

ALIAH

Age: 11

My favorite things:

I like listening to music. I enjoy reading. I like hanging out with friends. I watch scary movies. I enjoy sports like soccer, swimming, and cheerleading.

Things I do not like:

People making fun of me. I don't like when people ignore me or my feelings. I don't like certain fruit like peaches, plums, and pineapples.

Favorite foods:

I love pizza, garlic bread, and spaghetti! Pretty much like Italian foods. I also like chicken cutlets.

What I want in a family:

I want people who are nice to me. I want a family that understand what I am going through. I want them to listen to me and I also want advice from them.

What I want families to know about me:

I want them to know that I like to be active. I like to laugh with my friends. I like to sing. I want to be a cheerleader. I want to be supported. I want them to understand my past and help me with my future. I want to stay connected to some of my biological family.

What we want families to know about the youth:

Aliah has been through a lot in her short years. A family that understands childhood trauma is best. She loves her biological family fiercely. She has also had many placement changes, so she needs someone who is truly going to commit to her. While she is 11 years old she does act a bit younger at this time. Aliah tends to follow others, especially peers. She needs lots of support around basic things like hygiene and social interactions. A two parent household would be best but a single parent (mother) would also be an option.
