a) Topic Area: Transportation

- i) Please stop supporting the idea of EVs! Nobody is ready for them. One step at a time, like hybrids that get better mileage. AND get the national speed limit down to 50 like was done in the 50's when there was a fuel shortage. It worked and everyone saved money because they got BETTER MILEAGE!!!

2) Greg Pierce

a) Topic Area: Transportation

- i) TIME TO START DIPPING YOUR TOES INTO THE QUINTESSENTIAL ENERGY ISSUE OF OUR TIMES—**HYDROGEN !**.

TOYOTA HAS BEEN SELLING ITS "MIRAI" HYDROGEN SEDAN IN CALIFORNIA SINCE 2017. VERMONT NEEDS TO SET UP A DEMO HYDROGEN STATION AND PURCHASE SEVERAL "MIRAIS" AS STATE OF VERMONT OFFICIAL VEHICLES. THESE VEHICLES WOULD DISPLAY INFO ABOUT HYDROGEN VEHICLES AND BE SEEN ALL OVER THE STATE.

EV'S ARE A JOKE AND A WASTE OF CITIZEN'S HARD EARNED MONEY. THE SOONER THAT VERMONTERS CAN ACCESS HYDROGEN VEHICLES AND FILL UP IN FIVE MINUTES AT A HYDROGEN FILLING STATION THE BETTER OFF THEIR POCKET BOOKS WILL BE AND THE BETTER OFF OUR PLANET'S ATMOSPHERE WILL BE.
