Docket No. M2009-199

REINSTATEMENT STIPULATION AND CONSENT ORDER

STIPULATION

NOW COME the State of Vermont, by and through State Prosecuting Attorney S. Lauren Hibbert, and the Respondent, Louise W. Hearn, RN, who stipulate and agree as follows:

Board Authority

1. The Vermont State Board of Nursing (the "Board") has authority to issue warnings or reprimands; suspend, revoke, limit, or condition current licenses; or prevent the renewal of lapsed licenses if, after disciplinary hearing, the Board finds that the Respondent has engaged in unprofessional conduct. 3 V.S.A. § 129(a); 3 V.S.A. § 129a; 3 V.S.A. § 814(d); 26 V.S.A. § 1582; the Administrative Rules of the Board of Nursing (the "ARBN"); and the Rules of the Office of Professional Regulation.

Statement of Facts

2. Louise W. Hearn (the "Respondent") of Winston Salem, North Carolina, is licensed by the Board as a Registered Nurse under license number 026.0042345. This license was originally issued on or about June 4, 2008 and is currently suspended.
3. By way of history, on or about May 11, 2009, pursuant to a Default Order from the Board of Nursing, the Respondent's license was indefinitely suspended and conditioned by the Board. Attachment A. This discipline was based in part on the fact that the Respondent, while working as a traveling nurse, appeared intoxicated while working because she was slurring her speech, she was moving very slowly, she was not comprehending doctor's orders and fell asleep while working. Furthermore, on or about February 9, 2009, the Board summarily suspended the Respondent's license.
4. On or about December 13, 2010, in a letter to the Board, Respondent requested the reinstatement of her nursing license stating in part that she is "now ready -- medically, psychiatrically and emotionally -- to practice nursing again."

5. The Respondent had three random negative urine samples on the following dates: January 14, 2011, December 22, 2010, and December 16, 2010.
6. On or about November 24, 2010, the Respondent was seen by Philip L. Hillsman, who is an independent drug and alcohol evaluator, who stated that the Respondent is fully capable of practicing nursing with reasonable skill and safety.

Understandings

7. Respondent admits that the facts above are true and that the conditions below are necessary to protect the public.
8. Respondent understands that the Nursing Board must review and accept the terms of the Consent Order. If the Board rejects any portion, the entire Stipulation and Consent Order shall be null and void.
9. Respondent specifically waives any claims that any disclosures made to the full Board during its review of this agreement have prejudiced her rights to a fair and impartial hearing in future hearings if this agreement is not accepted by the Board.
10. Respondent has read and reviewed this entire document and agrees that it contains the entire agreement between the parties.
11. Respondent is not under the influence of any drugs or alcohol at the time she signs this Stipulation and Consent Order.
12. Respondent voluntarily enters into this agreement after the opportunity to consult with legal counsel and is not being coerced by anyone into signing this Stipulation and Consent Order.
13. Respondent voluntarily waives her right to a contested hearing before the Board of Nursing and waives any right to appeal from this Stipulation and Consent Order.
14. Respondent agrees that the Order set forth below may be entered by the Board.

ORDER

Based on the Stipulation above, it is **ORDERED AND ADJUDGED** as follows:

- A. The Board of Nursing hereby **REINSTATES** Respondent's license to practice registered nursing and **CONDITIONS** Respondent's license to practice nursing **FOR A MINIMUM OF THREE (3) YEARS from the date of entry below** pursuant to the conditions enumerated below:

- (1) Re-issue of License.

Upon the commencement of these conditions, Respondent shall be issued a license labeled "conditioned."

(2) Length of Time of Conditions Imposed.

The conditions shall remain in place until Respondent has completed all conditions ordered. Respondent shall be subject to the conditions until Respondent completes a **minimum of three (3) years** of supervised nursing in which she works at least eighty (80) hours every calendar month as a nurse. Part time hours of less than eighty (80) hours every calendar month shall be credited on a prorated basis. Respondent shall be prohibited from working more than sixty (60) hours per week.

(3) Random Drug and Alcohol Testing.

Respondent shall submit to random drug and alcohol screenings at the request of the Board or its designee. Respondent shall designate a person or entity that has been pre-approved by the Board or its designee to administer random drug and alcohol screens. All testing shall be done on a random, unannounced basis and analyzed by a lab qualified to analyze samples for forensic purposes and approved by the Board. All urine specimens collected for tests shall be collected in an observed setting. All screens shall be negative.

Failure to appear for, refusal to provide, adulteration of, dilution of, or tampering with a sample for any urine screen shall cause that screen to be presumed positive. Any positive screen shall act as a violation of this Order.

(4) Abstain from Drug and Alcohol Use.

Respondent shall abstain completely from the consumption or possession of alcohol and drugs with the exception of medications as outlined in paragraph A(5) for the period of time described in A(2).

(5) Drug Use Exception.

Respondent shall not take controlled substances unless medically necessary. Respondent may take scheduled/controlled medications lawfully prescribed for a bona fide illness or condition by a physician, dentist, or nurse practitioner whose identity shall be made known to the Board in writing by Respondent within forty-eight (48) hours of the prescription. Respondent shall cause the physician, dentist or nurse practitioner to inform the Board, in writing and on appropriate letterhead, of knowledge of Respondent's substance abuse issue(s) within seven (7) days of entering into the practitioner/patient relationship. Moreover, the Respondent shall cause this prescribing practitioner to inform the Board, in writing and on appropriate letterhead, of all scheduled/controlled medications prescribed – and the anticipation of how long such prescriptions will need to be taken – within seven (7) days of the prescription.

The Board or its designee may request at any time that the practitioner document the necessity for the prescribed scheduled/controlled medications or other medications known to have abuse potential. This includes medications to be administered as necessary. It is not anticipated that Respondent would be prescribed scheduled/controlled medication during the term of this Consent Order for a period greater than fourteen (14) days, but if so, then the conditions herein may be revoked by the Board.

Respondent shall provide the Board with a current medication list of any medications taken on a scheduled or as-needed basis on forms issued by the Board within seven (7) days of the date of reinstatement and shall update this list within forty-eight (48) hours of any change in these medications.

(6) Notification to Employers/Nursing School.

Respondent shall provide a copy of this Stipulation and Consent Order to all employers in any current or future setting in which Respondent practices as a nurse and inform them of Respondent's conditional license status.

Within ten (10) days of the date of entry of this Consent Order or of any subsequent nursing employment, Respondent shall cause Respondent's immediate supervisor to submit to the Board an employer agreement form approved by the Board, acknowledging receipt of the Stipulation and Consent Order and the ability to comply with the conditions in the Consent Order.

In the event the Respondent is attending a nursing program which has a clinical portion that involves actual patient care, Respondent shall provide a copy of the Stipulation and Consent Order to the Program Director. Respondent shall cause the Program Director to submit to the Board a nursing program agreement form approved by the Board, acknowledging receipt of the Stipulation and Consent Order and the ability of the program to comply with the conditions in the Consent Order during clinical experience.

(7) Reports from Employers/Program Director.

Within one (1) month of the date of reinstatement or within one (1) month of the commencement of nursing employment and **monthly** thereafter, Respondent shall cause every nursing employer the Respondent has worked for during the month to submit to the Board an evaluation of Respondent's work performance and attendance during that month. Moreover, on a **quarterly** basis, these reports shall include the results of the employer's medication audits of Respondent's medication administration and practices. These reports shall be submitted in writing on forms issued by the Board. All employer reports shall indicate satisfactory performance (ie., consistently meeting all standards of nursing practice) and attendance.

In the event the Respondent is attending a nursing program, Respondent shall cause the Program Director to submit to the Board, on a monthly basis, a written evaluation of her performance and attendance. These reports shall be submitted in writing on forms issued by the Board. All nursing program reports shall indicate satisfactory performance (ie., consistently meeting all standards of nursing practice) and attendance.

(8) Practice Under Supervision.

Respondent shall practice as a nurse only in a setting where Respondent has direct supervision for the entire shift by a licensed registered nurse that is in good standing with the Nursing Board in which the Respondent is working.

(9) Administration of Medications.

Respondent is prohibited from administering any controlled substances. This condition may be removed only by the Respondent filing a petition with the Board after she has worked

as a nurse for six (6) months for at least forty (40) hours every two weeks (or the part time equivalent) after the date of reinstatement.

In any such petition, the Respondent must demonstrate, to the satisfaction of the Nursing Board or its designee, that she can safely and competently administer such medications. In any such petition, the Respondent must include appropriate support from her treating professional and employer or nursing school administrator and a description of the documentation and inventory control procedures in place.

The removal of this prohibition shall not automatically result in the reinstatement of all medication privileges. The Board may gradually restore those privileges through whatever intermediary steps it determines are appropriate.

(10) Types of Employment Prohibited.

Respondent shall not work in a supervisory role. Respondent shall not work for a nurse registry, traveling nurse agency, float-pool, home health care agency, temporary nursing employment agency, or as a private duty nurse or personal care provider requiring a nursing or nursing assistant license during the effective period of this Consent Order.

(11) Interview with the Board or its Designee.

Respondent shall appear in person for interviews with the Board or its designee upon request.

(14) Out-of-State Practice.

Before any out-of-state practice can be credited toward fulfillment of these terms and conditions, Respondent shall first obtain approval from the Board prior to Respondent practicing nursing outside the State of Vermont. If Respondent fails to receive such approval before practicing nursing outside the State of Vermont, none of the time spent practicing nursing out-of-state will be credited toward the fulfillment of the terms and conditions of this Consent Order. The Board will approve out-of-state nursing practice so long as the Respondent can still comply with the provisions of this Consent Order.

If the Respondent receives discipline on a nursing license held in another state during the conditioned period, the Respondent must inform the Board of such, in writing, within ten (10) days of receiving such discipline.

(15) Notification of Place of Employment/Personal Address/Telephone Number.

Within ten (10) days of the date of entry of this Consent Order, Respondent shall notify the Board, in writing, of her current place of employment, personal address, and telephone number. Respondent shall further notify the Board, in writing, within forty-eight (48) hours of any change in employment (including resignation or termination), personal address, or telephone number.

(16) Notification to Other States.

In the event that the Respondent is licensed in nursing in any other state(s), she must inform the nursing licensing board of the state(s) in which the Respondent is licensed of the conditional status of her Vermont nursing license within thirty (30) days of the date of entry of this Order. If the Respondent fails to provide such notification, it will be considered a violation of this Order.

(17) License Renewal.

If the Respondent's license expires while this Order is still in effect, this Order does not automatically extend the license. In that situation, in order to continue to practice as a nurse, the Respondent must timely apply for renewal, pay the applicable fee and demonstrate that she has otherwise complied with the requirements for license renewal.

(18) Costs.

The Respondent shall bear all costs of complying with this Consent Order.

(19) Violation of this Order.

If the Respondent violates the terms of this Order in any respect, the Board, after giving the Respondent notice and an opportunity to be heard, may rescind or modify this Order and impose additional appropriate disciplinary actions. If a complaint of unprofessional conduct is made against the Respondent during the term of this Order, this Order shall be automatically extended until the unprofessional conduct matter is concluded.

(20) Completion of Conditional License Period.

After the conditional license period, the Respondent may petition the Board to remove any and all conditions on her license. The Respondent must present proof that she has fully complied with the terms of this Order. The Respondent must also present proof of successful substance abuse rehabilitation and she must demonstrate, to the satisfaction of the Board, that she poses no danger to the public or the practice of nursing and that she can safely and competently perform the duties of a licensed nurse.

- B. Notwithstanding any provision above, the Respondent must continue to meet all Nursing Board requirements for maintaining a license, license renewal and license reinstatement.
- C. This Stipulation and Consent Order is a matter of public record and may be reported to other licensing authorities as provided in 3 V.S.A. §129(a).
- D. This Stipulation and Consent Order will remain part of Respondent's licensing file and may be used for purposes of determining sanctions in any future disciplinary matter.
