12:04 PM Welcome / Opening Remarks (Richard Cowart)

12:07 PM Modeling Update Feedback

The Subcommittee discussed the presentation from David Hill of the Cadmus/EFG team at the last meeting. Two issues were raised that were flagged for Cadmus/EFG. The first is the fact that the modeling shows a significant overshoot for emissions reductions in 2025 to match the trajectory of reductions needed to reach 2030 requirements. The second concern surrounded the assumptions made in the electric sector.
