

# Council Review of CAP Components

- Components of CAP circulated one-week ahead of Council Meeting
- Expectation that any written comments provided ahead of meeting
- Substantive comments voiced at meeting
- Revised documents posted online with new CAP components for review by following week
- All components coming up to Council for review will be aligned with meeting content
- Revised schedule to be discussed with SC this week and posted

# CAP Outline

## **Introduction**

1. The case for action (the “why”);
2. Requirements of the law; and
3. The foundational work needed to build the plan.

## **Pathways**

1. Framing
2. Mitigation
3. Resilience (in natural/working lands and the built environment)
4. Sequestration/Storage
5. Cross-cutting pathways

## **Framing Implementation**

1. Implementing Vermont’s Climate Action Plan
2. Measuring and Tracking Progress
3. Guidance documents

# CAP Components

- Vermont's Climate Action Plan Requirements and Goals
- Foundational Criteria
- Building Equity into the CAP
- Relationship Between the CAP and the Comprehensive Energy Plan

**Specific action needed by the Council:** Review and provide oral feedback on the CAP sections circulated. Utilize decision-making process to adopt sections of the plan, providing for non-substantive written comments to still be received on schedule outlined.
