

TRAFFIC ISLAND, GRANITE COBBLE BLOCKS

****From Woodstock NH 2606(1)S/STP 2509(1)S**

xx. DESCRIPTION. This work shall consist of constructing a traffic island utilizing granite cobble blocks as detailed in the Plans and as directed by the Engineer.

xx. MATERIALS. Granite cobble blocks shall consist of hard, durable, quarried granite. The granite shall be gray in color, free from seams, cracks, or other structural defects, and shall be of a smooth splitting character. The blocks may contain natural color variations that are characteristic of the granite source.

The Contractor shall submit for approval the name of the quarry that is the proposed source of the granite. Such submission shall be made sufficiently in advance of ordering so that the Engineer may have an opportunity to judge the stone, both as to quality and appearance. Samples shall be submitted for approval only when requested by the Engineer.

xx. METHOD OF MEASUREMENT. The quantity of Special Provision (Traffic Island, Granite Cobble Blocks) to be measured for payment will be the number of square meters (square yards) of granite cobble blocks installed in the complete and accepted work.

xx. BASIS OF PAYMENT. The accepted quantity of Special Provision (Traffic Island, Granite Cobble Blocks) will be paid for at the Contract unit price per square meter (square yard). Payment will be full compensation for furnishing, handling, and installing the granite cobble blocks, including the provision of granite samples when required, for performing any required excavation, for placing and compacting backfill where required, and for furnishing all labor, tools, equipment, and incidentals necessary to complete the work.

Curb will be paid as Vertical Granite Curb under Contract item 616.21.

Payment for constructing the sidewalk portion of the island as detailed in the Plans will be made under the appropriate Contract items.

Payment will be made under:
