

Kaleb, 15 years old

My favorite things:

I am an active person and like to bike, fish, hunt, hike, camp, swim, work on a farm, climb trees, play baseball, and skateboard. I also like to watch movies, listen to Top 40's music, and play video games. My favorite animals are dogs, cats, and guinea pigs.

Things I do not like:

Two things I do not like: 1) school and 2) mushrooms.

Favorite Foods:

I like snack foods, junk food, and McDonalds.

What I want in a family:

I want a family who share some of the same interests I do. A family who would support me in being active outside and who would take me to skate parks. I would like a family who would support me in playing on sports teams. I would like a calm family, who are tolerant, and do not yell when things get hard. I would like to stay in New England and especially would like to live in New Hampshire.

What I want families to know about me:

I am an easy going and kind person who has an excellent memory. I can sometimes get distracted and need help staying on task. I like when adults listen to me as I would like to have an opinion in what happens in my life. I also appreciate when things are fair. I treat others with respect and like to make people laugh.

What we want families to know about the youth:

Kaleb is a fun and caring youth. He creates a relaxed and laid-back atmosphere. He is learning more about himself as he ages and through life experiences. With these experiences, he is growing in maturity. He is a hard working person and wants to do well in life.
