

**Biomass Task Group**  
**May 18th, 2022**  
**Minutes**

- 8:30 AM      Introductions, Reminder of Protocol of the Group, and approval of [5/4 Minutes](#)  
No comments were made to the minutes.
- 8:35 AM      Reflections and Lessons from Bucholz
- Group reflected on the scope that was drafted and challenged whether it was reflective of the tabled actions put forward by the Agriculture and Ecosystems Subcommittee. The group agreed that it should be thought of as a prioritization of issues to be worked on rather than the final scope. More work is needed to test where we are going and what information is still needed to make reasonable assumptions and ultimately put forward recommendations.
- 8:50 AM      Understand a Perspective on Biomass Fuel Sources, Forests and Complexities of Accounting, *Bill Keeton, UVM*
- Dr. Keeton delivered a [presentation](#) which had some key takeaways which the group will revisit to test agreement on. Dr. Keeton offered to meet with the group again to further explore his conclusions.
- 9:50 AM      Next Meeting
- *Review of Tabled Actions Chart*
  - *Dr. Ali Kosiba will present at next meeting*
  - *Other presenters for future meetings*
- 9:55 AM      Public Comment
- No public comments were received.
- 10:00 AM      Adjourn
