## CATEGORY B/C/D

Please complete one application per project you are applying for.

Please check the Category you are applying for:
XB. Correction of a Road Related Erosion Problem and/or Stormwater Mitigation
<ul><li>□ C. Correction of a Stream Bank, Lake Shore or Slope Related Problem</li><li>□ D. Structure/culvert 36" diameter or greater</li></ul>
Municipality:Town of Brighton
Road Name:Lakeshore DriveTH #: _36 Structure # (if applicable):
Road Type: xPaved or Unpaved (select one) Road Class: 1 x 2 3 4 (select one)
Please provide a thorough description of the erosion/water quality problem (ex. Roadway has steep slope
with no ditch which is causing severe roadway erosion, which outlets into the Lamoille River):  The First 2 segments of road have high shoulders  and the Attel water runs down the road directly to  2 streams t the lake the ofter segments have high shoulder  and Failing culverts + Damaged culverts
Has the town completed an MRGP compliant road erosion inventory?  Yes No In progress
Project Length (linear feet along roadway):600 yrdsft.  Number of structures/culverts replaced/repaired:/  Average slope of roadway:5-10%>10%
Provide a VERY detailed map of project location showing start and end points: Included  Provide a sketch of project location showing distances and project details: Included

Please provide the Road Segment ID (RSID) for your project. If several, please list all. In addition to the RSID please indicate what the resulting rating of each segment before construction as well as after construction in accordance with the MRGP.\* (i.e., Fully Meets Standard, Partially Meets, Does Not Meet) For assistance, please contact Better Roads Staff (802)828-4585.

		Pre-construction MRGP Conformance		Post-construction MRGP Conformance

## Vermont Better Roads Category B/C/D Grant Proposal Scoring Criteria

All applications will be scored on a sliding scale elected by the Better Roads Grant Selection Committee. Road BMP upgrades are considered the highest priority for grant funding when road segments are "hydrologically-connected," currently "not meeting" MRGP standards, and road slopes are greater than 10%

- 1. Is the project using Best Management Practices (BMPs) that are proven and likely to maximize long term success, such as practices contained within the new VTrans Better Roads Manual and/or VT DEC MRGP Standards?? [maximum 20 points]
  - The proposed project utilizes appropriate BMPs and has maximized the likelihood of longterm success (16-20 points)
  - The proposed project utilizes some appropriate BMPs but more could be done to increase the likelihood of success (11-15 points)
  - o The proposed project does not utilize appropriate BMPs, or it is unclear whether the BMPs will be used appropriately and the likelihood of success-is uncertain (0-10 points)
- 2. What are the expected Water Quality Benefits within the watershed? [maximum 25 points]
  - Project will lead to significant improvements to water quality (21-25 points)
  - Project will lead to moderate improvements to water quality (16-20 points)
  - 6 Project will lead to small improvements to water quality (1-15 points)
  - o Project will lead to no obvious improvements to water quality (0 points)
- 3. Is the project in or does stormwater runoff from the project area drain into a hydrologically connected segment? [maximum 20 points]
  - Yes; the entire project is in connected segment(s) (20 points)
  - Partially; part(s) of the project are in connected segments (5-19 points)
  - O No; this project is not in a connected segment (0-5 points)
- 4. Will the project result in full compliance of one or more segments in accordance with the Municipal Roads General Permit (MRGP)? [maximum 25 points]
  - All segments within the project will be in full compliance (25 points)
  - One or more segments will be in full compliance, with all other segments in partial compliance (11-24 points)
  - One or more segments will be a minimum of partial compliance (1- 10 points)
  - Project does not meet compliance or not applicable (does not have hydrologically connected segments) (0 points)
- 5. Is the project cost effective? [maximum 10 points]
  - o The cost of the project is low and the expected benefits are high (8-10 points)
  - The cost of the project is average and the expected benefits are average (5-7 points)
  - o The cost of the project is high and the expected benefits are low (0-4 points)

I fully support Andy Martir		tive approach to fixir replacements and d	

#### **Budget:**

Please attach a project budget and confirm below that is attached:

Project budget IS attached

Are you applying to other grant programs to help fund this project? If so, what programs? Please note that Better Roads requires a 20% <u>local</u> match and Better Roads funding may not be used as match for other state or federally funded programs.

**Requested Grant Amount:** 

\$20,000.00

Local Match:

\$ 14,449,89

**Total Project Cost:** 

534449.85

**Requested Grant Amount Max:** 

\$20,000 Category B \$40,000 Category C \$60,000 Category D

See page 6 for more information on calculating match

Estimated Completion Date: Oct. 2 2004

#### **REQUIRED ATTACHMENTS:**

Please use the documentation checklist below to ensure that all of the relevant items regarding your application have been included. It is preferred that your application is a single PDF file.

Grant application cover sheet

and after project

- Grant application form, including chart with RSID and MRGP compliance before and after project completion
- Itemized Cost estimate for labor, equipment, and materials (see enclosed Cost Estimate Worksheet). If applicable, please break down funding by source (i.e. different grant sources).
- Detailed Project Location Map
- Sketch of proposed project and erosion control measures or other management practices, including distances in feet
  - o Also show approximate location of town/other right-of-way and/or property lines and limits of work
- Photos must be color and clear to see.

Other appropriate supporting documents.

By signing this application, I certify that all the information provided is accurate to the best of my knowledge. We will comply with all the requirements of the grant including making our books available for audit if required.
