Re: Lyndon IM091-3(53) Progressive Design Build RFP_ Addenda #1

Bidders are hereby notified that Lyndon IM091-3(53) Progressive Design Build RFP is revised to address the following question that was provided to the Vermont Agency for Transportation (VTrans) for clarification. VTrans response to questions can be found and outlined below in blue.

1. In reading the RFP, it states that no more than 3 representatives may attend the site visit from each proposer. Our team consists of three companies. Although we have not determined exactly who will be attending, we would like the opportunity to have at least one person from each entity attend the site walk, but we may possibly want more. Is there any harm in allowing 4-5 individuals from our team attend the site visit? We would have our own transportation to/from the central meeting location, if that makes a difference.
 - a. Section III. Pre-Proposal Site Visit, item 1 of the RFP has been revised as follows:
 1. VTrans will offer the opportunity for Proposers to attend a NON-MANDATORY Pre-Proposal site visit. The date(s) for the site visit will occur prior to the One-on-One discussions with the date announced later. Proposers will meet at a central location with transportation (if needed) to and from the site provided by VTrans. This will be the only opportunity for formal traffic control and access to the project site during the procurement period. Proposers are required to provide the VTrans POC with written notification of their intent to attend the Pre-Proposal Site Visit, along with the names of each attendee once the dates are announced. Proposers will be assigned a date and time at VTrans discretion and notified accordingly. No more than six (6) representatives from each Proposer will be allowed to participate in the Pre-Proposal site visit, with no more than two (2) vehicles per each proposer.
