

April 14, 2016

Alan May / Rachel Beauregard
VT Better Roads Program
Municipal Assistance Bureau
1 National Life Drive
Montpelier, VT 05633

Dear Alan & Rachel,

The Huntington Selectboard appreciates the opportunity to submit the 3 separate FY 2017 Vermont Better Roads Category D Grant Applications for your consideration.

In addition to the high-priority Category A Road Erosion Control Inventory and the high-priority Category B Salvas Road Erosion Control projects we are submitting for your consideration this year, we are also submitting 3 separate culvert replacement projects. These culvert projects are our 3 top culvert replacement priorities based on the age and poor condition of the existing culverts and their inability to handle the heavy rain storms that have become more frequent.

CATEGORY D STRUCTURES GRANTS

- **Priority 1: Texas Hill Road Culvert Replacement Project (TH 10 / Culvert 10-17)**
 - \$26,856.00 – Total Project Estimate
 - \$21,484.80 – Grant Request
 - \$ 5,371.20 – Local Match (general fund highway operating budget)

- **Priority 2: Trapp Road Culvert Replacement Project (TH 26 / Culvert 26-02)**
 - \$27,750.00 – Total Project Estimate
 - \$22,088.00 – Grant Request
 - \$ 5,522.00 – Local Match (general fund highway operating budget)

- **Priority 3: Texas Hill Circle Culvert Replacement Project (TH 11 / Culvert 11-04)**
 - \$58,327.00 – Total Project Estimate
 - \$40,000.00 – Grant request
 - \$18,327.00 – Local match (general fund highway operating budget)

We are submitting this cover letter with each of the 3 separate email applications we are submitting. Please let us know if you require additional information.

Sincerely,

Clinton 'Yogi' Alger
Huntington Road Foreman

Barbara Elliott
Huntington Town Administrator

FY17 Vermont Better Roads Grant Application

Please complete this page ONCE and return with your Grant Category Application(s)

Town/Organization: Huntington Contact Person(s): Barbara Elliott

Address: 4930 Main Road, Huntington VT 05462

Email: townhunt@gmavt.net Phone: (802) 434 - 4779

DUNS #: 28790780 Fiscal Year End Month (MM): 6

Accounting System: Automated Manual Combination

Please use the suggested documentation checklist below to ensure that all of the relevant items regarding your application have been included.

- Grant application cover sheet (Only submit one)
- Grant application form (One per category/project)
- Itemized Cost estimate for labor, equipment, and materials (see enclosed Cost Estimate Worksheet). If applicable, please break down funding by source (i.e. different grant sources)
- Project Location Map (please show location of affected water)
- Sketch of proposed erosion control measures or other management practices, including distances in feet
Also show approximate location of town/other right-of-way and/or property lines
- Photo(s) of the project area
- Letters of Support (RPC, VTtrans District Technical Staff, ANR Rivers and Streams Engineers, etc.)
- If Category C River/Road Conflict or Category D River/Stream Structure or Culvert, you must attach ANR/ACOE consultation

Vermont Better Roads Grant Program Application

Please complete one application per category and/or project you are applying for. You may make copies of the application for multiple applications per category and/or multiple categories.

Please check the Category you are applying for:

- B. Correction of a Road Related Erosion Problem and/or Stormwater Mitigation Retrofit for both gravel and paved roads
- C. Correction of a Stream Bank or Slope Related Problem
- D. Structure/culvert upgrades

Town/Organization: Town of Huntington, VT

Project Name: Texas Hill Circle Culvert Replacement

Road Name: Texas Hill Circle TH #: 11 Structure # (if applicable): 4

Road Type: Unpaved Uncurbed
Class 3

Watershed: Winooski River Basin

Please provide a thorough description of the problem (ex. Roadway has steep slope with no ditch which is causing roadway erosion):

The existing culvert was constructed with an old concrete box culvert on one end and an old boiler tube on the other end. Washout, and the resulting erosion, occurs during big storms depositing sediment into the stream

Description of Project and how you plan to complete the work (ex. Stone line 500' of ditch by reshaping ditch and stone lining, working from the top of the project down to the bottom):

Subject to the findings of the hydraulic unit report which is still pending (it was ordered back on Feb. 3, 2016), the current culvert will be replaced with an 81" by 59" by 50' 10-gauge galvanized squash culvert with a concrete headwall on the inlet end. The project also requires material to widen the roadway and the installation of guardrails.

Expected Effects (+ & -) on water quality (ex. Erosion will be eliminated by placing the stone ditch):

Sediment deposit into the brook will be reduced as the upsized, upgraded culvert will be able to handle heavy rains and will reduce erosion.

Distance from end of project to nearest water (stream, lake, or stormwater system that outlets directly to water). 0-50'

Progress to Date:
none

Is there an emergency reason this project must be completed quickly? If yes, please explain:
no

Has this project been identified through a municipal road inventory, capital budget plan, tactical basin plan, culvert inventory, or other management plan? If yes, please list which.

Yes: Huntington Culvert Inventory No

Please list any professionals you may have contacted for assistance with this project (ANR River Management Engineer, Army Corps of Engineers, VTrans District Technical staff, Basin Planner etc.):
Hydraulic study has been requested from VTrans.

Is the project located in the town "Right of Way?" Yes, No, Both (if "Both" please explain further).
yes

Will the town road crew complete this work? Yes, No, Some (if "some" please explain further).
no

Describe how the grant funds will be spent and/or attach a project budget:

See detailed contractor quotes, guardrail quote, and estimate for the quarry rock and fill that will be required from the Town quarry.

How do you plan to meet the required 20% match on this grant?:

General Fund Highway Operations Budget.

Requested Grant Amount (\$20,000 max Category B, \$40,000 max Categories C & D): \$ 40,000.00

Estimated Total Project Cost (including 20% local match): \$ 58,327.00

Estimated Completion Date: 10/31/2016

REQUIRED ATTACHMENTS:

- Itemized Cost Estimate (labor, equipment, materials)
(For assistance, call Better Backroads at 802-828-4585)
- Project Location Map
(Please show location of affected water; 1:12,000 USGS map, if possible)
- Sketch of proposed erosion control measures, including:
 - Distances (ft.)
 - Estimate of waste & borrow quantities
 - Approx. location of town/other right-of-way and/or property lines
- Photo(s) of the project area.
- Agreement for Entry and/or Deed of Easement (if project is outside Town ROW).
- If project involves stream or river/road conflict, include documentation of consultation with a River Management Engineer.
- Other appropriate supporting documents.

By signing this application I certify that all the information provided is accurate to the best of my knowledge. We will comply with all the requirements of the grant including making our books available for audit if required.

SIGNATURE OF APPLICANT: (Must be Town Administrator/Manager or Select Board Chair)

Name: Barbara J M Eliot

Title: Town Administrator

Jeff Palin Excavating Inc.
2935 Main Street
Huntington, Vermont 05462
(802) 434-4652

Date: 4-Apr-16
