Structure Identification: VT 65 Bridge #2 over Sunset Lake

RE: Item 900.645, "Special Provision (Fiber Reinforced Polymer pontoons)"
NCR 7 – Pontoon 3 Hull Defects

Mr. Holloway –

As described in the attached letter, multiple defects are present within the recently infused hull for Pontoon 3 - several of which are identified in a nonconformance report (NCR) prepared by Kenway Corporation dated August 12, 2014. This NCR (NCR 7) has been reviewed by T. Y. Lin International (Design Engineer of Record) and observations and opinions on the nonconforming aspects have been noted.

You are hereby notified that VTrans rejects Pontoon 3.

Please feel free to contact me with any additional questions or clarifications.

Sincerely,

Jennifer M.V. Fitch, P.E.
Project Manager
