

Nathan (he/him)

15 years old

My favorite things:

I enjoy staying active and adventurous, especially through rock climbing, hiking and running. I love the thrill of Halloween and anything scary, including horror movies. In quieter moments, I enjoy reading, writing as well as listening to music.

Things I do not like:

I value being treated with respect and understanding. I don't do well with strict or overly controlling rules, unnecessary yelling, or being interrupted. It's also important to me that people respect my personal space-especially not touching my hair without my permission.

Favorite Foods:

My favorite foods are ribs, all kinds of meat, and pasta with red sauce.

What I want in a family:

I'm hoping for a family that is fun, has a good sense of humor, and likes me for who I am. I want parents who are good people-loving, caring and supportive. I'd also like that chance to grow more independent and would really enjoy having siblings.

What I want families to know about me:

I want my family to know that I'm funny, kind, and caring. I'm not perfect and sometimes I make mistakes, but I try to learn from them. I'm a good student and really enjoy being around people. I also respond best to a calm, soothing voice.

What we want families to know about the youth:

Nathan is an extremely caring young person. He is creative, personable, and talkative. Nathan responds best to encouragement, clear boundaries, and understandable expectations. A home that would best support him would include a parent or parents who are patient and willing to work through challenges with him as they arise.
