Brandon

Brandon is 16 years old. Here’s what he would like you to know about him.

My favorite foods:
Brandon loves to eat and is usually willing to try anything. He does love coffee, protein bars, yogurt, fruit, baked beans, pasta, salad, and eggs cooked many ways.

Activities I enjoy:
Arts and crafts, cooking, and biking. He enjoys being active with his peers, especially when playing a sport. He’s favorite sports are: basketball, football, ATV’s, and swimming. Music is also very important. He has also been participating in volunteer work as he enjoys helping others.

What we want you to know about Brandon:
He needs parents who can provide him with lots of attention and support. He receives special educational services at school. He responds well to structure and once he knows the expectations he feels more at ease because he knows what he needs to do. He loves to build new relationships and he is eager to be liked by his peers and adults. He is a very resilient young man and does well with having time to process a situation. It is important for him to stay connected to some of his family memrs.

He likes to be funny, and has a great sense of humor. He enjoys being around adults and helping them out with daily tasks. He would like a family with animals as he knows it helps him therapeutically.
