

Name: Kyle

Age: 6

My favorite things:

I like dirt bikes, diesel trucks, and toy cars. I like to identify trucks while in the car. I like to be outdoors and playing games.

Things I do not like:

I struggle with surprises and last-minute changes to plans. I don't always like being told no.

Favorite foods: Candy, pizza, chicken nuggets.

What I want in a family:

A family that is active and spends a lot of time outdoors. I thrive with structure/routines and predictability. I respond well to nurturing and snuggles and love it when people read out loud to me.

What I want families to know about me:

I am fun, loving and kind. I am still very young and will need parents who have patience with me.

What we want families to know about the youth:

Kyle has a heart of gold but has had a difficult early life. A home where he is the only child or where the other children are significantly older than him would be ideal. A home that understands childhood trauma and understands the importance of routines.
