

STEEL BRIDGE TRUSS REMOVAL AND DELIVERY

**\*\*From Corinth STP BRO 1447(22) (Re-advertised)**

- xx. DESCRIPTION. This work shall consist of removing a steel bridge truss from its existing location, and delivering and unloading two steel trusses at the location designated in the Contract Documents.
  
- xx. CONSTRUCTION REQUIREMENTS. The work under this Section shall be performed as directed by the Engineer and includes, but is not limited to, the following:
  - (1) Remove and properly dispose of the existing floor system.
  - (2) Lift trusses and prepare for transport. The trusses shall be lifted only from the top chord at the panel points.
  - (3) Transport trusses to the location designated in the Contract Documents, taking precautions necessary to prevent damaging the trusses and to ensure they remain intact.
  - (4) Unload trusses at the designated location. The trusses shall be laid flat on wooden blocks supplied by the Contractor, with blocking also between the two trusses. The Contractor will be responsible for arranging for crane or other appropriate method of unloading.
  - (5) Obtain any permits necessary for transporting the trusses over the highway system.
  
- xx. METHOD OF MEASUREMENT. The quantity of Special Provision (Steel Bridge Truss Removal and Delivery) to be measured for payment will be on a lump sum basis in the complete and accepted work.
  
- xx. BASIS OF PAYMENT. The accepted quantity of Special Provision (Steel Bridge Truss Removal and Delivery) will be paid for at the Contract lump sum price. Payment will be full compensation for removing the existing steel bridge truss, for delivering and unloading the two steel trusses at the designated location, and for furnishing all labor, tools, equipment, and incidentals necessary to complete the work.

Any damage done to the existing steel bridge truss beyond that resulting from performing the work necessary for removing, delivering, and unloading the trusses in accordance with these specifications, as determined by the Engineer, shall be repaired at the sole expense of the Contractor.

Payment will be made under:

<u>Pay Item</u>	<u>Pay Unit</u>
900.645 Special Provision (Steel Bridge Truss Removal And Delivery)	Lump Sum
