

Name: Lillian

Age: 7

My favorite things:

I like playing with dolls. I like doing hair, make up, and fingernails. I like to do arts and crafts a lot. I also like to listen to music.

Things I do not like:

I struggle with the word no sometimes. I don't like school and school work too much. I really have issues with lots of noise.

Favorite foods:

I love pizza and pasta. I also enjoy ice cream.

What I want in a family:

Family to take their time with me. Have patience with me. Family that is not loud and yelling at each other. A family that will love and support me even when I am struggling.

What I want families to know about me:

I am fun to be around. I like to be silly sometimes. I want a family that plays with me.

What we want families to know about the youth:

She should be the only child or maybe have an older child in the home who does not need as much attention. A family that truly understands childhood trauma and the effects it has on a child, especially one being

adopted. Families will need to have patience and not give up on her when things are getting tough. She is very smart for her age and fun to be around during that one-on-one time.
