SUPPLEMENTAL SPECIFICATION
ASPHALT PRICE ADJUSTMENT

GENERAL REQUIREMENTS AND CONDITIONS

(a) This specification contains price adjustment provisions for asphalt cement and emulsified asphalt used on Vermont Agency of Transportation (Agency) construction projects and produced under Sections 303, 404, 406, 415, and 490 of the Standard Specifications, or as otherwise designated in the Contract Documents. This price adjustment clause is being inserted in this Contract to provide for either additional compensation to the Contractor or a payment to the Agency, depending upon an increase or decrease in the average price of asphalt cement during the construction of this project.

(b) Emulsified asphalt shall be subjected to a correction factor of 0.45, applied to the quantity of material supplied. This corrected quantity shall be used for Asphalt Price Adjustment as specified and computed herein.

(c) These provisions apply to this Contract only as specified in the procedures provided herein. No further asphalt cement and/or emulsified asphalt price adjustments will be allowed under this Contract.

(d) It is understood by the Contractor that a price adjustment increase may cause the Agency to decrease the quantities of the Contract pay items subject to adjustment under these provisions. Provisions providing for decreased quantities and item cancellation in this paragraph are separate and take precedence, notwithstanding any other provisions of this Contract.

(e) No price adjustment will be allowed beyond the Contract Completion Date or any applicable interim completion dates.

(f) Any increase in the total Contract amount due to price adjustment under these provisions will not be justification for an extension of time under Subsection 108.11.

(g) The Contractor hereby agrees that its bid prices for this Contract include no allowances for any contingencies to cover increased costs for which adjustment is provided herein.

PRICE ADJUSTMENT PROCEDURES

(1) Prior to advertising for bids, an Index Price for asphalt cement will be established by the Agency upon consideration of the New York State DOT average monthly price for asphalt cement, or other monthly index deemed appropriate by the Director of Finance and Administration. The Index Price will be set monthly on or about the last day of the month. The Contract Index Price will be the most recent Index Price set by the Agency at the time of advertising for bids. This price will be as specified in the Special Provisions and will be the base from which price adjustments are computed.

(2) For the duration of the Contract, Posted Prices for a metric ton (ton) of asphalt cement will be established monthly by the Agency. The Posted Prices will be established in the same manner as the Index Price.
(3) A Price Adjustment will be paid or credited for asphalt cement only when the Posted Price of asphalt cement increases or decreases over its respective Index Price.

(4) The Price Adjustment will be based upon the quantity of asphalt cement (QAC) and quantity of emulsified asphalt (QEA) incorporated in the work, determined as follows:

   a. **Batch Plants.** QAC is determined using the cumulative actual binder content for each applicable item as reported on the batch ticket, excluding any percent of asphalt cement from Recycled Asphalt Pavement (RAP).

   b. **Drum-Mix Plants.** QAC is determined based upon the metric tons (tons) of mix placed, multiplied by the actual binder content reported on the demand tickets, as verified by Agency personnel. In the event of multiple binder contents, the accepted quantity of mix at each binder content shall be determined, and the total QAC used shall be calculated accordingly. The accumulated asphalt cement total on the plant automation may be checked and verified by Agency personnel for each mix.

   c. **Emulsified Asphalt.** QEA is as determined in accordance with Subsection 404.11.

(5) The Price Adjustment to be paid shall be computed as follows:

\[
PA = \frac{\left( QAC + \left( ACEA \times 0.001 \times QEA \right) \right) \times \left( PP - IP \right)}{\text{Metric}}
\]

\[
PA = \frac{\left( QAC + \left( ACEA \times 0.05 \times QEA \right) \right) \times \left( PP - IP \right)}{\text{English}}
\]

where:

\( PA = \) Price Adjustment (LU in $)  
\( IP = \) Index Price ($/metric ton) or ($/ton) 
\( PP = \) Posted Price on date of work ($/metric ton) or ($/ton) 
\( QAC = \) Quantity of Asphalt Cement (metric tons) or (tons) 
\( QEA = \) Quantity of Emulsified Asphalt (kilograms) or (CWT) 
\( ACEA = \) Asphalt Content of Emulsified Asphalt as follows:

<table>
<thead>
<tr>
<th>Emulsified Asphalt Type</th>
<th>ACEA</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSS-1h</td>
<td>0.57</td>
</tr>
<tr>
<td>MS-1</td>
<td>0.55</td>
</tr>
<tr>
<td>RS-1</td>
<td>0.55</td>
</tr>
<tr>
<td>CRS-1p</td>
<td>0.63</td>
</tr>
<tr>
<td>CSS-1h Fog</td>
<td>0.28</td>
</tr>
</tbody>
</table>

(6) The Contract bid prices for the applicable pay items will be paid separately under the Contract. The price adjustment will be calculated and paid in the same bi-weekly estimate as the applicable Contract work.

(7) Payments for Price Adjustment, Asphalt Cement shall be debited or credited against the Contract price (Lump Unit) bid for Price Adjustment, Asphalt Cement.

Payment will be made under:

<table>
<thead>
<tr>
<th>Pay Item</th>
<th>Pay Unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>406.50 Price Adjustment, Asphalt Cement (N.A.B.I.)</td>
