

Exciting Career Opportunities at the Vermont Agency of Transportation!!

The Challenge

The Vermont Agency of Transportation (VTTrans) is seeking a qualified individual to join our Quality Assurance Unit within the Construction & Materials Bureau to serve as a Quality Assurance Technician. Completing tasks in both Independent Assurance (IA) and Precast Concrete Inspection. IA Unit provides an unbiased and independent evaluation of the Agency's Acceptance Program as identified in the Agency's Quality Assurance Program (QAP). Precast Concrete inspection is complete throughout New England at facilities that produce bridge sections, box Culverts, headwalls and more.

The Role

As the Quality Assurance Technician, your primary objectives will be:

- ✓ Inspect facilities to ensure [Qualified Laboratory Program \(QLP\)](#) requirements and calibration requirements are being met as part of the facility approval and laboratory assessments.
- ✓ Technician Proficiency Evaluations
- ✓ Carry out the Independent Assurance functions of the [VTTrans Quality Assurance Program](#).

The Team

The Quality Assurance Unit consists of a team with extensive experience and knowledge to ensure the Quality Assurance Technician will have the support needed to be successful in the position. The incoming team member will work closely with the Senior IA tech to facilitate smooth transfer of knowledge and proficiency development.

We want someone who:

Communicates well

Effective communication is vital to fostering good teamwork with staff and maintaining good working relationships with external partners and will be essential in the position.

Values Customer Service

Having empathy for your customer's needs is the first step in providing excellent customer service.

Self-Motivates

No two days are alike. If you operate best with a full plate of work, this position is for you!

The Vermont Experience
