

UNDERGROUND CABLE FOR AIRPORTS

**\*\*From Highgate AIR 04-3183**

- xx. DESCRIPTION. This work shall consist of furnishing and installing underground cable at the locations indicated on the Plans and as directed by the Engineer.

The work under this Section shall be performed in accordance with these provisions, the Plans, and Federal Aviation Administration (FAA) specification *L-108 Installation of Underground Cable for Airports*.

- xx. MATERIALS. Materials shall meet the requirements of FAA specification *L-108 Installation of Underground Cable for Airports*.

- xx. METHOD OF MEASUREMENT. The quantity of Special Provision (Underground Cable For Airports) to be measured for payment will be the number of meters (linear feet) of cable installed in the complete and accepted work.

Cable which is specified as incidental to other Contract items will not be measured for payment under Special Provision (Underground Cable For Airports).

- xx. BASIS OF PAYMENT. The accepted quantity of Special Provision (Underground Cable For Airports) will be paid for at the Contract unit price per meter (linear foot). Payment will be full compensation for furnishing, handling, and placing the materials specified, including but not limited to power source connections and circuit testing; testing of the lighting system; maintaining the functionality of the lighting system; and for furnishing all labor, tools, equipment, and incidentals necessary to complete the work.

Excavation, backfill, installation of ducts and conduits, and restoration of surfaces will be paid for under the applicable Contract items.

Payment will be made under:

<u>Pay Item</u>	<u>Pay Unit</u>
900.640 Special Provision (Underground Cable For Airports)	Meter (Linear Foot)
