

PRD Label Data Report: Food/Feed & Non-Food/Non-Feed Uses Considered in Registration Review Work Planning

Prallethrin (128722)
Current As Of Date : September 21, 2011
Note: This is an aggregate report of registered uses for this chemical. Label data for chemicals with more than one pesticide product are presented in aggregate form (i.e. each line of data may be a combination of data from one or more pesticide).

PRD Label Data Report: Food/Feed & Non-Food/Non-Feed Uses Considered in Registration Review Work Planning

Prallethrin (128722)
Current As Of Date : September 21, 2011
Note: This is an aggregate report of registered uses for this chemical. Label data for chemicals with more than one pesticide product are presented in aggregate form (i.e. each line of data may be a combination of data from one or more pesticide).

PRD Label Data Report: Food/Feed & Non-Food/Non-Feed Uses Considered in Registration Review Work Planning

Prallethrin (128722)
Current As Of Date : September 21, 2011
Note: This is an aggregate report of registered uses for this chemical. Label data for chemicals with more than one pesticide product are presented in aggregate form (i.e. each line of data may be a combination of data from one or more pesticide).

Limitation Code	Limitation Description
C (04)	Proper ventilation required.
C (16)	Remove food and animals from premises prior to treatment.
C (17)	Remove or carefully protect food products and food packaging.
C (25)	Remove animals prior to treatment.

PRD Label Data Report: Food/Feed & Non-Food/Non-Feed Uses Considered in Registration Review Work Planning

Prallethrin (128722)
Current As Of Date : September 21, 2011
Note: This is an aggregate report of registered uses for this chemical. Label data for chemicals with more than one pesticide product are presented in aggregate form (i.e. each line of data may be a combination of data from one or more pesticide).

NDC - No Dosage Conversion ; NS - Not Specified

Food (F) / Non-food (N)	Use Site	Formulation Desc	A. I. Max App Rate/App	Max # Apps / CC	A. I. Max App Rate/CC	Max # Apps / Year	A. I. Max App Rate/Year	Minimum Retreatment Interval	Minimum Reentry Interval	PGI / PHI / PSI	Allow Geo Restrictions	DisAllow Geo Restrictions	Limitations
C (26)		Cover feed and water prior to treatment.											
C (56)		Do not allow children or pets on treated areas until surfaces are dry.											
C (64)		Do not apply to food or feed contact surfaces.											
C (86)		Do not apply directly to water except as specified on the product label.											
C (93)		Do not apply directly to water.											
C (94)		Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas.											
C (AA)		Do not apply to any body of water.											
C (AF)		Do not apply directly to water except when used over water as labeled for adult mosquito, blackfly, or housefly control.											
C (AG)		Do not apply where runoff is likely to occur.											
C (AL)		Do not contaminate water, food or feed.											
C (AS)		Do not contaminate food or feed.											
C (AT)		Do not place in locations accessible to children, pets or domestic animals.											
C (AU)		Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.											
C (CF)		Do not treat animals under six months of age.											
C (CG)		Do not treat animals under ___ weeks of age.											
C (CZ)		Do not contaminate water.											
C (DA)		Do not use indoors.											
C (DC)		Do not apply when drift is likely to occur.											
C (FF)		Do not use in feed/food areas of commercial feed/food establishments.											
C (HM)		Do not apply to humans.											
C (PE)		PPE (Protective Personal Equipment) language is found on the label. Please see issues report to read specific instructions.											
C (SJ)		Do not contaminate water, feedstuffs, feed handling equipment, or milk handling equipment.											
C (SV)		Do not apply when wind velocity is ___ mph or less.											
C (TA)		Do not remain in treated areas.											
C (WA)		This pesticide is toxic to aquatic organisms.											
C (WE)		This product is highly toxic to birds, fish, and other wildlife.											
C (WF)		This pesticide is highly toxic to bees exposed to direct treatment or to residues on blooming crops or weeds. Do not apply this pesticide or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.											
C (WG)		Drift and runoff may be hazardous to aquatic organisms in neighboring areas.											
C (WH)		Do not contaminate water by cleaning of equipment or disposal of equipment wash waters.											
C (WJ)		This pesticide is toxic to aquatic invertebrates.											
C (WK)		This product is toxic to fish.											
C (WL)		Do not contaminate water, food, or feed by storage or disposal.											
C (WV)		Do not contaminate water by cleaning of equipment or disposal of waste.											
G (65)		Do not contaminate feed and drinking water.											
S (02)		This product is not to be used on horses destined for slaughter.											

Each row of this report is determined by the unique combination of the food/nonfood indicator, use site, formulation, and maximum application rate per application (key columns). The remaining, non-key columns of the report display either worse case or aggregate data from the label information that defines the unique data row. Note that each non-key column does not necessarily relate to any other non-key column with in the same row.
