Municipal Support Resilience Input Session
Rural Resilience & Adaptation Subcommittee

1. Disaster preparedness and response: What support do municipalities most need?
2. Long-term resilience: Beyond immediate recovery, how can municipalities build resilience to climate change impacts? What do you/they have the capacity to do?
3. Engagement: How might municipalities be better included in state, regional, and local resilience planning?
4. What is missing? Has the subcommittee overlooked a key resilience issue?
