

ASHLEY

Age: 14

My favorite things:

I love to bake! I am a reader of books. I love to shop! I could see myself designing clothes. Like going to fabric stores. I like to decorate and want to possibly be an interior decorator. I enjoy arts and crafts in general. I like school and want to go to college someday. My favorite subject is math. I am more of an indoor person. However, I like to enjoy summer weather and swimming. I also like to stay healthy and work out. I like to organize and fix things.

Things I do not like:

I am not too big into sports. I am not that outdoorsy but will go on hikes. I don't like being cooped up. I cannot stand to be in a house that is cluttered. I will have to organize it! I do not like yelling and to be yelled at. I am not a fan of spiders. I will not eat my Brussel sprouts!

Favorite foods:

Real mac and cheese. Chicken tenders. Peas. Black olives. I like pickles. I also admit to having a sweet tooth! Mike and Ikes...yum!

What I want in a family:

I want to be in a family that lets me act like the young adult I am. I want to be supported and loved. I want to learn recipes and cook/bake with my family. I want some freedom that all teenagers want. I want to be loved by a real family for once. I want them to support my dream of going to college and doing whatever I decide to do!

What I want families to know about me:

I am a hard worker who enjoys school. I have siblings that I care for and what to be connected with them even though living with them may not be the best thing. I am 14 and want to be treated like a young adult with responsibilities. I will need support and guidance.

What we want families to know about the youth:

Ashley has the best manners you will ever find in a teenager. She has a strong connection to her siblings. She is goal oriented. Ashley wants to do well in school. She wants to go to college. She is calm and mellow for a young adult. Very easy going and laid back person. She can advocate for herself and knows what she wants. Ashley is truly looking for that family that will give her unconditional love.
