Abandonment: Occurs when a parent or person responsible for the child’s welfare fails or ceases to provide for the needs of the child and has not made arrangements for the child’s care. The situation must exist beyond a reasonable time based on the child's age and developmental level.

Abused or Neglected Child: A child whose physical health, psychological growth and development or welfare is harmed or is at substantial risk of harm by the acts or omissions of his or her parent or other person responsible for the child’s welfare. Also, a child who is sexually abused or at substantial risk of sexual abuse by any person and a child who has died as a result of abuse or neglect (33 VSA § 4912(1)).

Accepted Report: A report that has been determined by a reviewer to be a valid allegation of child abuse or neglect.

Assessment: A response to a report of child abuse or neglect that focuses on the identification of the strengths and support needs of the child and the family, and any services they may require to improve or restore their well-being and to reduce the risk of future harm. The child and family assessment does not result in a formal determination as to whether the reported abuse or neglect has occurred (33 VSA § 4912(2)).

Assessment Record: A summary of information gathered during the assessment phase which includes an evaluation of safety of the subject child and other children living in the same environment; identification of family strengths; resources; service needs; the recommended plan of services.

Child: An individual under the age of majority (33 VSA 4912 (3)).

Child in Need of Care or Supervision (CHINS): A child who:

- (A) has been abandoned or abused by the child’s parent, guardian, or custodian. A person is considered to have abandoned a child if the person is: unwilling to have physical custody of the child; unable, unwilling, or has failed to make appropriate arrangements for the child’s care; unable to have physical custody of the child and has not arranged or cannot arrange for the safe and appropriate care of the child; or has left the child with a care provider and the care provider is unwilling or unable to provide care or support for the child, the whereabouts of the person are unknown, and reasonable efforts to locate the person have been unsuccessful.
- (B) is without proper parental care or subsistence, education, medical, or other care necessary for his or her well-being;
- (C) is without or beyond the control of his or her parent, guardian, or custodian; or

(D) is habitually and without justification truant from compulsory school attendance (33 VSA § 5102(3)).

Child Pornography (also commonly referred to as **Child Sexual Abuse Material or CSAM**): Any visual representation of a child or portion of a child's body which depicts nudity, sexual conduct or sado-masochistic abuse and which is harmful to children or violates community standards of morality and decency. Such material generally depicts nudity or sexual acts for the purpose of sexual stimulation. Examples include:

- Aiding, abetting, counseling, hiring, or procuring of a child to perform or participate in any photograph, motion picture, exhibition, show representation, or other presentation which, in whole or in part, depicts sexual conduct, sexual excitement, or sadomasochistic abuse involving a child.
- Viewing, possessing, or transmitting child pornography, with the exclusion of the exchange of images between mutually consenting minors, including the minor whose image is exchanged.

Using a child or youth in child pornography is sex trafficking of a minor. Child pornography and sex trafficking of minors are forms of child sexual abuse.

Note the terminology used to describe this type of abuse is shifting away from 'child pornography' and towards 'child sexual abuse material' to more accurately reflect what is depicted – the sexual abuse and exploitation of children and the re-victimization each time the material is shared or accessed.

Educational Neglect: Educational neglect occurs when a parent or person responsible for a child’s care knowingly fails to enroll a child in school or to provide education in accordance with 16 V.S.A. § 1121. The child regularly fails to attend school through the parent or caretaker’s action or inaction. Educational neglect will be considered for children beginning at age six until the completion of the sixth grade, where the expectation is that the parent or caretaker is responsible for getting the child to school and the parent or caretaker’s behavior has contributed to the child’s lack of attendance. Exceptions to this age/grade consideration apply if circumstances of the child or youth, such as intellectual or developmental disabilities, exclude them from being held responsible for getting themselves to school.

Referrals for “educational neglect” will be assessed according to Family Services [Policy 60](#): CHINS (C) and (D) Assessments. The results of these assessment will not be substantiated nor entered into the Child Abuse Registry.
