

Kanaan, Age 14

Kanaan is an energetic and curious youth who loves anything with wheels and a remote control! He enjoys RC cars and other remote-controlled vehicles, along with riding scooters, skateboards, four-wheelers, and dirt bikes. When he's relaxing, you can often find him gaming—especially playing *Fortnite*—or reading graphic novels and manga. He also enjoys listening to rap and hip-hop music and going shopping.

Kanaan is someone who loves to tinker and figure out how things work, especially when it comes to mechanical gadgets and RC vehicles. He enjoys seeing others happy and appreciates being cared for and “spoiled” from time to time. Kanaan has some favorite comfort foods, including pizza, mac and cheese (especially Kraft or Velveeta), McDonald's, Chinese food, and chicken pot pie. One thing he definitely does *not* like is onions!

Kanaan dreams of having a loving, kind, and trustworthy family. He hopes for a home with both a mom and a dad who are actively involved in parenting. He would enjoy living either in a small city or out in the country, especially on a farm. Kanaan also loves dogs and would be happy in a home with one. Having an older sibling would be something he would really like as well.

Kanaan needs a family who is committed to providing permanency, consistency, and structure. A family that understands trauma-informed parenting will help him feel safe, supported, and encouraged as he grows. Maintaining connections with his two older siblings is very important to Kanaan, and his future family should be supportive of those relationships. With the right family, one that offers patience, understanding, encouragement, and love, Kanaan has the potential to thrive and build strong, lasting relationships.
