

N

District 1

Legend

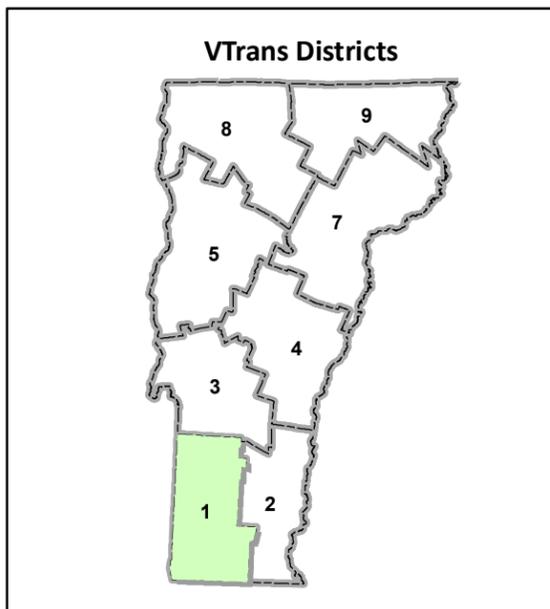

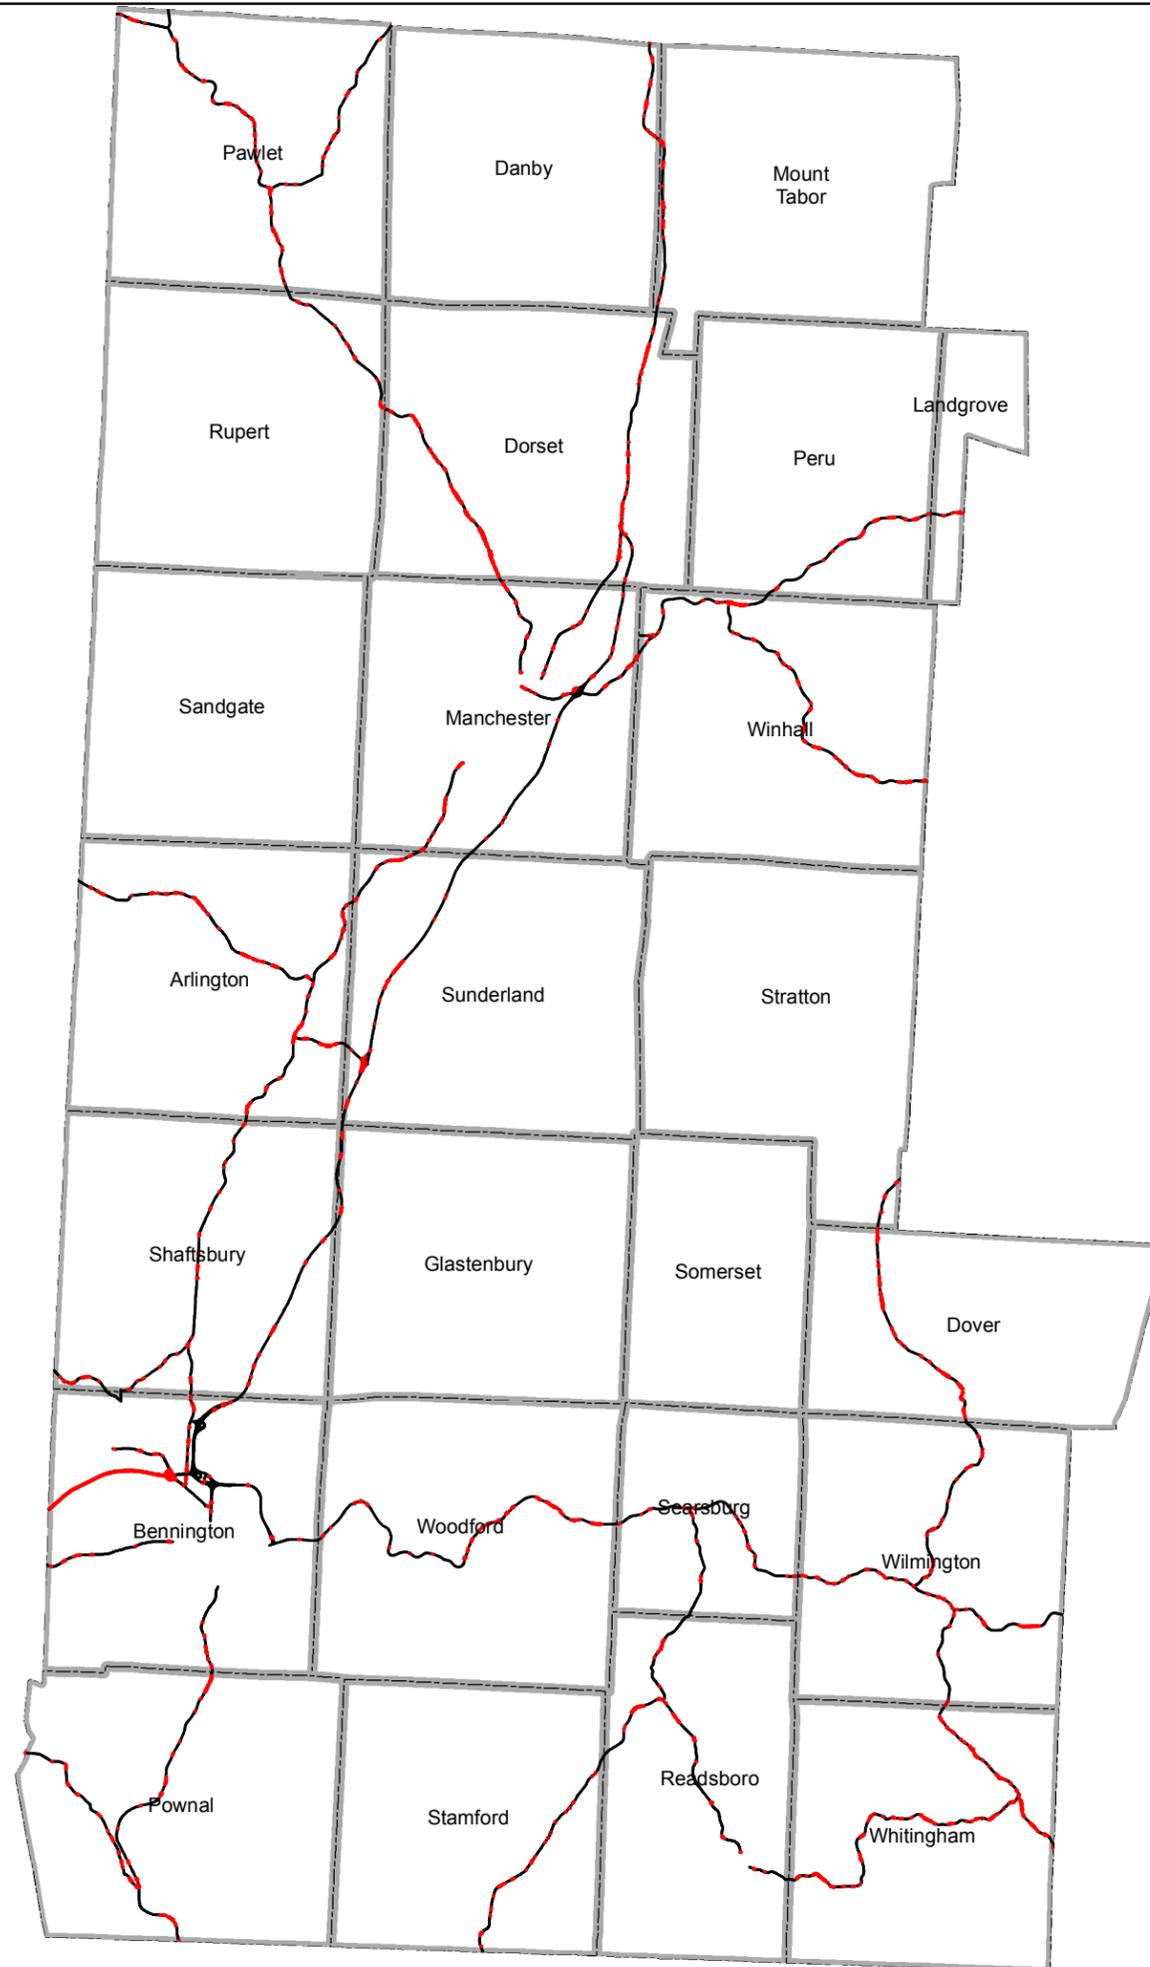

No spray areas. Include rivers (50 foot buffer), wetlands (50 foot buffer), lakes and ponds (50 foot buffer), Wells (200 foot buffer), drinking water surface source protection (120 foot buffer on surface water within SSPA)

Areas acceptable to spray. These areas can be sprayed but will only be sprayed if a gaurdrail is present.

Towns

- | | |
|-------------|------------|
| Arlington | Readsboro |
| Bennington | Rupert |
| Danby | Sandgate |
| Dorset | Searsburg |
| Dover | Shaftsbury |
| Glastenbury | Somerset |
| Landgrove | Stamford |
| Manchester | Stratton |
| Mount Tabor | Sunderland |
| Pawlet | Whitingham |
| Peru | Wilmington |
| Pownal | Winhall |
| | Woodsford |

This map was created utilizing available GIS data. Field conditions will further define where no spray locations are. No spray buffers were calculated using conservative measurements. This document will change as more information is available and as we fine tune details within the map.

N

District 2

Legend

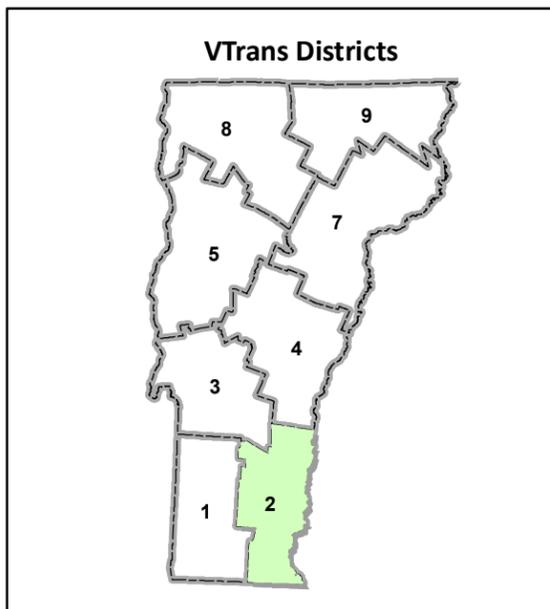

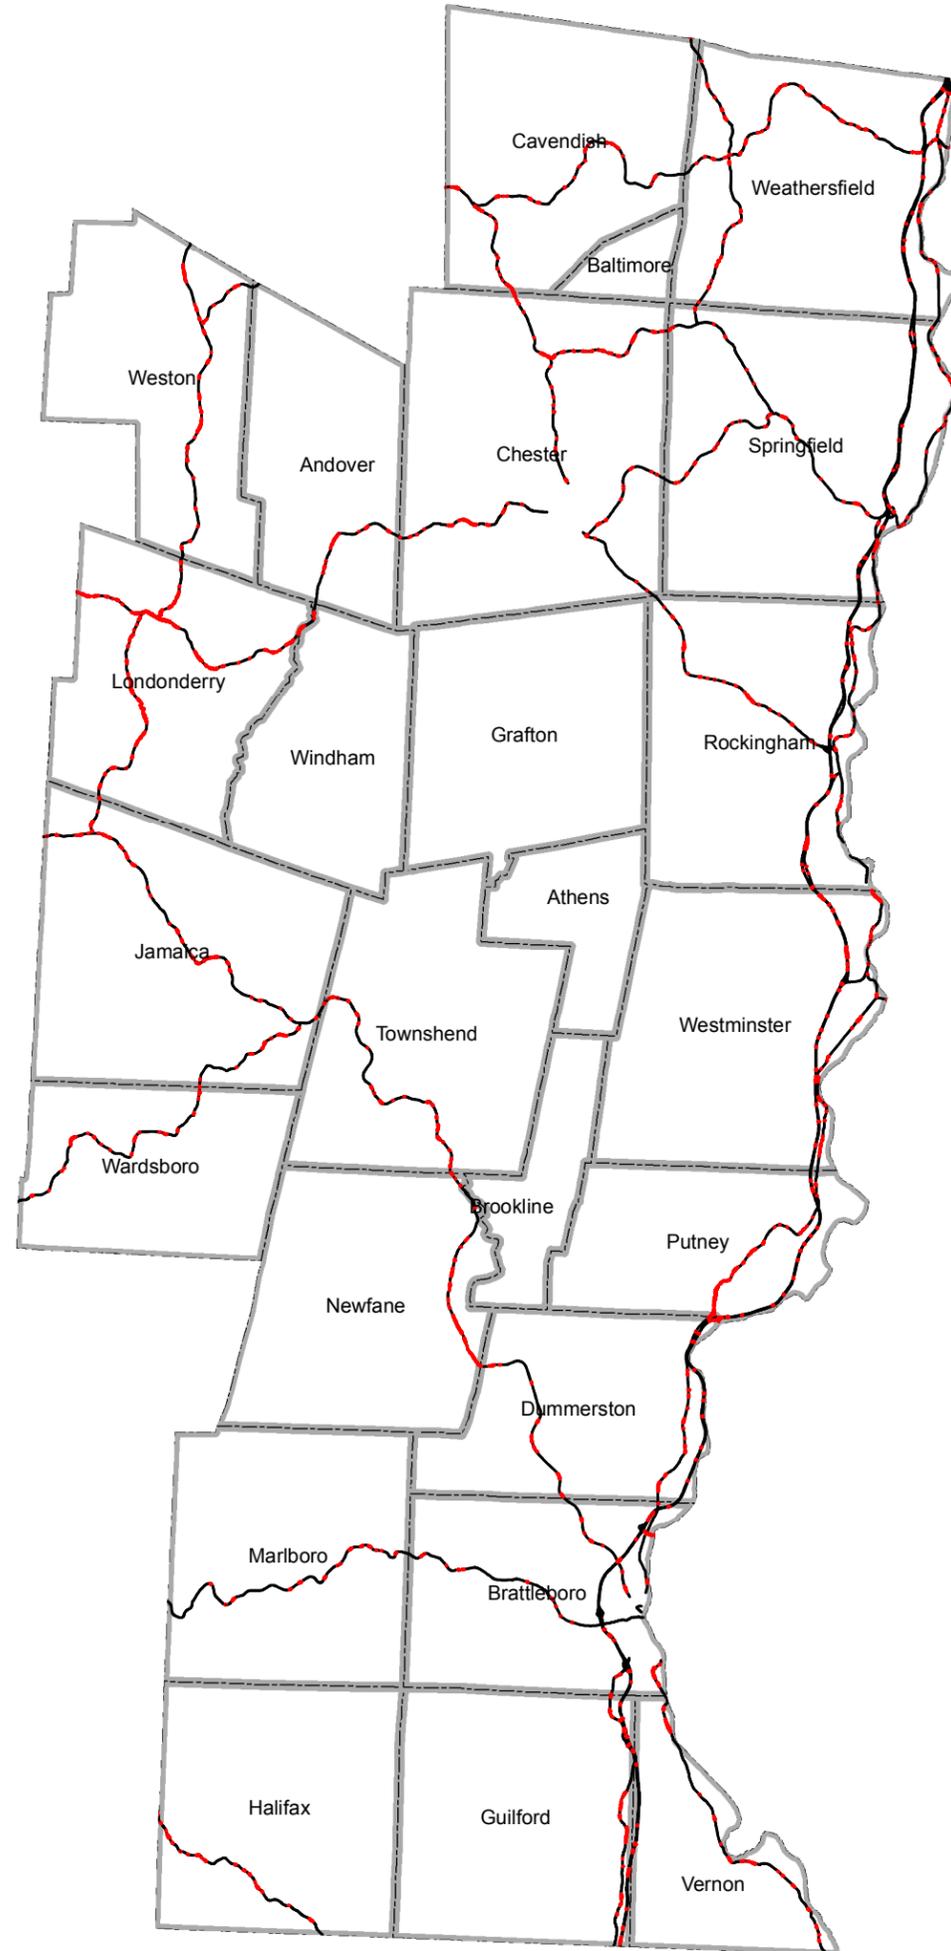

No spray areas. Include rivers (50 foot buffer), wetlands (50 foot buffer), lakes and ponds (50 foot buffer), Wells (200 foot buffer), drinking water surface source protection (120 foot buffer on surface water within SSPA)

Areas acceptable to spray. These areas can be sprayed but will only be sprayed if a gaurdail is present.
