

Baileigh, Age 14

My Favorite Things:

Baileigh has a creative spirit and enjoys things that feel unique and different. She loves art, dance, music, food, fashion, decorating, spending time with friends, and learning new things. She also loves to read and enjoys finding ways to express herself creatively, whether she is decorating a room or even a piece of paper.

Things I Do Not Like:

Baileigh does best in calm, respectful environments. Yelling, loud noises, small spaces, and feeling disconnected from friends can be difficult for her. She appreciates having opportunities to try new things and responds best to clear expectations that are balanced with understanding and flexibility.

Favorite Foods:

Baileigh enjoys bold, flavorful foods, especially spicy and sour snacks. Some of her favorites include Takis, ramen noodles, tacos, empanadas, potatoes bravas, street corn, mangos, avocados, and pickles. One of her favorite meals is bourbon street steak with potatoes bravas, asparagus, cranberry sauce, french fries, and a Snow White drink.

What I want in a family:

Baileigh hopes for a family with two parents, preferably a mom and a dad, and would enjoy having siblings or other children in the home. She would love to live somewhere with activities and things to do, and she would be happy to have a pet. Baileigh is looking for a family that will spend time with her, include her in activities, treat her with kindness, and offer structure without being overly strict.

What I want families to know about me:

Baileigh describes herself as sensitive, caring, loving, and social. She tries her best in everything she does and values connection with others. Like many teens, big feelings can sometimes influence her choices, and she benefits from adults who can respond with patience, consistency, and support.

What We Want Families to Know About Baileigh:

Baileigh is an energetic, creative young woman who deeply wants to belong to a family. She has experienced significant loss and trauma, and she will need caregivers who can provide trauma-informed parenting, clear and consistent boundaries, and steady

reassurance. A family who can offer patience, connection, and a sense of safety will help Baileigh continue to grow and thrive.
