EBSG Task Group AC Activity

October 25th, 2024 Joint Meeting

Part 1: This activity aims to ground the concept of environmental benefits in relatable scenarios, focusing on the idea in Environmental Justice that everyone has the right to live, work, and play in healthy spaces. Please reflect on the following questions:

- Where do you live, work, and play?
 - What are the similarities and differences between the spaces?
 - Can you identify environmental benefits in each space?

Part 2: This activity aims to use the live, work, play framework to explore ways EJ issues impact folks in the communities you support in small groups amongst yourselves. Please reflect on the following questions:

- What are examples of places folks in these communities live, work and play?
- Can you identify environmental benefits in each space through your work in these communities?
- Can you identify any environmental burdens in each space through your work in these communities?
- With these environmental burdens in mind, what could be done to improve them?
