

SUBBASE, RAP FOR RECLAIMING

****From Westford-Fairfax AC STP 2804(1)**

xx. DESCRIPTION. This work shall consist of furnishing, placing, reclaiming, and grading one or more courses of approved RAP material into a prepared reclaimed stabilized base as shown in the Plans and as directed by the Engineer.

The work under this Section shall be performed in accordance with these provisions and Sections 301 and 310 of the Standard Specifications.

xx. MATERIALS. Subbase, RAP material shall meet the requirements of Section 301.

xx. GENERAL CONSTRUCTION REQUIREMENTS. Subbase, RAP material shall be placed on a prepared reclaimed stabilized base at the thickness specified in the Plans or as directed by the Engineer. The material shall be reclaimed into the reclaimed stabilized base. The material shall be worked to improve gradation deficiencies and/or to correct superelevation as directed by the Engineer.

xx. METHOD OF MEASUREMENT. The quantity of Special Provision (Subbase, RAP for Reclaiming) to be measured for payment will be the number of metric tons (tons) of material in place in the complete and accepted work, as determined from the load tickets.

xx. BASIS OF PAYMENT. The accepted quantity of Special Provision (Subbase, RAP for Reclaiming) will be paid for at the Contract unit price per metric ton (ton). Payment will be full compensation for furnishing, blending, transporting, placing, and reclaiming the material into the prepared reclaimed stabilized base; for compacting, grading, and testing; and for furnishing all labor, tools, equipment, and incidentals necessary to complete the work.

Payment will be made under:

<u>Pay Item</u>	<u>Pay Unit</u>
900.680 Special Provision (Subbase, RAP for Reclaiming)	Metric Ton (Ton)
