

TEST HOLES

****From Hartford-Sharon FITS(503)**

- xx. DESCRIPTION. This work shall consist of excavation by special means to expose existing utilities, specifically culverts in the I-89 right-of-way so as to assure that plowing or trenching operations will not damage the existing structure. This work may be accomplished by using a combination of machinery, including backhoes, vacuum truck, water jetting equipment, and hand digging.
- xx. MATERIALS. Unless otherwise specified, there are generally no materials required for this unit of work. In unusual circumstances, the owner's representative may require the use of select backfill if the spoils are deemed unacceptable as backfill.
- xx. METHOD OF MEASUREMENT. The quantity of Special Provision (Test Holes) to be measured for payment will be the number of each test hole dug, regardless of depth or length, in the complete and accepted work,.
- xx. BASIS OF PAYMENT. The accepted quantity of Special Provision (Test Holes) will be paid for at the Contract unit price per each. Payment will be full compensation for performing the work specified and for furnishing all labor, tools, equipment, and incidentals necessary to complete the work.

Payment will be made under:

<u>Pay Item</u>	<u>Pay Unit</u>
900.620 Special Provision (Test Holes)	Each
