

Plan for revising Priority Actions

Presented to the Steering Committee May 6, 2025

1. Councilors provide input by the end of this week (May 9)
 - a) Offer potential new priority action(s) that should be included, but also key essential thoughts on other revisions
 - b) Send comments to David & Liz Amler
 - c) Comments can come from groups of councilors (e.g. from admin members) or individual councilors
2. David / Liz Amler organize and facilitate some topical writing groups mid-next week to make some concrete suggestions on revisions
3. The Council discusses those suggestions May 19
4. We hold off on any additional prioritization exercise until June 2
5. The Council continues to explore consensus around the Priority Actions – language we can all live with
