

Kristin,

The Select Board met last night and discussed the culvert replacement on Route 100 South in Wilmington that is scheduled for this summer. The contract for the job, Wilmington STP 013-1(14), is scheduled to go out to bid near February 14, 2014 and requires the highway (route 100 South) to be closed for one weekend. The Board discussed which weekend they would like the road to remain open, per your letter of October 18, 2013. The Town and the Valley (which includes Dover & the Mount Snow Region) has a Blueberry Festival that runs from July 26 through August 3rd. If those dates could be omitted from the contract for this project, it would help the Town and Valley immensely. Please contact me if you need any additional information. Thank you for your help with this project.
