

DISPOSAL OF UTILITY TRANSFORMER AND APPURTENANCES

****From Bennington AC NH 019-1(54)**

- xx. DESCRIPTION. This work shall consist of transporting and disposing of an electrical utility transformer to a licensed disposal facility and the disposal/recycling of the conductor and other incidentals.
- xx. CONSTRUCTION REQUIREMENTS. The Contractor shall dispose of the electrical utility transformer at an off-site facility approved by VTrans. The Contractor shall contract with the disposal facility for loading, transporting, and disposal of the transformer. The transformer shall be transported in accordance with the disposal facility requirements. The following vendors are licensed to receive electrical transformers for recycling:

EPS Industries
 4 Industrial Park Dr.
 Wheeling, WV 26003

Transformer Service, Inc.
 74 Regional Drive
 Concord, NH 03301

Clean Harbors Environmental Services, Inc.
 42 Longwater Drive
 Norwell, MA 02061

The selected vendor shall conduct PCB (Polychlorinated Biphenyl) testing to determine the appropriate disposal/recycling methods that can be utilized. The testing results and methods of disposal shall be provided to the Resident Engineer for final approval of disposal.

The Contractor shall remove and transport the conductor and all other incidentals to a site approved in advance by VTrans.

- xx. METHOD OF MEASUREMENT. The quantity of Special Provision (Disposal of Utility Transformer and Appurtenances) to be measured for payment will be on a lump sum basis in the complete and accepted work.
- xx. BASIS OF PAYMENT. The accepted quantity of Special Provision (Disposal of Utility Transformer and Appurtenances) will be paid for at the Contract lump sum price. Payment will be full compensation for performing the work specified and for furnishing all labor, tools, equipment, and incidentals necessary to complete the work.

Payment will be made under:

<u>Pay Item</u>	<u>Pay Unit</u>
900.645 Special Provision (Disposal of Utility Transformer and Appurtenances)	Lump Sum
