Dear Artie,

We have reviewed the Traffic Control Plans that were submitted to us on July 30, 2015 via SharePoint and they must be resubmitted. Please review our comments and make changes.

The most critical change is the need for some clarification regarding speed reductions and potential confusion since the approaching speed from the north is different from the approaching speed from the south. In addition the side roads entering VT12 fall within the construction zone and there is no warning of the speed reductions within the work zone besides at the temporary bridge.

Sincerely,

Carolyn W. Carlson
