A: Flood Hazard Area Regulations	

ARTICLE I: ENACTMENT, OBJECTIVES AND PURPOSE

Section 101: Enactment

In accordance with the Vermont Planning and Development Act, Chapter 117 of Title 24 of the Vermont Statutes Annotated, hereinafter referred to as the "Act", there are hereby established Zoning Regulations for Town of Pittsford which shall be known and cited as the "Town of Pittsford Zoning Regulations".

Section 102: Objectives and Intent

The objective of the Zoning Regulation is to establish standards and policies concerning development of land, which further the goals of the Pittsford Town Plan.

It is intended that standards and policies established by the Zoning Regulations reflect and express a sense of community values toward Pittsford's environment including the value of appearance and congenial arrangement for the conduct of farming, trade, industry, residential and other uses of land necessary to the community's well-being insofar as such values are related to the objectives of the adopted Town Plan.

Section 103: Purpose

These regulations promote the health, safety, and general welfare of the people of Pittsford and implement the Pittsford Town Plan. Specific objectives are to protect and enhance the value of property, to facilitate the adequate provision of transportation, water, wastewater treatment, schools, and other public facilities and services, to provide for orderly growth and to further the purposes set forth in the Plan.

Section 104: Application of this Bylaw

Unless expressly exempted herein, or by Federal or State law, no development shall be commenced unless and until an administrative permit has been issued by the Zoning Administrator in conformance with this Zoning Regulation and the Pittsford Flood Hazard Area Regulations (See Attachment A).

Section 105: Exemptions

The following construction activities and/or land uses shall be exempt from review under these Bylaws and no administrative permit for said construction activities or land uses shall be required:

1. Normal maintenance, repair, upgrading, or remodeling of a building or structure that neither increases the building's or structure's footprint nor involves a change in use.
2. The construction of an accessory structure containing not more than 150 square feet on a residential lot so long as said accessory structure is in compliance with all applicable setbacks;
3. Above-ground pools having a capacity to hold not more than 3,000 Gallons;

4. The import or removal of fill, in an aggregate amount of not more than 30 yards, is exempt from regulation, provided that no slope thereby will be caused to exceed 12%, and that there is no undue adverse impact on adjoining properties.
5. The conducting of accepted agricultural practices (AAP's), or accepted management practices (AMP's) for forestry and silvaculture, including the construction of farm structures as such practices are defined by the Secretary of Agriculture or Commissioner of Forest, Parks & Title 6 of the Vermont Statutes Annotated. However, any person intending to construct a farm structure as that term is defined at Section 4413(d)(1) of the Act must comply with Section 1121 hereof;
6. The construction of electric generating plants and transmission facilities or telecommunications facilities which are otherwise regulated under 30 V.S.A. § 248.

Section 106: Limitations on Regulation under this Bylaw

Notwithstanding any other provision of this Bylaw, the following uses may be regulated only with respect to location, size, height, lot coverage, yards, courts, setbacks, density of buildings, off-street parking, loading facilities, traffic, noise, lighting, landscaping, and screening requirements, and only to the extent that regulations do not have the effect of interfering with the intended functional use:

- (1) State- or community-owned and operated institutions and facilities.
- (2) Public and private schools and other educational institutions certified by the state department of education.
- (3) Churches and other places of worship, convents, and parish houses.
- (4) Public and private hospitals.
- (5) Regional solid waste management facilities certified under 10 V.S.A. chapter 159.
- (6) Hazardous waste management facilities for which a notice of intent to construct has been received under 10 V.S.A. § 6606a.

ARTICLE II: ESTABLISHMENT OF ZONING DISTRICTS AND ZONING MAP

Section 201: Establishment of Zoning Districts

The Town of Pittsford hereby establishes the following seven (7) major Zoning Districts and two (2) overlay Zoning Districts.

- A. Conservation I & Conservation II
- B. Rural
- C. Village
- D. Rural Commercial
- E. Commercial
- F. Industrial
- G. Flood Hazard Overlay District
- H. Wetlands Overlay District

The permitted uses and conditional uses allowed in each district are as specified in Article III: Table of Uses.

The minimum lot sizes, set back requirements, frontage requirements and height limitations for each district are as specified in Article IV: Lot Size, Setbacks, Yards, Height Limitations

Subject to Section 203, if and to the extent that there is any discrepancy between the descriptions of the zoning districts set forth below and the districts as shown on the Official Zoning Map, the district boundaries as shown on the Official Zoning Map shall control.

A. Conservation

1. Description: Lands above the 800 foot contours that are generally characterized by dense forests, steep hills with shallow or otherwise fragile soils, stream banks and elevations where potential development is limited. Some of the more prominent areas within this district are Cox Mountain, Biddie Knob, Bald Peak, and Blueberry Hill. Other protected areas include lands owned by the Nature Conservancy, the Towns of Proctor and Pittsford and the State of Vermont.
 - (a) Within the Conservation District the Conservation I District includes the areas between eight hundred (800) and one thousand one hundred (1,100) feet above sea level in elevation as shown on the Map.
 - (b) Within the Conservation District the Conservation II District includes those areas on the Map located at an elevation of one thousand one hundred (1,100) feet above sea level or higher.

2. Purpose: To provide habitat for wildlife and offer scenic vistas of Pittsford, which are essential components of the tourist industry. Development between the 800 and 1,100-foot contours should be limited to residential and agricultural uses on lots of at least two acres. Above 1,100 feet, where residential uses prove feasible given the availability of water and on-site sewage disposal, lots should be at least five acres.

To provide land area for low-impact recreational uses, such as nature and hiking trails and low-density residential development, farming, forestry, recreation and other rural land uses. Residential development above 1,100-foot contour should be extremely limited.

3. Flood Hazard Areas: There may be some land within this district that is within the Flood Hazard Overlay District. Please check the Official Zoning Map and see Attachment A

B. Rural

1. Description: Those areas outside the Village District not otherwise designated for commercial, industrial or conservation.
2. Purpose: To preserve the rural character by managing the development of open space and woodland while fostering appropriate economic activity. Growth should be managed consistent with the character of the area, the availability of services, and the site conditions.
3. Flood Hazard Areas: There may be some land within this district that is within the Flood Hazard Overlay District. Please check the Official Zoning Map and see Attachment A

C. Village

1. Description: The Pittsford village area is mostly the former Village of Pittsford. The Village is the site for much of the state and local governmental uses.
2. Purpose: To maintain the village's traditional social and physical character. Some portions of the village are long established and have little room for new growth being suitable mainly for residences, commercial uses, and recreation.

The development of certain areas of the Town along US Route 7 is the area that is most extensively served by municipal water and sewer services. This is the area of the town, which historically has the most intense development.

3. Flood Hazard Areas: There may be some land within this district that is within the Flood Hazard Overlay District. Please check the Official Zoning Map and see Attachment A

D. Rural Commercial

1. Description: Portions of Vermont Route 3 as designated on the zoning map.

Lots, a portion of which lie within 600 feet from the centerline of VT Route 3, and which are in an area designated as a Rural Commercial District; and which have a minimum of 200 feet of frontage on VT Route 3 or a minimum of a 200 foot wide access strip to VT Route 3.

Lots whose depth extends more than 600 feet from the centerline of VT Route 3, are allowed to have the Rural Commercial District designation extended to the rear property line, or to the Conservation District, whichever is closer to VT Route 3.

2. Purpose: To provide an area where light commercial uses would be permitted that would not detract from the residential atmosphere common throughout most of Route 3 but would permit residents to engage in activities that are somewhat more intensive than customary home occupations but not as intensive as the uses in the commercial areas.
3. Flood Hazard Areas: There may be some land within this district that is within the Flood Hazard Overlay District. Please check the Official Zoning Map and see Attachment A

E. Commercial

1. Description: Areas proximate to primary transportation routes and currently or likely to be areas of commercial growth as shown on the zoning map including the access into and out of the village along sections of Route 7.

Lots, a portion of which lie within 600 Feet from the centerline of U S Route 7, and which are in an area designated as a Commercial District and which have a minimum of 200 feet of frontage on U S Route 7 or a minimum of a 200 foot wide access strip to U S Route 7 and whose depth extends more than 600 feet from the centerline of U S Route 7, are allowed to have the Commercial District designation extended to the rear property line, or to the Conservation District, whichever is closer to U S Route 7.

2. Purpose: To provide opportunities for commercial uses.
3. Flood Hazard Areas: There may be some land within this district that is within the Flood Hazard Overlay District. Please check the Official Zoning Map and see Attachment A.

F. Industrial

1. Description: The area is composed primarily of land owned by OMYA and the railroad. Other sites, adjacent or nearby to OMYA lands, and along access to the OMYA lands, are also considered to have potential for industrial uses.
2. Purpose: To allow for industrial development in those areas of the town that offer the potential for further industrial expansion if the resources are available to make them useable for industrial purposes.
3. Flood Hazard Areas: There may be some land within this district that is within the Flood Hazard Overlay District. Please check the Official Zoning Map and see Attachment A

G. Flood Hazard Overlay

1. Description: All lands shown on the official Zoning Map as flood hazard areas are based on the most current flood insurance studies and maps published by the Department of Homeland Security, Federal Emergency Management Agency, National Flood Insurance Program, as provided by the Secretary of the Agency of Natural Resources pursuant to 10 V.S.A. Chapter 32 § 753, which are hereby adopted by reference and declared to be part of these regulations.; the area is also generally shown on the Official Zoning Map as an overlay. See also Attachment A: Flood Hazard Area Regulations.
2. Purpose: It is the purpose of this district and its regulations to promote the public health, safety, and welfare, to control development of lands in areas of special flood hazard, and to minimize losses due to floods by:
 - (a) Restricting or prohibiting uses that are dangerous to health, safety or property in times of flood or cause excessive increase in flood heights or velocities;
 - (b) Requiring that uses vulnerable to floods, including public facilities that serve such uses be protected at the time of initial construction, against flood damage;
 - (c) Protecting individuals from buying lands that are unsuitable for their intended purposes because of flood hazard.
3. Uses within the Flood Hazard Overlay District are subject to the provisions of Attachment A.

H. Wetlands District Overlay

1. Description: Those lands generally designated on the Vermont Significant Wetlands Inventory Maps which incorporate, in part, the National Wetlands Inventory Maps. Note that on-the-ground analysis of sites may be necessary and not all sites have been identified.
2. Purpose: To preserve and protect designated wetlands by limiting development to recreational, agricultural, and open space.

Section 202: Zoning Map

The location and boundaries of Zoning Districts are established as shown on the Official Zoning Map, and in accordance with provisions in this regulation. The Zoning Map is hereby made a part of these zoning regulations. No changes shall be made to the Official Zoning Map except in accordance with the procedures for amending zoning regulations.

Where available (i.e., Zones A1 through A30, AE and AH), the base flood elevations and floodway limits provided by the National the most current flood insurance studies and maps published by the Department of Homeland Security, Federal Emergency Management Agency, National Flood Insurance Program, as provided by the Secretary of the Agency of Natural Resources pursuant to 10 V.S.A. Chapter 32 § 753, which are hereby adopted by reference and declared to be part of these regulations; the area is also generally shown on the Official Zoning Map as an overlay. See also Attachment A: Flood Hazard Area Regulations.

In areas where base flood elevations and floodway limits have not been provided by the National Flood Insurance Program, base flood elevation and floodway information available from state or federal agencies, or other sources, shall be obtained and reasonably used.

Regardless of the existence of copies of the Zoning Map that may from time to time be made or published, the Official Zoning Map shall be that located in the Town Clerk's office.

Section 203: Interpretation of Zoning District Boundaries

Where uncertainty exists as to the boundaries of districts as shown on the Official Zoning Map, the following rules shall apply:

- A. Boundaries that approximately follow the centerlines of roads, streams, and transportation and utility rights-of-way shall be construed to follow such centerlines;
- B. Boundaries that approximately follow lot lines shall be construed to follow such lot lines;
- C. Boundaries that follow shorelines shall be construed as the low mean water level;

D. Boundaries which are parallel to or extensions of features in A through C above shall be so construed; and

E. Boundaries shall be determined based on the language in the Zoning Regulation.

Where circumstances are not covered by A through E above, the Zoning Administrator shall interpret the district boundaries. For lots divided by a zoning district boundary, see Section 1111.

ARTICLE III: TABLE OF USES

SECTION 300: Table of Uses

ALL NON-EXEMPT USES REQUIRE A PERMIT

The Table of Uses, below, identifies use categories as permitted (“P”) or conditional (“C”) in the various zoning districts defined in Article II.

- A. All uses are subject to the requirements of Article IV and Article XI.
- B. No use identified as either a Permitted (“P”) or Conditional (“C”) Use shall be commenced unless and until an administrative permit has been obtained pursuant to Section 1302.
- C. Conditional Uses also are subject to the provisions of Article V, as applicable.
- D. For the purposes of the table below: C II = Conservation II; C I = Conservation I; R = Rural; V = Village; RC = Rural Commercial; C = Commercial; I = Industrial.

Section 301: Interpretation of Table of Uses:

- A. If a proposed use falls into a use category identified in the Table of Uses, but is proposed in a district where the use in neither Permitted (P) nor Conditional (C), the proposed use is prohibited.
- B. If a proposed use reasonably falls under two (2) or more of the categories listed in the Table of Uses, and where the combined use is not otherwise regulated by this Ordinance, the more restrictive use category shall control.
- C. If a proposed use does not reasonably fit into any category in the Table of Uses, the proposed use may be treated as a conditional use, provided that the anticipated impacts of the proposed use will be no greater than the impact of at least one (1) use category that is expressly allowed (either as permissible or conditional) in the district in which the use is proposed to be located.

ARTICLE IV: LOT SIZE, SETBACKS, YARDS, HEIGHT LIMITATIONS

The following requirements apply to all uses, whether Permitted, Conditional, or Exempt.

Conditional Uses shall meet the requirements of Article V, and all uses shall comply with all other applicable provisions of this Ordinance.

DISTRICT	USE	MINIMUM LOT SIZE	MAXIMUM LOT COVERAGE	SETBACKS (Feet)			MINIMUM FRONTAGE (feet)	MAXIMUM BUILDING HEIGHT (feet)
				Front*	Side	Rear		
CONSERVATION I	All uses	2 Acres	20%	40	25	25	200	40
CONSERVATION II	All uses	5 Acres	20%	40	25	25	200	40
RURAL	Single family dwelling	1 Acre	20%	40	25	25	100	40
	Two family dwelling	2 Acres	20%	40	25	25	100	40
	Multi-Family dwelling	2 Acres + 15,000 sq. ft. for each additional dwelling unit (Max. 8 per structure)	20%	40	25	25	100	40
	All other uses	2 Acres	20%	40	25	25	100	40
	Single family dwelling*	10,000 sq. ft.	25%	25	15	15	75	40
VILLAGE	Lot not contiguous to existing federal, state or town highway	25,000 sq. ft.						
	Two family dwelling*	20,000 sq. ft.	25%	25	15	15	75	40
	Lot not contiguous to existing federal, state or town highway	25,000 sq. ft.						
	Multi-family dwelling	20,000 sq. ft. + 15,000 sq. ft. for each additional dwelling unit	25%	25	15	15	75	40
	All other Uses	1/2 Acre	20%	40	30	30	100	40
RURAL COMMERCIAL	Single family dwelling	1 Acre	20%	40	25	25	100	40
	Two family dwelling	2 Acres	20%	40	25	25	100	40
	Multi-family dwelling	2 Acres + 15,000 sq. ft. for each additional dwelling unit	20%	40	40	25	100	40
COMMERCIAL	All other uses	2 Acres	20%	50	50	50	200	40
	Single family dwelling	1 Acre	20%	40	25	25	100	40
	Two family dwelling	2 Acres	20%	40	25	25	100	40
	Multi-family dwelling	2 Acres + 15,000 sq. ft. for each additional dwelling unit	20%	40	40	25	100	40
	All other uses	2 Acre	20%	50	50	50	200	40
INDUSTRIAL	Single family dwelling	1 Acre	20%	40	25	25	100	40
	Two family dwelling	2 Acres	20%	40	25	25	100	40
	All other uses	6 Acres	20%	100	100	100	300	40**

* Setbacks measured from streets having less than a 50 foot right of way are subject to Section 1105.

[1] Steps, landings, and handicapped access ramps meeting the requirements of the Americans with Disabilities Act shall not be included when determining setbacks.

* Lots abutting an existing Federal, State or Town Highway or street as of the effective date of these regulations.

ARTICLE V: CONDITIONAL USES: USES PERMITTED SUBJECT TO CONDITIONS

A zoning permit shall be issued by the Zoning Administrative Officer for any use or structure, which requires conditional use approval only after the Board of Adjustment grants such approval, taking into consideration the following and the appropriate conditions of Sections 503 through 507:

In considering its action, the Board shall make findings that the proposed conditional use shall not result in an undue adverse affect on any of the following:

- A. The capacity of existing or planned community facilities;
- B. The character of the area affected as defined by the purpose or purposes of the zoning district within which the project is located, and specifically stated policies and standards of the Town Plan.
- C. Traffic on roads and highways in the vicinity;
- D. Bylaws and ordinances in effect;
- E. Use of renewable energy resources.

The Board shall also consider the Site Plan requirements detailed in Section 1003.

In granting conditional use approval, the Board may attach such reasonable conditions, in addition to those outlined, as it deems necessary.

Section 501: Applications for Conditional Use

A. Waiver of Application Requirements

Any of the following information may be waived at the discretion of the Board.

A request for a waiver shall be submitted to the Board and shall specify which portions are requested for waiver. The applicant shall include a preliminary site plan providing sufficient information upon which the Board can make a decision. The Board may request additional information.

A request for a waiver shall not be considered an application for purposes of timing requirements relating to action on applications.

B. The owner and applicant (if different from owner) shall submit two (2) sets of a site plan and supporting data to the Board, which shall include the following information presented in drawn form and accompanied by written text.

- 1. Name and address of the owner of record of this, adjoining lands, and lands adjacent (across a road); name and address of applicant - if different than owner;

name and address of person or firm preparing the plan; description of the property giving location; scale of map, north point, and date.

2. Survey of the property showing existing features, including contours, structures, large trees, streets, utility easements, rights-of-way, land use and deed restrictions, zoning classification, existing surface waters (brooks, ponds, etc.), if any, and the location of proposed structures with distance from lot lines indicated.
 3. Site plan showing proposed structure(s), locations and land use areas; streets, access points, driveways, traffic circulation, parking and loading spaces and pedestrian walks; utilities both existing and proposed, including placement of poles; and including water wells and sewage treatment facilities; landscaping plans, including site grading, planting design, screening or fencing, detailed specifications of planting and landscaping materials to be used; existing and proposed equipment such as propane tanks, transformers, etc.
 4. Construction sequence and anticipated time schedule for the completion of each phase for buildings, parking spaces and landscaped areas of the entire development.
 5. A traffic study if issues of traffic safety are a concern.
 6. The location and size of proposed signs.
 7. A certification signed by the applicant that all adjoining and adjacent property owners have been notified by mail of the application. A copy of the notice shall be filed with the certification (Section 1701.B.2)
- C. For proposed uses in Flood Hazard Overlay Districts see Section 201G for additional application requirements.

Section 502: Bond

The applicant may be required to provide a suitable performance bond or other form of security to secure compliance with any conditions.

Section 503: Decision and Findings

The Board shall make findings of fact and conclusions of law that the project:

A. Shall not adversely affect the capacity of existing or planned community facilities;

1. Water and Sewer. The project shall have sufficient water and sewer capacity available for its needs and shall not result in an unreasonable burden on the municipality's present or planned water or sewer systems (if Town water or sewer are not involved, the property must have adequate capability for on-site water supply and wastewater disposal in accordance with Town regulations and applicable State Statutes and Regulations).

The Board or Commission may solicit input from the appropriate Town Officials and require engineering reports by the applicant.

2. School Impact. The project shall not cause an unreasonable burden on the ability of the Town or School districts to provide educational services.

The Board or Commission may solicit input from the School Boards.

3. Municipal Impact. The project shall not place an unreasonable burden upon the ability of the Town to provide municipal services, including but not limited to Fire, Police, Ambulance, Highway, Public Works Maintenance and Recreation.

The Board or Commission may solicit input from the appropriate local officials, fire and police, Recreation Director / Advisory Board.

B. Shall not have an undue adverse effect on the character of the neighborhood, or area affected.

"Neighborhood" means in the same area; nearby including but not limited to the area within sight and/or sound. "Character of a neighborhood" refers to the distinctive traits, qualities or attributes; its appearance and essential nature, pattern of uses, and sense of community; the factors which give it identity.

A goal of the Town Plan is to allow for appropriate mixed uses to generally encourage balanced diversity, while protecting the essential character of neighborhoods. The existence of one conditional use in a neighborhood shall not be interpreted as justification for another similar conditional use to be located there.

When considering the "character of the neighborhood or area", the Board shall consider the following:

1. Existing neighborhood uses, types of buildings, noise and traffic.

2. Town Plan objectives including but not limited to planned future neighborhoods, and neighborhood character enhancement.
 3. Historic buildings and features; intensity, uniformity or mix of uses and buildings; mass, scale and spacing of buildings; scenic views, aesthetics, open space.
 4. Privacy, security, identity, sense of community and cohesion.
- C. Shall not adversely affect traffic on roads and highways in the vicinity.

The project shall have adequate traffic access, circulation and parking, and shall not cause unreasonable traffic congestion or unsafe conditions with respect to pedestrian or vehicular traffic or other transportation facilities.

The Board or Commission shall consider:

- Town traffic plans and studies; and
 - Traffic engineering studies that may be required of the applicant.
- D. Shall be consistent with bylaws in effect.
- E. Shall not have an undue adverse effect upon the use of renewable energy resources.
- F. Is consistent with the Site Plan requirements of Section 1003.

In addition to the standards set forth above, the following standards shall apply to all applications for conditional use review within the appropriate district.

Section 504: Cottage Industry

- A. No more than fifty (50) percent of the gross floor area of the principle dwelling or, if in an accessory structure, no area greater than fifty (50) percent of the gross floor area of the principle dwelling, may be used for a cottage industry.
- B. The dwelling, accessory buildings, and the lot maintain a residential appearance at all times.
- C. The cottage industry is clearly secondary to the use of the site for residential purposes.
- D. The use is conducted within a portion of the dwelling or a building accessory thereto by the bona fide year-round resident of the dwelling.
- E. No more than two (2) employees, in addition to the principle owner, shall be permitted.
- F. The use shall not generate traffic, parking, noise, vibration, glare, fumes, odors or electrical interference beyond what normally occurs in the applicable zoning district.

- G. Storage of equipment related to the cottage industry shall be within an enclosed structure or properly screened from adjacent residential uses and highways.
- H. Vehicle (auto, truck) bodywork or repair is not considered a cottage industry.

Section 505: Mobile Home Parks

- A. A minimum of eight thousand (8,000) square feet of land shall be provided for each mobile home lot within a Mobile Home Park.
- B. Within the Mobile Home Park the minimum width of a lot shall be fifty (50) feet, front setbacks shall be 20 feet and the side and rear setbacks shall be fifteen (15) feet. All buildings not physically connected to a mobile home must be at least fifteen (15) feet from all buildings.
- C. The access right-of-way width to the Park and its Lots shall be a minimum of fifty (50) feet with the traveled portions of the road to be at least twenty four (24) feet in width. There shall be a minimum road base depth of fifteen (15) inches of gravel within the right of way. The Right of Way shall have suitable grade and alignment to allow for servicing of the Lots by fire, rescue, utility and other vehicles ordinarily and necessarily incident to such use.
- D. Minimum radius of curves on access rights-of-way shall be at least thirty (30) feet.
- E. There shall be no dead end rights of-way unless with a turnaround or cul de sac having at least a fifty (50) foot interior radius.
- F. At least two (2) off street parking spaces shall be provided for each mobile home. Minimum surface treatment of such parking spaces shall be gravel. The space may be included in the minimum lot area requirement and shall be indicated on the site plan.
- G. Suitable provisions shall be made for the protection of pedestrian traffic.
- H. Each lot should be landscaped according to State regulations and maintained by owner or lessee.
- I. Provisions for the following facilities may be made by the owner: laundry, recreation building, central maintenance shed, central TV antenna system, and underground utilities, including fuel storage.

ARTICLE VI: PLANNED RESIDENTIAL DEVELOPMENT

Section 601: Planned Residential Development

The purpose of this Section is to provide an alternative zoning procedure that may be used to establish PRDs in accordance with the planning and development objectives of the Pittsford Town Plan, and provide standards by which such flexibility may be accomplished, while maintaining and protecting the public health, safety and welfare.

The Board of Adjustments are hereby empowered to modify the zoning regulations.

Section 602: Planned Residential Development Objectives and Criteria

In reviewing PRD Applications, the Board of Adjustment shall consider the following objectives and apply the criteria below:

A. General Objectives:

1. To provide a choice in the types of environment and living units available to the public and quality in residential land uses so that development will be a permanent and long term asset to the Town.
2. To preserve agricultural and forest resources, wildlife habitats, natural areas, and other resource areas of importance to the Town.
3. To foster a pattern of development, which preserves trees, outstanding natural topography and geologic features, and prevents soil erosion.
4. To foster an efficient use of land resulting in smaller networks of utilities and roads.
5. To foster an environment in harmony with surrounding development.
6. To foster a more desirable environment than would be possible through the strict application of other sections of these regulations.
7. Structures and common areas should be arranged in such a way as to best serve the needs of occupants and/or other users of the PRD and minimize any adverse effects or neighboring properties.
8. Underground utilities will be encouraged wherever possible.

B. Criteria:

Upon application, the applicant shall provide the Board of Adjustment with a Plot Plan showing buildings, and acceptable and approved on site water and sewage locations.

2. Within a PRD, there must be adequate space and infrastructure to permit accessibility to all structures by fire fighting and similar emergency equipment.
3. Those parts of development or construction plans involving water and septic engineering, architecture, landscape architecture or land surveying shall be prepared and certified respectively by a site technician, an engineer, architect, landscape architect, or land surveyor.

C. Drainage Requirements:

1. The applicant shall meet all applicable State and Town standards for the design of drainage facilities and storm water runoff.
2. The applicant shall take particular care in the design of drainage facilities to preserve or enhance the quality of any adjacent bodies of water in accordance with State and local guidelines
3. There will be no adverse effect on neighboring properties.

D. Common Lands Criteria:

1. There should be reasonably convenient access from all occupied structures to common lands and areas.
2. Plans should attempt to preserve valuable site amenities in common areas and lands such as trees, natural landforms, topography, etc.
3. Common areas should not be physically altered except for the addition of landscaping and except as necessary to further one or more specific development objectives of the applicant.

E. Common Areas and Elements Criteria:

If the application of the procedure [PRD] results in lands available for park, recreation, open space, or other municipal purposes, the Board of Adjustment as a condition for its approval may establish such conditions on the ownership, use, and maintenance of such lands as it deems necessary to assure the preservation of such lands for their intended purposes.

Section 603: Planned Residential Development Applications And Procedure

- A. Applications for PRD's shall be submitted to the Board of Adjustment. The Application shall be placed on the agenda for review by the Board of Adjustment at the next regularly or specially scheduled meeting once the Application has been on file for seven (7) days. The Board of Adjustment may not proceed with review until all of the documentation required in this Article is presented to the Board of Adjustment. Once the Board of Adjustment has found the Application to be complete, it shall set a date for its hearing on the Application.
- B. The Application shall contain a site plan showing the location, height and spacing of driveways and off-street parking spaces, 10 ft contours and all other physical features, accompanied by a statement setting forth the nature of all proposed modifications, changes or supplementation of existing zoning regulations and shall contain those items and information specified elsewhere herein.

Section 604: Planned Residential Development – Approval

- A. The permitted number of single - family dwellings may, in a PRD, be increased by as much as twenty-five (25) percent beyond the number which would otherwise be permitted on such land under these Regulations. In granting a density increase, the Board of Adjustment shall take into consideration that the objective to be obtained by allowing density increases is to preserve the land areas. The Board of Adjustment shall review and weigh the amount of any such land that will be preserved by an applicant before granting any zoning density increase and shall also consider the capacities of community facilities and services and the character of the area affected.
- B. If the application of this procedure results in lands available for park, recreation, open space or other municipal purposes, the Board of Adjustment, as a condition of its approval, may establish such conditions on the ownership, use and maintenance of such lands as it deems necessary to assure the preservation of such lands for their intended purposes.
- C. Any modification of the zoning regulations approved under this Section shall be specifically set forth in terms of standards and criteria for the design, bulk and spacing of buildings and the sizes of lots and open spaces which shall be required, and these shall be noted or appended to the plat.
- D. The land intended to be reserved from development within a PRD shall be owned or under the control of the Applicant and shall only be transferred to a single owner's association or comparable entity and not thereafter be subdivided or developed.
- E. Size, width, front, side, and rear yard setbacks or depth of lots within a PRD, may be varied or waived by the Board of Adjustment.

- F. Upon final approval of a PRD application, the representations contained in the information, plans, agreements, and supporting materials submitted pursuant to these regulations shall become conditions of the approval. Any changes to the development plans after final approval will deem the application null and void.

ARTICLE VII: PARKING AND LOADING

Section 701: Off-Street Parking Space General Requirements

- A. The dimension of a parking space shall be at least 9' X 20' except that it may be reduced to 8'6" X 20' when such parking spaces shall be used solely by apartment residents or business employees who use such spaces on a non-transient basis (car parked for at least 3 hours in the same space).

When fractional spaces result from the computation of required parking and loading spaces, the spaces required shall be rounded up to the next whole number.

- B. Parking spaces will not be permitted directly in front of entrances or exits to buildings. These areas shall be designated as loading areas (passenger or other).
- C. Driveways serving multi-family residential uses and all non-residential uses shall be so arranged that vehicles are not required to back onto a public road.
- D. In residential districts required parking may not be located within the front setback, unless on a driveway on a permitted curb-cut. Pavement shall not replace lawns or planted areas in the front setback, exclusive of driveways.
- E. Lights used to illuminate parking areas and drives shall be so arranged and designed as to deflect light downward and away from adjacent residential areas and public highways. Shielded fixtures shall be used.
- F. All open off-street parking areas containing more than four (4) parking spaces and all off-street loading areas shall be screened on each side adjoining or fronting on any property in a residential area, by a wall, fence, or densely planted hedge not less than three (3) feet nor more than six and one half (6.5) feet in height.
- G. Parking space shall be located on the same lot as the principle use except as otherwise provided.
- H. Parking spaces for any number of separate uses may be combined in one parking lot. Pooled or group parking facilities must meet the provisions of Section 704.
- I. Parking space, access drives, entrances, and exits as required by this section for business buildings, for multi-family dwellings and for dwelling groups shall be adequately paved with macadam, bituminous or concrete and designed so as not to drain onto a public highway or adjacent properties. Multi-family dwellings and dwelling groups may use crushed rock as an alternative.

All parking and loading areas shall have adequate all-weather surfacing except that a porous surface may be approved by the Commission where it is deemed desirable to

control water runoff problems. Permanent bumper guards or wheel bumpers shall be required in those locations of the parking and loading area where a matter of safety is involved. Provision shall be made to prevent vehicles from overhanging any sidewalk area.

- J. Except for driveways and other entrances, parking and loading areas shall properly protect adjacent areas against headlight glare by means of a fence, wall, berm or hedge having a maintained height of not less than three (3) feet; nor more than six and one half (6.5) feet high. On the side of the lot adjoining a residential zone the area between the property line of the lot and such fence, wall or hedge shall be planted with lawn, shrubs, or flowers and continuously maintained in good condition.

Section 702: Parking Space Requirements

Residential (1 or 2 family)	Two (2) spaces per dwelling unit
Multi-family dwellings	One (1) per dwelling unit plus one half (½) per bedroom
Home Occupation	Two (2) spaces in addition to the requirements for the dwelling
Resident professional person	Four (4) plus residential requirement
Retail/Office	4.5 spaces per 1,000 square feet of retail/office area.
Rooming Houses	2 spaces per dwelling unit plus 1 (one) addition per non-family resident.

Section 703: Commercial Loading Areas

- A. One (1) off-street loading space not smaller than fifteen (15) feet wide, twenty-five (25) feet long and fifteen (15) feet high (if covered) shall be provided for every non-residential building.
- B. One (1) additional loading space shall be provided for each twenty thousand (20,000) square feet of floor area, or part thereof, for any floor area exceeding twenty thousand (20,000) square feet.
- C. Loading surfaces shall be paved.
- D. Loading facilities shall be located in the rear or side yards, unless otherwise permitted, and not encroach on required setbacks.

Section 704: Pooled or Group Parking Facilities

- A. For nonresidential uses, two (2) or more distinct and separate establishments may decide to pool or group their parking facilities subject to these conditions:
 - 1. The number of curb cuts will be reduced;
 - 2. The spaces are located behind buildings and/or well screened from the road and, where necessary, other properties;
 - 3. Vehicular circulation is improved; and
 - 4. The appearance of the particular area is enhanced.
- B. The minimum number of parking spaces for such pooled or grouped parking facilities shall not be less than 85 percent of the amount otherwise required; this requirement may be modified by the Planning Commission, but in no case less than 50 percent, if it is demonstrated that fewer spaces would not affect the parking situation in the immediate vicinity. Fractional spaces shall be rounded up.
- C. Evidence of a pooling agreement.

ARTICLE VIII: NONCONFORMITIES

Section 801: Construction Approved Prior to Adoption of Regulations

Nothing contained in these Regulations shall require any change in a nonconformity where such nonconformity conformed to all applicable laws, ordinances, and regulations, or the permit for which was issued, prior to the enactment of these regulations.

Section 802: Change of Use Nonconformity

A use nonconformity may be changed to another use nonconformity only with the approval of the Board of Adjustment and then only to a use which in the judgment the Board is of a lesser, or no more, nonconforming nature. Whenever a use nonconformity has become conforming, it shall not be changed back to a use nonconformity.

Section 803: Extension of a Use Nonconformity within a Structure

A use nonconformity may be extended throughout the structure, provided no structural alterations or changes are made therein, except those required by law or ordinance or as may be required for safety or necessary to secure or insure the continued advantageous use of the structure during its lifetime.

Section 804: Enlargement of a Use Nonconformity

A use nonconformity may be enlarged on the same lot provided that:

- A. All provisions of these Regulations, except type of use, are complied with;
- B. The Board of Adjustment determines that there will be no undue, adverse affect on the character of the neighborhood;
- C. Only one such extension is made; and
- D. The total enlargement does not exceed fifty (50%) percent of the area of the use nonconformity in existence at the time of the adoption of these Regulations.

Section 805: Restoration of a Nonconforming Structure

Any use nonconformity which has been destroyed or damaged by fire, explosion, act of God, or by vandalism or public enemy, may be restored within a one year period, to the same use nonconformity as existed before such damage. The Board of Adjustment may extend this for up to an additional year where it can be demonstrated that restoration within one year is not possible.

Section 806: Discontinuance of Use Nonconformity

Any use nonconformity which has ceased by discontinuance, or abandonment for a period of one year shall thereafter conform to the provisions of these Regulations. Intent to resume a use nonconformity shall not confer the right to do so unless actual resumption occurs within the specified time period.

Section 807: Maintenance of a Dimensional Nonconformity

A dimensional nonconformity of a structure may be normally maintained and repaired provided that such action does not increase the degree of nonconformance.

Section 808: Expansion of a Dimensional Nonconformity

A dimensional nonconformity of a structure may be expanded provided such action:

- A. Does not create a greater nuisance, detriment to the public health, safety or welfare than the existing dimensional nonconformity; and
- B. The extension, expansion or intensification of the dimensional nonconformity shall conform to all other requirements applicable under these Regulations.
- C. The total enlargement does not exceed fifty (50%) percent of the area of the use nonconformity in existence at the time of the adoption of these Regulations.

Section 809: Restoration of a Dimensional Nonconformity

Any dimensional nonconformity of a structure which has been destroyed or damaged by fire, explosion, act of God, or by vandalism or public enemy, may be restored within a one year period, to the same dimensional nonconformity as existed before such damage.

Section 810: Development of Lot or Parcel with Dimensional Non-Conformity

An existing lot or parcel with a dimensional nonconformity may be normally developed provided that all provisions of these regulations, except those which create the dimensional nonconformity, are complied with. See also existing small lots (Section 1102)

Section 811: Alternation of Lot or Parcel with Dimensional Non-Conformity

The boundaries of a lot or parcel with a dimensional nonconformity may be altered only in a manner that decreases, or does not increase, its degree of nonconformity.

ARTICLE IX: SIGNS

Section 901: Sign Dimensions

Except where otherwise provided by law, the maximum dimensions of any sign located or erected in the Town of Pittsford shall be:

- A. Area: maximum, thirty-two (32) square feet;
- B. Height of sign: maximum, six (6) feet;
- C. Width of sign: maximum, eight (8) feet;
- D. Height above highway grade: fifteen (15) feet, except that a sign on a building may extend six (6) feet above the top of the roof, but in no case shall the highest point on any sign exceed forty (40) feet;
- E. No sign shall be erected within the side or rear yard setback, and there shall be no more than two (2) signs per business;
- F. Signs on Town Highways shall not be erected closer than thirty (30) feet from the center of the traveled portion of the highway; and
- G. No “On Premises” sign shall be erected more than five hundred (500) feet from the main entrance to the business or activity being advertised, and in no case shall such sign be erected closer to the main entrance of another business or activity than to the business or activity advertised.

Section 902: Illumination

Signs may only be illuminated externally and then only with the prior review and approval of the Planning Commission. In considering such approval, approval with conditions, or disapproval the Planning Commission may consider the following:

- A. Residential and/or commercial character of the neighborhood and the zoning district in which the sign is to be located.
- B. Effect of the illumination on traffic, parking and neighboring properties, including those properties not necessarily abutting the premises on which the sign is to be located.
- C. The interest of the town in preserving the rural appearance of a particular area, roadway or portion thereof along which the sign is to be erected.
- D. The need for such illumination as it may affect the applicant’s purpose for which the sign is intended.

ARTICLE X: SITE PLAN APPROVAL

Section 1001: Scope

A zoning permit shall be issued by the Zoning Administrative Officer for any use or structure only after the Planning commission grants site plan approval except in the following cases:

- A. One and two family dwellings and accessory dwelling units;
- B. Any use or structure requiring a variance or conditional use permit will be reviewed by the Zoning Board of Adjustment.

Section 1002: Submission of Site Plan and Supporting Data

- A. Any of the following information can be waived at the discretion of the Planning Commission.

A request for a waiver shall be submitted to the Planning Commission and shall specify which portions of Sections 1002 B 1-5 are requested for waiver. The applicant shall include a preliminary site plan providing sufficient information upon which the Planning Commission can make a decision. The Planning Commission may request additional information.

A request for a waiver shall not be considered as submission of a site plan in relation to Section 1006.

- B. The owner shall submit two (2) sets of the site plan and supporting data to the Administrative Officer which shall include the following information presented in drawn form and accompanied by written text.
 - 1. Name and address of the owner of record of this and adjoining lands; name and address of applicant - if different than owner; name and address of person or firm preparing the plan; address of the property; description of the property giving location; scale of map, north point, and date.
 - 2. Survey of the property showing existing features, including contours, structures, large trees, easements, rights-of-way, land use and deed restrictions, zoning classification, existing surface waters (brooks, ponds, etc.), storm water drainage plans, and the location of proposed structures with distance from lot lines indicated.
 - 3. Site plan showing proposed structure(s), locations and land use areas; streets, access points, driveways, traffic circulation, parking and loading spaces and pedestrian walks; utilities both existing and proposed, including placement of poles; and including water wells and sewage treatment facilities; landscaping plans, including site grading, planting design, screening or fencing, detailed

specifications of planting and landscaping materials to be used; existing and proposed above ground equipment such as propane tanks, transformers, etc.

4. Construction sequence and anticipated time schedule for the completion of each phase for buildings, parking spaces and landscaped areas of the entire development.
5. The location and size of proposed signs.

Section 1003: Site Plan Review Considerations

The Planning Commission shall consider and may impose appropriate conditions and safeguards with respect to the adequacy of traffic access, circulation and parking, landscaping and screening, to protect the use of renewable energy resources, and for the impact of noise, glare, vibration and odors on adjoining properties.

The Commission shall review the site plan map and supporting data taking into consideration the following:

A. Adequacy of traffic access:

The proposed use must provide for safety of pedestrians and vehicular circulation between the site and the street network including location, number and width of access points, curve radii at access points, acceleration or deceleration lanes on adjacent public streets, sight distance improvements, shared access with adjoining properties, and location of sidewalks and/or other walkways. Particular consideration shall be given to visibility at intersections, to traffic flow and control, to pedestrian safety and convenience, and to access in case of an emergency.

1. Pedestrian Circulation

- (a) The Planning Commission may require pedestrian walkways to facilitate pedestrian movements.
- (b) In all districts, the Planning Commission may require provision for sidewalks, pedestrian trails and walkways along waterways or other natural features to connect with similar present or anticipated trails on adjacent properties.

2. Access

- (a) The Planning Commission may require service roads connecting to public roads, with provision for connection to similar service roads on adjacent property where it feels that limiting the number of intersections to the public road is in the interest of the health and safety of the community.

- (b) All roads, regardless of whether they are to be provided or taken over by the Town, shall be constructed to meet the applicable Town of Pittsford specifications.

B. Adequacy of parking and loading facilities

Adequacy of on-site circulation, parking, and loading facilities, with particular attention to safety including aisle widths to accommodate emergency vehicles, traffic movement patterns and location of parking areas to prevent conflicts with entering and exiting traffic onto a public street, location of loading docks and number and size of parking spaces. Refuse and service areas shall be included. Provisions for snow removal shall also be made.

C. Adequacy of landscaping and screening

The objective is to achieve compatibility and protection to adjacent property. Particular consideration should be given to the preservation of existing vegetation, visibility of unsightly or incompatible areas from the road and adjoining properties, and the adequacy of landscaping materials to meet seasonal conditions, soil conditions, and light on the site.

1. Landscaping - General

In determining the amount of planting to be required, the Planning Commission shall take into account:

- (a) Existing trees, shrubs, evergreens and other vegetation to be preserved on the site.
- (b) Visibility of incompatible or unsightly areas from roads and/or adjoining properties.
- (c) The need to effectively screen all parking areas from roads and adjacent properties.
- (d) Proximity of lots used for residential purposes.

2. Specific Landscaping Requirements.

- (a) All parking lots shall be screened by a strip with suitable plants, screening or land forms.
- (b) All plants, when initially installed, are to be of a size and shape approved by the Planning Commission. If the Planning Commission determines that the landscaping plan is appropriate in size, scope, etc., but that it will take several years for the plants to accomplish the screening or buffering goals,

the Planning Commission may require that fencing be installed during the interim.

- (c) If the Planning Commission determines that plants are not appropriate, it may approve suitable fencing.
- (d) The remainder of the required yard space shall be landscaped and maintained in good quality appearance.
- (e) Where commercial uses are located adjacent to residential buildings, there shall, to the extent practicable, be plants or attractive solid fencing to screen out, as much as feasible, outdoor lighting from the view of the ground floor of the adjacent residential buildings.
- (f) All landscaping shall be completed and maintained in accordance with the site plan as approved by the Planning Commission. Any dead or diseased planting shall be replaced as soon as seasonally feasible
- (g) Stormwater drainage shall be treated on site where practical, and shall not cause an adverse impact upon the municipality or neighboring properties.
- (h) Energy efficiency shall be considered in the design and orientation of the buildings. (See Efficiency VT)

Section 1004: Bond

The applicant may be required to provide a suitable performance bond or other form of security to the Town to secure compliance with any conditions.

Section 1005: Amendments

Amendments to approved site plans may be made after submitting an application to amend for review and approval by the Planning Commission. This includes modifications required by other reviewing agencies (i.e. District Environmental Commission [Act 250]) subsequent to the initial approval by the Planning Commission.

Section 1006: Public Hearing

Notice shall be given and a public hearing held in accordance with Sections 1701.B and 1702 of this Regulation.

Section 1007: Time for Action

The Planning Commission shall act to approve, approve with conditions or disapprove any site plan within forty-five (45) days of receipt by the Planning Commission of a complete application. Failure to so act within such period shall be deemed approval.

ARTICLE XI: GENERAL REGULATIONS

Section 1101: Compliance with Regulations

Unless expressly exempted herein, or by Federal or State law, no development shall be commenced unless and until an administrative permit has been issued by the Zoning Administrator in conformance with this Zoning Regulation and the Pittsford Flood Hazard Area Regulations (See Attachment A).

No lot shall have an area, width, frontage, or a front, side, corner, or rear yard, less than that set forth herein, unless expressly exempted or otherwise authorized by State or Federal law.

No building or buildings shall be higher, or occupy in the aggregate a greater percentage of lot area, than as set forth herein, unless expressly exempted or otherwise authorized by State or Federal law.

Section 1102: Existing Small Lots

- A. Any lot that is legally subdivided, is in individual and separate and nonaffiliated ownership from surrounding properties, and is in existence on the date of enactment of this bylaw, may be developed for the purposes permitted in the district in which it is located, even though the lot no longer conforms to minimum lot size requirements as long as: a) the lot is more than one-eighth acre in area; and, b) the lot has a width or depth dimension of more than 40 feet.
- B. If such lot subsequently comes under common ownership with one or more contiguous lots, the lot shall be deemed merged with the contiguous lot for purposes of this Regulation.

However, such lot shall not be deemed merged and may be separately conveyed if all the following apply:

- 1. The lots are conveyed in their preexisting, nonconforming configuration.
- 2. On the effective date of any bylaw, each lot was developed with a water supply and wastewater disposal system.
- 3. At the time of transfer, each water supply and wastewater system is functioning in an acceptable manner.
- 4. The deeds of conveyance create appropriate easements on both lots for replacement of one or more wastewater systems, potable water systems, or both, in case there is a failed system or failed supply as defined in 10 V.S.A. chapter 64.

Section 1103: Required Frontage

Except as otherwise expressly stated in this Section, land development is permitted only on lots with adequate frontage as specified in Article IV. If a lot does not have adequate frontage, the Planning Commission nevertheless may approve the lot if the Planning Commission determines either that: (i) the lot has a boundary along a private road or public waters, the length of which boundary is not less than the required frontage specified in Article IV; or (ii) the lot has access to a public road or public waters by a permanent easement or right-of-way that is at least twenty (20) feet in width if the lot is for single family residential use, or is at least fifty (50) feet in width if the lot is for any other use.

The design of access or rights of way to public roads or public waters must be approved by the Select Board or its designee.

Section 1104: Protection of Home Occupations

Nothing in this Regulation may infringe upon the right of any resident to use a minor portion of a dwelling for an occupation which is customary in residential areas and which does not change the character thereof.

Residents may use a minor portion of a dwelling or accessory structure for an occupation which is customary in residential areas and which does not change the character of those areas as long as:

- A. The dwelling, accessory structures and the lot maintain a residential appearance at all times;
- B. The home occupation is clearly secondary to the use of the site for residential purposes;
- C. The use is conducted within a portion of the dwelling or a building accessory thereto by a resident or the principal practitioner of the home occupation and not more than two (2) employees;
- D. The use does not generate unsafe or intrusive traffic, parking, noise, vibration, glare, fumes, odors or electrical interference; and
- E. A permitted home occupation is granted to the applicant for the length of time that the applicant occupies the dwelling. The permit shall expire upon relocation by the applicant and shall neither remain with subsequent occupants of the dwelling nor transfer to a new location with the original applicant.
- F. Vehicle (auto; truck) bodywork, or repair, are not considered home occupations.

Section 1105: Yard Setbacks

Notwithstanding the provision for setbacks elsewhere in these Regulations, where a setback is measured from a street (but not a private road) having less than a 50-foot right-of-way, the setback requirements set forth in Article IV shall be measured perpendicularly from the center line of the street and 25 feet shall be added to the front setback requirement.

Section 1106: Equal Treatment of Housing

Nothing herein shall have the effect of excluding mobile homes, modular housing, or other forms of prefabricated housing, from the municipality, except upon the same terms and conditions as conventional housing is excluded.

Nothing herein shall have the effect of excluding from the municipality housing to meet the needs of the population as determined by the Pittsford Town Plan as required under Section 4382(a)(10) of chapter 117 of Title 24 of the Vermont Statutes Annotated.

Nothing herein shall be construed to prevent the establishment of mobile home parks in accordance with chapter 153 of Title 10 of the Vermont Statutes Annotated.

Section 1107: Accessory Apartment

Administrative Permit Only: Except as provided below, one accessory dwelling unit that is located within or on the same parcel to an owner-occupied single-family dwelling shall be permitted (subject only to obtaining an administrative permit), provided that all of the following conditions are met:

- A. The unit is an efficiency or one-bedroom apartment that is clearly subordinate to a single-family dwelling, and has facilities and provisions for independent living, including sleeping, food preparation, and sanitation; and,
- B. The property has sufficient wastewater capacity; and,
- C. The unit does not exceed 30 percent of the total habitable floor area of the single-family dwelling; and,
- D. Applicable setback, coverage, and parking requirements specified in this Bylaw are met.

Conditional Use Required: Conditional use review is required if there is to be an increase in the height or floor area of the existing structure in which the accessory dwelling unit is proposed to be located.

Section 1108: Family Child Care Homes/Facilities

- A. A family child care facility serving six or fewer children is considered a single family dwelling for the purposes of this Bylaw.

B. A family child care facility serving no more than six full-time children and four part-time children, as defined in subdivision 33 V.S.A. § 4902(3)(A), is a permitted use in all districts (requiring an administrative permit only), but is subject to site plan review under Article X.

C. Family child care facilities serving more than six full-time and four part-time children are fully regulated by this Bylaw.

Section 1109: Residential Care Homes and Group Homes

A residential care home or group home to be operated under state licensing or registration, serving not more than eight (8) persons who have a handicap or disability as defined under 9 V.S.A. § 4501 shall be considered by right to constitute a single-family dwelling, except that no such home shall be so considered if it is located within 1,000 feet of another existing or permitted such home.

Section 1110: Lot Density Limitations

In all districts, only one principal building shall be placed on a lot. Notwithstanding the foregoing, where a lot is used principally for farming, as defined by 10 V.S.A. § 6001(22), two dwelling units are permitted, provided that both dwelling units are used by farm operators or employees. An accessory apartment shall not be considered a principal use.

Section 1111: Lots in More Than One Zoning District

Where a district boundary line divides a lot of record at the time such line is adopted, the regulations for the less restricted part of such lot shall extend not more than thirty (30) feet into the more restricted part, provided the lot has the requisite amount of frontage on a street in the less restricted district. Notwithstanding the foregoing, if any portion of the subject lot is located in either the Rural Commercial or the Commercial districts, the required frontage may exist in either the more or the less restricted district.

Section 1112: Reduction of Lot Area

No lot shall be reduced or otherwise modified in any manner that renders it non-compliant with any provision of this Ordinance, unless the reduction is due to a taking by eminent domain.

Section 1113: Required Area or Yards

Space required under these regulations to satisfy area, yard, or other open space requirements in relation to one (1) building shall not be counted as a part of a required area, yard, or other open space for any other building.

Section 1114: Destroyed or Demolished Structures

Within ninety (90) days after a permanent or temporary building or structure has been destroyed, partially destroyed, demolished, or otherwise rendered unusable for its intended purpose, all

structural materials shall be removed from the site, and the excavation thus remaining shall be covered over or filled to the normal grade by the owner.

Upon application to the Zoning Administrator, one (1) ninety (90) day extension may be approved.

Section 1115: Recreational Vehicles

Parking a recreational vehicle on any public or private property, is permitted only in accordance with the following regulations:

- A. The recreational vehicle is not used as a permanent living quarters; and
- B. If more than ten (10) feet in length, the recreational vehicle must be parked so as to comply with the setback requirements of the district in which it is located; and
- C. The recreational vehicle cannot be occupied for more than 90 days in any 12 month period.

Section 1116: Height of Structures

No structure shall exceed a height applicable to the district in which it is located, as set forth in Article IV. However, except to the extent necessary to protect historic landmarks and structures listed on the state or national register of historic places, the height restrictions shall not apply to any of the following:

- A. Any structure to the extent regulated by Federal or State law;
- B. The placement of antennae used to transmit and/or to receive communications signals on a property owner's premises if the aggregate area of the largest faces of the antennae is not more than eight square feet, and if the antennae and any mast support does not extend more than 12 feet above the roof of that portion of the building to which the mast is attached;
- C. Windmills with blades less than 20 feet in diameter; or
- D. Rooftop solar collectors less than 10 feet high and mounted on otherwise compliant structures.

Section 1117: Approval of Subdivision Plats

No plat of a proposed subdivision shall be approved unless each of the proposed lots conforms with the provisions of this Ordinance, including the dimensional requirements in the zoning district(s) in which the lots are proposed to be located.

Section 1118: Site Development / Fill

The import or removal of fill, in an aggregate amount of not more than 30 yards, is exempt from regulation, provided that no slope thereby will be caused to exceed 12%, and that there is no undue adverse impact on adjoining properties. The import or removal of fill in an aggregate amount of more than 30 yards shall be done only after the issuance of a zoning permit and only upon a determination by the Zoning Administrator that there will be no undue adverse impact on adjoining properties.

Section 1119: Fences

Fences may be built in front, side and rear yards provided they do not exceed six and one-half (6 1/2) feet in height from ground to peak and are maintained in a proper state of repair with the finished side of such fence facing adjacent properties. Fences shall be so constructed that they can be maintained from the premises of the owner. Boundary line fences shall be allowed if the parties involved agree in writing, which agreement shall include the design and facing of the fence as well as a statement of which party or parties is/are responsible for its maintenance.

Section 1119A: Corner Lot Obstructions

No fence, landscaping, or other opaque object shall be constructed or placed on a corner lot that obstructs the views of drivers approaching the intersection. For the purposes of this Section, the view shall not be obstructed if there is no fence, landscaping, or other opaque object between the height of three and ten feet above the average grade of the intersecting streets or rights of way, within the polygon formed by two lines running along the intersecting streets or rights of way and a third line joining the first two lines at points twenty-five feet from the intersection.

Section 1120: Protection of Ridgelines

Development along ridgelines and closely adjoining slopes is not permitted should such development break the vegetative canopy as seen from a public road, interfere with a known wildlife corridor or significant wildlife habitat, or create risk of significant ecological damage(such as erosion) in providing access to the site.

Section 1121: Agricultural Uses/Farm Structures

Agricultural uses are exempt from regulation under this Bylaw, and no municipal permit for a farm structure is required. However, anyone intending to erect a farm structure must provide prior written notice to the Zoning Administrator, and must comply with the setbacks contained within this zoning ordinance, or with any lesser setbacks approved by the secretary of agriculture, food and markets in accordance with the provisions of Section 4413(d) of the Act. The notification must contain a sketch of the proposed structure, identify the setback distances from adjoining property owners and from any right-of-way, and include the written approval of setback distances, if any, obtained from the secretary of agriculture, food and markets. All farm structures within the Flood Hazard Overlay District must comply with the National Flood

Insurance Program. Nothing herein shall limit the municipality's right to report violations of accepted agricultural or silvicultural practices to the appropriate state authorities for enforcement.

ARTICLE XII: TELECOMMUNICATIONS FACILITIES

Section 1201: Scope of Article

Telecommunications facilities shall include all telecommunication service providers and associated equipment and buildings.

Section 1202: Purposes

The purpose of this Article is to protect the public health, safety and general welfare of the Town of Pittsford while accommodating the communication needs of residents and businesses. This Article shall: Preserve the character and appearance of the Town of Pittsford while allowing necessary telecommunications services to be developed and:

- A. Protect the view corridors, scenic, historic, environmental, and natural resources of the Town of Pittsford.
- B. Provide standards and requirements for the operation, siting, design, appearance, construction, monitoring, modification, and removal of telecommunication facilities and towers.
- C. Minimize tower and antenna proliferation by requiring the sharing of existing communications facilities, towers and sites where possible and appropriate.
- D. Facilitate the provision of telecommunication services to the residences and businesses of the Town of Pittsford.
- E. Minimize the adverse visual affects of towers through careful design and siting standards.
- F. Encourage the location of towers and antennas in non-residential areas and away from other sensitive areas such as areas with schools, hospitals or child care facilities, through performance standards and incentives.

Section 1203: General Requirements

- A. An applicant for a telecommunications tower or facility permit must be a telecommunications provider or must provide a copy of its executed contract to provide land or facilities to an existing telecommunications provider to the administrative officer at the time that an application is submitted. A permit shall not be granted for a tower to be built on speculation.
- B. Pursuant to 24 VSA § 4407, the board is authorized to hire qualified persons to conduct an independent technical review of applications and to require the applicant to pay for reasonable costs thereof.

- C. In addition to other findings required, the board shall find that its decision is intended to be consistent with federal law, particularly the Telecommunications Act of 1996. This Article does not: prohibit or have the effect of prohibiting the provision of personal wireless services; does not unreasonably discriminate among providers of functionally equivalent services; and does not regulate personal wireless services on the basis of the environmental effects of radio frequency emissions to the extent that the regulated services and facilities comply with the FCC regulations concerning such emissions.
- D. Notwithstanding the above, all other Articles of the Zoning Bylaws which are applicable to the structure of a telecommunications facility, including fencing, support structures, roads, etc. are in full force and effect. In the event that there is a conflict between the regulations as set forth in Article XII of these regulations and as applicable to specific Zoning Districts as set for elsewhere in these Bylaws, the stricter of the two or more regulations applies in all cases.

Section 1204: Application Requirements

In addition to information otherwise required in the Town of Pittsford's Zoning Bylaws, applicants for telecommunications towers or facilities shall include the following supplemental information.

- A. The name and address of the applicant, the record landowners and any agents of the landowners or applicants as well as an applicant's registered agent and registered office. If the applicant is not a natural person, the name and address of the business and the state in which it is incorporated and has its principal office shall be provided.
- B. The name, address and telephone number of the person to be contacted and authorized to act in the event of an emergency regarding the structure or safety of the facility.
- C. The names and addresses of the record owners of all abutting property.
- D. A report from qualified and licensed professional structural or radio frequency engineers that:
 - 1. Describes the facility height, design and elevation.
 - 2. Documents the height above grade for all proposed mounting positions for antennas to be co-located on a telecommunications tower or facility and the minimum separation distances between antennas.
 - 3. Describes the tower's proposed capacity, including the number, height and type of antennas that the applicant expects the tower to accommodate.
 - 4. Documents steps the applicant will take to avoid interference with any established public safety telecommunications.

5. In the case of new tower proposals, demonstrates that existing telecommunications sites and other existing structures within 30 miles of the proposed site cannot reasonably be modified to provide adequate coverage and adequate capacity to the Town of Pittsford.
 6. Describes potential changes to those existing facilities or sites in their current state that would enable them to provide adequate coverage.
 7. Describes the output frequency, number of channels and power output per channel for each proposed antenna.
 8. Includes written five-year plan for use of the proposed telecommunications facility, including reasons for seeking capacity in excess of immediate needs if applicable, as well as plans for additional development and coverage within the Town.
 9. Demonstrates the tower's compliance with the municipality's structural standards and setbacks for towers and support structures.
 10. Provides proof that at the proposed site, the applicant will be in compliance with all FCC regulations, standards and requirements and commits to continue to maintain compliance with all FCC regulations, standards and requirements regarding both radio frequency interference (RFI) and radio frequency radiation (RFR). The Zoning Board of Adjustment (ZBA) may hire independent engineers to perform evaluations of compliance with the FCC regulations, standards and requirements on an annual basis at unannounced times.
 11. Includes other information required by the Board that is necessary to evaluate the request.
 12. Includes an engineer's stamp and registration number.
- E. For all telecommunication towers or facilities, the applicant shall provide a letter of intent committing the tower owner and his or her successors to permit shared use of the tower if the additional user agrees to meet reasonable terms and conditions for shared use, including compliance with all applicable FCC regulations, standards and requirements and the provisions of this bylaw.
- F. An applicant for a permit for a facility to be installed on an existing structure shall provide a copy of its executed contract with the owner of the existing structure to the administrative officer at the time an application is submitted.
- G. To the extent required by the National Environmental Policy Act (NEPA) and as administered by the FCC, a complete Environmental Assessment (EA) draft or final report describing the probable impacts of the proposed facility.

- H. A copy of the application or draft application for an Act 250 permit, if applicable.
- I. The permit application shall be signed under the pains and penalties of perjury.

Section 1205: Site Plan Requirements

In addition to site plan requirements found elsewhere in the Town of Pittsford Zoning Bylaws telecommunication facilities shall include the following supplemental information:

- A. Location Map: a copy of a portion of the most recent USGS Quadrangle map showing the area within at least a two mile radius of the proposed tower site.
- B. Vicinity Map showing the entire vicinity within a 2,500 foot radius of the tower site, including the telecommunications facility or tower, topography, public and private roads and driveways, buildings and structures, water bodies, wetlands, landscape features, historic sites and habitats for endangered species. It shall indicate the property lines of the proposed tower site parcel and all easements or rights of way needed for access from a public way to the tower.
- C. Proposed Site Plans of entire development indicating all improvements including landscaping, utility lines, guy wires, screening and roads.
- D. Elevations showing all facades and indicating all exterior materials and color of towers, buildings and associated facilities.
- E. In the case of a proposed site that is forested, the approximate average height of the existing vegetation within 200 feet of the tower base.
- F. Construction sequence and time schedule for completion of each phase of the entire project.
- G. Plans shall be drawn at a minimum at the scale of one (1) inch equals 50 feet.

Section 1206: Co-Location Requirements

- A. An application for a new telecommunications tower shall not be approved unless the Board of Adjustment finds that the telecommunications facilities planned for the proposed tower cannot be accommodated on an existing or approved tower or structure due to one of the following reasons:
 - 1. The proposed antennas and equipment would exceed the structural or spatial capacity of the existing or approved tower or facility, as documented by a qualified engineer licensed to practice in the State of Vermont. Additionally, the existing or approved tower cannot be reinforced, modified or replaced to accommodate planned or equivalent equipment, at a reasonable cost, to provide coverage and capacity comparable to that of the proposed facility.

2. The proposed antennas and equipment would cause interference materially impacting the usefulness of other existing or permitted equipment at the existing or approved tower or facility as documented by a qualified engineer licensed to practice in the State of Vermont and such interference cannot be prevented at a reasonable cost.
 3. The proposed antennas and equipment, either alone or together with existing facilities, equipment or antennas, would create RFI in violation of federal standards or requirements.
 4. The proposed antennas and equipment either alone or together with existing facilities, equipment or antennas would create RFR in violation of federal standards or requirements.
 5. Existing or approved towers and structures cannot accommodate the planned equipment at a height necessary to function reasonably or are too far from the area of needed coverage to function reasonably as documented by a qualified engineer licensed to practice in the State of Vermont.
 6. Aesthetic reasons make it unreasonable to locate the planned telecommunications equipment upon an existing or approved tower or building.
 7. There is no existing or approved tower in the area in which coverage is sought.
 8. Other unforeseen specific reasons make it unreasonable to locate the planned telecommunications equipment upon an existing or approved tower or building.
- B. Towers must be designed to allow for future rearrangement of antennas upon the tower and to accept antennas mounted at varying heights where overall permitted height allows. Towers shall be designed structurally, electrically and in all respects to accommodate both the applicant's antennas and additional antennas where overall permitted height allows.

Section 1207: Tower and Antenna Design Requirements

Towers, antennas and any necessary support structures shall be designed to blend into the surrounding environment through the use of color camouflaging and architectural treatment, except where the Federal Aviation Authority (FAA), state or federal authorities have dictated a color.

In order to protect public safety and to preserve the scenic character and appearance of the area, the height limit for towers, antennas and tower-related fixtures shall be not more than 20 feet above the average height of the tree line measured within 100 feet of the highest vertical element of the telecommunications facility. Notwithstanding the above, additional height may be approved upon a finding by the Board of Adjustment that the

additional height is necessary in order to provide adequate coverage in the Town of Pittsford or to accomplish co-location of facilities and that the additional height will not cause an undue visual impact on the scenic character or appearance of the area.

All buildings and structures accessory to a tower (except for electric power poles where specifically exempted by the Board) shall meet the minimum setback requirements of the underlying zoning district or setback requirements specified in this bylaw. If the minimum setbacks of the underlying zoning district are less than the height of the tower, including antennas or other vertical appurtenances, the minimum distance from the tower to any property line shall be no less than the height of the tower, including antennas and other vertical appurtenances.

Ground mounted equipment or antennas as well as buildings and structures accessory to a tower, shall be screened from view by suitable vegetation, except where a design of non-vegetative screening better complements the architectural character of the surrounding neighborhood. A planted vegetative screen shall be a minimum of ten feet in depth with a minimum height of six feet and shall have the potential to grow to a height of at least 15 feet at maturity. Existing on-site vegetation outside the immediate site for the wireless facility shall be preserved or improved. Disturbance to existing topography shall be minimized unless the disturbance is demonstrated to result in less visual impact on the facility from surrounding properties and other vantage points.

Section 1208: Amendments to Existing Telecommunications Facility Permit

An alteration or addition to a previously approved telecommunications facility shall require a permit amendment when any of the following are proposed:

- A. Change in the number of buildings or facilities permitted on the site;
- B. Material change in technology used by the telecommunications facility; or
- C. Addition or change of any equipment resulting in greater visibility or structural windloading, or additional height of the tower, including profile of additional antennas, not specified in the original application.

Section 1209: Tower Lighting/ Sign

- A. Towers shall not be illuminated by artificial means and shall not display lights unless such lighting is specifically required by the FAA or other federal or state authority for a particular tower because of its height. Any lighting required solely as a result of height may be subject to review by the town of Pittsford. Heights may be reduced to eliminate the need for lighting or another location selected.
- B. No commercial signs or lettering shall be placed on a tower.

- C. Noise at the site perimeter from the operation of any machinery or equipment shall be minimized.

Section 1210: Antennas Mounted on Structures, Roofs, Walls, and Existing Towers Governed

The placement of telecommunications antennas on existing buildings, structures, roofs, or walls may be approved by the administrative officer, provided the antennas meet the requirements of this bylaw, upon submission of:

- A. A final site and building plan; and
- B. A report prepared by a qualified engineer, licensed to practice in the State of Vermont indicating the structure's suitability for the telecommunications facility, and that the proposed method of affixing the antenna to the structure complies with standard engineering practices. Complete details of all fixtures and couplings and the exact point of attachment shall be indicated.

Section 1211: Temporary Wireless Communication Facilities

Any telecommunications facility designed for temporary use is subject to the following:

- A. Use of a temporary facility is permitted only if the owner has received a temporary use permit from the Town of Pittsford.
- B. Temporary telecommunication facilities are permitted for no longer than five days use during a special event.
- C. The maximum height of a temporary facility is 50 feet from grade.
- D. Temporary facilities must comply with all applicable portions of these Regulations.

Section 1212: Interference With Public Safety Telecommunications

No new telecommunications facility shall be placed or constructed in such a way as to interfere with public safety telecommunications. All applications for new telecommunication facilities shall be accompanied by an intermodulation study that predicts no likely interference problems and certification that the study has been provided to the appropriate public safety agencies. Before testing or operating new service or changes in existing service, telecommunications providers shall notify the municipality at least ten calendar days in advance of such changes and allow the municipality to monitor interference levels during that testing process.

Section 1213: Continuing Obligations of Permittee

Upon receiving a permit, the permitted shall annually demonstrate that he or she is in compliance with all FCC standards and requirements regarding RFR, the basis for his or her representations and the most recent time he or she took actual readings of the RFR at the site. The permitted shall provide a list of the RFR readings, their distances from the tower/transmitter, dates of the readings and the name of the person or company who took the readings.

Section 1214: Abandoned, Unused, Obsolete, Damaged or Dangerous Towers or Portions of Towers

Abandoned, damaged or unused towers or portions of towers and their facilities shall be removed as follows:

- A. The owner of a tower shall annually, on January 15, file a declaration with the Town of Pittsford administrative officer certifying the continuing safe operation of every facility installed subject to these regulations. Failure to file a declaration shall mean that the tower is no longer in use and considered abandoned. An owner who has failed to file an annual declaration with the administrative officer may file a declaration of use or intended use and may request the ability to continue use of the tower.
- B. Abandoned or unused towers and associated facilities shall be removed within 180 days of cessation of operations at the site unless a time extension is approved by the Board of Adjustment. In the event the tower is not removed within 180 days of the cessation of operations at a site, the municipality may remove the tower and all associated facilities and the costs of removal shall be assessed against the property and/or tower owner.
- C. Unused portions of towers shall be removed within 180 days of the time that such portion is no longer used for antennas. The replacement of portions of a tower previously removed requires the issuance of a new telecommunication facility permit.

Section 1215: Maintenance of Telecommunications Facilities Insurance

- A. The telecommunications facility owner shall maintain adequate insurance on all telecommunication facilities. All facility sites shall be properly fenced and identified by signage that indicates presence of RFR and any other appropriate warnings required by permit conditions.
- B. The telecommunications facility owner shall provide and maintain a bond as set by the Board of Adjustment adequate to provide sufficient funds to facilitate the removal of any and all structures and provide for the restoration of the site to match the surrounding area within 200 feet, at the termination of the permit, or upon discontinuing the use of the structure in a manner consistent with the zoning permit.
- C. Enforcement and Penalties: The holder of the Zoning Permit and the underlying land owner, if different, and or any lessees, sub lessees, etc are to be held severally and jointly

responsible for the maintenance and removal of any facilities granted a permit under these regulations.

Section 1216: Fees

Fees for filing an application to build or alter a telecommunications facility shall be as set by the Select Board and applicable at the time of the application. Fees may include the reasonable costs of independent technical assessment(s) of the application.

ARTICLE XIII: ADMINISTRATION AND ENFORCEMENT

Section 1301: Municipal Appointments

A. Administrative Officer

An Administrative Officer shall be nominated by the Planning Commission and appointed for a term of three (3) years by the Select Board to administer the Zoning Regulations. The Administrative Officer shall be subject to the personnel rules of the municipality adopted under Title 24. The Select Board may remove an Administrative Officer for cause at any time after consultation with the Planning Commission.

An acting Administrative Officer may be nominated by the Planning Commission and appointed by the Select Board, who shall have the same duties and responsibilities as the Administrative Officer when that individual is absent.

The Administrative Officer shall literally administer this Regulation and shall not have the power to permit any land development that is not in conformance with this regulation. In so doing the Administrative Officer shall inspect developments, maintain records and perform all other necessary tasks to carry out the provisions of these Regulations.

B. Planning Commission

A Planning Commission shall be appointed by the Select Board in accordance with the Act. At least a majority of members shall be residents of the municipality. Any member of the Commission may be removed at any time by a unanimous vote of the Select Board.

The Planning Commission shall adopt rules of procedure and rules of ethics with respect to conflicts of interest to guide its official conduct, as required under the Act and Vermont's Open Meeting Law. The Commission shall have all powers and duties as set forth in the Act to administer the provisions of these regulations, including but not limited to the power to hear and act upon:

- prepare proposed amendments to these regulations, and consider proposed amendments submitted by others, include amendments submitted by petition;
- prepare and approve written reports on any proposed amendment to these regulations as required by the Act;
- hold one or more warned public hearings on proposed amendments to these regulations, prior to submission of a proposed amendment and written report to the Select Board;
- applications for site plan approval;
- applications for subdivision approval; and,
- applications for planned residential development.

C. Board of Adjustment

The Board of Adjustment shall consist of not less than three (3) or more than nine (9) members appointed by the Select Board for specified terms in accordance with the Act.

The Select Board also may appoint alternates, for specified terms, to serve on the Board in situations when one or more members of the Board are disqualified or are otherwise unable to serve.

Any member of the Board of Adjustment may be removed for cause by the Select Board upon written charges and after public hearing.

The Board shall adopt rules of procedure and rules of ethics with respect to conflicts of interest to guide its official conduct, as required under the Act and Vermont's Open Meeting Law. The Board shall have all powers and duties as set forth in the Act to administer the provisions of these regulations, including but not limited to the power to hear and act upon:

- appeals from any decision, act or failure to act by the Administrative Officer;
- any requests for the change, extension, enlargement, or restoration of a use nonconformity;
- any request for the expansion or restoration of a dimensional nonconformity;
- any request for the development on or alteration of a lot with a dimensional nonconformity;
- any request related to a structural use or nonconformity in a regulated Flood Hazard Area;
- any variance requests
- applications for conditional use approval.

Section 1302: Zoning Permits

A. Applicability

No land development as defined herein, which is subject to these regulations, shall be commenced in the Town of Pittsford until a zoning permit has been issued by the Administrative Officer. If project is commenced prior to issuance of a zoning permit, fees may be doubled.

B. Exemptions

Note: The following exemptions do not apply to the Special Flood Hazard Areas as addressed in the Pittsford Flood Hazard Area Regulations (Attachment A).

No zoning permit shall be required for the following activities:

1. Accepted Agricultural Practices (AAPs), including the construction of farm structures, as those practices are defined by the Secretary of Agriculture, Food and Markets, in accordance with the Act. Written notification, including a sketch

plan showing structure setback distances from road rights-of-way, property lines, and surface waters shall be submitted to the Administrative Officer prior to any construction, as required for AAPs. Such structures shall meet all setback requirements under these regulations, unless specifically waived by the Secretary.

2. Accepted management practices (AMPs) for silviculture (forestry) as those practices are defined by the Commissioner of Forests, Parks and Recreation.
3. Power generation and transmission facilities, which are regulated under 30 V.S.A. § 248 by the Vermont Public Service Board. Such facilities, however, should conform to policies and objectives specified for such development in the Town Plan.
4. Hunting, fishing, and trapping as specified under 24 V.S.A §2295 on private or public land. This does not include facilities supporting such activities, such as firing ranges or rod and gun clubs, which for the purposes of these regulations are defined as outdoor recreation facilities.
5. Normal maintenance and repair of an existing structure which do not result in exterior alterations, or expansion, or a change of use.
6. Interior alterations or repairs to a structure which do not result in exterior alterations, or expansion, or a change in use.
7. Exterior alterations to structures which are not located within designated design review districts and which do not result in any change to the footprint or height of the structure or a change in use.
8. Residential entry stairs (excluding decks and porches), handicap access ramps, walkways, and fences or walls less than four (4) feet in height which do not extend into or obstruct public rights-of-way, or interfere with corner visibilities or sight distances for vehicular traffic.
9. Minor grading and excavation associated with road and driveway maintenance, less than 5 feet (e.g., including culvert replacement and resurfacing), and lawn and yard maintenance (e.g., for gardening or landscaping), or which is otherwise incidental to an approved use. This specifically does not include extraction and quarrying activities.
10. Outdoor recreational trails (e.g., walking, hiking, cross-country skiing and snow mobile trails) which do not require the installation of structures or parking areas.
11. Garage sales, yard sales, auctions, or similar activities that do not exceed three (3) consecutive days, nor more than nine (9) total days in any calendar year.
12. Other uses as designated in the Table of Uses.

C. **Application**

1. Application Requirements. An application for a zoning permit shall be filed with the Administrative Officer on form(s) provided by the municipality. Required application fees, as set by the Select Board, also shall be submitted with each application. In addition, the following information will be required as applicable:
 - (a) Permitted Uses. Applications for a permitted use shall include a sketch plan, no smaller than 8.5" x 11", drawn to scale, that depicts the following:
 - (1) the dimensions of the lot, including existing property boundaries;
 - (2) the location, footprint and height of existing and proposed structures or additions;
 - (3) the location of existing and proposed accesses (curb cuts), driveways and parking areas;
 - (4) the location of existing and proposed easements and rights-of-way;
 - (5) existing and required setbacks from property boundaries, road rights-of-way, surface waters and wetlands;
 - (6) the location of existing and proposed water and wastewater systems; and
 - (7) other such information as required by the Administrative Officer to determine conformance with these regulations.
 - (b) Uses Subject to Development Review. For development requiring one or more approvals from the Appropriate Municipal Panel prior to the issuance of a zoning permit, application information and fees as required for such approvals shall be submitted concurrently with the application for a zoning permit and referred by the Administrative Officer to the Secretary of the Appropriate Municipal Panel.

D. **Concurrent Review**

If more than one type of review is required for a project, the reviews, to the extent feasible, shall be conducted concurrently according to the process defining the sequence of review and issuance of decisions described in the rules of procedure of the Town of Pittsford.

E. **Issuance**

A zoning permit shall be issued by the Administrative Officer only in accordance with the Act and the following provisions:

1. Within thirty (30) days of receipt of a complete application, including all application materials, fees, the Administrative Officer shall act to either issue or deny a zoning permit in writing, or to refer the application to the Appropriate

Municipal Panel and/or state for consideration. If the Administrative Officer fails to act within the 30-day period, a permit shall be deemed issued on the 31st day.

2. No zoning permit shall be issued by the Administrative Officer for any use or structure which requires the approval of the Appropriate Municipal Panel or Select Board until such approval has been obtained. For permit applications that must be referred to a state agency for review, no zoning permit shall be issued until a response has been received from the state, or the expiration of 30 days following the submission of the application to the state.
3. If public notice has been issued by the Select Board for their first public hearing on a proposed amendment to these regulations, for a period of 150 days following that notice the Administrative Officer shall review any new application filed for compliance with the proposed amendment and applicable existing bylaws. If the new bylaw or amendment has not been adopted by the conclusion of the 150 day period, or if the proposed bylaw or amendment is rejected, the permit shall be reviewed under all applicable provisions of this bylaw.
4. A zoning permit shall include a statement of the time within which appeals may be taken under Section XIV; and shall require, upon issuance of the permit, posting by the applicant of a notice of permit, on a form prescribed by the municipality, within view of the nearest public right-of-way until the time for appeal has expired.
5. The Administrative Officer, within three (3) days of the date of issuance, shall deliver a copy of the zoning permit to the Listers; and shall post a copy of the permit in the municipal offices for a period of fifteen (15) days from the date of issuance.

F. Effective Date

No zoning permit shall take effect until the time for appeal under Section 1401 has passed, or in the event that a notice of appeal is properly filed, until final adjudication of the appeal.

G. Completion

All activities as authorized by the issuance of the permit shall be commenced within one (1) year of the effective date of the permit and shall be completed within two (2) years of the effective date or the permit shall become null and void. The applicant must reapply and obtain another zoning permit to complete the activities as initiated under the original permit. The Zoning Administrator may allow extensions of up to two (2) years.

- H.** The issuance of a zoning permit does not relieve the applicant of any responsibility for obtaining other required local, state or federal permits or approvals as necessary.

ARTICLE XIV: APPEALS

Section 1401: Appeals of Actions of the Administrative Officer

Any interested person as defined below may appeal a decision or act of the Administrative Officer within 15 days of the date of the decision or act by filing a notice of appeal with the Secretary of the Board of Adjustment and by filing a copy of the notice with the Administrative Officer.

- A. The Board shall hold a public hearing on a notice of appeal within 60 days of its filing. The Board shall give public notice of the hearing, and mail a copy of the hearing notice to the appellant not less than 15 days prior to the hearing date.
- B. The Board may reject an appeal or request for reconsideration without hearing, and render a decision which shall include findings of fact within 10 days of the filing of a notice of appeal, if the Board determines that the issues raised by the appellant have been decided in an earlier appeal or are based on substantially or materially the same facts by or on behalf of the appellant.
- C. All appeal hearings shall be open to the public and the rules of evidence applicable at these hearings shall be the same as the rules of evidence applicable in contested cases in hearings before administrative agencies as set forth in state statutes [3 V.S.A. §810]. Any interested person or body may appear and be heard in person or be represented by an agent or attorney at the hearing. The hearing may be adjourned by the Board from time to time, provided that the date and place adjourned hearing shall be announced at the hearing.
- D. A decision on appeal shall be rendered within 45 days after the final adjournment of the hearing. The decision shall be sent by certified mail to the appellant within the 45 day period. Copies of the decision shall be mailed to every person or body appearing and having been heard at the hearing, and filed with the Administrative Officer and the Town Clerk as part of the public records of the municipality. Failure of the Board of Adjustment to issue a decision within this 45 day period shall be deemed approval and shall be effective on the 46th day.

Section 1402: Interested Persons

An interested person includes the following:

- A. the Town of Pittsford or an adjoining municipality;
- B. a person owning or occupying property in the immediate neighborhood of a property which is the subject of a decision or act taken under these regulations, who can demonstrate a physical or environmental impact on the person's interest under the criteria reviewed, and who alleges that the decision or act, if confirmed, will not be in accord with the policies, purposes or terms of the plan or regulations of the municipality;

- C. any ten (10) voters or property owners within the municipality who, by signed petition to the Appropriate Municipal Panel, allege that any relief requested by a person under this section, if granted, will not be in compliance with the policies, purposes or terms of the plan or regulations of the municipality; and
- D. any department or administrative subdivision of the state owning property or any interest therein within the municipality or adjoining municipality, and the Vermont Agency of Commerce and Community Development.

Section 1403: Notice of Appeal

A notice of appeal filed under this section shall be in writing and include the following information.

- A. The name and address of the appellant;
- B. Brief description of the property with respect to which the appeal is taken;
- C. A reference to applicable provisions of these regulations;
- D. The relief requested by the appellant, including any request for a variance from one or more provisions of these regulations; and
- E. The alleged grounds why such relief is believed proper under the circumstances.

Section 1404: Appeals to Environmental Court

An interested person who has participated in a regulatory proceeding of the Appropriate Municipal Panel(s) may appeal a decision rendered by the Panel(s), within 30 days of such decision, to the Vermont Environmental Court. Appeals to Environmental Court shall also meet the following requirements:

- A. “Participation” in a Panel proceeding shall consist of offering, through oral or written testimony, evidence of a statement of concern related to the subject of the proceeding.
- B. The notice of appeal shall be filed by certified mailing, with fees, to the Environmental Court and by mailing a copy to the Town Clerk, or the Administrative Officer if so designated, who shall supply a list of interested persons (including the applicant if not the appellant), to the appellant within five (5) working days. Upon receipt of the list of interested persons, the appellant shall, by certified mail, provide a copy of the notice of appeal to every interested person. If any one or more of those persons are not then parties to the appeal, upon motion they shall be granted leave by the court to intervene.

C. Hearing on Appeals

Any hearing held under this Section may be adjourned by the Board from time to time, provided however, that the date and place of the adjourned hearing shall be announced at that time.

ARTICLE XV: VARIANCES

Section 1501: Variance Criteria

The ZBA may grant a variance and render a decision in favor of the appellant only if *all* of the following facts are found, and the findings are specified in its written decision:

- A. There are unique physical circumstances or conditions, including irregularity, narrowness, or shallowness of lot size or shape, or exceptional topographical or other physical conditions peculiar to the particular property, and that unnecessary hardship is due to these conditions and not the circumstances or conditions generally created by the provisions of these regulations in the neighborhood or district in which the property is located;
- B. Because of these physical circumstances or conditions, there is no possibility that the property can be developed in strict conformity with the provisions of these regulations and that the authorization of a variance is necessary to enable the reasonable use of the property;
- C. The unnecessary hardship has not been created by the appellant;
- D. The variance, if authorized, will not alter the essential character of the neighborhood or district in which the property is located, substantially or permanently impair the appropriate use or development of adjacent property, reduce access to renewable energy resources, or be detrimental to the public welfare; and
- E. The variance, if authorized, will represent the minimum that will afford relief and will represent the least deviation possible from these regulations and from the Town Plan.

Section 1502: Variance for Renewable Energy Structures.

Where a variance is requested for a structure that is primarily a renewable energy resource structure, the Board of Adjustment may grant such variance only if *all* of the following facts are found in the affirmative and specified in its written decision:

- A. It is unusually difficult or unduly expensive for the appellant to build a suitable renewable energy resource structure in conformance with these regulations;
- B. The hardship was not created by the appellant;
- C. The variance, if authorized, will not alter the essential character of the neighborhood or district in which the property is located, substantially or permanently impair the

appropriate use or development of adjacent property, reduce access to renewable energy resources, nor be detrimental to the public welfare; and

- D. The variance, if authorized, will represent the minimum that will afford relief and will represent the least deviation possible from these regulations and from the Town Plan.

Section 1503: Additional Conditions

In granting a variance, the Board may impose conditions it deems necessary and appropriate under the circumstances to implement the purposes of these regulations and the Town Plan currently in effect.

ARTICLE XVI: VIOLATIONS & ENFORCEMENT

Section 1601: Violations

The commencement or continuation of any land development that does not meet the requirements of these regulations shall constitute a violation. All violations shall be pursued in accordance with the Act, Sections 4451, 4452 and 4454. Each day that a violation continues shall constitute a separate offense. The Administrative Officer shall institute, in the name of the Town of Pittsford, any appropriate action, injunction or other proceeding to enforce the provisions of these regulations. All fines imposed and collected shall be paid to the Town.

Section 1602: Notice of Violation

No action may be brought under this section unless the alleged offender has had at least seven (7) days' warning notice by certified mail that a violation exists. The notice of violation also shall be recorded in the land records of the municipality. The notice shall state that a violation exists; that the alleged offender has an opportunity to cure the violation within the seven days, and that the alleged offender will not be entitled to an additional warning notice for a violation occurring after the seven days. Action may be brought without notice and opportunity to cure if the alleged offender repeats the violation of the regulations after the seven-day notice period and within the next succeeding 12 months.

Section 1603: Limitations on Enforcement

An action, injunction or other enforcement proceeding relating to the failure to obtain or comply with the terms and conditions of any required or duly recorded municipal land use permit may be instituted against the alleged offender if the action, injunction or other enforcement proceeding is instituted within 15 years from the date the alleged violation first occurred, and not thereafter. The burden of proving the date the alleged violation first occurred shall be on the person against whom the enforcement action is instituted. No enforcement proceeding may be instituted to enforce an alleged violation of a municipal land use permit unless the permit or a notice of the permit has been recorded in the land records of the Town.

ARTICLE XVII: PUBLIC HEARINGS

Section 1701: Public Notice

- A. A warned public hearing shall be required for **conditional use review, appeals of decisions of the administrative officer and variances**. Any public notice for a warned public hearing shall be given not less than 15 days prior to the date of the public hearing by all of the following:
1. Publication of the date, place and purpose of the hearing in a newspaper of general circulation in the municipality;
 2. Posting of the same information in three (3) or more public places within the municipality, including the posting of a notice within view from the public right-of-way nearest to the property for which the application is being made; and posting on the Town web site, and,
 3. Written notification to the applicant and to owners of all properties adjoining the property subject to development, without regard to public rights-of-way, which includes a description of the proposed project, information that clearly informs the recipient where additional information may be obtained, and that participation in the local proceeding is a prerequisite to the right to take any subsequent appeal.
- B. Public notice of all other types of development review hearings, including site plan review and nonconformities shall be given not less than seven (7) days prior to the date of the public hearing, and shall at minimum include the following:
1. Posting of the date, place and purpose of the hearing in three (3) or more public places within the municipality, and
 2. Written notification to the applicant and to owners of all properties adjoining the property subject to development, without regard to public rights-of-way, which includes a description of the proposed project, information that clearly informs the recipient where additional information may be obtained, and that participation in the local proceeding, is a prerequisite to the right to take any subsequent appeal.
- C. The applicant shall be required to bear the cost of public warning and the cost of notifying adjoining landowners as required above, as determined from the current municipal grand list.
- D. No defect in the form or substance of any required public notice under this section shall invalidate the action of the Appropriate Municipal Panel where reasonable efforts have been made to provide adequate posting and notice. However, the action shall be invalid when the defective posting or notice was materially misleading in content. If an action is ruled to be invalid by the ZBA or the Environmental Court, the action shall be remanded

to the Board to provide new posting and notice, hold a new hearing, and take a new action.

Section 1702: Hearings

All meetings and hearings of the Appropriate Municipal Panel, except for deliberative sessions, shall be open to the public.

For the conduct of any hearing, and the taking of any action, a quorum shall be not less than the majority of members of the Appropriate Municipal Panel.

The Board of Adjustment, in conjunction with any hearing under this bylaw, may:

- A. Examine or caused to be examined any property, maps, books, or records bearing upon the matters concerned in that proceeding;
- B. Require the attendance of any person having knowledge in the premises;
- C. Take testimony and require proof material for its information; and
- D. Administer oaths or take acknowledgement in respect of those matters.

In any public hearing there shall be an opportunity for each person wishing to achieve status as an interested person to demonstrate that the criteria set forth under Section 1402 are met. The Board of Adjustment shall keep a record of the name, address, and participation of each of these persons.

The Appropriate Municipal Panel(s) may recess a hearing on any application or appeal pending the submission of additional information, provided that the next hearing date and place is announced at the hearing.

Section 1703: Decisions

Any action or decision of an Appropriate Municipal Panel shall be taken by the concurrence of a majority of the members of the Panel. The Appropriate Municipal Panel shall issue a decision within 45 days after the adjournment of the hearing. Failure to issue a decision within the 45-day period shall be deemed approval and shall be effective the 46th day. In addition:

- A. All decisions shall be issued in writing and shall separately state findings of fact and conclusions of law. Findings of fact shall explicitly and concisely restate the underlying facts that support the decision, based exclusively on evidence of the record. Conclusions shall be based on the findings of fact. The decision shall also include a statement of the time within which appeals may be taken. The minutes of a meeting may suffice, provided that the factual basis and conclusions relating to the review standards are provided in accordance with these requirements.

- B. In rendering a decision in favor of the applicant, the Appropriate Municipal Panel may attach additional reasonable conditions and safeguards as it deems necessary to implement the purposes of the Act, these regulations, and the Town Plan currently in effect. This may include, as a condition of approval:
1. the submission of a three-year performance bond, escrow account, or other form or surety acceptable to the Pittsford Select Board, which may be extended for an additional three-year period with the consent of the owner, to assure the completion of a project, adequate stabilization, or protection of public facilities that may be affected by a project; and/or
 2. a requirement that no zoning permit be issued for an approved development until required improvements have been satisfactorily installed in accordance with the conditions of approval.
- C. All decisions of an Appropriate Municipal Panel shall be sent by certified mail, within the required 45-day period, to the applicant or the appellant on matters of appeal. Copies of the decision also shall be mailed to every person or body appearing and having been heard at the hearing, and filed with the Zoning Administrator and Clerk as part of the public record of the municipality.

ARTICLE XVIII: RECORDING

Within 30 days of the issuance of a municipal land use permit or notice of violation, the Administrative Officer shall deliver either the original, a legible copy, or a notice of the permit or violation to the Town Clerk for recording in the land records of the municipality generally as provided in 24 V.S.A. §1154(c), and file a copy in the Municipal Office in a location where all municipal land use permits shall be kept.

The applicant shall be charged for the cost of the recording fees.

ARTICLE XIX: OTHER PROVISIONS

Section 1901: Interpretation of Regulation

The provisions of these regulations shall be held to be minimum requirements adopted for the promotion of the public health, safety, comfort, convenience and general welfare. Except as provided to the contrary in the Act or these regulations, it is not intended by these regulations to repeal, annul or in any way impair any regulations or permits previously adopted or issued, provided, however, that where these regulations impose a greater restriction upon the use of a structure or land than are required by any other statute, ordinance, rule, regulations, permit, easement or agreement, the provisions of these regulations shall control.

Section 1902: Fees

Fees may be established by the Select Board in amounts necessary to cover all costs of the Administrative Officer, the Board of Adjustment and the Planning Commission for such items as processing applications, including costs of material, administrative time, reasonable overhead such as postage, telephone, and the hiring of appropriate professionals to review various aspects of an application, etc.

Section 1903: Amendments

Any provision of this Regulation, as well as the boundaries of the various zoning districts established herein, may be amended or repealed subject to the provisions of Sections 4442 of 24 V.S.A. 117.

Section 1904: Severability

If any provision of this regulation is held invalid, the invalidity does not affect other provisions or applications of this regulation, which can be given effect without the invalid provision or application.

Section 1905: Effective Date

This Regulation shall take effect upon approval in accordance with the procedures contained in Section 4442 of 24 V.S.A. 117.

Section 1906: Precedence of Regulation

The provisions of this regulation shall take precedence over any conflicting and less restrictive local laws.

This Regulation amends all preceding Zoning Regulations for the Town of Pittsford.

ARTICLE XX: DEFINITIONS

Except where specifically defined herein, all words used in these regulations shall carry their customary meanings. Words used in the present tense include the future, and the singular includes the plural. The word "lot" includes "plot"; the word "building" includes "structure"; the word "shall" is mandatory; the words "occupied" or "used" shall be considered as through followed by "or intended, arranged, or designed to be used or occupied"; the word "person" includes "individual, partnership, association, corporation, company or organization".

Accessory Dwelling Unit. An efficiency or one-bedroom apartment that is clearly subordinate to a single-family dwelling, and has facilities and provisions for independent living, including sleeping, food preparation, and sanitation, provided there is compliance with all the following: (i) The property has sufficient wastewater capacity; (ii) the unit does not exceed 30 percent of the total habitable floor area of the single-family dwelling; and (iii) applicable setback, coverage, and parking requirements specified in this Bylaw are met. See Section 1107 hereof.

Accessory Structure. A use or building customarily incidental and subordinate to the principal use or building and located on the same parcel of property with such principal use.

Adjoining Lands and Landowners: Lands, and owners of those lands, that are adjacent to the land for which a land use permit is being requested. For the purposes of notice, lands across roads and highways shall be considered adjoining.

Affordable Housing means either of the following:

- A. Housing that is owned by its inhabitants whose gross annual household income does not exceed 80 percent of the county median income, or 80 percent of the standard metropolitan statistical area income if the municipality is located in such an area, as defined by the United States Department of Housing and Urban Development, and the total annual cost of the housing, including principal, interest, taxes, insurance, and condominium association fees is not more than 30 percent of the household's gross annual income.
- B. Housing that is rented by its inhabitants whose gross annual household income does not exceed 80 percent of the county median income, or 80 percent of the standard metropolitan statistical area income if the municipality is located in such an area, as defined by the United States Department of Housing and Urban Development, and the total annual cost of the housing, including rent, utilities, and condominium association fees, is not more than 30 percent of the household's gross annual income.

Affordable Housing Development. A housing development of which at least 20 percent of the units or a minimum of five units, whichever is greater, are affordable housing units. Affordable units shall be subject to covenants or restrictions that preserve their affordability for a minimum of 15 years or longer as provided in municipal bylaws.

Agricultural Use. Agricultural and silvicultural practices, including the construction of farm structures, as those terms are defined in 24 V.S.A. § 4413(d).

Alteration: Structural changes, rearrangement, change of location, or addition to a building.

Any change or rearrangement in the supporting members of an existing building, such as bearing walls, columns, beams, girders, or interior partitions as well as any change in doors, windows, means of ingress or egress, or any enlargement to or diminution of a building or structure, whether horizontally or vertically, or the moving of a building or structure from one location to another. Excluded are incidental alterations.

Alteration, Incidental: Modifications to an existing structure that are of a cosmetic nature, replacement of utilities, or rearrangement of non-load-bearing partitions.

Animal Boarding/Kennels: An establishment housing dogs, cats, or other household pets and where grooming, breeding, boarding, training, or selling of animals is conducted as a business.

Appropriate Municipal Panel: A planning commission performing development review, a board of adjustment, a development review board, or a Select Board performing development review.

Attic: The part of a building directly under the roof with headroom of less than 5.5 ft. over three quarters of the floor area. The headroom shall be measured vertically from the top of the floor or floor beams to the bottom or underside of the roof or roof rafters. The floor area shall be measured horizontally from the inside of the exterior walls or underside of the roof or roof rafters at the floor level. The attic generally would not have a finished floor, windows, skylights and/or permanent staircase and would not be occupied or used.

Basement: Any area of the building having its floor sub grade (below ground level).

Bed and Breakfast: A lodging facility located within a residential dwelling with accommodations for up to 10 transient guests.

Building: Structure having a roof (including an awning or other similar covering, whether or not permanent in nature) supported by columns or walls and intended for the shelter or enclosure of persons, animals or chattel.

Building Area: Total of areas taken on a horizontal plane at the main finished grade level of all buildings, exclusive of uncovered porches, terraces and steps. All dimensions shall be measured between exterior faces of walls.

Building Coverage: The percentage of a lot or development site occupied or intended to be occupied by all buildings and structures.

Building Height: The maximum vertical distance from the lowest elevation of the finished grade immediately surrounding a building to the highest point of the building.

Bulk Fuel Storage: That portion of a lot where combustible or flammable products are received and stored, whether above ground or below ground) for consumption by the occupants of the premises.

Bulk Plant: that portion of a lot where combustible or flammable products are received by pipeline, tank car or tank vehicle and where such products are stored or blended for the purpose of distributing such products by pipeline, tank car or tank vehicle.

Camp: A building suitable for seasonal or temporary living purposes and never occupied for more than three (3) months in any twelve (12) month period and without indoor plumbing facilities.

Community Care Facilities: A dwelling shared by seven or more persons who are developmentally disabled or physically handicapped who live together as a single housekeeping unit and in a long-term, family-like environment in which staff persons provide care, education, and participation in community activities for the residents with the primary goal of enabling the residents to live as independently as feasible in order to reach their maximum potential.

Community Center: A public or private meeting hall, place of assembly, museum, art gallery, library, educational facility, or church.

Conditional Uses: A use that is permissible only by approval of the Board of Adjustment, after a hearing, and subject to such conditions as the Board deems necessary to ensure that the proposed use complies with the standards set forth in Article V.

Conformance with the Plan: A proposed implementation tool, including a bylaw or bylaw amendment, is in accord with the Town Plan in effect at the time of adoption, when the bylaw or bylaw amendment includes all the following:

- A. Makes progress toward attaining, or at least does not interfere with, the goals and policies contained in the Town Plan.
- B. Provides for proposed future land uses, densities, and intensities of development contained in the Town Plan.
- C. Carries out, as applicable, any specific proposals for community facilities, or other proposed actions contained in the Town Plan.

Cottage Industry: An activity, carried out in a dwelling or accessory structure, such as home offices, repair services, business and personal services, and goods produced or manufactured on site and which meets the conditions of Section 504. Cottage industries also include a use engaged in the manufacture, predominantly from previously prepared materials, of finished products or parts, including processing, fabrication, assembly, treatment, packaging, incidental storage, sales, and distribution of such products, but excluding basic industrial processing.

Dimensional Nonconformity: A structure, lot or land or part thereof not in conformance with the dimensional requirements of this Regulation.

Development: The division of a parcel into two (2) or more parcels, the construction, reconstruction, conversion, structural alteration, relocation or enlargement of any building(s) or other structure(s), or of any mining, excavation or landfill, and any change in the use of any building or other structure, or land, or extension of use of land.

Drive-In Establishment: A business so developed that its principal retail or service character is dependent on providing a driveway approach with stacking or parking spaces for motor vehicles so as to either provide service to patrons while in a motor vehicle or intended to permit consumption outside of the building. A drive-in establishment, as it pertains to food service restaurants, shall include self-service restaurants where food is generally served in disposable containers or plates and primarily over the counter. Drive-in establishments include, among other businesses, dry cleaning businesses (processing and non-processing) and photograph developing businesses (processing and non-processing), where such businesses otherwise qualify as drive in establishments under this definition.

Dwelling Unit: Building or part thereof used as a living quarters for one family. The terms "dwelling", "one-family dwelling", "two-family dwelling", "multi-family dwelling", or "dwelling group" shall not include a motel, hotel, boarding house, bed and breakfast lodging, or similar structure but shall include mobile home.

Dwelling, One-Family: A building (including a mobile home) used as living quarters by one family.

A state licensed or registered residential care home or group home serving not more than six persons who are developmentally disabled or physically handicapped, shall be considered a one family dwelling, except that no such home shall be so considered if it is located within 1,000 feet of another existing or permitted such home. See Section 1109.

A State licensed or registered family child care facility serving six or fewer children shall be considered a single-family residential use of property.

Dwelling, Multi-family: Building used as living quarters by three or more families, living independently of each other.

Dwelling, Two-family: Building used as living quarters by two families, living independently of each other.

Exempt Structures: Structures which do not require a permit.

External Heating Facility: A combustion facility external to the main residence to provide a source of heat and/or hot water for a residence, residential garage, residential workshop, or any other structure. Term Used to describe wood boiler.

Family: One or more persons living, sleeping, cooking and eating on the same premises as a single housekeeping unit, provided that unless all members are related by blood, marriage or adoption, no such single housekeeping unit shall contain more than five members.

Family Child Care Home or Facility: A home or facility where the owner or operator is to be licensed or registered by the State for child care. A family child care facility serving six or fewer children is considered a single family dwelling for the purposes of this Bylaw. A family child care facility serving no more than six full-time children and four part-time children, as defined in subdivision 33 V.S.A. § 4902(3)(A), is a permitted use in all districts (requiring an administrative permit only), but is subject to site plan review under Article X. Family child care facilities serving more than six full-time and four part-time children are fully regulated by this Bylaws. See Section 1108 in particular.

Farm Structure: A building, enclosure, or fence for housing livestock, raising horticultural or agronomic plants, or carrying out other practices associated with accepted agricultural or farming practices, including a silo, as “farming” is defined in 10 V.S.A. § 6001(22), but excludes a dwelling for human habitation.

Fill: Earthen or stone material placed on the ground.

Flood Hazard Area: Those areas susceptible to flooding and depicted on the Zoning Map; see also Pittsford Flood Hazard Area Regulations (Attachment A).

Floor Area, Gross: See gross floor area.

Front Line, Building: The line parallel to the street line transacting that point in the building face, which is the closest to the street line. The building face shall include porches and decks, whether enclosed or unenclosed, but does not include steps.

Frontage: The length of a lot’s street line.

Grade, Finished: Completed surfaces of ground, lawns, walks, paved areas, and roads brought to grades as shown on plans relating thereto.

Gross Floor Area: The sum of the areas of the several floors of a building, including areas used for human occupancy in basements, attics, and penthouses, as measured from the exterior faces of the walls. It does not include cellars, unenclosed porches, or attics not used for human occupancy, or any floor space in any building intended and designed for the parking of motor vehicles in order to meet the parking requirements of this bylaw, or any such floor space intended an designed for accessory heating and ventilating equipment. It shall include the horizontal area at each floor level devoted to stairwells and elevator shafts.

Hazard Area: Land subject to landslides, soil erosion, earthquakes, water supply contamination or other natural or human-made hazards as identified within a “local mitigation plan” in conformance with and approved pursuant to the provisions of 44CFR section 201.6.

Historic Site: An area deemed worthy of preservation for historical reasons. The area may be so classified by federal, state or local authority.

Historic Structure: Any structure that is:

- A. Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;
- B. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;
- C. Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or
- D. Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either:
 - 1. By an approved state program as determined by the Secretary of the Interior; or
 - 2. Directly by the Secretary of the Interior in states without approved programs.

Home Occupation: A business use that is conducted in or on the same lot as a one- or two-family dwelling, which use is clearly incidental and secondary to the use of the dwelling for residential purposes and does not change the residential character and appearance thereof. For the purposes of this Bylaw, to be defined as a home occupation: (i) the aggregate floor space dedicated to the home occupation, whether located in the principal dwelling or in any accessory structure, may be no more than fifty percent (50%) of the gross floor area of the principle dwelling; (ii) the use must be conducted by a year-round resident of the principal dwelling, who may employ no more than two (2) additional non-resident employees; (iii) the use must be customary in residential areas and must not have an undue adverse effect upon the character of the residential area in which the dwelling is located; and (iv) any storage of equipment related to the home occupation shall be within an enclosed structure or properly screened from adjacent residential uses and highways. Notwithstanding anything to the contrary contained herein, any use that involves vehicle bodywork, service, or repair is not eligible for a home occupation.

Hotel or Lodge: A building or portion thereof kept, used, maintained, advertised, or held out to the public to provide overnight accommodations to said public for compensation, by the renting of rooms or a bed with a room.

Industry: Primarily basic industrial activities, many of which characteristically store bulk quantities of raw or scrap material for processing or manufacture to semi-finished projects. Major manufacturing and related industrial activities are also included. Production performance of the manufacturing industries consists primarily of receiving or storing semi-finished products

or, in some cases, raw agricultural food products (other than livestock) for further processing, refining or assembling into finished or more finished products.

Kennels: An establishment housing dogs, cats, or other household pets and where grooming, breeding, boarding, training, or selling of animals is conducted as a business.

Land Development: See development.

Lot: Land occupied or capable of being occupied by a building, together with the required yards and open spaces, having not less than the requisite minimum area, width, and depth for lots in the district in which such land is situated, and having frontage on the street or other means of access. A “corner lot” is a lot abutting two or more streets or rights of way at their intersection.

Lot Area: The square footage or acreage area contained within a Lot excluding any area of the Lot located within access rights of way or Town, State or Federal highways.

Lot Coverage: The area of a site covered by buildings or roofed areas, excluding allowed projecting eaves, balconies, and similar features.

Lot Depth: Mean horizontal distance from the street line of the lot to its opposite rear line measured at right angles to the street line.

Lot Width: Distance measured across the width of the lot measured at right angles to the lot depth, at the building front line, or the proposed building front line.

Manufactured or Mobile Home: A structure built on a permanent chassis or base and is designed to be used as a dwelling and includes plumbing, heating, cooling, and electrical systems and is: (i) transportable in one or more sections; (ii) at least eight feet wide or 40 feet long, or when erected has at least 320 square feet, or if the structure was constructed prior to June 15, 1976, is at least eight feet wide or 32 feet long; or (iii) any structure that meets all the requirements of this definition except for size and for which the manufacturer voluntarily files a certification required by the U.S. Department of Housing and Urban Development and complies with the standards established under Title 42 of the U.S. Code.

Manufactured or Mobile Home Dealership: A business engaged in the sale and/or leasing of manufactured homes directly to consumers, as opposed to wholesale.

Manufacturing, Light: A use engaged in the manufacture, predominantly from previously prepared materials, of finished products or parts, including processing, fabrication, assembly, treatment, packaging, incidental storage, sales, and distribution of such products, but excluding basic industrial processing.

Medical Center/Clinic: A facility for diagnosis and treatment of patients.

Mobile Home: See Manufactured home.

Mobile Home Park: A parcel or parcels of land under single or common ownership or control which contains, or is designed, laid out or adapted or intended to accommodate more than two (2) manufactured homes. The term “Mobile Home Park” shall exclude lands used solely for storage, sale or display of manufactured homes.

Motel: Building containing rooms which are rented as a series of sleeping units with outside entrances for automobile transients, each sleeping unit consisting of at least a bedroom and bathroom.

Motor Vehicle Sales and Service: Land and/or buildings used for the display, sale, and leasing of new or used motor vehicles, recreational vehicles, snowmobiles, trucks, motorcycles, all-terrain vehicles, boats, farm equipment or similar vehicles. Also includes any premises where gasoline and other petroleum products are sold and/or light vehicle maintenance activities are conducted, such as engine tune-ups, lubrication, minor repairs, and carburetor cleaning. Does not include manufactured home dealerships.

Municipal land use permit: Any of the following whenever issued:

- A. A zoning, subdivision, site plan, or building permit or approval, any of which relate to “land development” that has received final approval from the applicable board, commission, or officer of the municipality.
- B. A water and wastewater system permit issued under any municipal ordinance adopted pursuant to 24 VSA § 4402.
- C. Final official minutes of a meeting that relate to a permit or approval described in subdivision (A) or (B) of this definition that serve as the sole evidence of that permit or approval.
- D. A certificate of occupancy, certificate of compliance, or similar certificate that relates to the permits or approvals described in subdivision (A) or (B) of this definition, if the bylaws so require.
- E. An amendment of any of the documents listed in subdivisions (A) through (D) of this definition.

Nonconforming lots or parcels: Lots or parcels that do not conform to the present bylaws covering dimensional requirements but were in conformance with all applicable laws, ordinances, and regulations prior to the enactment of the present bylaws, including a lot or parcel improperly authorized as a result of error by the administrative officer.

Nonconforming structure: A structure or part of a structure that does not conform to the present bylaws but was in conformance with all applicable laws, ordinances, and regulations prior to the enactment of the present bylaws, including a structure improperly authorized as a result of error by the administrative officer.

Nonconforming use: A use of land that does not conform to the present bylaws but did conform to all applicable laws, ordinances, and regulations prior to the enactment of the present bylaws, including a use improperly authorized as a result of error by the administrative officer.

Nursing Home: An institution or a distinct part of an institution (excluding hospitals) which is primarily engaged in providing to its residents (a) skilled nursing care and related services for two or more persons unrelated to the home owner or operator who require medical or nursing care; (b) rehabilitation services for the rehabilitation of injured, disabled or sick persons; or (c) on a 24 hour basis, health related care and services to individuals who because of their mental or physical condition require care and services which can be made available to them only through institutional care. Nursing homes include residential care homes as regulated pursuant to 33 V.S.A. Chapter 71, except to the extent that such homes are expressly permitted under Section 1109.

Official Zoning Map: The one true copy of the Town Zoning Map located in the office of the Town Clerk.

Outdoor Recreation: Outdoor sports and activities such as skiing, hiking, tennis, golf, horseback riding, fishing, hunting, swimming, and similar activities.

Parking Space: Off-street space which is used for the temporary location of one licensed motor vehicle not including access drive-way and having direct access to a street or other right-of-way.

Personal Services: Includes barber, hairdresser, beauty parlor, shoe repair, shoeshine, laundry/Laundromat, dry cleaner, photographic studio, and businesses providing similar services of a personal nature.

Planned Residential Development (or PRD): An area of land, controlled by a landowner or landowners, to be developed as a unified project and single entity for a number of dwelling units and/or commercial and industrial uses, the proposal for which does not correspond to the requirements with respect to setbacks, coverage, lot size, density, required open space, and/or uses. Specific requirements and uses for a PRD are contained within Article VI, Section 602.

Principal Building: A building in which is conducted the main or principal use of the lot on which said building is located. Attached garages or carports, open at the sides but roofed, are part of the principal building.

Private Club: A building or portion of a building, or use open to club members and their guests, and not to the general public, and not operated for profit; includes associations and lodges.

Private Road: A right of way at least 50 feet in width, over which one or more property owners have a right to pass for ingress and egress to their property, and which is not owned or maintained by the Town of Pittsford.

Professional Office/Business: A building, not attached to or part of a residence, used as the office of a Real Estate Broker, Insurance Agent, Doctor, Dentist, Lawyer, or similar business or professional person or persons. The sale at wholesale or retail of a good or product, or the

manufacturing or assembling of goods, products or materials, except as a minor activity incidental to the service offered, shall not be allowed at such a business or professional office. Display of such products to the outside of or exterior to the building or structure is prohibited.

Professional Residence/Office: Residence in which the occupant has a professional office of an architect, accountant, chiropractor, dentist, doctor of medicine, landscape architect, land surveyor, lawyer, optometrist, osteopath, physiotherapist, consultant, podiatrist, engineer, or psychologist, which does not change the residential character thereof.

Property Line: Any segment of the deeded perimeter of a lot.

Recreation, Private: Recreation uses privately owned and operated but may be open to the public, including picnic grounds, archery ranges, rifle/pistol/paint ball shooting ranges, hiking and riding trails, hunting and fishing areas, wildlife sanctuaries, nature preserves, Nordic ski areas, swimming areas and boat launching sites, golf driving range, golf pitch and putt course, par three golf courses, miniature golf, skating rinks, swimming pools, parks, beaches, tennis courts, indoor bowling alley, theater, table tennis and pool hall, gymnasium, health club, spa, fitness centers, gymnasiums, hobby workshop, riding stables.

Recycling Station: A use incidental to the principal use that serves as a local drop-off point for temporary storage of recoverable resources. No processing of such items is allowed. This facility would generally be located in a shopping center parking lot or in other public/quasi public areas such as churches and schools.

Rear Lot Line: A lot line opposite and most distant from the lot's street line.

Recreational Vehicle: Any vehicle designated for travel over highways which is intended for occasional and short-term occupancy, overnight lodging, office, or camping purposes, capable of being towed or self propelled, including, but not limited to, truck - mounted campers, motorcoaches, trailers, travel trailers, pickup coaches, and self-contained camping vehicles.

Religious Institution: Includes church, temple, parsonage, rectory, parish house, convent, seminary, retreat house, and associated buildings.

Renewable Energy Resources: Energy available for collection or conversion from direct sunlight, wind, running water, organically derived fuels including wood, agricultural sources, waste materials, waste heat, and geothermal sources. Includes any structures necessary for the collection or conversion of such energy.

Repair Shop: Facility for the repairing of small items or appliances.

Restaurant: An establishment that serves food and beverages primarily to persons seated within the building. This includes cafes, tearooms, and outdoor cafes. It does not include drive-in establishments or other self-service restaurants.

Retail Uses: Includes shop and store for the sale of goods directly to consumers, as opposed to wholesale. Retail uses can include, among other things, department stores, convenience stores, and stores that sell or rent appliances, auto parts and supplies, building materials, computers, fabric, electrical supplies, flooring, furniture, antiques, landscaping materials, hardware, meat, musical instruments, firearms, office equipment, pet shops, pharmacies, plumbing supplies, groceries, sporting and camping goods, and books. Notwithstanding the foregoing, retail uses shall exclude drive-in establishments, auto service stations, and motor vehicle sales and service establishments.

Road: See Street.

Retaining Wall: Any structure composed of any material whose purpose it is to stabilize an earthen bank. A building foundation is not a retaining wall.

Rooming or Boarding house: A residence used, but not specifically designed for, the accommodation of not more than eight non-family members sheltered for profit.

RV Park: A park which may include electrical, water and sewer hookups for the temporary use of recreational vehicles.

Salvage Yard: Includes vehicle wrecking yards. Any land, buildings or structure, excepting a licensed recycling station, used for collecting or storage of discarded material; or for the collecting, wrecking, dismantling, storage, salvaging or sale of machinery parts or vehicles; or the storage of two or more un-licensed or non-operative vehicles not enclosed in a building.

School: Includes parochial, private, or public nursery schools, elementary schools, high schools, colleges, universities, and associated accessory uses, but does not include a day care facility.

Setback: The distance from the street line or a property line to a building or structure, excepting fences, signs, and stone walls, measured to its nearest wall, porch or deck, but not including normal roof overhangs. Steps, landings, and handicapped access ramps meeting the requirements of the Americans with Disabilities Act shall not be included when determining setbacks.

A. **Front Setback:** Distance between a building or structure and the street line measured from the closest point of the building to the street line.

B. **Rear Setback:** Distance between a building or structure and the rear lot line.

C. **Side Setback:** Distance between a building or structure and a property line other than the street line or the rear lot line.

Shopping Center: A retail shopping area containing three (3) or more retail tenants in one or more buildings all situated on one lot.

Sign: Sign means any structure, display, device or representation which is designed or used to advertise or call attention to or direct a person to any business, association, profession, commodity, product, institution, service, entertainment, person, place, thing, or activity of any kind whatsoever, and is intended to be visible from a road. Whenever dimensions or areas of signs are specified, they shall include all panels, frames, and supporting structures excluding the building to which a sign may be attached.

Sign, Area: The area of a sign shall be the area within the smallest rectangle which can be drawn to encompass all letters, designs, tubing, panels and frames which are part of the sign. A sign finished on both sides is considered one (1) sign, and, only the square footage of one side is counted.

Sign, Temporary or Portable: A structure, illuminated or not, which is not permanently affixed to the ground or another permanent structure, meant to convey a message and/or which calls attention to and/or acts as an advertisement for an establishment, property, or the services and products provided therein. Included as temporary or portable signs are metal-framed signs that sit on the ground, sandwich board type signs, etc. A temporary sign is one that is in place no longer than 3 months.

Site Plan: A plan, to scale, showing uses and structures proposed for a parcel of land as required by these regulations. It includes lot lines, streets, building sites, open space, buildings, major landscape features, and proposed utility lines, if any, as well as any other features as may be required by these regulations.

Skyline: The natural ground outline of a range of hills or mountains.

Street or Road: Public way for vehicular traffic that affords the principal means of access to abutting properties.

Street Line: The line dividing the right-of-way limit of a street and a lot. Where the width of a street is not established or cannot be determined, the Street Line shall be considered to be located twenty-five (25) feet on either side of the centerline of the existing traveled portion of the street, except along U.S. numbered Route 7 and Vermont numbered Route 3 where the street line shall be thirty-three (33) feet from the centerline of the existing traveled portion unless otherwise established.

Structure: An assembly of materials for occupancy or use including, but not limited to, a building, manufactured home, mobile home, recreational vehicle, swimming pool, tennis court, sign, water impoundments, wall or fence, satellite dishes. Small sheds typically used for storage and not exceeding 150 square feet in any district are not considered structures.

Subdivision: The process of dividing a single parcel of land into two (2) or more sections for the purpose of sale or lease of one (1) or more of the newly created parcels of land to someone other than the owner or owners of the undivided parcel. All subdivisions are subject to a Site Plan Review.

Telecommunications: See Telecommunications Definitions at the end of Article XVII.

Temporary: A use lasting less than six (6) months.

Terrace or Patio: An improved or graded area located on the ground with no structural supports other than subsurface base materials and/or retaining walls. A terrace or patio shall not be deemed a structure.

Undue Adverse Effect: An “undue adverse effect” shall have the meaning ascribed to it by the Vermont Supreme Court in *In re Appeal of Times & Seasons, LLC*, 2008 VT 7, and as subsequently developed in the case law. Generally, an adverse impact is considered “undue” if any one of the following is true: (1) the project violates a clear, written community standard intended to preserve the aesthetics or scenic, natural beauty of the area, (2) the project offends the sensibilities of the average person, or (3) the applicant has failed to take generally available mitigating steps that a reasonable person would take to improve the harmony of the proposed project with its surroundings. For purposes of determining whether the impact of a proposed land use is unduly adverse, the Board must determine whether the sensibilities of the average person would be offended by the use, without regard to actual opinions held or opposition shown by the community.

Utility, Public: Any person, firm, corporation, municipal department or board duly authorized to furnish and furnishing under state or municipal regulations to the public, electricity, gas, communications, or transportation.

Warehouse: A building or structure where wares or goods are stored before distribution to jobbers, retailers, or the general public. This definition includes bulk storage and bulk sale outlets.

Wetland: The term wetland refers to those areas of the state that are inundated by surface or ground water with a frequency sufficient to support plants and animals that depend on saturated or seasonally saturated soil conditions for growth and reproduction. These areas are commonly known as ponds, bogs, fens, marshes, wet meadows, shrub swamps, and wooded swamps. Wetlands are determined and defined by State and Federal regulations.

Wholesale Establishment: Any firm doing business on an restricted customer basis and not available to the general retail public.

Yard: Space on a lot not occupied with a building or structure and required to remain open under these Bylaws. Porches and/or decks whether enclosed or not, shall be considered as part of the main building and shall not project into a required yard.

Yard, Corner: All yards abutting roads on any corner lot. The front yard shall face the more major road. Access shall be to the minor road.

Yard, Front: Yard between the street line and the building front line extended to the side lot lines of the lot.

Yard, Rear: Yard between the rear lot line and the rear line of any building extended to the side lot lines of the lot.

Yard, Side: Yard between the principal building or accessory building and a side lot line, and extending through from the front yard to the rear yard.

Yard, Garage, or Similar Private Sales: The sale of personal property on the premises of a dwelling unit for a period not exceeding three (3) consecutive days and not more than nine (9) days in a calendar year. Such use shall be deemed an accessory use to any use otherwise permitted under this ordinance. A sale or sales of a longer duration shall be deemed a commercial use.

Telecommunications Definitions

The following Definitions apply to Article XII of the Town of Pittsford's Zoning Bylaws.

Adequate Capacity: Capacity is considered to be "adequate" if the grade of service is p.05 or better for a least 50% of the days in a preceding month, prior to the date of application, as measured using direct traffic measurement of the telecommunications facility in question, where the call blocking is due to frequency contention at the antenna(s).

Adequate Coverage: Coverage is "adequate" within that area surrounding a base station where the predicted or measured median field strength of the transmitted signal is such that the majority of the time, transceivers properly installed and operated will be able to communicate with the base station without objectionable noise (or excessive bit-error-rate for digital) and without calls being dropped. In the case of cellular communications in a rural environment, this would be a signal strength of at least -90dbm. It is acceptable for there to be holes within the area of adequate coverage as long as the signal regains its strength further away from the base station. The outer boundary of the area of adequate coverage, however, is that location past which the signal does not regain.

Affiliate: When used in relation to an operator, another person who directly or indirectly owns or controls, is owned or controlled by, or is under common ownership or common control with the operator, or an operator's principal partners, shareholders, or owners of some other ownership interest; and when used in relation to the municipality, any agency, board, authority or political subdivision affiliated with the municipality or other person in which the municipality has legal or financial interest.

Alternative Design Tower Structure: Artificial trees, clock towers, bell steeples, light poles, silos and similar alternative-design mounting structures that camouflage or conceal the presence of antennas or towers (see also Stealth Facility).

Antenna: A device, which is attached to a tower or other structure for transmitting and receiving electromagnetic waves.

Antenna Height: The vertical distance measured from the base of the antenna support structure at grade to the highest point of the structure. If the support structure is on a sloped grade, then the average between the highest and lowest grades shall be used in calculating the antenna height.

Antenna Support Structure: Any pole, telescoping mast, tower tripod, or any other structure which supports a device used in the transmitting and/or receiving of electromagnetic waves.

Applicant: A person who applies for a telecommunications facility siting. An applicant can be the telecommunication service provider or the owner of the property.

Available Space: The space on a tower or structure to which antennas of a telecommunications provider are both structurally able and electromagnetically able to be attached.

Base Station: The primary sending and receiving site in a telecommunications facility network. More than one base station and/or more than one variety of telecommunications provider can be located on a single tower or structure.

Bulletin 65: Published by the FCC Office of Engineering and Technology specifying radio frequency radiation levels and methods to determine compliance.

Cell Site: A tract or parcel of land that contains a cellular communication antenna, its support structure, accessory structure(s), and parking, and may include others uses associated with and ancillary to cellular communications transmission.

Cellular Service: A telecommunications service that permits customers to use wireless, mobile telephones to connect, via low-power radio transmission sites called cell sites, either to the public switched network or to other mobile cellular phones.

Cellular Telecommunications: A commercial Low Power Mobile Radio Service bandwidth licensed by the FCC to providers in a specific geographical area in which the radio frequency spectrum is divided into discrete channels which are assigned in groups to geographic cells within a service area and which are capable of being reused in different cells within the service area.

Cellular Telecommunications Facility: A cellular telecommunications facility consists of the equipment and structures at a particular site involved in receiving telecommunication or radio signals from mobile radio communications sources and transmitting those signals to a central switching computer that connects the mobile unit with the land-based telephone lines.

Channel: The segment of the radiation spectrum to or from an antenna that carries one signal. An antenna may radiate on many channels simultaneously.

Collocation: Locating wireless communications equipment from more than one provider on a single site.

Common Carrier: An entity licensed by the FCC or state agency to supply local and/or long distance telecommunications services to the general public at established and stated rates.

Communication Equipment Shelter: A structure located at a base station designed principally to enclose equipment used in connection with telecommunications transmissions.

Communications Facility: A land facility supporting antennas and microwave dishes that sends and/or receives radio frequency signals. Communications facilities may include structures, towers or accessory structures.

Communication Tower: A guyed, monopole, or self-supporting tower, constructed as a free standing structure or in association with a building, other permanent structure or equipment, containing one or more antennas intended for transmitting and/or receiving television, AM/FM radio, digital, microwave, cellular, telephone, or similar forms of electronic communication.

dBm: Unit of measure of the power level of a signal expressed in decibels above 1 milliwatt.

dBu: Unit of measure of the electric field strength of a signal, expressed in an absolute measure for describing service areas and comparing different transmitting facilities independent of the many variables (see dBm above) introduced by different receiver configurations.

Directional Antenna: An antenna or array of antennas designed to concentrate a radio signal in a particular area.

Dish Antenna: A dish-like antenna used to link communications sites together by wireless transmission of voice or data. Also called microwave antenna or microwave dish antenna.

Electromagnetically Able: The determination that the signal from and to the proposed new antenna will not significantly interfere with the existing signals from and to other facilities or antennas located on the same tower or structure as determined by a qualified professional telecommunications engineer. The use of available technologies to alleviate such interference shall be considered when making this determination.

Facility Site: A property, or any part thereof, which is owned or leased by one or more telecommunications facility(s) and where required landscaping is located.

FCC: Federal Communications Commission. The government agency responsible for regulating telecommunications in the United States.

Frequency: The number of cycles completed each second by an electromagnetic wave measured in hertz (Hz).

GHz: Gigahertz. One billion hertz.

Hertz: (Hz) One hertz is the frequency of an electric or magnetic field that reverses polarity one each second, or one cycle per second.

Location: References to site location shall be the exact longitude and latitude, to the nearest tenth of a second. Bearing or orientation should be referenced to true North.

Microwave Antenna: A dish-like antenna manufactured in many sizes and shapes used to link communication sites together by wireless transmission of voice or data.

Micro-cell: A low power mobile radio service telecommunications facility used to provide increased capacity in high call-demand areas or to improve coverage in areas of weak coverage.

MHz: Megahertz, or one million hertz.

Monitoring: The measurement, by the use of instruments in the field, of non-ionizing radiation exposure from telecommunications facilities, towers, antennas or repeaters.

Monitoring Protocol: The testing protocol, such as the Cobbs Protocol, (or one substantially similar, including compliance determined in accordance with the National Council on Radiation Protection and Measurements, Reports 86 and 119) which is to be used to monitor the emissions and determine exposure risk from telecommunications facilities.

Monopole: A single self-supporting vertical pole with no guy wire anchors, usually consisting of a galvanized or other unpainted metal, or a wooden pole with below grade foundations.

Omnidirectional Antenna: An antenna that is equally effective in all directions and whose size varies with the frequency and gain for which it is designed.

Permit: Embodies the rights and obligations extended by the municipality to an operator to own, construct, maintain, and operate its facility within the boundaries of the municipality.

Personal Communications Services or PCS: Digital wireless telephone technology such as portable phones, pagers, faxes, and computers. Such mobile technology may allow each consumer the same telephone number wherever he or she goes. Also known as Personal Communication Network (PCN)

Personal Wireless Services: Commercial mobile services, unlicensed wireless exchange access services. These services include: cellular services, personal communications services, specialized mobile radio services, and paging services.

Preexisting Towers and Antennas: Any tower or antenna for which a permit has been issued prior to the effective date of these regulations.

Roof and/or Building Mount Facility: A facility in which antennas are mounted to an existing structure on the roof (including rooftop appurtenances) or a building face.

Radial Plots: Radial plots are the result of drawing equally spaced lines (radials) from the point of the antenna, calculating the expected signal and indicating this graphically on a map. The relative signal strength may be indicated by varying the size or color at each point being studied along the radial. A threshold plot uses a mark to indicate whether that point would be strong enough to provide adequate coverage – i.e., the points meeting the threshold of adequate coverage. The draw back is the concentration of points close to the antenna and the divergence of points far from the site near the ends of the radials.

Radiated-Signal Propagation Studies or Coverage Plots: Computer generated estimates of the signal emanating, and prediction of coverage, from antennas or repeaters sited on a specific tower or structure. The height above ground, power input and output, frequency output, type of antenna, antenna gain, topography of the site and its surroundings are all taken into account to create these simulations. They are the primary tools for determining whether the telecommunications equipment will provide adequate coverage for that site.

Repeater: A small receiver/relay transmitter and antenna of relatively low power output designed to provide service to areas that are not able to receive adequate coverage directly from a base or primary station.

Scenic View: A scenic view is a wide angle or panoramic field of sight and may include natural and/or manmade structures and activities. A scenic view may be from a stationary viewpoint or be seen as one travels along a roadway, waterway, or path. A view may be to a far away object, such as a mountain, or a nearby object.

Self-Supporting Tower: A communications tower that is constructed without guy wires.

Spectrum: Relating to any transmissions or reception of electromagnetic waves.

Stealth Facility: Any communications facility that is designed to blend into the surrounding environment. Examples of stealth facilities may include architecturally screened roof-mounted antennas, building-mounted antennas painted to match the existing structure, antennas integrated into architectural elements, and antenna structures designed to look like light poles. (See also Alternative tower Structure)

Structurally Able: The determination that a tower or structure is capable of carrying the load imposed by the proposed new antennas under all reasonable predictable conditions as determined by professional structural engineering analysis.

System: The communications transmission system operated by a telecommunications service provider in the municipality or region.

Telecommunications Facility: All equipment (including repeaters) and locations of equipment with which a telecommunications provider transmits and receives the waves that carry their

services. This facility may be sited on one or more towers or structure(s) owned and permitted by the provider or another owner or entity.

Telecommunications Provider: An entity licensed by the FCC to provide telecommunications services to individuals or institutions.

Temporary Wireless Communication Facility: Any tower, pole, antenna, etc., designed for use while a permanent wireless facility is under construction, or for a special event or conference where a majority of people attending are wireless users.

Tower: A vertical structure for antenna(s) that provide telecommunications services.

View Corridor: A three-dimensional area extending out from a viewpoint. The width of the view corridor depends on the focus of the view. The focus of the view may be a single object, such as a mountain, which would result in a narrow corridor, or a group of objects, such as a downtown skyline, which would result in a wide corridor. Panoramic views have very wide corridors and may include a 360-degree perspective. Although the view corridor extends from the viewpoint to the focus of the view, the mapped portion of the corridor extends from the viewpoint and is based on the area where base zone heights must be limited in order to protect the view.

Whip Antenna: A vertical antenna that normally transmits signals in 360-degrees. Whip antennas are typically cylindrical in shape, narrow (less than 6 inches in diameter) and long (often measure 18 inches in height or more).
