. Construction costs are up and we are seeing higher price tags on repairs, especially heating systems and roof replacements. Last year, we updated our GMHR policies to allow for higher loan amounts to combat these higher prices, however not all households feel like they can afford the cost of a higher loan.

Lead Mitigation Challenges: Windham & Windsor Housing Trusts Green Mountain Home Repair program is a proponent of lead-safe work practices, relevantly put forth is in Renovation, Repair, Painting and Maintenance (RRPM) Regulations. Among the challenges/ramifications of Lead-Safe Housing rule compliance are:

Lack of contractors The list of RRPM certified firms in Windham and Windsor Counties had 34 entities as of 4/17/2024, up only 1 in the previous month. Nine of those appear to be painting contractors, 5 are property management companies, 2 are agencies, 1 is an insulation contractor, and 7 can be described as large or upscale contractors. That leaves 10 with which we might possibly engage for general carpentry work. The RRPM-certified contractor we actually have a relationship with isnt on the list as they are from New Hampshire. We dont have enough lead certified contractors to work with. In the current labor/contractor environment there are few incentives for contractors to do the work to become RRPM certified as they have more than enough work that does not require RRPM certification.

Cost - On a recent small project, the contractor estimated the cost of compliance to be $1068. These include overhead and base costs such as training and fees which may be duplicated in multiple states, hygiene facilities, and project paperwork including record keeping. Variable costs include materials for containment and other controls, additional labor to set up the containment and perform the task, possible additional disposal costs, and cleaning and clearance testing.

Logistics (also affecting cost) Access by the occupants may be impacted when work area interferes with their use of the home. They may need to be relocated while work is taking place. Workers may utilize less-desirable means of access to the work area, through a window for example.

Given the lack of code enforcement on a local or State level on lead mitigation in the single-family rehabilitation industry it creates an uneven playing field for those that are required to meet the requirements. If there were universal requirements applied to all work involving lead mitigation then the playing field would be even and contractors would get the required certification.

2023	0	We are pleased that our homebuyer education numbers are holding steady. The one-on-one counseling graph shows numbers for both pre-purchase and post-purchase households and the decline in numbers is because of a decline in post-purchase households needing housing stability counseling. This is a good sign in regards to post-Covid recovery. We are on target for new homeowners. Due to steady decline in funding for housing counseling we are only able to maintain a core-staff of 1.5 FTE HUD-certified counselors. We have worked at increasing our efficiencies but it does mean we are less responsive to either public health emergencies or natural disaster emergencies.

State CDBG Program Activity Summary Report
Program Year 2023
VERMONT

UGLG: BENNINGTON TOWN

Grant Year: 2016

Project: 0002 - Vermont CDBG

Objective: Create economic opportunities

IDIS Activity: 2135 - Bennington (4001, 4013)

Outcome: Sustainability

Activity to prevent, prepare for, and respond to Coronavirus: No

Status: Completed 02/26/2024

Matrix Code: CI Building Acquisition, Construction, Rehabilitation (17C)

Location:

101 South St Bennington, VT 05201-2246

National Objective: LMJ

Initial Funding Date: 01/28/2020

Financing:

Funded Amount: $950,000.00

Net Drawn: $950,000.00

Balance: $0.00

Description:

VCDP funds will go to Bennington County Industrial Corporation (BCIC) to acquire the property and program management for the redevelopment of the 4-acre Putnam Block Property located on South Street and Main Street in downtown Bennington.
The site is a brownfields site and will require environmental mitigation and renovation of the historic buildings that is being paid out of other resources.
The project anticipates creating 35 new FTE jobs in retail and services, with at least 28 of these jobs benefiting low and moderate income persons.
BCIC can only request $750,000 of the acquisition price to begin with and cannot draw any of the remaining $500,000 until jobs have been created.

Proposed Accomplishments:

Jobs : 35

Annual Accomplishments — Accomplishment Narrative

Year	# Benefiting	
2019	0	Accurate Beneficiary Data to be reported in PR 2016 6 Bennington 3/10/2022 js No data to report at this time. During this reporting period - Grant Compliance met. Grant offered 12/30/19, Grant Executed 1/27/2020 Project to be completed in Fall of 2020 js 4/20/20
2023	0	Actual Beneficiaries 35 FTEs Total Beneficiaries 57 make up the full time and Part time 35 Reported. only able to report 35 Full time Beneficiaries into IDIS. GEARS Record keeping has data reported for 57 FTEs. For Final Construction was completed in a prior reporting period. Tenant sourcing is ongoing for 5 unoccupied suites. There are 8 businesses operating in the three project buildings. A ninth business, the restaurant Union Underground South, is currently interviewing/hiring staff and expected to open before the end of the summer. We are anticipating the opening of the restaurant will put us above the proposed 28 LMI jobs. We have sent several emails to the businesses requesting beneficiary information over the past few months and have had minimal success. For example, the Visiting Nurses Association said they had 11 new hires since January 2023, but we have only received information from 1 employee. The final requisition for the remaining $100,000 will be submitted before the end of 2023.

2022	0	Construction on the project is completed. Tenant sourcing and tenant fit up is ongoing. This year 4 existing businesses have moved existing (retained) employees to the Putnam Block. 3 new businesses have located in the Putnam Block. We anticipate another new business, a restaurant, to complete its fit up and open this fall.
2021	0	$0.00

UGLG: Town of Burke

Grant Year: 2016

Project: 0007 - Goal: #8. Rental units rehabilitated

Objective: Provide decent affordable housing

IDIS Activity: 2322 - Burke (3001)

Outcome: Affordability

Activity to prevent, prepare for, and respond to Coronavirus: No

Status: Completed 04/04/2024

Matrix Code: Acquisition for Rehabilitation (14G)

Location:

28 Burkeland Ln West Burke, VT 05871-9057

National Objective: LMH

Initial Funding Date: 10/19/2022

Financing:

Funded Amount: $1,186.00

Net Drawn: $1,186.00

Balance: $0.00

Description:

Subgrant to Gilman Housing Trust (dba Rural Edge) to acquire and complete the rehabilitation of 15 units of affordable housing and the construction of a new 8-unit affordable rental building in the Village of West Burke.
All 23 units are affordable to households at or below 80% AMI.

Annual Accomplishments Accomplishment Narrative

Year	# Benefiting	
2023	0	Project construction was substantially completed on 9/30/22. Complete close-out is delayed due to outstanding ER items, specifically historic. Please see below for Architects update on historic approval from 4/25/23. We will need an extension on Grant Agreement. A quick update for HABS and closing out the VCDP grant.
2021	0	Substantial completion for the 54 South Main portion of the project was achieved in the Spring. Certain staff began occupying the building at that point and we opened for Day Shelter services in July. In September we began to operate as an overnight shelter as well. The 60 South Main phase is going well with the original structure demolished and the foundation walls in place. The fireplace we were seeking to preserve was undamaged during construction. We look forward to requisitioning funds shortly after submission of the progress report. We anticipate occupancy of 60 South Main in March of 2022 and will also complete any outstanding site work at that point as well.

2022	0	The project is complete and the final contractor pay app has been submitted. Outstanding items include: paying final invoices from consultants, satisfaction of outstanding environmental and zoning conditions, and scheduling of public hearing. The public hearing has not had a date set yet but will be held before June 30th, 2023. Services provided out of 54 South Main St. include a 34 bed overnight shelter (regularly at full capacity). Day Shelter space which regularly serves 50+ people a day (inclusive of those staying overnight). Services provided out of 60 So Main include offices for Case Management with approximately 100 clients served at any time as well as offices for the Healthworks multi-agency partnership. It is beginning enrollment in January and has a target case load of 100+ individuals. The project is on schedule as far as our revised schedule is concerned. The punch list is being worked on for 60 so Main and then final site work will happen and we expect a total completion by end of June at the latest.

2023	0	Project construction was substantially completed on 9/30/22. Complete close-out is delayed due to outstanding ER items, specifically historic. Please see below for Architects update on historic approval from 4/25/23. We will need an extension on Grant Agreement. A quick update for HABS and closing out the VCDP grant.
2021	0	Substantial completion for the 54 South Main portion of the project was achieved in the Spring. Certain staff began occupying the building at that point and we opened for Day Shelter services in July. In September we began to operate as an overnight shelter as well. The 60 South Main phase is going well with the original structure demolished and the foundation walls in place. The fireplace we were seeking to preserve was undamaged during construction. We look forward to requisitioning funds shortly after submission of the progress report. We anticipate occupancy of 60 South Main in March of 2022 and will also complete any outstanding site work at that point as well.

2022	0The project is complete and the final contractor pay app has been submitted. Outstanding items include: paying final invoices from consultants, satisfaction of outstanding environmental and zoning conditions, and scheduling of public hearing. The public hearing has not had a date set yet but will be held before June 30th, 2023. Services provided out of 54 South Main St. include a 34 bed overnight shelter (regularly at full capacity). Day Shelter space which regularly serves 50+ people a day (inclusive of those staying overnight). Annual Accomplishments — Accomplishment Narrative

Year	# Benefiting	
2021	0	The home repair program continues to remain busy, we received 12 new intakes this quarter and they are in various stages of processing. We have completed 42 repair projects and currently have 15 in various stages of completion. We are still experiencing delays related to materials and contractor availability. Now that we are in the throws of winter many of the outside projects are being postponed We have received 91 requests for repairs since January of 2019. We have awarded 45 households and have 24 that have been 100% completed. Many of the households requesting repairs have been under 50% AMI and unable to support a loan payment. Many of the repairs this quarter have been for roof replacements, other include windows, electrical repairs, and 2 households without water in need of drilled wells. There is still a backlog in some material availability and finding contractors who are available to even give estimates, this has hindered our ability to complete repairs in a reasonable time period. One of the repair loans we funded this quarter was for a household in Caledonia County who had gone without running water for 3 years.

2022	0	The home repair program continues to remain busy, we received 7 new intakes this quarter and they are in various stages of processing. We have completed 5 repair projects and currently have 14 in various stages of completion. We are still experiencing delays related to materials and contractor availability. Now that we are in the throws of winter many of the outside projects are being postponed until the spring. There are currently 9 intakes pending in the pipeline either waiting for Site Visits, additional documentation, or closings to take place. Many of the households applying for assistance over 62 on a fixed income and cannot support a loan payment. Many of these projects are large projects and require leveraged funding from other agencies.
2023	0	We have been working to get the repair projects in progress completed before the amended completion date of 6/30/2023. Out of the 18 projects that were pending and additional 5 were completed and 3 were closed as they had not been started, the grant funds have been returned to RLF funds and 3 remain opened waiting in process waiting for completion. This grant is closed and there are no new applications being taken. However we are working with homeowners to complete the projects in the pipeline. We have completed 64 projects and have 8 projects needing to be completed.
2019	0	$0.00
2020	0	$0.00

Year	# Benefiting	
2023	0	Project construction was substantially completed on 9/30/22. Complete close-out is delayed due to outstanding ER items, specifically historic. Please see below for Architects update on historic approval from 4/25/23. We will need an extension on Grant Agreement. A quick update for HABS and closing out the VCDP grant.
2021	0	Substantial completion for the 54 South Main portion of the project was achieved in the Spring. Certain staff began occupying the building at that point and we opened for Day Shelter services in July. In September we began to operate as an overnight shelter as well. The 60 South Main phase is going well with the original structure demolished and the foundation walls in place. The fireplace we were seeking to preserve was undamaged during construction. We look forward to requisitioning funds shortly after submission of the progress report. We anticipate occupancy of 60 South Main in March of 2022 and will also complete any outstanding site work at that point as well.

2022	0	The project is complete and the final contractor pay app has been submitted. Outstanding items include: paying final invoices from consultants, satisfaction of outstanding environmental and zoning conditions, and scheduling of public hearing. The public hearing has not had a date set yet but will be held before June 30th, 2023. Services provided out of 54 South Main St. include a 34 bed overnight shelter (regularly at full capacity). Day Shelter space which regularly serves 50+ people a day (inclusive of those staying overnight). Services provided out of 60 So Main include offices for Case Management with approximately 100 clients served at any time as well as offices for the Healthworks multi-agency partnership. It is beginning enrollment in January and has a target case load of 100+ individuals. The project is on schedule as far as our revised schedule is concerned. The punch list is being worked on for 60 so Main and then final site work will happen and we expect a total completion by end of June at the latest.

2021	0	In March competitive bids were opened on the project. The low bid was $993,000 over the project budget. This was largely a result of post-covid cost escalations in the heavy construction industry. A subsequent value engineering effort failed to close the cost gap. In the past few months MMHC has commissioned a new cost estimate, applied for additional funding through an EPA WIIN Grant, and landed on both Senator Sanders, and Leahy's Congressional Designated Spending funding lists. In addition further engineering is taking place to rebid the project this winter. Due to the project delay, this project will now be subject to new stormwater control regulations. Additional engineering and project costs will incurred as a result.

Year	# Benefiting	
2023	0	During this period, the project team executed a contract with Wright & Morrissey. In early June, the project team closed on NMTC financing! The groundbreaking celebration was somewhat delayed, due to the July 10 flooding. However, the site was not damaged. The groundbreaking was held on August 18th. The barn has been raised, a new foundation poured, and lowered back onto the new foundation. The septic tank was pulled, and the soils testing revealed higher levels of contaminants than expected. The project team worked with the state of Vermont to secure more brownfield funds to remove the contaminated soils. This is a state award with no match requirement. In the meantime, we will close out the existing brownfield grant. The subgrant from the Preservation Trust (Northeast Heritage Economy Partnership) was also closed out, and we are awaiting receipt of our requisition. Also during this period, the Center for an Agricultural Economy hired a Farm Connex delivery driver. The CAE worked with the DOL. The delivery driver started work 10.30.
2025	0	PR 2018 12 Hardwick 00187 Reporting Period 4/1/2025-9/30/2025 13 PR 2018 11 Hardwick 00184 10/1/2024-3/31/2025 PR 2018 13 Hardwick 00192 10/1/2025-3/31/2026

2024	0	Work is progressing at a very rapid pace. The Yellow Barn will roof and siding have been replaced, and a porch has been added to the south face of the building. The interior sheetrock and drywall are finished, and the Cabot's fit up work is commencing. We anticipate them to be able to move in some time in June. The construction team will install temporary switchgear to allow tenants to take occupancy.

Year	# Benefiting	
2021	0	The home repair program continues to remain busy, we received 12 new intakes this quarter and they are in various stages of processing. We have completed 42 repair projects and currently have 15 in various stages of completion. We are still experiencing delays related to materials and contractor availability. Now that we are in the throws of winter many of the outside projects are being postponed We have received 91 requests for repairs since January of 2019. We have awarded 45 households and have 24 that have been 100% completed. Many of the households requesting repairs have been under 50% AMI and unable to support a loan payment. Many of the repairs this quarter have been for roof replacements, other include windows, electrical repairs, and 2 households without water in need of drilled wells. There is still a backlog in some material availability and finding contractors who are available to even give estimates, this has hindered our ability to complete repairs in a reasonable time period. One of the repair loans we funded this quarter was for a household in Caledonia County who had gone without running water for 3 years.

2022	0	The home repair program continues to remain busy, we received 7 new intakes this quarter and they are in various stages of processing. We have completed 5 repair projects and currently have 14 in various stages of completion. We are still experiencing delays related to materials and contractor availability. Now that we are in the throws of winter many of the outside projects are being postponed until the spring. There are currently 9 intakes pending in the pipeline either waiting for Site Visits, additional documentation, or closings to take place. Many of the households applying for assistance over 62 on a fixed income and cannot support a loan payment. Many of these projects are large projects and require leveraged funding from other agencies.
2023	0	We have been working to get the repair projects in progress completed before the amended completion date of 6/30/2023. Out of the 18 projects that were pending and additional 5 were completed and 3 were closed as they had not been started, the grant funds have been returned to RLF funds and 3 remain opened waiting in process waiting for completion. This grant is closed and there are no new applications being taken. However we are working with homeowners to complete the projects in the pipeline. We have completed 64 projects and have 8 projects needing to be completed.

2021	0	Post-award, applicants' cost and payment documentation is uploaded and reviewed. Many applicants did not have cost documentation in hand and some had dozens of invoices to tabulate. Significant time was spent bringing the program online and assisting applicants. 127 businesses have been supported to date (including Round 1 of the program).

2022	0	This project involves making grants to sole proprietors. General Administration Activities included working with ACCD and BDCC to develop the program and materials, develop a web application portal, produce FAQs, and publicize the program. Program Management includes assisting applicants to register and apply for the program, and then working with the applicants to finalize their documentation, create subgrants, and process payments. Grant review included reviewing hundreds of documents, verifying DUNS numbers, and assisting applicants with submission. Post-award, applicants' cost and payment documentation is uploaded and reviewed. Many applicants did not have cost documentation in hand and some had dozens of invoices to tabulate. Significant time was spent bringing the program online and assisting applicants. 145 businesses have been supported to date (including Round 1 of the program). Please note there is a discrepancy of $675 between funds expended and funds drawn for the Business Assistance Grants line of our budget report for this period. Lago Rentals LLC was awarded $10,000, but we only drew $9,325 dollars for their award. The remainder of the $10,000 came from funds that were returned by another applicant (Elite Health & Wellness).

Annual Accomplishments Accomplishment Narrative

Year	# Benefiting	
2021	0	In March competitive bids were opened on the project. The low bid was $993,000 over the project budget. This was largely a result of post-covid cost escalations in the heavy construction industry. A subsequent value engineering effort failed to close the cost gap. In the past few months MMHC has commissioned a new cost estimate, applied for additional funding through an EPA WIIN Grant, and landed on both Senator Sanders, and Leahy's Congressional Designated Spending funding lists. In addition further engineering is taking place to rebid the project this winter. Due to the project delay, this project will now be subject to new stormwater control regulations. Additional engineering and project costs will incurred as a result.

Year	# Benefiting	
2022	0	A large portion of Light Up BF has been funded, but due to price increases since we submitted our application, replacements for some damaged parts since last year, expansion of outdoor investment area, and additional banners and signage for accessing and enjoying outdoor downtown and economic activities to remain safe in a pandemic like CoVID.
2021	0	Funds will be used to address social distancing requirements that will help prevent the spread of COVID-19 in the Downtown in response to COVID-19 Pandemic. The project is in an area-wide benefit community where the population of the Town of Rockingham is 56.49% LMI.

UGLG:

Grant Year: 2020

Project: 0006 - CDBG Goal Other

Objective:

IDIS Activity: 2234 - Westford (6012)

Outcome:

Activity to prevent, prepare for, and respond to Coronavirus: No

Status: Completed 04/16/2024

Matrix Code: Planning (20)

Location:

, -

National Objective:

Initial Funding Date: 07/27/2021

Financing:

Funded Amount: $43,090.00

Net Drawn: $43,090.00

Balance: $0.00

Description:

Grant to the Town to investigate how and to what degree it could be involved in the redevelopment of the Pigeon Property in the downtown Village Center.
The intent of the project is to do planning and predevelopment work to support public river access, public facility use, and 6-8 perpetually affordable homeownership units.
The property is a former gas station so there is contamination on site.
The scope of work will include a Commercial appraisal and determination of the waste-water capacity on the property.

Year # Benefiting

2022	0	Since the opening of the St. Albans Drop-In Center, just over one year ago, 202 youth have accessed services which is 72 more youth than the last reporting period. Of those accessing the space, 70.3% are under the age of 18, but in the past several months we have seen an increase in older youth (18-24) who we have connected to housing resources, help get ID and public benefits, and made connections to other social safety net programs. We have had a slight increase in pregnant and parenting youth that we have assisted in connection to local resources. To date, 1639 meals have been served, which is 579 more than the last reporting period. The community has continued to provide dinners through the MealTrain and we are often able to send leftovers home for weekend or next day meals. Most of the youth we serve are low-income and are experiencing food insecurities. In the afternoons we have continued to host a variety of activities geared toward engagement such as arts and crafts, games, and LEGO builds. We have engaged youth in the kitchen to teach valuable life skills. Recently we started using a mass texting platform to help inform youth about upcoming events. We have been tabling at BFA-St Albans to help bring awareness to youth about our services. Additionally, we have seen an increase in community partners, such as NCSS and DCF-FSD utilizing the space for meetings with youth. We are planning an LGBTQ+ Support Group with a local psychologist to start in May and a Summer Enrichment Program. The first requisition for funds is planned within the next quarter.

2023	0	The program is now in its third phase, which involves providing technical assistance/training to small businesses. The project team collaborated with ACCD to establish the structure of the assistance program . Through an RFP process, we selected 4 contractors who are tasked with providing various types of technical assistance to sole proprietors who apply to enter the program. Currently 35 businesses are receiving or have finished receiving technical assistance through the program.

2023	11,327	All HVAC improvements have been completed at The Space On Main. Since the first few enhancements were installed until now, The Space On Main has been able to host 11,327 people safely indoors. SOM continues to serve as a critical resource for those who choose to live in and visit our region. Located on Main Street in BradfordÃ¿Â¢Ã¿Â¿Ã¿Â¿s former HillÃ¿Â¢Ã¿Â¿Ã¿Â¿s 5 & 10 store, SOM is filled with a community of diverse entrepreneurs, remote workers, nonprofits, creatives, and students. More than just a coworking space, SOM brings opportunities to the community that are focused around creative economy, small business & entrepreneurship support, community & civic engagement, and technology & STEM education for all ages. We are strong proponents of local economic and community development and will continue to develop our partner network in order to bring additional regional, state, and federal resources to Main Street. Indoor events that the HVAC has let us continue offering includes youth STEM camps, artisan markets, community board game days, business planning courses, art gallery openings, job fairs, community music events, and more.

Year	# Benefiting	
2023	0	During this period, the project team executed a contract with Wright & Morrissey. In early June, the project team closed on NMTC financing! The groundbreaking celebration was somewhat delayed, due to the July 10 flooding. However, the site was not damaged. The groundbreaking was held on August 18th. The barn has been raised, a new foundation poured, and lowered back onto the new foundation. The septic tank was pulled, and the soils testing revealed higher levels of contaminants than expected. The project team worked with the state of Vermont to secure more brownfield funds to remove the contaminated soils. This is a state award with no match requirement. In the meantime, we will close out the existing brownfield grant. The subgrant from the Preservation Trust (Northeast Heritage Economy Partnership) was also closed out, and we are awaiting receipt of our requisition. Also during this period, the Center for an Agricultural Economy hired a Farm Connex delivery driver. The CAE worked with the DOL. The delivery driver started work 10.30.
2025	0	PR 2018 12 Hardwick 00187 Reporting Period 4/1/2025-9/30/2025 13 PR 2018 11 Hardwick 00184 10/1/2024-3/31/2025 PR 2018 13 Hardwick 00192 10/1/2025-3/31/2026

2024	0	Work is progressing at a very rapid pace. The Yellow Barn will roof and siding have been replaced, and a porch has been added to the south face of the building. The interior sheetrock and drywall are finished, and the Cabot's fit up work is commencing. We anticipate them to be able to move in some time in June. The construction team will install temporary switchgear to allow tenants to take occupancy.

Annual Accomplishments — Accomplishment Narrative

Year	# Benefiting	
2021	0	The home repair program continues to remain busy, we received 12 new intakes this quarter and they are in various stages of processing. We have completed 42 repair projects and currently have 15 in various stages of completion. We are still experiencing delays related to materials and contractor availability. Now that we are in the throws of winter many of the outside projects are being postponed We have received 91 requests for repairs since January of 2019. We have awarded 45 households and have 24 that have been 100% completed. Many of the households requesting repairs have been under 50% AMI and unable to support a loan payment. Many of the repairs this quarter have been for roof replacements, other include windows, electrical repairs, and 2 households without water in need of drilled wells. There is still a backlog in some material availability and finding contractors who are available to even give estimates, this has hindered our ability to complete repairs in a reasonable time period. One of the repair loans we funded this quarter was for a household in Caledonia County who had gone without running water for 3 years.

2022	0	The home repair program continues to remain busy, we received 7 new intakes this quarter and they are in various stages of processing. We have completed 5 repair projects and currently have 14 in various stages of completion. We are still experiencing delays related to materials and contractor availability. Now that we are in the throws of winter many of the outside projects are being postponed until the spring. There are currently 9 intakes pending in the pipeline either waiting for Site Visits, additional documentation, or closings to take place. Many of the households applying for assistance over 62 on a fixed income and cannot support a loan payment. Many of these projects are large projects and require leveraged funding from other agencies.
2023	0	We have been working to get the repair projects in progress completed before the amended completion date of 6/30/2023. Out of the 18 projects that were pending and additional 5 were completed and 3 were closed as they had not been started, the grant funds have been returned to RLF funds and 3 remain opened waiting in process waiting for completion. This grant is closed and there are no new applications being taken. However we are working with homeowners to complete the projects in the pipeline. We have completed 64 projects and have 8 projects needing to be completed.
2019	0	$0.00
2020	0	$0.00

UGLG: BRATTLEBORO TOWN

Grant Year: 2021

Project: 0012 - Goal 14: Overnight/Emergency Shelter/Transitional Housing Beds Added

Objective: Create suitable living environments

IDIS Activity: 2186 - Brattleboro (1021)

Outcome: Availability/accessibility

Activity to prevent, prepare for, and respond to Coronavirus: No

Status: Completed 02/26/2024

Matrix Code: Homeless Facilities (not operating costs) (03C)

Location:

60 S Main St Brattleboro, VT 05301-6300

National Objective: LMC

Initial Funding Date: 11/09/2020

Financing:

Funded Amount: $50,000.00

Net Drawn: $50,000.00

Balance: $0.00

Description:

Subgrant to Groundworks Collaborative to construct a multi-use facility at 54-60 South Main Street, Brattleboro, VT.
The project will create a permanent home for Brattleboro's seasonal overflow homeless shelter, day shelter drop-in center, and administrative office space to provide supportive services.

Annual Accomplishments		Accomplishment Narrative
Year	# Benefiting	
2023	0	Project construction was substantially completed on 9/30/22. Complete close-out is delayed due to outstanding ER items, specifically historic. Please see below for Architects update on historic approval from 4/25/23. We will need an extension on Grant Agreement. A quick update for HABS and closing out the VCDP grant.
2021	0	Substantial completion for the 54 South Main portion of the project was achieved in the Spring. Certain staff began occupying the building at that point and we opened for Day Shelter services in July. In September we began to operate as an overnight shelter as well. The 60 South Main phase is going well with the original structure demolished and the foundation walls in place. The fireplace we were seeking to preserve was undamaged during construction. We look forward to requisitioning funds shortly after submission of the progress report. We anticipate occupancy of 60 South Main in March of 2022 and will also complete any outstanding site work at that point as well.

2022	0	The project is complete and the final contractor pay app has been submitted. Outstanding items include: paying final invoices from consultants, satisfaction of outstanding environmental and zoning conditions, and scheduling of public hearing. The public hearing has not had a date set yet but will be held before June 30th, 2023. Services provided out of 54 South Main St. include a 34 bed overnight shelter (regularly at full capacity). Day Shelter space which regularly serves 50+ people a day (inclusive of those staying overnight). Services provided out of 60 So Main include offices for Case Management with approximately 100 clients served at any time as well as offices for the Healthworks multi-agency partnership. It is beginning enrollment in January and has a target case load of 100+ individuals. The project is on schedule as far as our revised schedule is concerned. The punch list is being worked on for 60 so Main and then final site work will happen and we expect a total completion by end of June at the latest.

Year	# Benefiting	
2021	0	In March competitive bids were opened on the project. The low bid was $993,000 over the project budget. This was largely a result of post-covid cost escalations in the heavy construction industry. A subsequent value engineering effort failed to close the cost gap. In the past few months MMHC has commissioned a new cost estimate, applied for additional funding through an EPA WIIN Grant, and landed on both Senator Sanders, and Leahy's Congressional Designated Spending funding lists. In addition further engineering is taking place to rebid the project this winter. Due to the project delay, this project will now be subject to new stormwater control regulations. Additional engineering and project costs will incurred as a result.

Annual Accomplishments — Accomplishment Narrative

Year	# Benefiting	
2023		0As of this report we had 143 leads for our HOME and RENTAL Repair program (2022 we had 92 leads so we are seeing an increase in demand for this program). 7 single family (SF) home repair projects have been completed, 18 SF home repair projects are in-process for a total of 25 projects (goal is 22) with 12 potential SF home repair projects in the pipeline. We also have a potential rental repair project in the pipeline which has two units to be repaired, meeting our goal of two rental repair projects for SS-2022 (total SF/Rental done/in-process/potential is 39 units).

2024 0PR 2022 8 W Rutland 00083 10/1/2024-12/31/2024 Beneficiary Data 12

For this progress report, Jan. 1 to March 31, 2024 we were busy helping customers to complete their repair project while also continuing to get the word out about our program through social media and

advertising, and talking with partners and organizations.

As of this quarter, we had 406 leads for our HOME and RENTAL Repair program. 26 single family (SF) home repair projects have been completed (3 SF this quarter), 12 SF home repair projects are in-process for a total of 38 projects (goal is 43) with eight potential SF home repair projects in the pipeline. At this time we have (1) rental repair project in the pipeline (3 units total). (Total SF/Rental done/in-process/potential is 49 units, total goal is 47).

During the quarter, there were 2 workshops offered in St. Johnsbury with seven households represented. Eight additional households completed the E-home workshop. We provided 20 one-on-one financial counseling sessions during the quarter. Four homes were purchased, bringing $571,900.00 in homes sales for our service area.

Under this grant, we have 21 owner-occupied home repair projects completed. That puts us behind schedule, but we have 52 other households in various stages of the process, including 16 that are currently under construction. It seems like the bidding process and finding contractors is becoming slightly improved from previous months. We are hopeful to catch up in the next few months

Annual Accomplishments		Accomplishment Narrative
Year	# Benefiting	
2023	0	For the grant period of October 1 to December 31, 2023, the Windham & Windsor Housing Trust (WWHT) had 17 inquiries regarding the Green Mountain Home Repair program. WWHT received 7 complete eligibility applications. At the time of the report, we have 5 eligibility applications in review, 12 projects in construction and completed 7 projects from this quarter. We do have a few multi-family projects that make sense to do via a CDBG-burdened loan. We completed 1 single family rental home project this past quarter and currently have 1 multi-unit project in review and 1 multi-unit project in construction. We find that multi-unit projects are challenging to meet the guidelines of the CDBG program. This often means we have to turn them away because they are not eligible. Earlier this year we determined 2 separate multi-unit projects ineligible in the past few weeks due to their rents being over HUD FMR (within 10%). In one case the owner was retired on SS income and rental income. Her already very high debt ratio will not allow her the ability to afford to reduce her rent.

2024 0PR 2022 8 Brattleboro 00084 10/1/2024-12/31/2024 Beneficiary Data 7 Single, Rental 0

For the grant period of January 1 to March 31, 2024, the Windham & Windsor Housing Trust (WWHT) had 44 inquiries regarding the Green Mountain Home Repair program. WWHT received 8 complete eligibility applications. At the time of the report, we have 10 eligibility applications in review, 13 projects in construction and completed 2 projects from this quarter.

We received a strong interest in the program the first quarter of 2024. We continue to hear concerns about taking on debt, households are paying more monthly for general living expenses and caution about additional debt. Construction costs are up and we are seeing higher price tags on repairs, especially heating systems and roof replacements. Last year, we updated our GMHR policies to allow for higher loan amounts to combat these higher prices, however not all households feel like they can afford the cost of a higher loan.

Lead Mitigation Challenges: Windham & Windsor Housing Trusts Green Mountain Home Repair program is a proponent of lead-safe work practices, relevantly put forth is in Renovation, Repair, Painting and Maintenance (RRPM) Regulations. Among the challenges/ramifications of Lead-Safe Housing rule compliance are:

Lack of contractors The list of RRPM certified firms in Windham and Windsor Counties had 34 entities as of 4/17/2024, up only 1 in the previous month. Nine of those appear to be painting contractors, 5 are property management companies, 2 are agencies, 1 is an insulation contractor, and 7 can be described as large or upscale contractors. That leaves 10 with which we might possibly engage for general carpentry work. The RRPM-certified contractor we actually have a relationship with isnt on the list as they are from New Hampshire. We dont have enough lead certified contractors to work with. In the current labor/contractor environment there are few incentives for contractors to do the work to become RRPM certified as they have more than enough work that does not require RRPM certification.

Cost - On a recent small project, the contractor estimated the cost of compliance to be $1068. These include overhead and base costs such as training and fees which may be duplicated in multiple states, hygiene facilities, and project paperwork including record keeping. Variable costs include materials for containment and other controls, additional labor to set up the containment and perform the task, possible additional disposal costs, and cleaning and clearance testing.

Logistics (also affecting cost) Access by the occupants may be impacted when work area interferes with their use of the home. They may need to be relocated while work is taking place. Workers may utilize less-desirable means of access to the work area, through a window for example.

Given the lack of code enforcement on a local or State level on lead mitigation in the single-family rehabilitation industry it creates an uneven playing field for those that are required to meet the requirements. If there were universal requirements applied to all work involving lead mitigation then the playing field would be even and contractors would get the required certification.

2023	0	We are pleased that our homebuyer education numbers are holding steady. The one-on-one counseling graph shows numbers for both pre-purchase and post-purchase households and the decline in numbers is because of a decline in post-purchase households needing housing stability counseling. This is a good sign in regards to post-Covid recovery. We are on target for new homeowners. Due to steady decline in funding for housing counseling we are only able to maintain a core-staff of 1.5 FTE HUD-certified counselors. We have worked at increasing our efficiencies but it does mean we are less responsive to either public health emergencies or natural disaster emergencies.

Year	# Benefiting	
2023		0As of this report we had 143 leads for our HOME and RENTAL Repair program (2022 we had 92 leads so we are seeing an increase in demand for this program). 7 single family (SF) home repair projects have been completed, 18 SF home repair projects are in-process for a total of 25 projects (goal is 22) with 12 potential SF home repair projects in the pipeline. We also have a potential rental repair project in the pipeline which has two units to be repaired, meeting our goal of two rental repair projects for SS-2022 (total SF/Rental done/in-process/potential is 39 units).

2024	0PR 2022 8 W Rutland 00083 10/1/2024-12/31/2024 Beneficiary Data 12 For this progress report, Jan. 1 to March 31, 2024 we were busy helping customers to complete their repair project while also continuing to get the word out about our program through social media and advertising, and talking with partners and organizations. As of this quarter, we had 406 leads for our HOME and RENTAL Repair program. 26 single family (SF) home repair projects have been completed (3 SF this quarter), 12 SF home repair projects are in-process for a total of 38 projects (goal is 43) with eight potential SF home repair projects in the pipeline. At this time we have (1) rental repair project in the pipeline (3 units total). (Total SF/Rental done/in-process/potential is 49 units, total goal is 47).

During the quarter, there were 2 workshops offered in St. Johnsbury with seven households represented. Eight additional households completed the E-home workshop. We provided 20 one-on-one financial counseling sessions during the quarter. Four homes were purchased, bringing $571,900.00 in homes sales for our service area.

Under this grant, we have 21 owner-occupied home repair projects completed. That puts us behind schedule, but we have 52 other households in various stages of the process, including 16 that are currently under construction. It seems like the bidding process and finding contractors is becoming slightly improved from previous months. We are hopeful to catch up in the next few months

Annual Accomplishments		Accomplishment Narrative
Year	# Benefiting	
2023	0	For the grant period of October 1 to December 31, 2023, the Windham & Windsor Housing Trust (WWHT) had 17 inquiries regarding the Green Mountain Home Repair program. WWHT received 7 complete eligibility applications. At the time of the report, we have 5 eligibility applications in review, 12 projects in construction and completed 7 projects from this quarter. We do have a few multi-family projects that make sense to do via a CDBG-burdened loan. We completed 1 single family rental home project this past quarter and currently have 1 multi-unit project in review and 1 multi-unit project in construction. We find that multi-unit projects are challenging to meet the guidelines of the CDBG program. This often means we have to turn them away because they are not eligible. Earlier this year we determined 2 separate multi-unit projects ineligible in the past few weeks due to their rents being over HUD FMR (within 10%). In one case the owner was retired on SS income and rental income. Her already very high debt ratio will not allow her the ability to afford to reduce her rent.

2024 0PR 2022 8 Brattleboro 00084 10/1/2024-12/31/2024 Beneficiary Data 7 Single, Rental 0

For the grant period of January 1 to March 31, 2024, the Windham & Windsor Housing Trust (WWHT) had 44 inquiries regarding the Green Mountain Home Repair program. WWHT received 8 complete eligibility applications. At the time of the report, we have 10 eligibility applications in review, 13 projects in construction and completed 2 projects from this quarter.

We received a strong interest in the program the first quarter of 2024. We continue to hear concerns about taking on debt, households are paying more monthly for general living expenses and caution about additional debt. Construction costs are up and we are seeing higher price tags on repairs, especially heating systems and roof replacements. Last year, we updated our GMHR policies to allow for higher loan amounts to combat these higher prices, however not all households feel like they can afford the cost of a higher loan.

Lead Mitigation Challenges: Windham & Windsor Housing Trusts Green Mountain Home Repair program is a proponent of lead-safe work practices, relevantly put forth is in Renovation, Repair, Painting and Maintenance (RRPM) Regulations. Among the challenges/ramifications of Lead-Safe Housing rule compliance are:

Lack of contractors The list of RRPM certified firms in Windham and Windsor Counties had 34 entities as of 4/17/2024, up only 1 in the previous month. Nine of those appear to be painting contractors, 5 are property management companies, 2 are agencies, 1 is an insulation contractor, and 7 can be described as large or upscale contractors. That leaves 10 with which we might possibly engage for general carpentry work. The RRPM-certified contractor we actually have a relationship with isnt on the list as they are from New Hampshire. We dont have enough lead certified contractors to work with. In the current labor/contractor environment there are few incentives for contractors to do the work to become RRPM certified as they have more than enough work that does not require RRPM certification.

Cost - On a recent small project, the contractor estimated the cost of compliance to be $1068. These include overhead and base costs such as training and fees which may be duplicated in multiple states, hygiene facilities, and project paperwork including record keeping. Variable costs include materials for containment and other controls, additional labor to set up the containment and perform the task, possible additional disposal costs, and cleaning and clearance testing.

Logistics (also affecting cost) Access by the occupants may be impacted when work area interferes with their use of the home. They may need to be relocated while work is taking place. Workers may utilize less-desirable means of access to the work area, through a window for example.

Given the lack of code enforcement on a local or State level on lead mitigation in the single-family rehabilitation industry it creates an uneven playing field for those that are required to meet the requirements. If there were universal requirements applied to all work involving lead mitigation then the playing field would be even and contractors would get the required certification.

2023	0	We are pleased that our homebuyer education numbers are holding steady. The one-on-one counseling graph shows numbers for both pre-purchase and post-purchase households and the decline in numbers is because of a decline in post-purchase households needing housing stability counseling. This is a good sign in regards to post-Covid recovery. We are on target for new homeowners. Due to steady decline in funding for housing counseling we are only able to maintain a core-staff of 1.5 FTE HUD-certified counselors. We have worked at increasing our efficiencies but it does mean we are less responsive to either public health emergencies or natural disaster emergencies.

Year	# Benefiting	
2023		0As of this report we had 143 leads for our HOME and RENTAL Repair program (2022 we had 92 leads so we are seeing an increase in demand for this program). 7 single family (SF) home repair projects have been completed, 18 SF home repair projects are in-process for a total of 25 projects (goal is 22) with 12 potential SF home repair projects in the pipeline. We also have a potential rental repair project in the pipeline which has two units to be repaired, meeting our goal of two rental repair projects for SS-2022 (total SF/Rental done/in-process/potential is 39 units).

2024	0PR 2022 8 W Rutland 00083 10/1/2024-12/31/2024 Beneficiary Data 12 For this progress report, Jan. 1 to March 31, 2024 we were busy helping customers to complete their repair project while also continuing to get the word out about our program through social media and advertising, and talking with partners and organizations. As of this quarter, we had 406 leads for our HOME and RENTAL Repair program. 26 single family (SF) home repair projects have been completed (3 SF this quarter), 12 SF home repair projects are in-process for a total of 38 projects (goal is 43) with eight potential SF home repair projects in the pipeline. At this time we have (1) rental repair project in the pipeline (3 units total). (Total SF/Rental done/in-process/potential is 49 units, total goal is 47).

Under this grant, we have 21 owner-occupied home repair projects completed. That puts us behind schedule, but we have 52 other households in various stages of the process, including 16 that are currently under construction. It seems like the bidding process and finding contractors is becoming slightly improved from previous months. We are hopeful to catch up in the next few months

Annual Accomplishments		Accomplishment Narrative
Year	# Benefiting	
2023	0	For the grant period of October 1 to December 31, 2023, the Windham & Windsor Housing Trust (WWHT) had 17 inquiries regarding the Green Mountain Home Repair program. WWHT received 7 complete eligibility applications. At the time of the report, we have 5 eligibility applications in review, 12 projects in construction and completed 7 projects from this quarter. We do have a few multi-family projects that make sense to do via a CDBG-burdened loan. We completed 1 single family rental home project this past quarter and currently have 1 multi-unit project in review and 1 multi-unit project in construction. We find that multi-unit projects are challenging to meet the guidelines of the CDBG program. This often means we have to turn them away because they are not eligible. Earlier this year we determined 2 separate multi-unit projects ineligible in the past few weeks due to their rents being over HUD FMR (within 10%). In one case the owner was retired on SS income and rental income. Her already very high debt ratio will not allow her the ability to afford to reduce her rent.

2024 0PR 2022 8 Brattleboro 00084 10/1/2024-12/31/2024 Beneficiary Data 7 Single, Rental 0

For the grant period of January 1 to March 31, 2024, the Windham & Windsor Housing Trust (WWHT) had 44 inquiries regarding the Green Mountain Home Repair program. WWHT received 8 complete eligibility applications. At the time of the report, we have 10 eligibility applications in review, 13 projects in construction and completed 2 projects from this quarter.

We received a strong interest in the program the first quarter of 2024. We continue to hear concerns about taking on debt, households are paying more monthly for general living expenses and caution about additional debt. Construction costs are up and we are seeing higher price tags on repairs, especially heating systems and roof replacements. Last year, we updated our GMHR policies to allow for higher loan amounts to combat these higher prices, however not all households feel like they can afford the cost of a higher loan.

Lead Mitigation Challenges: Windham & Windsor Housing Trusts Green Mountain Home Repair program is a proponent of lead-safe work practices, relevantly put forth is in Renovation, Repair, Painting and Maintenance (RRPM) Regulations. Among the challenges/ramifications of Lead-Safe Housing rule compliance are:

Lack of contractors The list of RRPM certified firms in Windham and Windsor Counties had 34 entities as of 4/17/2024, up only 1 in the previous month. Nine of those appear to be painting contractors, 5 are property management companies, 2 are agencies, 1 is an insulation contractor, and 7 can be described as large or upscale contractors. That leaves 10 with which we might possibly engage for general carpentry work. The RRPM-certified contractor we actually have a relationship with isnt on the list as they are from New Hampshire. We dont have enough lead certified contractors to work with. In the current labor/contractor environment there are few incentives for contractors to do the work to become RRPM certified as they have more than enough work that does not require RRPM certification.

Cost - On a recent small project, the contractor estimated the cost of compliance to be $1068. These include overhead and base costs such as training and fees which may be duplicated in multiple states, hygiene facilities, and project paperwork including record keeping. Variable costs include materials for containment and other controls, additional labor to set up the containment and perform the task, possible additional disposal costs, and cleaning and clearance testing.

Logistics (also affecting cost) Access by the occupants may be impacted when work area interferes with their use of the home. They may need to be relocated while work is taking place. Workers may utilize less-desirable means of access to the work area, through a window for example.

Given the lack of code enforcement on a local or State level on lead mitigation in the single-family rehabilitation industry it creates an uneven playing field for those that are required to meet the requirements. If there were universal requirements applied to all work involving lead mitigation then the playing field would be even and contractors would get the required certification.

2023	0	We are pleased that our homebuyer education numbers are holding steady. The one-on-one counseling graph shows numbers for both pre-purchase and post-purchase households and the decline in numbers is because of a decline in post-purchase households needing housing stability counseling. This is a good sign in regards to post-Covid recovery. We are on target for new homeowners. Due to steady decline in funding for housing counseling we are only able to maintain a core-staff of 1.5 FTE HUD-certified counselors. We have worked at increasing our efficiencies but it does mean we are less responsive to either public health emergencies or natural disaster emergencies.

Annual Accomplishments Accomplishment Narrative

Year # Benefiting

2022	0	Our Bennington Rental Rehab project completed (3) rental unit repairs during this quarter from Jan 1 to June 30, 2022. 4 units were completed in 2018 and continue to be occupied; 4-unit Union Street property has been completed and occupied. 3-unit 119 Grandview is now completed and occupied for a total of 11-units completed towards our goal of 13-units. An amendment was submitted and approved extending the completion date until 9/30/2022. Performance measures were modified from 22 units to 13 units (2 units to do). Due to the impact of the CRF Re-Housing Recovery/VHIP program offering up to $30,000 per unit for repairs, our grants per unit were increased from $7000 to $20,000 which decreased the number of units we could complete with the remaining funding. As of this report, 9 Browning Place (2-units) is complete and we are collecting the final project documents and tenant information. The landlord will document a 10% match prior to any grant funding being released for each project and the landlord will be paying out of pocket for any expenses beyond 10% match and grants. At least 51% of rental units for each building will be occupied by at or below 80% AMI and 100% of units to be rented at HUD Fair Market Rent for the area for five years. Completed (11-units) and in-progress (2-units) rental rehabs total 13-units towards our program goal of 13. In August we will submit our final invoice and final report, closing out our Bennington Rental Repair Program SS-2015.
2021	0	Our Bennington Rental Rehab project did complete 4 rental unit repairs (1-building) from Jan 1 to June 30, 2021. 4 units were completed in 2018 and continue to be occupied; the 4-unit Union Street property has been completed during this reporting period for a total of 8-units completed.

Year # Benefiting

2022	0	Our Bennington Rental Rehab project completed (3) rental unit repairs during this quarter from Jan 1 to June 30, 2022. 4 units were completed in 2018 and continue to be occupied; 4-unit Union Street property has been completed and occupied. 3-unit 119 Grandview is now completed and occupied for a total of 11-units completed towards our goal of 13-units. An amendment was submitted and approved extending the completion date until 9/30/2022. Performance measures were modified from 22 units to 13 units (2 units to do). Due to the impact of the CRF Re-Housing Recovery/VHIP program offering up to $30,000 per unit for repairs, our grants per unit were increased from $7000 to $20,000 which decreased the number of units we could complete with the remaining funding. As of this report, 9 Browning Place (2-units) is complete and we are collecting the final project documents and tenant information. The landlord will document a 10% match prior to any grant funding being released for each project and the landlord will be paying out of pocket for any expenses beyond 10% match and grants. At least 51% of rental units for each building will be occupied by at or below 80% AMI and 100% of units to be rented at HUD Fair Market Rent for the area for five years. Completed (11-units) and in-progress (2-units) rental rehabs total 13-units towards our program goal of 13. In August we will submit our final invoice and final report, closing out our Bennington Rental Repair Program SS-2015.
2021	0	Our Bennington Rental Rehab project did complete 4 rental unit repairs (1-building) from Jan 1 to June 30, 2021. 4 units were completed in 2018 and continue to be occupied; the 4-unit Union Street property has been completed during this reporting period for a total of 8-units completed.

Annual Accomplishments — Accomplishment Narrative

Year	# Benefiting	
2021	0	The substantial completion date for this project was in October of 2020. the project was fully leased by December 31, 2021. This project was awarded the Best of the Best award this year at the Better Building by Design conference for its innovation and strong energy efficiency goals. The envelopes of the buildings performed at better than passive house standards and electric heat was utilized project wide avoiding the use of fossil fuels on site. Over the life of the project we anticipate this will save thousands operationally in heating and the cost of domestic hot water. A portion of the contingency retained was utilized to install PV units on the roof of each building to offset the cost of electricity which will result in a more affordable project overall for the residents as well as management. All residents have access to the Lake via a dedicated trail and will enjoy access to recreation opportunities. We will also be incorporating community gardens and a greenhouse this summer.

Year	# Benefiting	
2022	0	The final phase of the Vermont Foodbank's Barre facility renovation is ongoing. Much of the old office and warehouse space has been demolished and/or gutted, and the rehabilitation of those spaces is underway, with a planned completion of late fall 2022. A new roof will be added to the structure, along with new conference rooms, an open office and volunteer area, warehouse racking, etc. A temporary facility has been rented at 780 East Barre Road to house office staff and nonperishable food goods for distribution. The cold storage space at 33 Parker Road will continue to be used throughout the duration of the renovation. Barre Town has previously requisitioned the whole sum of $150,000 and has issued the funds to the Vermont Foodbank for reimbursement of accrued program management expenses

Annual Accomplishments		Accomplishment Narrative
Year	# Benefiting	
2021	0	Currently, the project right on schedule with 48 completed residential rehab projects, which is about 70% of our overall benchmark goal. The benchmark goal is 68 single-family units, and eight rental units. We are still finding it to be a challenge to find interested landlords in the program. We wrapped up the Re-Housing Recovery program this quarter, which allowed grant funding up to $30,000 for landlords to bring vacant rental units back into use. We expect to have more information soon about a similar program starting in 2022, the Vermont Housing Investment Program. Currently, the project is right on schedule with 36 completed residential rehab projects, which is about 78% of our overall benchmark goal. The benchmark goal is 46 single family units, and four rental units. We are still having trouble recruiting eligible rental units.

2022	0	Currently, the project right on schedule with 55 completed residential rehab projects, which is about 80% of our overall benchmark goal. The benchmark goal is 68 single-family units, and eight rental units. We are still finding it to be a challenge to find interested landlords in the program. We did have one application from the owner of a duplex in Winooski, but unfortunately, they were slightly over income. We had one household that received a grant for home repairs, which was a very challenging situation. They own a mobile home in Colchester, and the floor in the bathroom had been failing for quite some time. They had a friend visit just before Christmas, and the person fell through the floor. Thankfully, they found a contractor that was willing to do the work on short notice. The project cost around $3,600, but they did not have the capacity to borrow any funds. They work with a social worker regularly, had a lot of trouble with paperwork, but this home is very affordable to them

Year	# Benefiting	
2021		0he construction of 18 units of project voucher and tax credit housing has been completed. The building opened in August of 2021 and was fully occupied by December 1, 2021. The primary purpose was as a relocation for remaining residents at Melrose Terrace. This property had been badly damaged in TS Irene and was located in a flood plain and way. The relocation of the residents completed in October of 2021 to this new building meant that Melrose Terrace was empty and could now be disposed of according to agreements between the Brattleboro Housing Authority and HUD.

Year	# Benefiting	
2021	0	The new construction of one building with 17 apartments at 21-61 Wentworth Way and one building with 4 apartments at 1965 Hartford Avenue are complete and finished on schedule and on budget. As of 9/30/21, 17 of 21 apartments have been occupied. The remaining 4 apartments will be occupied in October 2021. Such a fantastic project! Great team of architects, engineers, contractors, funders and owners. The project included installation of a large solar array on the roof at WWII that will offset the electric usage of the HVAC and DHW systems. The building is connected to the first phase by site amenities and a parklet that provides a meeting area for the residents. We'll install planters and playground equipment next spring. A basketball hoop, hopscotch and four square along with grills and picnic tables will add to the social infrastructure. A beautiful metal sculpture was installed on the stair enclosure in Wilder and brings life and texture to the building and lets tenants know that we care about our communities. All VCDP funds have been drawn for this project.

2022	0The new construction of one building with 17 apartments at 21-61 Wentworth Way and one building with 4 apartments at 1965 Hartford Avenue are complete and finished on schedule and on budget. This was a very successful project with a great team of architects, engineers, contractors, funders and owners. The project included installation of install a large solar array on the roof at WWII that will offset the electric usage of the HVAC and DHW systems . The building is connected to the first phase by site amenities and a parklet that provides a meeting area for the residents. Planters and playground equipment will be installed this spring. A basketball hoop, hopscotch and four square along with grills and picnic tables add to the social infrastructure. A beautiful metal sculpture was installed on the stair enclosure in Wilder and brings life and texture to the building and lets tenants know that we care about our communities. All VCDP funds and other project sources have been drawn for this project. WCH2 LP has budgeted $48,000 of other resources for playground equipment, community gardens, and site amenities. These purchases will be completed by June 1, 2022. All 21 apartments are occupied. The project closeout hearing was held on 4/19/22 at the Hartford Town Hall and via Zoom.

2022	0	The grant term has ended and Leader Evaporator has successfully retained 50 jobs with an additional 8 new jobs created. Overall Leader Evaporator employs 58 individuals. To date only $900,000 of the $1 million CDBG funds were drawn. Of that $900,000 loaned to Leader, $800,000 was forgiven to assist in the sale of Leader Evaporator to H20 Innovation. The remaining $100,000 has been repaid with $50,000 going to the State and $50,000 to be retained by the Town to be used as a Revolving Loan Fund. Leader was acquired H2O Innovation. Leader will continue to operate in Swanton under the Leader name. H2O has moved their regional headquarters into the Leader facility and has already begun to diversify production in Swanton and plan to ultimately add at least one additional shift.

Annual Accomplishments		Accomplishment Narrative
Year	# Benefiting	
2021	0	Currently, the project right on schedule with 48 completed residential rehab projects, which is about 70% of our overall benchmark goal. The benchmark goal is 68 single-family units, and eight rental units. We are still finding it to be a challenge to find interested landlords in the program. We wrapped up the Re-Housing Recovery program this quarter, which allowed grant funding up to $30,000 for landlords to bring vacant rental units back into use. We expect to have more information soon about a similar program starting in 2022, the Vermont Housing Investment Program. Currently, the project is right on schedule with 36 completed residential rehab projects, which is about 78% of our overall benchmark goal. The benchmark goal is 46 single family units, and four rental units. We are still having trouble recruiting eligible rental units.

2022	0	Currently, the project right on schedule with 55 completed residential rehab projects, which is about 80% of our overall benchmark goal. The benchmark goal is 68 single-family units, and eight rental units. We are still finding it to be a challenge to find interested landlords in the program. We did have one application from the owner of a duplex in Winooski, but unfortunately, they were slightly over income. We had one household that received a grant for home repairs, which was a very challenging situation. They own a mobile home in Colchester, and the floor in the bathroom had been failing for quite some time. They had a friend visit just before Christmas, and the person fell through the floor. Thankfully, they found a contractor that was willing to do the work on short notice. The project cost around $3,600, but they did not have the capacity to borrow any funds. They work with a social worker regularly, had a lot of trouble with paperwork, but this home is very affordable to them

Year	# Benefiting	
2022	0	The project was completed on schedule and as proposed. The necessary renovations are finished. The final contractor invoice was received on July 29, 2022, and has been paid. The expanded childcare license was secured by Almond Blossoms Schoolhouse, raising capacity to 57 children. The owner recently disclosed that they are now fully staffed. With the support of VCDP funding, this project has expanded child care options in the region.

UGLG: ST. ALBANS C.

Grant Year: 2020

Project: 0011 - CDBG Goal 21: Buildings Demolished

Objective: Create suitable living environments

IDIS Activity: 2198 - St. Albans (1016)

Outcome: Sustainability

Activity to prevent, prepare for, and respond to Coronavirus: No

Status: Completed 02/02/2023

Matrix Code: Clearance and Demolition (04)

Location:

235 Lake St St Albans, VT 05478-2221

National Objective: LMC

Initial Funding Date: 01/06/2021

Financing:

Funded Amount: $6,800.00

Net Drawn: $6,800.00

Balance: $0.00

Description:

Demolition of a building on the parcel for the Almond Blossoms Schoolhouse Renovation project.

Annual Accomplishments Accomplishment Narrative

Year	# Benefiting	
2022	0	The grant term has ended and Leader Evaporator has successfully retained 50 jobs with an additional 8 new jobs created. Overall Leader Evaporator employs 58 individuals. To date only $900,000 of the $1 million CDBG funds were drawn. Of that $900,000 loaned to Leader, $800,000 was forgiven to assist in the sale of Leader Evaporator to H20 Innovation. The remaining $100,000 has been repaid with $50,000 going to the State and $50,000 to be retained by the Town to be used as a Revolving Loan Fund. Leader was acquired H2O Innovation. Leader will continue to operate in Swanton under the Leader name. H2O has moved their regional headquarters into the Leader facility and has already begun to diversify production in Swanton and plan to ultimately add at least one additional shift.

2022	01. The fifth and final cohort of 11 trainees commenced their LNA training in January 2022. This group has completed their theory and in-person skills training and will commence their 32 hours of paid clinical training early in April 2022, at Ethan Allen Residence. Currently, there are 6 students in this group; four have not been able to master the materials, as their English language skills were not adequate and one student had to leave the training program on account of a major automobile accident. 2. On January 22, 2022, nine (9) students in Cohort 4, who commenced their LNA training in October 2021, completed their 32 hours of paid clinical training at Cathedral Square and are waiting to take their LNA exams. 3. During the quarter under review, 7 students in Cohort 3 who had to interrupt their clinical training on two separate occasions, one on account of COVID-19 positive tests on the part of a few residents at The Residence at Shelburne Bay, were able to complete their 32-hours of paid clinicals. This group of students too, are waiting to take their LNA exams. 4. Prometric, the new vendor with whom the state of Vermont has contracted to administer the LNA test, is still not yet geared up to do so. As a consequence, students who have completed the online theory, in-person lab skills and 32 hours of clinicals, do not yet have an opportunity to register to sit for their LNA exams and obtain their certification. While the state has granted temporary LNA licenses to students (to work) based on instructorsÃ¿Â¿Ã¿Â¢Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿ recommendations, the current state of affairs remains untenable. Specifically, the months-long delay in testing risk loss of knowledge on the part of students, most of whom are not native English language speakers. It seems evident that some type of re-fresher training course will have to be offered to the approximately 20 students (comprised of students who have not yet taken the LNA test and a few who would need to re-sit either the theory or practical portion of the exam).
2021	0The LNA Workforce Training program (aka Moving On, Moving Up), aims to train approximately 35 persons from Burlingto underserved populations and persons recently unemployed on account of the pandemic, to become Licensed Nursing Assistants (LNAs). The Vermont Department of Labor (VDoL) has recently committed additional funding ($40,000) which will increase the number of trainees in the program to 43 persons. It is anticipated that successful graduates of this 10-week training program will take up higher-paying skilled technical jobs at the University of Vermont Medical Center (UVMMC) and at two of Burlington assisted/long-term care facilities, namely, Cathedral Square and Ethan Allen Residence. The program will be delivered in five separate cohorts each of 6-8 students in the first three cohorts and 12 students each in the remaining two cohorts, over a twelve-month period.

Year	# Benefiting	
2021	0	The Daytime Warming Center opened to guests on January 19th, 2021 and operated through the winter, until April 25th, 2021. The Daytime Warming Center welcomed 621 unduplicated individuals during its time of operation, recording some 2742 daily visits. All service users were low/moderate income. In the application for funding the estimated need was put at 50 individuals. A total of 44 individuals were assisted to enter the Homeless Management Information System, used in Chittenden County to access the Coordinated Entry system for permanent housing. Referrals to Shelter services or overnight accommodation were made on 121 occasions. Referrals to other services, including Safe Harbor medical clinic, tax preparation assistance, housing advocacy, access to identity documents, and legal advice were given to 272 individuals. The Daytime Warming Center operations were developed in consultation with Vermont Dept of Health to ensure that it functioned in a COVID safe manner, to prevent the spread of COVID-19. The Daytime Warming Center provided regular onsite access for COVID - 19 testing and also vaccination clinics through a partnership with Safe Harbor Clinic, a trusted partner of community members experiencing homelessness.

Year # Benefiting

2022	0	The construction of the project is complete at this time. All units are occupied . There are very few items that we will add to the project in the spring when the ground is not frozen (bike racks, benches etc.). The Rutland Mental Health employee assigned to LP is on site and working with the residents, additionally a member from Homeless Prevention Center is commonly on site. We have received an approved Part 3 back from National Park Service regarding Historic Preservation of the building. Overall the project is very successful thus farÃ¿Â¢Ã¿Â¿Ã¿Â¿ the community that is being formed among the residents is wonderful. They are all coming together to help one another, take ownership of their new home and some have already reported to our staff that they are seeing an improvement in their mental health. The next requisition will be May 10. The closeout is expected for June 30, 2022 and the schedule is attached.

Year # Benefiting

2021	0Over this 5th quarter, key activities include: Continued support to a total of 8 current project recipients, including 1 eldercare facility, 3 childcare spaces, 3 community support entities, and 1 small business. Of these, 4 have completed contractor work while the remainder wait to have the scheduled work completed and remaining invoicing completed. Continual bi-monthly coordination meetings between the Burlington Electric Department, Community and Economic Development Office, and CX Associates (the programÃ¢Â¿Â¿s technical contractor) to review overall program progress, address specific property issues, and troubleshoot as needed, and progress on the programÃ¢Â¿Â¿s key administrative steps, including as to whether: 1) the VIPÃ¢Â¿Â¿s technical contractor completed a ventilation analysis; 2) if and whether a ventilation contractor has been contacted; 3) if and whether contractor quotes have been submitted; and 4) if whether environmental reviews have been completed. The purchase and distribution of 21 HEPA filtration units to 5 businesses as recommended by the technical assistance from CX Associates, bringing the total number of project participants to 10.
2022	0The program has come to completion having paid the final project invoices in the last quarter.

2023	0	The project is complete and fully leased with a wait list of 86 persons. This project came out so well, and was embraced from the beginning by the community. SASH programming is taking off as the community of residents settles in. Some highlights of SASH (and CIDER) programming on site include: Tai chi; exercise class starting in March; 10-15 people now connected to 3Squares, commodity box, local food shelf for food access; many people are using CIDER transportation and 8-10 are receiving daily and weekly CIDER meals; monthly wellness nurse presentations; monthly SASH Coordinator TEDtalk presentation; facilitation of residents forming social groups for games, crafts, similar interests; singalong in December; potluck in November; forming relationship with elementary school. There is great synergy between our SASH Coordinator and the CIDER staff who work together daily, since we are supporting some of the same residents. SASH-supported affordable housing helps older adults thrive and build community! The building as a whole did well through a very cold weather snap in keeping adequate heat. As with any new building, there are bugs to work out during the first year of operations. We feel this project is very successful in meeting a critical need. This is a truly community based project that will have a lasting impact in South Hero and the Islands.

UGLG: ST. ALBANS C.

Grant Year: 2020

Project: 0004 - CDBG-CV Goal 3 Public Service other than Low/Mod Income Housing Benefit

Objective: Create suitable living environments

IDIS Activity: 2277 - St. Albans City (2015) CDBG-CV 63

Outcome: Availability/accessibility

Activity to prevent, prepare for, and respond to Coronavirus: Yes

Status: Completed 05/26/2023

Annual Accomplishments Accomplishment Narrative

Year	# Benefiting	
2022	0	Healthy Roots has completed deliveries of fresh produce to identified recipients for the time period covered by the VCDP grant. This time period we have seen the start of the growing season take off and we are currently still doing weekly deliveries of produce to sites, which include spinach, asparagus, potatoes, carrots, lettuce and vegetable starts.

2023	0With the funding provided through the VCDP, the Healthy Roots Collaborative has been able to provide increased food distribution services in response to the COVID-19 pandemic, to the clients of Northern Tier Center for Health (NOTCH) clinics in Franklin County, identified distribution sites in St. Albans City and Richford, as well as the elderly populations in Grand Isle County served by the organization C.I.D.E.R. and Islands in the Sun. In addition to services to traditional charitable foods sites, HRC also provided food to migrant farm workers through a partnership with Bridges to Health and NorthWest Family Foods. 100% of the populations served through this grant are LMI (Low-to-Moderate Income) with income at or below 80% AMI (Area Median Income). Between July 1, 2020 and March 31, 2023, Healthy Roots delivered around 64,000 lbs. of produce to these sites. HRC projected to serve 1750 individuals with this grant funding but ended up reaching over 2,000 individuals through these regular distributions. During the course of the grant, HRC strengthened relationships with distribution sites. One example is HRCÃ¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¢Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿s work with the NOTCH clinics. Because of the increase in produce being delivered to NOTCH sites, HRC was able to access other funding to support the purchase of 8 mini-fridges that would then preserve the quality of produce being distributed to the clinics. Final requisition will happen before April 30, 2023.

2021	0	Currently, the project right on schedule with 48 completed residential rehab projects, which is about 70% of our overall benchmark goal. The benchmark goal is 68 single-family units, and eight rental units. We are still finding it to be a challenge to find interested landlords in the program. We wrapped up the Re-Housing Recovery program this quarter, which allowed grant funding up to $30,000 for landlords to bring vacant rental units back into use. We expect to have more information soon about a similar program starting in 2022, the Vermont Housing Investment Program. Currently, the project is right on schedule with 36 completed residential rehab projects, which is about 78% of our overall benchmark goal. The benchmark goal is 46 single family units, and four rental units. We are still having trouble recruiting eligible rental units.

2022	0	Currently, the project right on schedule with 55 completed residential rehab projects, which is about 80% of our overall benchmark goal. The benchmark goal is 68 single-family units, and eight rental units. We are still finding it to be a challenge to find interested landlords in the program. We did have one application from the owner of a duplex in Winooski, but unfortunately, they were slightly over income. We had one household that received a grant for home repairs, which was a very challenging situation. They own a mobile home in Colchester, and the floor in the bathroom had been failing for quite some time. They had a friend visit just before Christmas, and the person fell through the floor. Thankfully, they found a contractor that was willing to do the work on short notice. The project cost around $3,600, but they did not have the capacity to borrow any funds. They work with a social worker regularly, had a lot of trouble with paperwork, but this home is very affordable to them

Year # Benefiting

2022	0	The construction of the project is complete at this time. All units are occupied . There are very few items that we will add to the project in the spring when the ground is not frozen (bike racks, benches etc.). The Rutland Mental Health employee assigned to LP is on site and working with the residents, additionally a member from Homeless Prevention Center is commonly on site. We have received an approved Part 3 back from National Park Service regarding Historic Preservation of the building. Overall the project is very successful thus farÃ¿Â¢Ã¿Â¿Ã¿Â¿ the community that is being formed among the residents is wonderful. They are all coming together to help one another, take ownership of their new home and some have already reported to our staff that they are seeing an improvement in their mental health. The next requisition will be May 10. The closeout is expected for June 30, 2022 and the schedule is attached.

Annual Accomplishments — Accomplishment Narrative

Year	# Benefiting	
2023	0	The project is complete and fully leased with a wait list of 86 persons. This project came out so well, and was embraced from the beginning by the community. SASH programming is taking off as the community of residents settles in. Some highlights of SASH (and CIDER) programming on site include: Tai chi; exercise class starting in March; 10-15 people now connected to 3Squares, commodity box, local food shelf for food access; many people are using CIDER transportation and 8-10 are receiving daily and weekly CIDER meals; monthly wellness nurse presentations; monthly SASH Coordinator TEDtalk presentation; facilitation of residents forming social groups for games, crafts, similar interests; singalong in December; potluck in November; forming relationship with elementary school. There is great synergy between our SASH Coordinator and the CIDER staff who work together daily, since we are supporting some of the same residents. SASH-supported affordable housing helps older adults thrive and build community! The building as a whole did well through a very cold weather snap in keeping adequate heat. As with any new building, there are bugs to work out during the first year of operations. We feel this project is very successful in meeting a critical need. This is a truly community based project that will have a lasting impact in South Hero and the Islands.

2022	0During this report period, Davenport Construction blasted and excavated a trench to lay and connect a new water line from the well to the pump and tank houses; completed in early June, 2022. As phase 1 of the new water system was under completion, the Park experienced a leach field failure at Lots #22 & #23. VHFA loan funds covered design and permitting costs for a new mound system, which is designed to accommodate 6 hook-ups, in the event that more systems in this area of the Park fail. To accomplish phase 2 of the water system, and to construct the new mound system, the Park is seeking VT ANR grant funding. The application was submitted July 27, 2022 and ANRÃ¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¢Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿s decision will be made on or around Sept. 12, 2022. If full funding is awarded, the grant will cover the cost of first, assessing the water distribution lines to identify any that might need to be repaired or replaced. The next step is designing and permitting for phase 2 construction, which involves demolition of existing tank and pump houses, construction of a consolidated tank/pump house, and distribution water line upgrades. The design and permitting process will likely take the remainder of 2022 and first quarter of calendar year 2023 to complete. Once the design and permit are obtained, bidding for phase 2 construction will occur in the early spring of 2023, and construction will take place in early summer 2023. Until Phase 2 is completed, the Park remains out of compliance for their water system. All Data will be reported in Activity 2091
2024	0PR 2016 11 Castleton 00081 Activity reported for period of 7/1/2024-12/31/2024
2021	0The source approval permit was released on Feb 21, 2021 without conditions for treatment, and without further conditions for quantity, so the single well should suffice to serve the community, according to the engineer from Trudell Consulting Engineers. In its source approval, ANR provided a schedule that the Co-op must follow for updating its Source Protection Plan. The permit was recorded prior to March 16, 2021. The new attorney, Rob Scharf at Kohn & Rath, analyzed the dispute with the assistance of the TCE surveyor who created a survey. In the process, Scharf discovered that property deeds for the transaction when the Co-op purchased the Park were incorrect. After ScharfÃ¢Â¿Â¿s discovery process, he made contact with the seller (Joe Howard)Ã¢Â¿Â¿s attorney, Greg Kupferer, and received a proposal from Kupferer. Howard proposed that if the Co-op would sign a mutual release that foreclosed the possibility of future litigation, Howard would agree to give the Co-op the easement they need to gain access to the permitted water source (Well #1). At their July Board meeting, the Co-op agreed to this proposal and Scharf is returning to Kupferer with the Co-opÃ¢Â¿Â¿s instructions.

Year	# Benefiting	
2023	0	During the past several months, an amendment was also completed to extend the end date to June 30, 2024. This is to allow time for the final requisition this winter, as well as provide more than enough time for close-out activities and the hearing with the Bolton Select Board. The three remaining jobs are expected to be filled by December 2023. This project report came just a bit too early to include the remaining jobs in the current report.
2024	0	PR 2018 11 Bolton 00178 4/01/2024-6/30/2024

2021	0	The Economic Development project is complete. After ski season, the BVR renovation crew started the final wave of upgrades. Now they are finishing a standard room-by-room inspection for final touches. The hotel has seen increased revenue since the renovation. The Hotel Manager has additionally reported an increase in qualitative feedback about the updated rooms and common areas. The second and final requisition for Economic Development funds is complete. Four of the thirteen new jobs have been created, including two full-time housekeeping jobs as a result of increased year-round hotel occupancy and group sales. A full-time Assistant was hired for our IT Administrator, creating an effective team that rewired the hotel Wi-Fi, improving speed and performance. The resort is confident that it will have created at least 13 new jobs as a result of the hotel upgrade by December 2022, despite current staffing shortages.

2021	1	The result of this brownfield remediation was the ability to prepare a site to serve as the location and parking for the turn-key affordable housing development.
2019	1	$0.00

UGLG: MONTPELIER CITY

Grant Year: 2018

Project: 0010 - Goal 1: Public Facility or Infrastructure Activities other than Low/Moderate Income Housing Benefit

Objective: Create suitable living environments

IDIS Activity: 2162 - Montpelier C (1011)

Outcome: Availability/accessibility

Activity to prevent, prepare for, and respond to Coronavirus: No

Status: Completed 01/04/2022

Matrix Code: Neighborhood Facilities (03E)

Location:

135 Main St Montpelier, VT 05602-2909

National Objective: LMC

Initial Funding Date: 08/31/2020

Financing:

Funded Amount: $75,000.00

Net Drawn: $75,000.00

Balance: $0.00

Description:

Grant to City of Montpelier to subgrant to the Kellogg Hubbard library for renovations and improvements to make the Library more accessible.
The replacement of the 45 year old elevator that was only expected to last 30 years is the focus of our funds.

Proposed Accomplishments:

People (General) : 855

Annual Accomplishments Accomplishment Narrative

Year	# Benefiting	
2021	0	The completion of the elevator renovation and replacement of the mechanical and control components was critical. Many of the replacement parts were no longer available and the completed control systems and Accessibility modifications will ensure that all 3 levels of the Kellogg Hubbard Library will remain accessible for many years to come. The project was delayed due to Covid protocols and shutdowns in 2020 but we are pleased that it is completed and serving the community.

Year # Benefiting

2022	0During this report period, Davenport Construction blasted and excavated a trench to lay and connect a new water line from the well to the pump and tank houses; completed in early June, 2022. As phase 1 of the new water system was under completion, the Park experienced a leach field failure at Lots #22 & #23. VHFA loan funds covered design and permitting costs for a new mound system, which is designed to accommodate 6 hook-ups, in the event that more systems in this area of the Park fail. To accomplish phase 2 of the water system, and to construct the new mound system, the Park is seeking VT ANR grant funding. The application was submitted July 27, 2022 and ANRÃ¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¢Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿s decision will be made on or around Sept. 12, 2022. If full funding is awarded, the grant will cover the cost of first, assessing the water distribution lines to identify any that might need to be repaired or replaced. The next step is designing and permitting for phase 2 construction, which involves demolition of existing tank and pump houses, construction of a consolidated tank/pump house, and distribution water line upgrades. The design and permitting process will likely take the remainder of 2022 and first quarter of calendar year 2023 to complete. Once the design and permit are obtained, bidding for phase 2 construction will occur in the early spring of 2023, and construction will take place in early summer 2023. Until Phase 2 is completed, the Park remains out of compliance for their water system. All Data will be reported in Activity 2091
2024	0PR 2016 11 Castleton 00081 Activity reported for period of 7/1/2024-12/31/2024
2021	0The source approval permit was released on Feb 21, 2021 without conditions for treatment, and without further conditions for quantity, so the single well should suffice to serve the community, according to the engineer from Trudell Consulting Engineers. In its source approval, ANR provided a schedule that the Co-op must follow for updating its Source Protection Plan. The permit was recorded prior to March 16, 2021. The new attorney, Rob Scharf at Kohn & Rath, analyzed the dispute with the assistance of the TCE surveyor who created a survey. In the process, Scharf discovered that property deeds for the transaction when the Co-op purchased the Park were incorrect. After ScharfÃ¢Â¿Â¿s discovery process, he made contact with the seller (Joe Howard)Ã¢Â¿Â¿s attorney, Greg Kupferer, and received a proposal from Kupferer. Howard proposed that if the Co-op would sign a mutual release that foreclosed the possibility of future litigation, Howard would agree to give the Co-op the easement they need to gain access to the permitted water source (Well #1). At their July Board meeting, the Co-op agreed to this proposal and Scharf is returning to Kupferer with the Co-opÃ¢Â¿Â¿s instructions.

2021	0	The project is complete. The upgrades to Town Hall will undoubtedly make it more possible for the disabled community to access the building and be apart of the decision making process in town. Moreover, the PACIF representative for VLCT came to perform his first regular safety check of the building since the improvements were made, and he was very impressed with the modifications and how safe the environment is now for staff and visitors.

Year # Benefiting

2022	0During this report period, Davenport Construction blasted and excavated a trench to lay and connect a new water line from the well to the pump and tank houses; completed in early June, 2022. As phase 1 of the new water system was under completion, the Park experienced a leach field failure at Lots #22 & #23. VHFA loan funds covered design and permitting costs for a new mound system, which is designed to accommodate 6 hook-ups, in the event that more systems in this area of the Park fail. To accomplish phase 2 of the water system, and to construct the new mound system, the Park is seeking VT ANR grant funding. The application was submitted July 27, 2022 and ANRÃ¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¢Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿Ã¿Â¿s decision will be made on or around Sept. 12, 2022. If full funding is awarded, the grant will cover the cost of first, assessing the water distribution lines to identify any that might need to be repaired or replaced. The next step is designing and permitting for phase 2 construction, which involves demolition of existing tank and pump houses, construction of a consolidated tank/pump house, and distribution water line upgrades. The design and permitting process will likely take the remainder of 2022 and first quarter of calendar year 2023 to complete. Once the design and permit are obtained, bidding for phase 2 construction will occur in the early spring of 2023, and construction will take place in early summer 2023. Until Phase 2 is completed, the Park remains out of compliance for their water system. All Data will be reported in Activity 2091
2024	0PR 2016 11 Castleton 00081 Activity reported for period of 7/1/2024-12/31/2024
2021	0The source approval permit was released on Feb 21, 2021 without conditions for treatment, and without further conditions for quantity, so the single well should suffice to serve the community, according to the engineer from Trudell Consulting Engineers. In its source approval, ANR provided a schedule that the Co-op must follow for updating its Source Protection Plan. The permit was recorded prior to March 16, 2021. The new attorney, Rob Scharf at Kohn & Rath, analyzed the dispute with the assistance of the TCE surveyor who created a survey. In the process, Scharf discovered that property deeds for the transaction when the Co-op purchased the Park were incorrect. After ScharfÃ¢Â¿Â¿s discovery process, he made contact with the seller (Joe Howard)Ã¢Â¿Â¿s attorney, Greg Kupferer, and received a proposal from Kupferer. Howard proposed that if the Co-op would sign a mutual release that foreclosed the possibility of future litigation, Howard would agree to give the Co-op the easement they need to gain access to the permitted water source (Well #1). At their July Board meeting, the Co-op agreed to this proposal and Scharf is returning to Kupferer with the Co-opÃ¢Â¿Â¿s instructions.

Year	# Benefiting	
2021	0	This grant provided the impetus to begin to refurbish the old Benn High building (most recently the town's public junior high) into a space for community programming. The building has been vacant for the past 16 years and still needs work, but now that the Town/BFYMCA is using it for both youth and senior programming, we can envision it as a community center. The original purpose of this program was to serve school age children with Y-led wellness and youth development programs while their parents were working. We were very successful in meeting this goal, and ultimately served a larger number of children than anticipated. Ninety individual children participated in afterschool and summer programs, and over 75% of those children were from LMI families. The BFYMCA also utilized the space to offer senior exercise classes, which have been very popular and growing. 28 seniors participated in these classes. The BFYMCA will continue to work with the Town of Bennington to develop community programs, which will grow as the space is improved and the gymnasium is brought back to life.

Year	# Benefiting	
2021	0	BROC unveiled its new freezer/refrigerator unit on December 14. The new unit has tripled BROC's refrigeration capacity allowing them to accept quantities of perishables they couldn't in the past. In addition to the CDBG grant of $25,000, $7,606 from the VT Food Bank, discounts from Efficiency VT to offset the electrical work, BROC received funding from the Friends of Bernie Sanders to offset the costs to install the units. This investment for the future is warranted during the uncertainty of the COVID variants. A final public hearing will be scheduled for Feb. 7 and an amendment request was submitted on 1/7 to extend the project completion date to March 31, 2022. The final requisition was submitted on 12/28 and funding was received on 1/6. All Other Resources have also been expended.

Annual Accomplishments		Accomplishment Narrative
Year	# Benefiting	
2021	0	This project began in March of 2020 when the Governor of Vermont declared a State of Emergency because of COVID -19. The Brattleboro Housing Authority took numerous precautions to keep its residents and staff protected and to keep the agency open so it could continue to respond to pressing resident needs. For its Maintenance group, this entailed paying each member of the team hazard pay. Maintenance was the only staff that had to go into resident apartments and all site buildings during the first wave of the pandemic. BHA received HUD funds to assist with its substantial and new costs such as ensuring that each staff member had all the equipment and office supplies they needed to work from a home office. For resident safety this meant food drops and significant additional disinfection of all community spaces. BHA had 40 buildings in 7 developments all with community rooms, laundries and other spaces. The CDBG funds have been requested to pay for the hazard payments which ended in June of 2020 when the Governor lifted the State of Emergency.

Williamstown Jazz Festival to debut with three days of music, films and conversation

By Kate Villinski
Berkshire Eagle correspondent

WILLIAMSTOWN, MASS. — A new three-day jazz festival will make its debut Sept. 11, bringing nationally known musicians, student ensembles, films and community events to venues across Williamstown.

The inaugural Williamstown Jazz Festival, organized by the nonprofit Jazz in the Berkshires, will feature performances at the Clark Art Institute and Williams College, along with a film program at Images Cinema.

The lineup includes the Brandee Younger Trio, Connie Han Trio, Steve Turre's All-Star Band, The Cookers and Arturo Sandoval and his octet. Berkshire performers and ensembles will include the Wanda Houston Quartet, the Berkshire Youth Jazz Ensemble, the MCLA Jazz Ensemble, Richard Stanmeyer & Company and Triangle Offense.

For Jazz in the Berkshires founder and Executive Director Daphne Bolden, the festival is intended not only to bring jazz to the region but also to draw attention to the Berkshires' place in the music's history.

"Almost nobody knows the Berkshires were the site of the first jazz schools of instruction in the world," Bolden said.

Those schools attracted or helped develop musicians including Dizzy Gillespie, Max Roach, Bill Evans, Oscar Peterson, Jimmy Giuffre, Ray Brown and Kenny Dorham.

Bolden, a longtime jazz musician and enthusiast, returned to the Berkshires from California in 2015 with her husband, Williams College alum Anthony Boskovich. She said the region's history and active arts community helped inspire the creation of Jazz in the Berkshires.

The organization hopes the festival will become an annual or biennial event and serve as its primary summer program. Future festivals could also include workshops and other educational offerings.

Jazz in the Berkshires has presented two concerts a year at The Clark for the past three years. Organizers say the September festival will be considerably larger, with an anticipated total attendance of more than 9,000 over three days. Education is one of the nonprofit's central goals. The festival program includes the Berkshire Youth Jazz Ensemble and the MCLA Jazz Ensemble, placing student musicians on the same schedule as experienced local and national performers.

Organizers also sought variety in the performers' ages, genders, musical styles and instruments.

"If you like jazz, you'll find something that you like at the jazz festival," said Will Schmenner, The Clark's head of public programs.

Ashley Paradis, director of programming for the Berkshire Youth Jazz Ensemble and a band director and music teacher at Pittsfield High School, plans to bring at least three ensembles to the festival.

The students will perform music they selected and rehearsed during the school year, along with pieces that have become favorites within their classes. The festival will provide the ensembles with their largest performance venue to date after appearances at smaller local venues, including the Stationery Factory in Dalton.

Paradis, who also serves on the board of the Massachusetts Music Educators Association, said she had not imagined an opportunity of this size when she began working as a music educator.

The student performances will illustrate both the beginnings of a musical education and where it can lead, she said. Trumpeter Richard Stanmeyer, also performing at the festival, said appearing on a program with prominent jazz musicians gives the event added significance.

PETE MAROVICH — GETTY IMAGES

Cuban-American jazz artist Arturo Sandoval, pictured in 2024, will perform at the inaugural Williamstown Jazz Festival.

"This festival has a lot of weight because of the lineup," he said. "Being in that kind of environment is humbling."

The festival arrives during a summer in which Fresh-Grass and the Williamstown Theatre Festival are not presenting their customary programming. Bolden said she viewed those changes not as added pressure but as an opportunity for the new event.

"It wasn't extra pressure," she said. "It was an opening."

Schmenner said the festival should be viewed in terms of what it will add to the region's cultural offerings.

"People in the Berkshires will get to see jazz they wouldn't have seen otherwise and leave the festival hungry for more," he said.

Berkshire singer Wanda Houston will appear with her quartet at 4 p.m. Sept. 13. Houston said she is particularly looking forward to meeting and spending time with other musicians.

"For me, so much of it is about the interaction backstage and meeting people," she said. "When I'm backstage, I'm myself."

Images Cinema will host the festival's Saturday afternoon film program, "Rhythm & Reels," which will feature jazz documentaries and performance footage in the cinema's renovated main theater.

Images Executive Director Dan Hudson said the theater is assisting with the program's curation, while festival organizers will make the final film selections.

Other venues include The Clark, Williams College's '62 Center for Theatre and Dance and Chapin Hall.

Gina Puc, Williams' director of community relations, said the college is coordinating its venues and logistical resources with the festival's schedule. The locations are within walking distance of one another, allowing visitors to move between performances and Williamstown's downtown businesses.

"Vibrant cultural experiences are essential to driving regional tourism and boosting foot traffic for our downtown businesses," Puc said.

Peter MacGillivray of Provisions Williamstown said summer cultural events have helped define the town for decades. Businesses that could benefit from festival traffic include Spring Street Market & Cafe, the Barn Kitchen & Bar, Crust and the Print Shop.

In addition to ticketed performances and films, the festival will include a free Vendor Village with food, arts and crafts, live music and a fire-dancing performance.

Full-festival passes cost $310. Individual day passes range from $85 to $200.

Adams girl sells out of her handmade pens — twice

By Jane Kaufman
The Berkshire Eagle

ADAMS, MASS. — A week before her seventh birthday, Everleigh Renzi has a wish: She wants you to buy one of her decorative pens, and she's willing to make it to your specifications.

"Pens for sale, pens for sale," she yells on a recent day to passing motorists on Richmond Lane from her perch behind a wooden table. "Would you like a pen?"

She began decorating pens with beads and charms about a month ago and selling them from two locations: her front yard and from her father's video gaming business, Renzi Retro & Repair at 150 American Legion Drive in North Adams.

She sold out of her first 35 pens on the first day of her business, which is advertised on social media. Within three days, she sold out of 45 more.

"Daddy did his business, so I wanted to make a business like him," she said.

Everleigh's Stylish Beaded Pens is the name of the business. She sells each pen for $5, and each comes in its own packet.

Her father ordered her first supplies on Amazon to get her started. Now she pays for her own supplies out of profits.

She enlists her mother for help opening the plastic packets and doing other technical aspects of the operation, but Everleigh does most of the assembly herself, including capping the top of the beads and inserting the pen into the packet, then affixing a sticker that says thank you.

Sometimes she sits outside for five to six hours, hawking and selling. Her favorite part of the operation? Assembling the beads and charms to create unique pens.

She uses pens designed for this purpose — with the ink cartridges acting as the dowel for the beads.

The multicolored charms include faces of animals and other symbols, and her favorite one is of a bald eagle and the American flag.

While Everleigh has a strong shout when selling her wares, her speaking voice is generally more quiet.

Still, she has strong opinions and isn't afraid to voice them. She appears to be comfortable bantering with her parents and talking with adults.

When she's not selling or putting together pens, she's coloring or playing with friends or talking on the phone or playing games on the phone with friends.

GILLIAN HECK
THE BERKSHIRE EAGLE

Everleigh Renzi, 6 , decorates pens and sells them from her Richmond Lane home. She sold out her first two days of business.

She said she expects to continue selling after school starts.

"I'll probably do it when it's cold," she said.

Her favorite subject at Hoosac Valley Elementary School, where she'll start second grade, is gym.

Everleigh's mother, Aliviah Tucker, said she was surprised her daughter wanted to start a business.

At the beginning, Everleigh wanted to make "fake squishy toys out of plastic bags," Tucker said. Tucker counseled her daughter that such an offering probably wouldn't sell.

"So we started looking up craft ideas for her and this is what she picked," Tucker explained.

Having the business has helped Everleigh's math skills, because she has to make change for customers and total up the day's earnings. Mother and daughter do the addition and subtraction in sidewalk chalk. Everleigh's father, Christian Richardson, said the roadside venture is teaching his daughter the intricacies of how to reinvest profits and grow an operation from scratch.

"It's teaching her a lot about business, stuff they don't really teach in school," he said.

Public Notices

TOWN OF SHAFTSBURY PUBLIC HEARING

September 2nd, 2026 6 p.m.
NEW Town Offices 677 VT RT 7A, Shaftsbury VT
And remotely via Zoom

The Development Review Board will hold a public hearing in person and via the remote platform Zoom on Wednesday, September 2nd, 2026, 6 p.m., to conduct the following business:

Application 26-0047, Review of the plat for the Proposed Boundary Line Adjustment between Parcel 17 22 12, owner Marie and Michael Watson, 71 Buck Hill RD, Shaftsbury VT and The Town Of Shaftsbury Property ID 17 22 11, 83 Buck Hill Road Shaftsbury VT.

Additional information, including copies of application documents, can be obtained by contacting the Zoning Administrator, Carlyn Mickle. **Participation in this proceeding is a prerequisite to the right to take any subsequent appeal.**

Notice on hybrid public meetings
This meeting is a hybrid meeting, which means that some or all of the public body is meeting remotely and some are meeting physically in a previously noticed location where the public may attend to observe, listen, and participate contemporaneously. One member of this public body or other staff is present at the location to ensure the public can participate, if desired.

Please note that while we will strive to provide means for those attending remotely to participate in the public comment period, there may be technical difficulties or reasons that otherwise prevent or interrupt remote public participation. Therefore, it is important to note that the Open Meeting Law only ensures the public's right to participate and comment at a public meeting by attending at the designated physical location as posted in the notice and agenda.

CHITTENDEN UNIT DOCKET NO.
IN RE: ABANDONED MOBILE HOME OF DALE COUSSON A/K/A DALE CUSSON

VERIFIED COMPLAINT FOR ABANDONMENT PURSUANT TO TITLE 10 V.S.A. § 6249(i) (Uninhabitable)

NOW COMES Falcon Management Company, Inc., by and through counsel Peter B. Schubart, and hereby complains pursuant to Title 10 V.S.A. § 6249(i) as follows:

1. Falcon Management Company, Inc., a Vermont domestic business corporation with a principal place of business in the Town of Richmond, County of Chittenden, State of Vermont, is the record owner of a mobile home park known as the Riverview Commons Mobile Home Park (the "Park"), located in Richmond, Vermont.

2. Dale Cusson a/k/a Dale Cousson is the record owner of a certain mobile home (the "Mobile Home") described as 1974 Hillcrest, Model FDR3, 12' x 70' (Serial no. 04111772G) located at the Riverview Commons Mobile Home Park, Lot #18, 122 Lower Circle in Richmond, Vermont. A Mobile Home Bill of Sale dated August 30,2022, is of record in the Town of Richmond Land Records in Volume 238 at Page 52. (A copy of said bill of sale is attached hereto as Exhibit 1)

3. Dale Cusson a/k/a Dale Cousson leased a lot in the Park from Falcon Management Company pursuant to a written lease. There is no security deposit.

4. Dale Cusson a/k/a Dale Cousson's last known mailing address is 122 Lower Circle, Richmond, VT 05477.

5. The mobile home has been abandoned and is empty. Falcon Management Company, Inc. evicted Dale Cusson a/k/a Dale Cousson from the lot in the park (Chittenden Unit Civil Docket no. 25-CV-02012, Falcon Management Company Inc. v. Dale Cusson) and more than ninety days have elapsed since the Sheriff's office put Falcon Management Company, Inc. in possession of the lot by shutting off power and water to the home and changing the locks on or about April 22, 2026. To date, Dale Cusson a/k/a Dale Cousson has made no effort to remove the mobile home. Falcon Management Company staff has allowed Mr. Cusson to retrieve personal items from the mobile home.

The following security interests, mortgages, liens and encumbrances appear of record with respect to the mobile home:

1. Taxes are owed to Town of Richmond in the amount of $1,327.75.

2. Mobile home storage fees continue to accrue at the rate of $615.00 per month.

3. Unpaid Rent since Judgment, Judgment amount, and service fees due Falcon Management Company, Inc. as of June 25, 2025 exceed $15,254.49. Attorney fees and court costs incurred by Falcon Management Company, Inc. Since the judgment date of June 23, 2025 are $2,585.00.

Falcon Management Company, Inc. sent written notice by certified mail to the Town of Richmond on July 21, 2026 of its intent to commence this action. (See attached Exhibit 2).

The mobile home is uninhabitable. Jeffrey Bishop, Property Manager for the Park, will testify under oath as to the poor and unlivable condition of this mobile home at the abandonment hearing. His affidavit is attached hereto as Exhibit 3.

WHEREFORE, Falcon Management Company, Inc. respectfully requests that the Honorable Court enter an order as follows:

1. Declare that the mobile home has been abandoned;

2. Transfer the mobile home which is unfit for human habitation to Riverview Commons park owner Falcon Management Company, Inc. without a public auction so that it may be removed and disposed of accordingly.

3. Order pursuant to 10 V.S.A. § 6249(i) that the mobile home and any security deposit paid be conveyed to Falcon Management Company, Inc. in "as is" condition, and free from all liens and other encumbrances of record.

DATED AT South Burlington, Vermont this 18th day of August, 2026.

Falcon Management Company, Inc.
By:
Peter B. Schubart, Esq.,
80 Midas Drive, South Burlington, VT 05403
(802) 829-0237/ peter@schubartlaw.com
