

# MAP OF BRATTLEBORO EROSION HAZARD AND AFFECTED PARCELS

## LEGEND

- floodwater path where water was flowing significantly outside the main brook channel

new channel temporary new channel created by floodwater

bank erosion

flood deposition on road mud, gravel, debris removed by town

road damage

municipal sewer system damage

bridge destroyed

bridge damaged

erosion at bridge
- Building affected by flooding:**

total loss destroyed, or damaged to the point of no use in the future

major, structural repairable, significant structural damage

major, other repairable, damage primarily to building systems (utilities), with structural impact less significant

minor generally minor water damage, water in basement

Special Flood Hazard Area ("100 year floodplain")

Special Flood Hazard Area, Floodway

Fluvial Erosion Hazard zone
