

Name: Jenny

Age: 11

My favorite things:

Swimming, ballet, dancing, school, arts and crafts, horses and cooking.

Things I do not like:

Chores, figuring things out on my own, outdoor activities like hiking.

Favorite foods:

Shepherds pie, stuffing, scrambled eggs, junk food.

What I want in a family:

I would prefer a family where I am an only child. It would be fantastic if my new family lived in the countryside with some horses and other animals like dogs and cats. I really want my new family to be supportive of me and some of my decisions.

What I want families to know about me:

I'm generally quiet but when I feel comfortable, I will engage in communication. I'm still learning when to engage at a proper time so please be patient with me. My birth mom is very important to me, and I want my new family to be supportive of that.

What we want families to know about the youth:

Jenny would benefit from a slow transition into her new home, allowing for her to finish out her school year in her present school and getting her into a summer program at her new school (if school is changing for her).
