Order to Remove a Condition

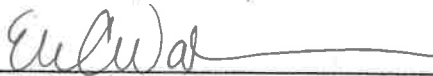

On March 12, 2018, the Vermont Board of Nursing considered Jessica Larson's request for removal of the prohibition from administering controlled drugs in her Decision on Sanction effective June 18, 2010, under Docket Number 2010-21. The prohibition on administering controlled drugs remained in effect when the Decision on Sanction was modified by a Reinstatement Stipulation and Consent Order entered on April 14, 2011, and was further modified in a Decision on Motion for Modification of Conditions entered on July 16, 2013.

The Investigative Team found that Jessica Larson has satisfied specified pre-requisites for removal of the prohibition from administering controlled drugs. After review of the follow-up file, the State does not object to removal of this condition.

Order:

The Board of Nursing hereby removes the prohibition from administering controlled drugs. All other conditions previously imposed on Jessica Larson's RN license in Docket Number 2010-21 as modified by the Reinstatement Stipulation and Consent Order and the Decision on Motion for Modification of Conditions remain in effect.
