

Disclosure of Information on Lead-Based Paint and/or Lead-Based Paint Hazards

Lead Warning Statement

Housing built before 1978 may contain lead-based paint. Lead from paint, paint chips, and dust can pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women. Our shelter building was constructed prior to 1978 and we are required to disclose the presence of known lead-based paint and/or lead-based paint hazards in the shelter. Shelter guests must also receive a federally approved pamphlet on lead poisoning prevention.
