

TRANSPORTATION AND DISPOSAL OF CONTAMINATED SOILS

****From Bennington NH 019-1(55)**

xx. DESCRIPTION. This work shall consist of loading and transporting contaminated soils to a licensed disposal facility.

xx. CONSTRUCTION REQUIREMENTS. All work shall be completed in accordance with the Corrective Action Plan as approved by ANR.

The Contractor shall dispose of contaminated soils at an off-site facility approved by ANR. The Contractor shall contract with the disposal facility for loading, transporting, and disposing of the soil. Soil shall be transported in accordance with VTrans requirements. All contaminated soil stockpiles shall be removed from the site and transported to an approved disposal facility within 4 weeks after receipt of analytical results. The Contractor shall be responsible for any additional disposal costs incurred due to excess weight caused by increase in soil moisture content after the soil is excavated.

xx. METHOD OF MEASUREMENT. The quantity of Special Provision (Transportation and Disposal of Contaminated Soil) to be measured for payment will be the number of metric tons (tons) used in the complete and accepted work, as determined from the load tickets.

xx. BASIS OF PAYMENT. The accepted quantity of Special Provision (Transportation and Disposal of Contaminated Soil) will be paid for at the Contract unit price per metric ton (ton). Payment will be full compensation for performing the work specified and for furnishing all labor, tools, equipment, and incidentals necessary to complete the work.

Payment will be made under:

<u>Pay Item</u>	<u>Pay Unit</u>
900.680 Special Provision (Transportation and Disposal of Contaminated Soils)	Metric Ton (Ton)
