Order Removing Conditions

On April 11, 2016, the Vermont Board of Nursing considered Vicki E. Garza's request for removal of conditions imposed on her RN license by Board Order dated June 14, 2011. The State did not object.

Based on the representations of the Investigative team, the Board finds that when the final two satisfactory monthly employer reports have been received, Vicki E. Garza will have met all requirements of the Order and that removal of the conditions is appropriate.

Upon receipt of satisfactory evidence that Ms. Garza has completed the three years (36) months of supervised RN employment and satisfactory employer monthly reports, the Board's designee shall terminate the conditions on her license and restore the license to unencumbered status.

So Ordered.

Vermont Board of Nursing, by

Ellen Watson, APRN, Vice Chair
