

Bobbie, Age 6

My favorite things:

Swimming, riding my bike, playing with a ball and being read to. I also love cats and chickens.

Things I do not like:

Avocados and olives. It is hard for me to sit still for craft projects or coloring. I am a little afraid of big dogs.

Favorite foods:

I enjoy most food.

What I want in a family:

I want a family that will spend time with me outdoors, playing hiking and camping. I like to sit by the edge of the lake and throw rocks. I have lived with cats and chickens and enjoy caring for them.

What I want families to know about me:

I like to eat family dinner and sometimes help cook. Family movie nights are the best!

What we want families to know about the youth:

Bobbie does best with lots of adult attention. He can be uncertain around other children until he gets to know them. Structure and predictability really help Bobbie. He likes having small responsibilities such as helping to set the table or feeding pets. He has an older sister and when they visit each other, they do best when there is a structured activity for them both to do.
