***A note on this meeting's agenda:** The meeting is an opportunity to receive a briefing on the priority recommendations from three subcommittees and three cross-cutting groups. The six groups each have a common template to provide an overview of the issues they worked on, as well as a handful of priority actions they recommend the Council emphasize in the updated Climate Action Plan. Presenters will be coached to keep presentations to roughly 15 minutes, so there will be time for questions and discussions during each block.*

The meeting marks a hand-off to the full Council from the subcommittees of the substantive work of updating the Climate Action Plan, though the Council will likely ask one or more subcommittees for additional input in the coming months. Councilors are encouraged today to ask questions and flag issues that should be the focus of the Council's next steps in compiling all the content into an updated plan.
